

OUTSIDERS TO WRITE. A Second Combine of Tableware Men to Be Formed at Wheeling To-Day.

TIRED OF GOING IT ALONE. The New Trust Will Not Fight the United States Company.

DIFFERENCES TO BE HARMONIZED. Glass and Crockery Jobbers Will Make a Scale of Prices.

AND TRY TO SQUEEZE MANUFACTURERS. The success of the United States Glass Company has been so gratifying that a second combine among the tableware men...

Several days ago secret circulars were issued by a committee of manufacturers interested in the scheme calling a meeting at the Windsor Hotel in Wheeling for 4 o'clock this afternoon.

At least 17 firms will be represented at the meeting. These are the Buckeye Glass Company, the Cooperative Plate Glass Company, Cumberland Glass Company, Canton Glass Company, Dalzell, Gilmore & Leighton, Elson Glass Company, Fostoria Glass Company, Fostoria Shade and Lamp Company, Greensburg Glass Company, Gillinder & Sons, Model Plate Glass Company, Northwood Glass Company, Pittsburgh Glass Company, Riverdale Glass Company, Westmoreland Specialty Glass Company, Zimmerman Glass Company, Bryce, Higbee & Co., and the Rochester Tumbler Company.

Some doubt is expressed about the latter company, as so far they have steadily refused to join any kind of a combination, preferring to paddle their own canoe.

People familiar with the glass business will see at a glance, however, that most of the concerns not in the United States Company are mentioned in the above list, and intend to join the combination, if one can be formed amicably.

Wheeling was selected as the meeting place to avoid as much publicity as possible.

One of the gentlemen interested said yesterday that they had no intention of fighting the United States Company. On the contrary, their object was to harmonize existing differences.

In the past prices of tableware have been cut to a ruinous extent. At times agents were ashamed to visit jobbers, and when asked for the rates on certain lines invariably replied that they hadn't heard the latest quotation.

The capital invested in the new combination will be large. The business this season has been good and the United States Company has gained its share of it.

None of the men are cut off. When this company was organized the hue and cry was raised that expenses were to be greatly curtailed and a number of the agents would be dropped.

The fact is that with the exception of two men who resigned the same force is employed. One of the men who resigned is not mentioned in the above list.

The bustlers are not so fearful of combinations now and they don't care how many are formed.

The glass and crockery jobbers will meet in convention at the Monongahela House to-morrow. A few merchants have been on hand for several days, and George B. Jones, George R. DeLard and A. E. Johnston, the Boston crockery men, are registered at the hotel last evening.

The makers and agents are a little anxious to find out what the jobbers intend to do. It is anticipated that the jobbers will make their own scale of prices on glass and crockery, and then try to force the manufacturers to concede to their terms.

A combination of crockery men, who are the plate glass men, but so far they have had no success. The plate glass jobbers have bought very little glass for the last few months, but the crockery men are holding out.

The glass and crockery jobbers are very reticent about their meeting, and not much information can be gathered.

HUNGARIANS BADLY SLASHED. They Engage in a Little Riot at Four-Mile Run.

Early yesterday morning word was received by Sergeant McElhany, of the Fourth ward station, that there was a terrible fight in progress up the Four-Mile Run road in front of the house of Officers Bohan, Welsh and O'Donnell.

The officers arrested 17 men and placed them in the patrol wagon. The way was cleared and the patrol wagon returned to the Hazelwood station.

The officers arrested 17 men and placed them in the patrol wagon. The way was cleared and the patrol wagon returned to the Hazelwood station.

WAS GAS IN SCARCITY. Heavy Regulators Have Shut Off the Supply When the Pressure Was Low.

J. L. McKinley went to Chicago last evening on the limited to look after the sale of some real estate in which he is interested.

This winter Mr. McKinley has been managing the Allegheny Heating Company, which supplies the Northside, and he says that up to date they have had no complaints.

The Philadelphia Company furnishes the gas. When asked why gas is scarce in Pittsburgh on cold days, he said: "Well, the truth is the pressure is low and the demand has been enormous."

The supply for that section comes mainly from the Murrysville field, and the big wells in that territory are played out.

The Philadelphia Company could have foreseen in July what they know now they would have had plenty of gas. A number of wells have been struck by oil men in the Westmoreland and McDonald fields, and in time all our gas will be piped from Washington county.

A well with a pressure of 600 pounds was recently brought in in the country back of Sharpburg. J. M. Guffey struck several gas wells where he expected oil.

Next summer the company will be able to pipe up these new fields. Still he faith in the gas fields, and that there will be plenty for domestic purposes for years to come.

KILLED BY JAMAICA GINGER. A Prohibition Drink Used With Fatal Results at Sharpburg.

Coroner McDowell yesterday held an inquest on the body of Barbara T. Probst, of Sharpburg, who died on Saturday night and who it was supposed had committed suicide.

The inquest developed that the death was caused by the constant use of Jamaica ginger. The husband's testimony was that on going home at supper time his wife complained of being sick, and a few minutes later she was found in her arms.

Dr. N. Graham was sent for and he diagnosed the case as one of poisoning. He administered antidotes, but they had no effect and the woman lingered until 11 o'clock when she died.

A post mortem was held yesterday by Drs. Graham and G. R. Robinson. They found that the stomach of the deceased was literally bloated up with the effects of a strong drug, which proved to have been Jamaica ginger.

It was shown that she had been addicted to the use of stimulants, and for some time had been drinking Jamaica ginger copiously in the absence of other liquor.

The jury returned a verdict that death had been caused by a shock and nervous exhaustion due to the excessive and constant use of Jamaica ginger and other stimulants, and recommended that the authorities take steps to stop the indiscriminate sale of impure patent medicines of this character.

The deceased was 35 years old and the mother of six children.

WILL ATTEND THE DEDICATION. Arrangements Completed for the Memorial Hospital Opening at Johnstown.

The Pittsburgh division of the Johnstown Correspondents' Association held a meeting yesterday afternoon, with W. C. Connelly, Jr., in the chair.

It was decided to accept the invitation of the Conemaugh Valley Memorial Hospital Committee to attend in a body the dedication of that institution on Friday next.

The Secretary was instructed to forward a list of the members to the committee at Johnstown. A committee consisting of A. S. McSwiggan, E. O. Christy and President Connelly was appointed to attend to transportation to Johnstown.

Another meeting will be held to-morrow at 8 o'clock at the office of the Associated Press to hear the report of the committee. Members desiring to accompany the association will notify the secretary at once.

James B. Scott, of the State Commission, stated yesterday that, besides the dedicatory exercises, there would be a mass meeting of the citizens of Johnstown in the Opera House, at which the prominent citizens would make addresses on the work of the Flood Commission.

People from Pittsburgh can attend the meeting and return on the train reaching here at 11:55 p. m.

Cut His Wife With an Ax. David Glenn, a colored man, was arrested by Detective Sierok early yesterday morning at Oakland.

He is charged with aggravated assault and battery, preferred by his wife. She alleges that her husband, who has been absent from the city for several years, returned last Friday evening.

LOSING 'BIG BOODLE.' Southern People Want \$1,000,000 From Uncle Sam This Year to Help Them.

Delegations from Ohio, Indiana, Kentucky and Tennessee, will appear before the River and Harbor Committee to-morrow in behalf of the Cumberland river canal.

Among those who passed through the city last evening bound for Washington were Senator M. P. Bryan, Speaker of the Tennessee House, Allen G. Hall, Speaker of the House, ex-Congressman A. S. Colyar and George H. Armistead, Secretary of the Cumberland River Improvement Association.

They were armed with memorials from the four States mentioned which will be presented to the committee. The object is to slack-water the Cumberland river with dams from the Ohio to its source.

Mr. Armistead said that about \$600,000 had already been expended, and the resident engineer with the indorsement of the strikers of the river, had appropriated of \$1,000,000 this year. The entire work will cost \$8,000,000.

The gentlemen were to Washington to urge the appropriation of the money recommended for this year.

Mr. Armistead said the commerce along the river justifies the expenditure of the money. The stream runs through a timber country, rich in timber, coal, iron and agricultural resources.

Indirectly it will benefit Pittsburgh. Mr. Armistead claims there is more coal in the area traversed by the Cumberland than in Great Britain.

Turning to the subject of politics, Speaker Allen said they were all for Cleveland in Tennessee. Mr. Armistead stated that he didn't believe Hill could control the delegations in any of the Southern States unless Speaker Crisp will be able to push Georgia into line for Hill.

Mr. Hill is a strong factor in the South, but the people haven't confidence in his ability to pull through. They think he can carry the South, but they don't think he will support him.

The Southern press in the main is for Cleveland.

CANDIDATES AT HOMESTEAD. Men Who Aspire to Represent That Hunting Borough.

At the February elections the steel workers of Homestead will endeavor to fill the important borough offices with able men from their own ranks.

John McClellan, who was Burgess in 1889, at the solicitation of the mill workers will run for mayor against J. H. Williams. Thomas Williams, a roller in the plate mill, will run for Council in the Third ward.

W. L. McGonigly, a graduate of the State Normal school and the shearer in the armor plate mill, is up for Auditor.

The nominations are as follows: First ward—Burgess, John F. Hill, J. H. Williams; Second ward—Auditor, William A. Kessler, D. B. Watkins; Auditor, William A. Kessler, D. B. Watkins; Council, John Grein, John Miller, George Jacobs; School Director, D. W. Rees, George Jacobs; School Director, D. W. Rees, George Jacobs; School Director, D. W. Rees, George Jacobs.

The strikers yesterday issued a circular presenting their side of the trouble. They also make an appeal to the public not to patronize the line.

The proposition of the line is that the company and the answer received are embodied in the circular, all of which have been published before.

They have broken away from the United States Company, and are calling names to the conductors and motormen. Jack Beck and Samuel Thornburg were charged with the same offense, but were released for lack of evidence.

VERY BADLY CROWDED. Insane Hospitals in as Bad Shape in This State as in New York.

The startling intelligence gained by the investigating committees on the overcrowded condition of the hospitals for the insane at New York is little, if any, worse than the condition of similar institutions in this State.

There are five hospitals or asylums in Pennsylvania that are charged with the care of the insane wards of the State. They are located at Norristown, Harrisburg, Danville, Warren and Dixmont. All but the last named are supported and controlled by the State exclusively.

Dixmont is much overcrowded. The Dixmont Hospital was originally built to accommodate 400 patients, subsequently a brick annex was built to accommodate 100 more, and within a few years two dormitories were added affording room for 600 to 650 patients.

But the present number of inmates is over 700, and it has become necessary to put several persons in one room, a thing that should not be done with insane patients, as all experts agree.

James B. Scott, who is a member of the Lunacy Committee of the State Board of Charities, and who furnished the information in a distressing inconceivable there is no immediate prospect of relief.

"The last Legislature," he continued, "passed an appropriation of \$200,000 for the State for chronic insane. Until that is built, probably two years hence, there can be no improvement in present conditions."

There is a present State building, which is a distressing inconceivable there is no immediate prospect of relief. "The last Legislature," he continued, "passed an appropriation of \$200,000 for the State for chronic insane. Until that is built, probably two years hence, there can be no improvement in present conditions."

PAYING THE PENALTY. Little Jags of Justice Ground Out to Saturday Morners—Common Drunks in the Majority—The Old Dodge of Taking a Fit Filled to Work.

Magistrate Gripp had about 30 cases to dispose of at the Central station hearing yesterday morning. William Walker was arrested for throwing a brick through the window of Jennie Prosser's house on Market street, for which he was fined \$50 and costs.

W. F. Fredelin and H. L. Gardner were arrested for using insulting language to Officer Kennedy, and were fined \$5 and costs each. Joseph Ray, a tramp, for attempting to steal a coat owned by Max Green, was sent to the workhouse for 60 days.

William Mellon was accused of being disorderly in a Fulton street saloon. It was alleged that the prisoner tried to work the old dodge of taking a fit in order to get a drink.

He was sent to the workhouse for 30 days. William Green was arrested on complaint of his mother, who alleged that he beat and choked her, and that he was in the habit of doing such things.

He was given 90 days to the workhouse. Magistrate Sacoop had 14 cases to dispose of. They were chiefly common drunks and disorderly cases.

WOULD RUIN THE COUNTRY. The Disciple of Divine Healing Presents a New Phase of the Liquor Question.

Rev. Dr. John Alexander Dowie, the advocate of faith healing, began his second series of talks in Pittsburgh, at Old City Hall, yesterday afternoon.

He did not have a large audience to address, only about one-third of the seats being filled. The doctor, however, took this as a pointer on which to urge his followers to bring others to his lectures.

The services yesterday were much like previous ones. At the opening the doctor read about a dozen letters from as many people, in various parts of the country, suffering from diseases of almost every character.

He then prayed that they all might be healed of their ills. After some singing he began his address. During it he touched on the temperance subject.

"I am as much of a temperance man as anybody," said he, "but the abolition of the manufacture and sale of intoxicating liquors would, in my opinion, do this country no good. The liquor traffic is a fearful thing, yet the fact remains that those countries in which no intoxicants are used are the worst in the world."

The Mohammedan never tastes liquor. His religion teaches him that to do so means that he is lost. The Mohammedan is a total abstainer, but he is the farthest from civilization and the most brutal and degraded creature on earth.

In whatever nations the liquor traffic is not allowed the condition of woman is that of a slave. The abolition of liquor in the United States would result disastrously to the morals of the country."

Peeping Tom Is Captured. A "Peeping Tom" has been caught in the West End. He is William D. Ritter, and was arrested Saturday night by Officer Miller.

About 10 o'clock the children were coming running to the officer and stated that a man was prowling around several houses near West Carson street.

On going to the scene of confusion the officer found several women at the windows of their houses badly frightened. One of them told the officer that a man had been going around for some time looking in the windows of their bed chambers, and that he had become more bold than evening. A description of the man was given and a short time later Ritter was arrested acting in a suspicious manner nearby.

He was identified as the "Peeping Tom," and was placed in No. 8 station wagon. He was given a hearing by Magistrate Sacoop, who sent him to jail. He is demerited and his friends will be called upon to take charge of him. The police have been trying to catch him for some time.

Houses, Stores, Offices To Lose. Are specially advertised in The Dispatch to-day. Best lists published.

HUGUS & HACKE. There will be a great sale of INDIA SILKS. In the center of the store TO-DAY, MONDAY. 150 Pieces REGULAR 75c QUALITY. Will be sold at 36 Cents a Yard.

At no other time this season will there be such a choice of all that's most desirable in Gingham, Lawns, Satens, Challis, Percelles, Cambrics, Chevots, Flannellettes, Crepons, Brandenburg and Fiji Cloths. A collection now of unsurpassed assortments and values.
