

RUGG WAS CONVICTED.

Many Citizens' Traction Men Figure in the Criminal Court. TWO CONDUCTORS WERE ON TRIAL.

OWNERS OF OIL TERRITORY ARE KICKING ON THE ASSESSMENTS.

YESTERDAY IN THE COUNTY COURTS

In Criminal Court yesterday employees of the Citizens' Traction Company figured extensively among the defendants. J. E. Rugg, Superintendent of the Citizens' Traction Company, pleaded no defense to a charge of maintaining a nuisance.

The nuisance complained of consisted of keeping horses standing on Penn avenue opposite the power house and interfering with travel on the street. The horses were used in hauling cables. Mr. Rugg was sentenced to pay the costs in the case and abate the nuisance within 90 days.

H. H. Hart, a conductor on the Citizens' Traction Company's line, was tried for assault and battery on William Robinson. Hart threw Robinson from his car and broke the latter's leg. Hart maintained that Robinson was drunk and disorderly and he had to eject him. Robinson fell when he put him off and his leg was broken. Hart was acquitted.

R. C. Sell, another conductor on the Citizens' Traction Company's line, was tried for assault and battery on William Robinson. Sell had ejected Robinson from the car merely for being in the car, than was necessary. Sell was found guilty and fined \$5 and costs.

Edward Wendell was tried for aggravated assault and battery on Police Captain James S. Bell. The assault occurred in a billiard hall on Beaver street. Wendell was arrested by Captain Bell for participating in it, and it was alleged, while he was making the arrest, Wendell assaulted him. The jury returned a verdict of not guilty.

In the case of David Donaldson against Jacob Kelly for damages for alleged slander in saying that Donaldson set fire to a house, Kelly made a counterclaim for \$500 for the plaintiff. It was the fourth trial of the case.

Gordon H. Myers and R. S. McGeagh yesterday filed a petition in court asking that the ordinance passed November 30, 1891, for the opening of Iowa street from Heron avenue to the property of S. Ewart, be quashed.

In the suits of Frank Hemmings and his daughter Elenora, against Bellevue borough for damages for injuries to the daughter which occurred in a boxcar, verdicts were given yesterday for \$457.30 for the father and \$1,000 for the daughter.

In the suit of Thomas S. Bigelow against the Pittsburgh and Duquesne Traction Company on the prosecution of Captain Bell, the Court, however, set aside that portion of the verdict imposing the costs on Captain Bell, stating that in instituting the proceedings he had been acting in the discharge of his duty as a police officer.

Werner was tried on a charge of aiding and abetting a dog fight in McCandless township August 23. The information was made by Agent O'Brien. The Humane Society, John Robb, a millman of McCandless township, a witness in the case, refused to answer some questions put to him, and Judge Porter at once committed him to jail for a short time. He was then ordered into court, where he speedily answered all questions put to him. He was then allowed to go. Werner was found not guilty.

Lorenz Martini and Andrew Honer-schuck, who pleaded guilty to assault and battery, were each sentenced 60 days to the workhouse.

Sehans Steel, a teamster, is on trial on a charge of the larceny of some oil well supplies from M. J. Feely.

BLASTED HER AFFECTIONS. Sad Tale of John Lytle, His Domestic and Her Love.

The suit of Miss Mary Rupert against John Lytle is on trial before Judge Galloway. The case is an action for damages for alleged breach of promise of marriage. The parties reside in the Allegheny city and Lytle is a clerk in the City Assessor's office. The plaintiff is represented by Attorney Briel and Messrs. Moore and McGirr appear for the defendant. Miss Rupert's story is that for a year and a half she was engaged as a domestic in the house of Lytle's father. While there Lytle, the defendant, she says, promised to marry her, and under that promise succeeded in betraying her. He afterward refused to keep his promise.

Miss Rupert, the plaintiff, is a good-looking young woman and was accompanied in court by a bright little child of three or four years. She was the only witness on the stand yesterday and detailed her story. An agreement releasing Lytle from his engagements to marry her was made and was put in evidence. Miss Rupert, however, testified that Lytle had induced her to sign the paper while in an ice cream saloon, and when she signed it she did not know its contents. She was then asked if she had signed it and she responded it was a note or some such instrument. The case is still on trial.

FIGHTING FOR HIS SALARY. Jacob Needy Enters Suit Against His Late Partner's Heirs.

Jacob Needy yesterday filed a bill in equity against Mary Smith, G. F. Smith, Jr., and Louis L. Smith, executors of George F. Smith, deceased. The plaintiff states that he and Smith entered into partnership in 1878 in the business of buying and selling live stock. Smith furnished the money and Needy the experience, etc. They were to share equally, and Needy received \$2,500 a year for his services. The money was deposited in the name of G. F. Smith. Upon the death of Smith, on January 10, 1891, the firm owned \$18,000 worth of property in Allegheny, had accounts due amounting to \$15,000, and debts amounting to \$4,000. Needy had drawn some money from the profits, but had never taken his salary. Smith's executors now have possession, it is stated, and refuse to recognize Needy as a member of the firm.

OUTPUT GOING DOWN.

No Big Wells Completed to Keep the Production Up. GAS STRUCK ON THE MILLER FARM.

The Ewing Well, in Northeast McCurdy, Filled with Oil. THE NORTH PENN TO BE DISSOLVED.

The production of the McDonald field dropped to 39,500 barrels yesterday, and as there were no wells of any consequence brought in it is probable that it will be lower to-day. The stock in the field is also down to 67,000 barrels.

Guffey & Queen's No. 2 on the Wetmore farm, was making 90 barrels an hour strong yesterday. Until Saturday it had averaged between 3,300 and 3,500 barrels of oil a day.

Guffey, Murphy & Galey's No. 2, on the A. Wetmore farm, back of Nobletown, reached the fifth sand yesterday morning and will make about a 100-barrel a day well from the Gordon and the fifth. Their No. 3 on this farm should be in the fifth sand this afternoon.

The Forest Oil Company's No. 8 on the Herron farm, just west of Nobletown, was 20 feet in the fifth sand yesterday afternoon, and had made one six-inch flow. The same company's No. 1 on the S. Sturgeon or "Hurry-up," northeast of Oakdale is in the sand and making about 240 barrels a day. They have finished a rig for No. 2 on the Agnes Kemp farm, also for No. 2 James Walker, and are rigging up at the Jane McNeill and the James McNeill No. 3 and No. 3 John McD. Glenn.

The Walker Well is Off. Galey Bros.' No. 1, on the Walker farm, southwest 1,000 feet from Guffey & Queen's No. 2 Wetmore, had averaged 22 barrels an hour for the 38 hours ending yesterday morning at 8 o'clock. This well came in Saturday, and for the first few hours made 40 barrels an hour.

The Wheeling Gas Company has shot its well on the Coak lot, near the railroad station at McDonald, in the fifth sand. It has not yet made a flow, but the estimate of its improvement cannot be made. They intend to shoot it in the Gordon this week. The same company is fishing for the tools at 1,500 feet in its No. 2 Moorhead, and at No. 3 Moorhead they are fishing for a ball at 1,200 feet. The well on the John George farm near Primrose, is down 1,500 feet.

The Royal Gas Company's No. 2 on the Moore farm at Venice is down 1,200 feet. Their No. 3 on the Barnett farm, located one mile south of the Moore's, is drilling at 900 feet. The same company's No. 2 on the Patterson farm, located 2,000 feet south of the Moore's, is through the Gordon and fourth sands, with a very light showing of oil in each. They are each being drilled to the fifth sand.

The Northfield Oil Company, which is the producing end of the Royal Gas Company, has abandoned its No. 3 on the Sauters & Patterson property, with the tools stuck. The well on the John George farm is moving the rig and are putting down a new hole.

Strong Gasser on the Miller. McConnell & Co. have struck a strong pressure of gas in the 50-foot at their well on the Dr. Miller farm, a mile south of Laurel Hill. They have been unable to drill over to the top.

The Illinois Oil Company shot its well on the blacksmith lot back of McDonald station and it responded with a nice flow. The People's Gas Company has slightly improved its No. 129, on the Miller farm, by shooting.

Kennedy, Thompson & Co.'s well, on the Elmira lot, is down and good for 80 barrels a day. Greenlee & Fort's Nos. 4 and 5, on the Miller property, are drilling at 900 feet. Kemp & Co.'s No. 3 Wade, is making 100 barrels a day. The well on the school house reserve property is in the Gordon sand.

Westhead & Co. are drilling on top of the fifth sand on the McFarland property. Todd & Co. have commenced to rig up at the Elliott trestle.

The Banner Oil Company expects to reach the Gordon sand to-day at its No. 1, on the Elliott farm, in northeast McCurdy, on the Real Estate Oil Company's No. 1, on the Union street property in McCurdy, should be in the fifth to-day. They have started to spud in No. 2.

W. P. Kent's No. 1, on the J. D. Sauters farm, a mile south of the W. B. Moorhead No. 1, is being spudded in.

Guekett & Steele's No. 1 on the Burchinal lot at Willow Grove is through the fifth, and good for 50 or 60 barrels a day. The well on the Westhead property is drilled deeper into the sand to-day, and the tank which they are building at the well is almost completed. This well is eight feet in the sand. Robinson's well, on the Ewing farm, 500 feet to the west, which was a strong gasser just on top of the sand and was shut down, has slipped up with oil.

Will Absorb the North Penn. The North Penn Oil Company, which has been under the management of Mr. Edwards, with headquarters at Warren, Pa., for several years, is to be merged into the Union and the Midland Oil Companies. The deal is to be consummated about February 1. A large block of territory and many producing wells are owned by the North Penn, and this will be about evenly divided between the Union and the Midland. Mr. McKinney, of the Midland, who lives in Titusville, will have charge of the property in the vicinity of Warren, Pa.

Thirty-Five Barrels an Hour. Late last evening information was received in Pittsburgh to the effect that Kennedy, Fitzgibbons & Bots' No. 6, on the Moore farm, located in southwest McCurdy, had reached the fifth sand and was making 35 barrels an hour. The Moore farm is just west of Leonard Shively's property on the Wright farm. The well brought in yesterday does not open up any great extent of new territory.

WORKS WHILE YOU SLEEP.
