THE TRADE OUTLOOK.

The Past Season Was Upprofitable to Home Gardeners,

WHAT ONE OF THEM HAS TO SAY.

The Drygoods Trade Reviving and a Prosperous Year Assured.

CHICAGO'S LIVE STOCK STATISTICS

OFFICE OF THE DISPATCH, PITTSHUNG, TUTSDAY, JANUARY 26. It has become a question of no ordinary

interest as to whether the gardening trade can be made a profitable one in this vicinity. Last season's results were far from satisfactory to our nearby gardeners, owing to the great yield and heavy shipments from the South. A Neville Island gardener, who has been in the business all his life, had this to say of trade: "Few, if any, of the gardeners around Pittsburg are as well the gardeners around Pittsburg are as well off as they were a year ago. The yield of 1800 was much less in volume than that of 1851, but the small yield of the former year brought much better results in money with less labor than the past season. A year ago at this time we had no trouble in selling our products at fully three times the price we are able to get this winter. In the fall of 1890 cabhage was active at 10 to 15c per head, and at these prices supply was not up to de-mand. In the fall of 1891 I had 15,000 head ready for the market, but was not able to mand, in the first of point was not able to sell at any price, and the great balk of my stock went to the garbage pile. Turnips at 30c per bushel did not pay to bring to mar-kot, as the freight and other expenses would wipe out all prospects of gain.

All in Favor of the Consumer.

The nast season, while it has been a poor son to the producer, has been one of advantage to the consumer. In fruit and vege-table lines the householder's outlay this winter has been on an average not more than or has been on an average not more than one-third what it was the previous season. Another season of such abundant crops and ow prices would, I am sure, force many of our home gardeners out of the business." The drygoods trade, which has been very put since the windup of the holiday sea-on, begins to show some signs of revival. A representative of one of our leading firms and this to say: "There has been a decided upprovement in our branch of business the this to say: "There has been a decided reveneent in our branch of business the tweek. Orders are coming in freely, and igns point to a prosperous year's busi-s. The first half of winter being excep-ally mild, demand for furs, flauncis and ionally mild, demand for furs, hannels and locking goods was not up to ex-sectations, and as a result jobbers bust necessarily carry over until next eason, a larger quantity of goods in this eason, a larger quantity of goods in this or the winter has been unusually good, and he holiday trade was better than it has ever

"In the faith of a prosperous year ahead, we are buying up larger supplies of goods than at any previous year in the history of

then at any previous year in the history of our rade."
 Chicago Cattle Receipts.
 A Chicago trade paper has this to Say of the live stock industry in the Western metropolis.
 "Last week's receipts of eattle-\$3,381 head were the larges of antire cattle on received and rices, 24,250 (2010); the were the largest of native cattle on received the second head of prevention of cows and half fat cattle, however, there were, doubtless, four and show week was 95,34, September 19, 1991, when there were 15,000 matives the past week."

lowed, and the market closed easy at a loss of about %c compared with last prices yes-terday. Operators were inclined to be cantions about making heavy transactions until after the receipt of official confirmation of the news that Chile had assumed a pacific tone. The situation was regarded by the

WHEAT OFF HALF A CENT.

the news that Chile had assumed a pacine tone. The situation was regarded by the longs as quite discouraging, and at the start there was free selling, with buyers holding off. May opened at 91% o, or about % below the close vesterday, and for a time it looked very weak and soon touched 9.1% c, but there was lively covering by shorts, who got out good lines yesterday and who were now dis-posed to take in profits, and the offerings were readily absorbed and the feeling grew stendier. There was good buying, but the reported increase of 360,000 bushels during the week in the English visible supply caused a reaction. May advanced to 91%. Then the price quickly went to 92%, weak-ened again and receded, closing casy at 93%. Corn quiet and easy most of the day. Liverpool was 16 lower. May opened 16 and 40% c, and closed at 50 Onts duil and easy, closing a shade off. Hog products less active and ensiter. The absence of any tresh war news and the weakness in other speculative pits were un-favorable. May pork opened 12% lower at 812 10, sold off to 812 00, fluctuated some and closed firm at 812 67% a net loss of 15c. Lard is 72c off and ribs 10c. The leading futures ranged as follows, as cor-rected by John M. Oakley & Co. 45 Sixth street, members of the Chicago Board of Trade: Smithfield and opposite the postoffice en-trance, each 20x100, making a frontage of 60 feet. The price for ground in that

vicinity is about \$2,500 a toot front. It was impossible to obtain details, as none of the parties in interest would talk. Several brokers said they were aware of a movement of some kind in the quarter indicated, but they had been unable to get at the inside facts. In Pittsburg, as in all large cities, but in Pittsburg particularly, where nearly every citizen is able to afford not only the necessi-

A bond specialist says: "The only limi-tation upon the activity of the investment market and the breadth of the demand for bonds is the indisposition of purchasers to interest themselves in any but prime issues. The supply of the latter now offering is much less than the demand, and prices show

much less than the demand, and prices show a degree of firmness porresponding to this state of affairs. Several large institutions are known to be in the market for bonds in large blocks, and the fact that money com-

into this class of investments."

Business on the Mend.

From the bueyant tone in business circles, the easy money market and the feeling of confidence which pervades all classes, it is easy to see that the country is in a good po-sition. The baneful influences of the last sition. The baneful influences of the last half of 1891 have almost disappeared and an era of prosperity set in. After months of retrenchment and preparation, the peo-ple once more find themselves on solid ground. All the great and little industries are in good condition. The railroads are purchasing additional equipments and adding to their rolling stock. Soon the full effects of the heavy crops will be felt. Trade is the heaviest ever known in mid-winter, but it will broaden and deepen as winter, but it will broaden and deepen as whiter, but it will broaden and deepen as spring approaches. It is true the unex-pected may happen, but there is nothing in sight to modify the opinion heretofore ex-pressed that the country is entering upon a period of great prosperity.

Basiness News and Gossip. It is said that Senator M. S. Quay is think-

ing of investing in Pittsburg reality. The residence property of the late George Kuhn, on Center avenue, near Vine street,

Eleventh ward, consisting of a lot 20x100 and a new two-story and mansard pressed brick dwelling, was sold yesterday to a prominent

citizen is able to afford not only the necessi-ties but many of the comforts of life, homes for the people who, from choice or circum-stance, do not own the houses they live in, is the absorbing problem. By this is meant not merely shelter and a place to sleep, but a place that can be called home—comfort-able, with good sanitary equipments and at moderate expense. Pittsburg builders have made rapid progress in this direction in the last few years, and will continue the good work on z still larger scale the coming sca-son. A Philadelphia builder was in the city a short time ago and freely admitted that Pittsburg dwellings were of a better char-acter in all respects than those in his own city. The suburbs are full of homes un-equaled tor beauty by those in any other city. till under the influence of the Chilean matter, but its effect was on the side of the bulls o-day, and while the transactions continved to show their professional character, there was a wide distribution of business, and the whole list shared in the improvement. The first sales here were at terially higher figures than the close of last night. Among the active stocks, those which opened at less than 1 per cent better, were exceptional. Lackawanna and Cleveland, Columbus, Cincinnati and St. Louis were up 1% per cent. The sharp advance naturally brought a

large amount of stocks on the market, but the demand was so urgent that all offerings were absorbed, and while the first few minutes saw some concessions from the opening prices the upward movement soon made headway. Lackawanna was forced to the front, and trading in that stock assumed large proportions. The price was run up and it closed at close to the best price. Reading was active in sympathy, and under the

buying by Western operators the Grangers were prominent. Louisville was conspicu-ous in the afternoon, finally closing with a

mands such low rates on time loans seems to be turning considerable amounts of capital

were prominent. Louisville was comspica-ous in the afternoon, finally closing with a slight loss for the day, being in this respect quite exceptional. The market finally closed active and firm at or near the best figures. Among the im-portant gains Lackawanna rose 3% Man-hatian a like amount, Consolidated Gas 2 per cent, Rock Island 1%, Cleveland, Colum-bus, Cincinnati and St. Louis, Burlington, Missouri Pacific each 1% St. Paul and Omaha 1%, Northwestern 1% and others smaller amounts. The total sales of stocks to-day were 425. S52 shares, including: Atohison, 90,430; Chi-cago Gas, 11,360; Delaware, Lackawanna and Western, 45,813; Eric, 11,42%; Louisville and Nashville, 32,150; Missouri Pacific, 6,205; Northwestern, 16,780; Northern Pacific pre-ferred, 18,768; St. Paul and Omaha, 20,960; Union Pacific, 12,600; Wheeling and Lake Erie, 2,312 Ballroad bonds were largely traded in as

2,312. Railroad bonds were largely traded in, a Railroad bonds were largely traded in, as sual, but there was less special animation, the only special teature being the Union Pacific notes, which, on sales of \$209,000, failed to move more than small fractions. The temper of the dealings was firm with-out change of note among the more active issues. Rock Island debentures were also active, contributing \$155,000 to the day's total of \$3,519,000.

Elgin Butter Advanced and Country Rolls in Better Request. CITY JOBBERS WELL SUPPLIED. The Cold Weather Eas Stiffened Eggs and Stocks Are Depleted.

WEAKNESS IN ALL CEREAL LINES

OFFICE OF THE DISPATCH. } PITTSBURG, TUSSDAY, JANUARY 26. COUNTRY PRODUCE-Jobbing Prices-Elgin creamery butter was advanced 1c per pound at source of supply on Monday. The advance will be due here the latter part of the week. There is an improved demand for country butter the past few days, quality of offerings having advanced under the influence of cold weather. New York cheese is steady at quotations. To the dealer who is not stocked up there is no margin at present quotations. Fortunately for Pittsburg jobbers, they are well supplied at prices which prevailed a month ago. New York cheese can now be bought in Pittsburg at lower prices than can be obtained at sources of supply. Cold weather has stiffened prices of fresh eggs, and our figures are advanced in accordance with sales reported. At the advance there are not enough to meet demand. Tropical fruits are dull and slow. Potatoes are mov-ing more freely.

Gas and Luster Submit to Concessions. Business on 'Change yesterday reflected the condition of the weather. It was de cidedly off as compared with the day before

Pittsburg cannot maintain a rapid pace in speculation. There are not enough investors.

A strong feature, and one reflecting the prosperous condition of nearly all the local corporations, was the declaration of a quar

terly dividend of 1% per cent by the Stand ard Underground Cable Company, payable February 10. Reports showed the company to be in an excellent position with plenty of business on hand and more in prospect, Transfer books close from February 5 to 10,

both inclusive. Philadelphia Gas sold early at 15, but Business Better Than Last Year and

Philadelphia Gas sold early at 15, but weakened slightly later, and finished a frac-tion lower. There was no urrency on the part of buyers, while reports of scarcity from consumers flew thick and fast. Central Traction opened a shade below the level of Monday, but firmed up and finished with a fractional gain. At the last call 38% was bid for Manchester, offered at 20. For Duquesne 20% was bid, and 19% for Birming-hum. The local money market was moderately tion lower. There was no urrency on the part of buyers, while reports of scarcity from consumers flew thick and fast. Central Traction opened a shade below the level of Monday, but firmed up and finished wis bid for Marchester, offered at 32. For Duquesne 20% was bid, and 19% for Birming-ham. Pittsburg Junction Railrord moved up a fraction, as did Airbrako. Switch and Signal was steady, but Luster incked the usual sup-port and finished at a small loss. Sales at first call were 100 Philadelphia Gas
