Run of Cattle Larger This Week Than Last, and Markets

DULL WITH PRICES SHADE LOWER.

The Quality of Beeves on Fale Is Below the Late Average.

OFFICE OF THE DISPATCH, PITTEBURG, MONDAY, JANUARY 25. Receipts of cattle at our local vards are as they have been since the beginning of the year, beyond the requirements of trade, and markets are quiet and dull all along the line. Prime beeves have ceased to be a factor in our markets, as there are none offered in carload lots. Butchers whose trade demands prime, heavy cattle must needs go to Chicago for their supplies.

There were 90 loads of cattle on sale at the East Liberty stock yards this morning against 83 loads last Monday and 95 the previous Monday. In the offerings this morning were 31 carloads from Chicago, 9 from Indianapolis, 3 from Kansas City, and the remaining 47 loads were mostly from Ohio and Indiana. The average quality of offerings was not up to last week's offerings. There were no prime beeves on sale, and not as many good beeves as were offered n week ago. Buyers were few and markets opened slow at a shade lower prices than those which ruled a week ago. Buyers Were Great Bears.

A few loads of good Ohio beeves were held at prices close up to a nickel a pound, but up to 10 o'clock there were no sales above \$4.75. Buyers made most of their oppor-tunity in bearing markets, and prospects were that they would be successful in send-ing prices 10 to 15c per cwt. below last week's range. Fresh cows of low grade were in supply above demand, and while fancy stock would have sold at \$45 per head there were none on sale good enough to bring above \$35 per head. Veal calves were in light supply and sold at about last week's range, which was 5 to 7c per lb.

Hogs-There were about 50 loads on sale at the opening of markets, with more ex-pected later on. Last Monday morning there were only 40 loads on sale at the opening. Markets opened slow this morning, with \$4 65 as top price of Philadelphias, which was a decline of 10c per cwt. from closing prices of last week, but an advance of 15c on prices which obtained at the beginning of last week.

Sheep—Receipts were light, the total being 18 carloads, against nearly double this number a week ago. Fancy grades were steady at last week's prices, while common and low grades were slow and weak at a shade lower prices. The prices of sheep were \$5 40 and lambs \$6 60, and only a few nev bunches were sold at these outside

At the Allegheny Yards,

Receipts of cattle at Herr's Island were a shade larger than last Monday. At sources of supply prices were lower this week than last, and markets here were draggy and lower. Northwestern Stocks of Wheat.

MINNEAPOLIS, Jan. 25.-The Northwestern Miller reports the stock of wheat in private Miller reports the stock of wheat in private elevators of Minneapolis at 1,435,000 bushels, a decrease of 27,000 bushels since last Monday. The total stock at Minneapolis and Duluth is II,469,820 bushels, which is only 4,000 bushels more than last week. The Market Record gives the stock of wheat in country elevators of Minnesota and the two Dakotas at 12,000,000 bushels, an increase for the week of 77,000 bushels. This makes the total wheat stock in the Northwest 29,361,120 bushels, a gain for the week of only 81,000 bushels. A year ago the aggregate stock was 22,587,000 bushels.

BIG NEWS FOR BULLS.

Wheat Goes Up on Warlike News, Then Recedes on Peaceful Rumors, and Strengthens Again on the Tone of the President's Message - Corn and Oats

CHICAGO - Wheat started strong and higher this morning. There was considerable speculative buying on the Chilean situation, and shorts were covering for the same reason. Another bullish feature was the supposition that the visible supply would show a decrease of about 1,500,000 bushels. May started at 22% @03c, against 22% c at the SWINE ... IET AND SHEEP STEADY close Saturday. Then the market weakened and became quiet. Private messages received from Washington say that President Harrison would be satisfied with a proposition from Chile to arbitrate, which caused the market to become weaker still, and then the posting of the visible supply showing a

the posting of the visible supply showing a decidedly smaller decrease than had been looked for, caused a slump, May going down to 91½c.

More strength was shown late in the session on the tone of the President's message and a report that there was an error in the visible supply statement, and on the strength in provisions; there were several fluctuations within the established range, and the market closed steady at 92½c.

Corn firmer and slightly higher early, in sympathy with wheat, but weakened with it later and closed with a loss of ½c on May, though the near futures were relatively firmer.

Hog products strong and higher on the moderate receipts of hogs. The active buying by shippers weakened the market some, but toward the close grew excited and advanced sharply owing to covering by shorts on an unconfirmed rumor that the Government was buying pork. Strong Position of the Market Encouraging to Operators.

SOME OF THE LATEST MOVEMENTS.

Building Statistics and New Corporations Involving Millions.

FEATURES OF MONEY AND SPECULATION

Not for months has there been such a demand for real estate or so many significant transactions as at the present time. These show a full measure of confidence in the continued prosperity of the city. What with no end of plans for downtown improvements, building projects in the suburbs, schemes for new subdivisions wher-ever acreage can be secured and large sales, the situation is surely encouraging enough to give comfort to all operators in realty.

The Latest Movements. A number of transactions came to the surface yesterday. The Boatman's Insurance Company property on Wood street changed ownership for \$58,000. The purchaser is the new Guarantee Trust Company, chartered a few days ago. The lot is 191/2x60, with a three-story brick building. Rumor had it that the sale was made by Black & Baird, but it was too late to see them for verification.

Joseph P. Reed sold his South Highland Joseph P. Reed sold his South Highland residence—lot 60x140, with a good two-story brick house—to Mr. Wolf, of the Hostetter Coke Company, for \$13,000. The place will be occupied by the purchaser.

Pittsburg agents completed the sale to Nicola Bros., for George D. Riddle and others, of a tract of West Yirginia oak and

poplar timber land. The tract is in Roane county, near Spencer, contains over 2,000 acres and is said to be as fine as any in the State. Land is quoted at about \$10 an acre in that locality.

Paul H. Hacke sold to Edwin Lare a lot,

22x110, on Penn avenue, Fourth ward, be-tween Third and Fourth streets, upon which there is a large and substantial brick stable, for \$16,000. The purchaser will convert the building into a warehouse for his personal The \$50,000 mortgage put on record last week, and referred to at the time, was to se-

Building in the West.

Building statistics of New York and Philadelphia, recently given in this column, showed that results fell short of expecta-tions. Western cities fared better. Operations in St. Louis last year involved nearly as great an expenditure as in 1890, while the number of buildings erected was larger. Permits were issued calling for an outlay of Permits were issued calling for an outlay of \$13,262,170. Milwaukee, in proportion to size and population, did better than St. Louis, expending more than \$10,000,000 in new structures. Next to Chicago, St. Louis and Milwaukee, of all Western cities, made a growth that should be gratifying to their citizens and property owners. The effects of the tight money market were felt more or less all over the country.

LAST WEEK'S BULGE OF ACTIVITY MORE THAN MAINTAINED.

The Market Still Full of Good Features-Central Traction Shows Backbone-Philadelphia Gas and New York and Cleve-

land Gas Coal Move Up. Proverbial blue Monday had no standing on the Stock Exchange yesterday. The in-terest of last week was not only maintained but intensified. There were several new and interesting features.

Central Traction scored a big advance on a good buying demand based on expectations of a favorable decision in the High street case and expectations of a good statement at the ensuing meeting. It held the improvement to the close, with orders un-

There was the usual talk of dividends by Birmingham Traction and Philadelphia Gas, and some were enthusiastic enough to predict one by Switch and Signal. Putting these factors aside, it is certainly gratifying to be assured that all these companies are in a good financial condition. Bids and offers were:

FLUCTUATING STOCKS.

THE MARKET RULES WEAK WITHOUT THE HELP OF CHILE,

Professionals Rule the Share List—A Period of Strength Sandwiched Between Two Heavy Drives-Railroad Bonds Quiet

With Quite a Fair Business. New York, Jan. 25 .- The stock market to lay was almost entirely in the hands of the professional element, and their efforts re-sulted in a generally lower market, though most stocks show only fractional losses. The whole list was under the hammer from time to time, especially in the first and last hours, and the short interest now in the market is very heavy considering the size of the market. The lower prices to-day were almost entirely due to the efforts at depression, and when the pressure was removed duliness and firmness marked the dealings.

The renewal of war news on the Chilean situation was again used to make a scare, but had, apparently, little effect, and it is the opinion of the heaviest and most conservative financiers that the effect of a way

she opinion of the heaviest and most conservative financiers that the effect of a war would be to make active business and advance prices in Wall street. On the strength of the threatening aspect of affairs, however, the market was opened from ½ to 1 per cent lower than Saturday's final prices, but while Lackawanna showed the extreme loss at the opening, it could not be kept down, as there were rumors of a corner and some buying for cash, while it loaned at a premium of 1-64, and it shot up nearly 2 per cent. There was more success in the Industrials, however, and Sugar dropped 2 per cent, and Distillers', on vague rumors, lost almost all of its advance of Saturday.

The cessation of the pressure and the covering of shorts rallied the list to beyond the level of first prices. The strength in Manhattan on the late decision in favor of the company, helped to place prices on a materially higher level. Dulness became the principal feature, and late in the afternoon prices again yielded when a renewal of the morning's pressure was made, and everthing ran off rapidly except Wheeling and Lake Erie preferred. The losses sustained in addition to those of the opening were marked in most of the leading active shares, Louisville, C. C. C. & St. L., Burlington and Lackawanna being specially weak at the time.

The market closed active and weak under

time.

The market closed active and weak under the pressure, at about the lowest prices of the day in most cases. The final losses of note include Wheeling and Lake Erie and Louisville, each 13% Rock Island, 14% Sugar, C., C., C. & St. L., Burlington, Distillers, and Wabash preferred, each 13%, and Northwestern lancent.

Wabash preferred, each 1½, and Northwest ern, 1 per cent.

The total sales of stocks to-day were 307, 512 shares, including: Atchison, 9,209, Chicago Gas, 22,810; Delaware, Lackawanna and Western, 8,720; Eric, 8,825; Louisville and Nashville, 70,850; Missouri Pacific, 3,171; Northwestern, 5,333; Northern Pacific preferred, 12,737; Reading, 16,540; Richmond and West Point, 12,938; St. Pau, 14,310; St. Paul and Omaba, 9,360; Union Pacific, 7,480.

Railroad bonds were more guiet than usual of late, but a fair business was transacted and the demand kept a firm temper in the market, despite the weakness in the share list. The Chicago and Eric incomes, South Carolina incomes and Union Pacific notes were the active specialties, furnishing 167,000, 213,000, and 335,000 respectively, to the day's total of 2,394,000.

THE MONEY MARKET.

No Fears of a Stringency for Many Months to Came. It was stated at the end of last week that business at the city banks was on an improv ng basis. This fact was further emphasized yesterday, the mercantile demand being a more important factor than heretofore There was no scarcity of funds, however, nor is there likely to be for some months to come. The usual rate was 5 per cent. De

come. The usual rate was 5 per cent. Depositing was a feature reflecting an active condition of general trade. Bank clearings were \$2,837,019 59, and balances, \$452,826 28.

The increasing pressure of funds seeking employment in the face of very moderate demands for either mercantile or speculative uses gives the New York loan market its character for the time being. Call money there is in plethoric supply at 12462 per cent. The figures indicated in Saturday's bank statement are startling in their proportions and thoroughly set at rest any doubts that may have existed as to the case of the money market for many months to come.

At New York yesterday money on call was easy at 1½ to 2 per cent; last loan 1½; closed offered at 1½. Prime mercantile paper 4½@ 5½. Sterling exchange quiet but strong at \$4 84 for 60 day bills and \$4 86 for demand.

Eggs Are Also on the Decline-Liberal Cereal Receipts Place Markets in Favor of Buyers-Groceries Now Moving More Freely.

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, JANUARY 25. COUNTRY PRODUCE-Jobbing Prices-Tropical fruits are weak and lower under the influence of large receipts. Our quotations on Florida oranges and lemons are reduced in accordance with sales reported. Bananas are a drug, consumption having declined since the cold wave arrived and receipts being as large as ever. The egg market also gives signs of weakness and top price to-day is 24c per dozen. 'Choice Elgin butter and high grade New York cheese are firm at prices quoted. New York cheese is reported very firm at sources of supply. Vegetables and fruits are dull and slow, with the situation in favor of the buyer as it has been all this year.

hishead. It seemed to him as if something had formed in his throat that he get up or down. As the disease extended to the tubes of his lungs his breath became short. His circulation was poor. In fact, catarrh weakened his whole system. His sleep did not reiresh him, for he felt more tired in the morning than on going to bed. His own words: "I am very willing you should nublish the history of my case, for I had suffered for nine or ten years. After taking treatment at your institute I became cured of all the above distressing symptoms. I shall be glad to further describe my case to anyone. ROBERT G. HERSHEY."
