JUDGE WOODS' CONFIRMATION

Being Determinedly Opposed by a Long Array of Indianians.

WASHINGTON, D. C., Jan. 29.-The Senate Judiciary Committee, which has had the matter of the confirmation of Judge Woods before it for some weeks, was in session several hours to-day, examining witnesses who were summoned at the request of Senators Turpie and Voorhees, who are opposing the

confirmation. The principal charge made is that Judge Woods decided one way in one case and another in a subsequent case, the object being to favor Colonel Dudley in the "blocks-of-five" case and prevent his arrest. The witnesses examined this morning were Leon O. Bailey, Deputy Attorney General of Indiana; Noble C. Butler, Clerk of the District Court, and Hon. James A. Rice, ex-Auditor of the State, all of whom op-

There are 30,000 in the United States in the employ of the Pinker-tons who can be mobilized at any city. They can shoot down the citizens of that city, and the guilty party is at once spirited away by his fellows, without any show of justice. That has been done many times in the past. The existence of the Pinkerton organization is a constant menace to the interests of labor and the freedom of the people, and, if un-checked, will finally result in the establishchecked, will finally result in the establish-ment of a private army to be used in the interests of monopoly. That practice can be carried far enough to destroy free govern-ment. This is one of our party questions which, as representatives of the farmers and laboring men, we are going to force upon this Congress, and every Representative and Senator must show the American people where he stands upon this question."
