SATURDAY'S PRODUCE MARKETS CHICAGO-Wheat ruled dull and lower to-day. The news was nearly all bearish; local sentiment was in accord with it, and the offerings were in excess of the demand.

Cables were depressed and lower, with domestic markets tending downward. The

export business for the week was nearly \$1,000,000 bushels less than the week previ-

when these two men entered and began to feel in their pockets, he gave himself up for lost.

Seizing a large ledger, he threw it at them, ducked under a table and hallooed for help. His clerks ran in just as the astonished strangers went out, and an investigation showed that they were reputable gentlemen, and at the moment the Baron suspected them of sinister intention were feeling in their pockets for the letters of in-

feeling in their pockets for the letters of in-troduction they were about to present. The letters were never tendered, for the Baron was so overcome by his tright that he was raken home and put to bed.

A NERVY TRICK IN BUSINESS. Sineteen Hundred Dollars Saved by Putting Up Four Handre L.

A recent display of tact in a business emergency was the cause of saving the man concerned a good round sum of money, says a St. Louis business man in the Globe-Democrat. A firm, concerning which rumors of insolvency had been spread, gave a check to one of their spread, gave a check to one of their creditors for \$2,500. The creditor took the check to the bank and was there told that they would willingly pay it, but the firm lacked about \$400 of having the money.

Fearful of holding the check, he went to the desk, drew his own check for \$490, deposited it to the credit of the firm, then presented his check and walked off. The next day the firm failed and paid about 15c on the dollar, and if he had resined the on the dollar, and if he had retained the check his loss would have been considerable, but this display of business tact saved the money and the annoyance which would have been caused had he been involved in legal proceedings.

For Impaired Vitality And weakened energy, is wonderfully successful.

HORSFORD'S ACID PHOSPHATE

SIR MORRELL MACKENZIE ays in the Journal of Laryngology, Nover er, 1887: "Compressed Pastilles of Sode water are now an article of commerce well as the mineral waters. These are mi

well as the mineral waters. These are made from two of the well waters, and containing a large amount of chloride of Sodium, are particularly serviceable in pharyngeal catarrhs, and may even in some degree be used where it is desired to obtain the effects of the Soden treatment in persons who are unable to make the necessary journey to the spa itself."

SPECULATION FAGS OUT.

Weakness in All l'aris of the List Still Led by Distillers'-Atchison, Omaha and Cotton Oil Each Heavy Losers-Railroad Bonds Still Active. New York, Jan. 30 .- The stock market to-

day was nothing but the fag end of the week's speculation, and considerable weakness was seen in all portions of the list. There was no apparent support to stocks, even those which are known to be under the care of cliques, and a marked dearth of commission house buying encouraged the bears to again attack the most vulnerable points, which was also aided by liberal selling for foreign account. The stocks which have an international market, however, were not the

international market, however, were not the largest sufferers, but those which have made the most pronounced gains of late.

The banner weak stock still continues to be Distillers', and to-day many stop orders in it were uncovered, with the effect of dropping the stock in the early dealings 2½ per cent. The bears sold the Grangers freely, but only Omaha showed any material impression, and the seiling of Atchison, which was specially marked, sufficed only to depress the stock a fraction and largely increase the amount of business done in it. The same may be said of Louisville, which was the next most prominent mark for bear was the next most prominent mark for bear

drives.
Consolidated Gas made another sharp upward spurt, the action of the directors in raising the rate of dividend from 5 to 6 per cent and making it payable quarterly instead of semi-annually, furnishing the moving power. The stock-opened up 1 per cent at 105 and rose to 111%, closing at 111%, a gain of 6% ner cent. 6% per cent.

Distillers' rallied handsomely in the later

Distillers' rallied handsomely in the late dealings, but closed with a material loss. The bank statement, with its further large gain in cash and deposits, seemed to have no effect whatever, but covering operations caused a slight raily in the final trading, which closed the market firm at a shado better than the lowest prices. The losses of importance were Distillers', 1½, Atchison, 1½; Omaha and Cotton Oil, 1 per cent each. Total sales of stocks to-day were 169,174 shares, including: Atchison, 29,800; Chicago Gas, 4,800; Erie, 3,100; Loulsville and Nashville, 10,520; Mannattan, 2,134; Missouri Pacific, 2,935; Northwestern, 2,210; Northern Pacific preferred, 4,214; Reading, 5,700; Richmond and West Point, 4,155; St. Paul, 10,700; St. Paul and Omaha, 3,775; Union Pacific, 3,760; Western Union, 3,070.

SILENCE IN HEAVEN. Rev. Dr. Talmage Talks of the Only Half Hour of Quietude There.

LESSONS OF A BEAUTIFUL TEXT.

Supreme Events of Our Lives All Happen Within 30 Minutes.

A TRANSIENT VISION OF OUR HOME INPECIAL TELEGRAM TO THE DISPATCH.1 BROOKLYN, Jan. 31.-Dr. Talmage has of late been preaching on texts of scripture that seem to have been neglected, and here

is a sermon on a beautiful text which probably was never before selected for a discourse, Revelations 8:1, "There was silence n heaven about the space of half an hour." The busiest place in the universe is beaven. It is the center from which all good influences start; it is the goal at which all good results arrive. The Bible represents it as active with wheels and wings and

But my text describes a space when the wheels ceased to roll and the trumpets to sound and the voices to chant. The riders on the white horses reined in their chargers.

The doxologies were hushed and the new control of the describes a space when the deemed a world?

But, come on, for our time is short. Do you see that row of palaces? That is the Apostolic Row. Do you see that long reach of architectural glories? That is Martyr Row. The doxologies were husbed and the procession halted. The hand of arrest was put upon all the splendors. "Stop, Heaven!" for 50 minutes everything celestial stood still. From all we can learn it is the only time heaven ever stopped. It does not stop as other cities, for the night, for there is no night there. It does not stop for a plague, for the inhabitant never says: "I am sick." It does not stop for bankrupteles, for its in habitants never fail. It does not stop for monesable streets for there are no fallen nows nor sweeping freshets. What, then,

stopped it for 30 minutes? Why Did Heaven Stop? Grotius and Prof. Stuart think it was a the time of the destruction of Jerusalem. Mr. Lord thinks it was in the year 311, between the close of the Diocletian persecution and the beginning of the wars by which Constantine gained the throne. But that

was all a guess, though a learned and brilliant guess. I do not know when it was brilliant guess. I do not know when it was and I do not care when it was, but of the fact that such an interregnum of sound took place I am certain.

And, first of all, we may learn that God and all heaven then honored silence. The longest and widest dominion that ever existed is that over which Stillness was Queen. For an eternity there had not been a sound. World-making was a later day occupation. For uninverse, God was the only being, and, as there was no one to speak to, there was no unternince.

But that silence has been all broken up no worlds, and it has become a noisy universe. Worlds in upheaval, worlds in concention, worlds in configuration, worlds in evolution. If geologists are right (and I gelieve they are) there has not been a monem of silence since this world began its ravels and the crashings and the splittings and the uproar and the hubbub are ever in worgress.

"Hush!" and for half an hour heaven till, silence was honored. The full of silence many of us have yet to We are told that when Christ was hat silence was louder than thunder. When It Is Best to Be Still.

ies, when we are assailed and mis-

presented, the mightiest thing to say is to ay nothing, and the mightiest to do, is to do othing. Those people who are always ishing into print to get themselves set right accomplish nothing but their own chagrin. Among the grandest lessons the orld has ever learned are the lessons of stionce taught by those who endured un-implainingly personal or domestic or so-

cial or political injustice.

Learn also from my text that heaven must be an eventful and active place, from the fact that it could afford only 30 minutes of recess. There have been events on earth and in heaven that seemed to demand a whole day or whole week or whole year for colestial consideration. If Grotius was right and this silence occurred at the time of the lestraction of Jerusalem, that scene was so will and so prolonged that the inhabitants of heaven could not have done justice to it in many weeks. may weeks, are larger of the people in that city durthe besiegement was so great that as a outlaws were passing a doorway and aled the odors of food they burst open door, threatening the mother of the aschold with death unless she gave them

cooking for the glfastly repast. Six hund priests were destroyed on Mount Zion Temple being gone there was othing for them to do.

them that it was her own child she

The Heavenly Programme Full. No! Thirty minutes! The fact is that the celestial programme is so crowded with speciacle that it can afford only one recess aff eternity and that for a short space. Vidle there are great choruses in which all heaven can join, each soul there has a story peculiar to itself, and it must be a solo. How can heaven get through with all its recitatives, with all its cantatas, grand marches, with all its vic-raity is too short to utter all the In my text heaven spared 20 min but it will never again spare one minute sides that, heaven is full of children are in the vast majority. No child a who amounts to anything can be ke thalf an hour, and how are you going to 500,000,000 of them quiet half an hour. know heaven is much more of a place n it was when that recess of 30 minute

cred. its population has quadrupled upled, centupled. Heaven has more or ore of rapture, more of knowledge, intercommunication, more of worhy subject also impresses me with the immy subject also impresses me with the im-mortality of a half-nour. That half-hour mentioned in my text is more widely known than any other period in the calendar of heaven. None of the whole hours of heaven are measured off, none of the years, none of the centuries. The only part of eternity that was ever measured by earthly time-plece was measured by the minute hand of tay text.

The Value of Little Half Hours.

Oh, the half-hours! They decide every bing. I am not asking what you will do with the years or months or days of your ife, but what of the half-hours. Tell me the nistory of your half-hours, and I will tell you the story of your whole life on earth e story of your whole life in eternity. he right or wrong things you can think 30 minutes, the right or wrongs you can think in you can do in 30 minutes are glorious or baleful, inspiring or desperate. Look out for the fragments of time. They are pieces of eter-nity.

The half-hours between his duties as master made Salmon P. Chase Chief e, the half-hours between shoe lasts Henry Wilson Vice President of the i States, the half-hours between canal made James A. Garfield President, all-hour a day for prayer or incept the half-hour a day for prayer or incept the half-hour a day for helping or blasting others; the half-hour bedolence the half-hour a day for prayer or in-dolence the half-hour a day for helping others or blasting others; the half-hour be-fore you go to business, and the half-hour after your return from business; that makes the difference between the scholar and the ignoramus, between the Christian and the

poramits, between the Christian and the tidel, between the saint and the demon, tiween triumph and catastrophe, between eaven and hell.

The most tremendous things of your life and mine were certain half-hours. The halfmine were certain nair-nours. The nair-r when in the parsonage of a country ister I resolved to become a Christian 1 and there: the half-hour when I de-ed to become a preacher of the gospel.

How About Your Next 30 Minutes? I do not query what you will do with the wentieth century, I do not query what you will do with 1892, but what will will do with 1822, but what will you do with the next half hour? Upon that hinges your destiny. And, during that some of you will receive the gospel and make complete sur-render, and during that others of you will make final and intal rejection of the full and free and urrent and impassioned offer of life eternal. Oh, that the next half hour might be the most glorious 30 minutes of your earthly existence. you do with

be the most grorious of minutes of your earthly existence.

Again, my text suggests a way of studying benven so that we can better understand it. The word "eternity" that we handle so much is an immeasurable word. Knowing that we could not understand that word, the Bible uses it only once. We say, "For ever and ever," but, how long is "For ever and ever," but, how long is "For ever and ever," I am glad that my text puts under our eye benven for 20 minutes. As when you would see a great picture, you put a sheet of paper into a seroll and look through it, or join your forefinger to your thumb and look through the circle between, and the picture hecomes more intense, so that parpiece of

heaven by St. John is more impressive when we take only 30 minutes of it at a time.

Now, we have something that we can come nearer to grasping, and it is a quiet heaven. When we discourse about the multitudes of heaven, it must be almost a nervous shock to those who have all their lives been crowded by many people, and who want a quiet heaven.

A Heaven of Repose Wanted. For the last 35 years I have been much of he time in crowds and under public scruting and amid excitements, and I have sometimes thought for a few weeksafter I reach heaven I would like to go down in some quiet part of the realm, with a few friends, and for a little while try comparative solitude. Then, there are those whose hearing is so delicate that they get no satisfaction when you de scribe the crash of the eternal orchestra, and they feel like saying, as a good woman in Hudson, N. Y., said, after hearing me speak

Hudson, N. Y., said, after hearing me speak of the mighty chorus of heaven: "That must be a great heaven, but what will become of my poor head?"

You will find the inhabitants all at home. Enter the King's Palace and take only a glimpse, for we have only 30 minutes for all heaven. "Is that Jesus?" "Yes." Just under the hair along His forehead is the mark of a wound made by a bunch of twisted brambles, and His foot on the throne has on the round of His instep another wound made by a spike, and a sear on the palm of His left hand. But, what a countenance! What a smile! What a grandeur! What a loveliness! What an overwhelming look of kindness and grace! What the looks as if He had redeemed a world!

The Crowning Piece of Architecture. Do you see that immense structure? That is the biggest house in heaven; that is "the house of many mansions." Do you see that wall? Shade your eyes against its burning splendor, for that is the wall of heaven, jasper at the bottom and amethyst at the

See this river rolling through the heart of the great metropolis? That is the river concerning which those who once lived on the banks of the Hudson, or the Alabama, or the Rhine, or the Shannon, say: "We never saw the like of this for clarity and sheen." That is the chief river of heaven—so bright,

That is the chief river of heaven—so origue, so wide, so deep.

But you ask: "Where are the asylums for the old?" I answer: "The inhabitants are all voung." "Where are the hospitals for the lame?" "They are all agile." "Where are the infirmaries for the blind and deaf?" "They all see and hear." "Where are the almshouses for the poor?" "They are all multi-millionaires." "Where are the inebriate asylums?" "Why, there are ho saloons." "Where are the graveyards?" "Why, they never die."

never die."
Pass down those boulevards of gold and Pass down those boulevards of gold and amber and saphire and see those interminable streets built by the Architect of the universe into homes, over the threshold of which sorrow never steps, and out of whose windows, faces, once pale with earthly sickness, now look rubicund with immortal health. "Oh, let me go iff and see them?" you say. No, you cannot go in. There are those there who would never consent to let you come out again.

Your First Half Hour at Home, But how will you spend the first half hour of your heavenly citizenship after you have gone in to stay? After your prostration be-fore the throne in worship of Him who made it possible for you to get there at all, I think the rest of your first half hour in heaven

the rest of your first half hour in heaven will be passed in receiving your reward if you have been faithful.

In your first half hour in heaven in some way you will be honored for the earthly struggles in which you won the day. Stand up before all the Royal House of heaven and receive the insignia while you are announced as Victor over the droughts and freshets of the farm field, Victor over the temptations of the Stock Exchange, Victor over professional allurements, Victor over domestic infelloities, Victor over mecnanic's shop, Victor over the storehouse, Victor over home worriments, Victor over physical distresses, Victor over breeditary depressions, Victor over sin and death and hell.

Take the badge that celebrates those victories through our Lord Jesus Christ. Take it in the presence of all the galleries, saintly, angelic and divme! While all heaven chants: "These are they who came out of great tribulation and had their robes washed and angelic and divine! While all heaven chants; "These are they who came out of great tribulation and had their robes washed and made white in the blood of the Lamb."

Thy saints in all this giorious war Shall conquer though they die; They see the triumph from afar And seize it with their eye.

LIVE STOCK MARKETS. Receipts, Shipments and Prices at East Liberty and 511 Other Yards.

An Electric Amalgamator. A novel machine, which enables the successful operation of gold deposits that could not be profitably worked by sluice methods, has recently been placed in service near Denver. This machine is an amalgamator, which is worked entirely by electricity, and by which the fine particles that would be carried away by the current in a sinice are all saved. What may be a valuless deposit to the sluice miners may prove profitable ground to the operators of the amalgamator. The machine consists of a dipper, which is dug into the bank, and lifts up a cubic yard of material. This is thrown into the large cylinder in rapid revolution, the fine sand in which the gold is distributed falling through a comparational directly. through a comparament directly beneath In this chamber the fine sand is mixed with In this chamber the fine sand is mixed with water under a high pressure, and carried over the surface of the amalgamated plates. In this way every particle of the precious metal is retained on the plates by amalgamation. After the machine has been in operation for a given length of time the amalgam is scraped from the plates, and the gold is reduced by ordinary methods.

The American Watch Industry. As an evidence of the rapid increase of demand for American watches, the fact is noted that a single American company sold nore watches during the last 12 months in England that all the English companies combined sold of their own manufactures. On the other hand, this fact makes it rather difficult to understand why a duty of 25 per cent on watch movements is needed here for

FEATURES OF TRADE Poultry, Eggs and Dairy Products

TROPICAL FRUIT WEAK AND LOWER Staple Groceries Are Practically the Same

Firm and Active of Late.

as a Week Ago. . GOOD ADVICE ON WEARING OUT SHOES

OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, JANUARY 30. The features of the week worthy of mention in general produce lines were the strong markets for poultry and eggs and choice dairy products. Severe winter weather had ubt much to do with the activity in these lines. Eggs are very firm at an advance of 2c to 3c per dozen over prices of a week ago. Elgin creamery was advanced ic per pound on Monday at Elvin, and at the rise markets are firm. For several months country butter has been a drug and prices were merely nominal, the average consumer giving the preference to oleo.

the week has been the heavy arrivals of frosted bananas. Markets have been so overstocked with damaged fruit that even the good has suffered more or less as a consequence. Florida oranges are reduced almost 50c per box from the highest price reached in the early part of January. Lemons are steady and fancy stock is a shade higher than it was at the beginning of the week. Malaga grapes have also found a higher level. The advance since the beginning of January has been equal to \$3 per half barrel. In grocery lines the advance of 1/2c on sugar proved to have a short lease of life. After a vain struggle of a day or two prices drifted back to where they were a week ago. The strong factors in grocery lines are canned goods, rice and fancy New Orleans moinsses. Canned tomatoes and corn are particularly firm, and though prices have been advanced in the past week or two, prospects are for still further advances. New Orleans advices are that the output of open kettle molasses this season is little more than half what it was last season, and yet in face of this prices are no higher now than they were a year ago.

In the Cereal Lines. It will be seen by reference to home mar ket column that receipts of grain and hay were unusually large the past week, the total being 323 carloads. Receipts of wheat alone were 94 carloads for the week. In alone were 34 carloads for the week. In most cereal lines markets are weaker and lower than they were last Satarday. Oats and shell corn are decidedly lower, as quotations will disclose. Milliced of all kinds is in excessive supply, and sales are only made by liberal concessions on the part of the holder. Wheat is off I to 2c per bushel in the past week, and flour quiet. No. 2 red wheat was offered at the Grain Exchange today at 99c, with no takers. Ear corn is the strong factor of cereal markets, a fact due to improving quality of offerings. Hay is to improving quality of offerings. Hay is fairly steady at prices of a week ago.

Wearing Out | hoe Leather. The following from the Youth's Companion must have been written with a view to help-ing trade in footwear lines: "I have but one maximum for you," said a successful and wealthy merchant to a young

man who went out of his employ to enter upon the study of a profession, "and that is never to try to save your shoe leather, but always to be economical of the cloth that forms the seat of your tronsers."

The young man pondered this bit of advice a long time, but he thinks that he never fully understood it until he had been at work in his profession for several years.

He found, indeed that "worn out shoe leather" was a good investment. It meant, for one thing, keeping up with the time by galning information at first hand. If he needed any facts bearing upon his profession, he said to himself: "I can but them with a little shoe leather," and he went out and saw the men who had the facts to give him. If he had waited for them to come to him probably they would never have come. He could not buy the information with pantaloon material.

nia firsts, :6c.

#AL/IMORE—Wheat quiet and lower:
No. 2 red, spot and January, \$1 00\(\tilde{\pi}\) [00\(\tilde{\pi}\);
February, \$1 00\(\tilde{\pi}\) [00\(\tilde{\pi}\); March, \$i 01: May, \$1 01\(\tilde{\pi}\) [02\(\tilde{\pi}\)] [02\(\tilde{\p good to choice timothy, \$13 50@15 50. Pro-visions quiet and steady. Butter firm and unchanged. Eggs, 3@Mc. unchanged. Eggs, 382Mc.

ST. LOUIS. Flour neglected. Wheat—No. 2 red. cash, 885,689c; May, 913,6921/2c, closing at 913/c bid. Corn—No. 2 cash, 38637c; January, 38/c 6374c, closing at 38/c; February, 38/c 638/c, closing at 38/c; March, 36/c, closing at 38/c; Data nominal: No. 2 cash, 18/c bid: May closed at 31c asked. Rye nominal. Flaxseed firm. Butter quiet and unchanged. Eggs firm and higher at 23/c. Provisions very quiet. Pork, \$9 25 for old; \$11 50 for new. Lard, \$6 20 66 30. HOME SECURITIES AND CASH. Good Work on 'Change, and Nearly Everything Higher. The speculative pulse beat high last week,

transactions being almost up to high water mark of the year. The position of the market was strengthened by dividends by the Monongahela Water and the New York and Cleveland Gas Coal Company.

Comparison with the closing prices of the active stocks the previous Saturday shows these changes: Central Traction advanced 214, Switch and Signal 14, Airbrake 3, Underground Cable 514. Birmingham Traction 36, Duquesne and Birmingham a little more

than held their own. Philadelphia Gas and Luster declined 3/2 and 3/2 respectively. With these two exceptions everything handled finished higher than a week ago.

Sales Saturday were 1,423 shares as follows: 140 Manchester Traction at 39%, 8 Philadelphia Gas at 14, 1,110 Birmingham at 20%, 50 at 20%, 35 Central at 27%, 90 Pittsbury Traction at 50, 25 Switch and Signal at 16% and 5 at 16%. Sales for the week were 5,134 shares of stock and \$15,000 bonds against 5,887 and \$3,000 respectively the previous week. Sales stock and \$15,000 bonds against 5,887 and \$3,000 respectively the previous week. Sales for the month were 19,002 shares of stock and \$43,000 bonds. Final bids and offers were: Business during the month, as reflected in the Clearing House report, was large enough to knock the props from under the chronic grumblers. Exchanges between the banks were nearly \$7,000,000 in excess of those of January last year.

Saturday's exchanges...

Wilmington—Spirits of turpentine quiet at 31½c. Rosin dull; strained, \$1 10; good strained, \$1 15. Tar steady at \$1 60. Crude turnentine steady; hard, \$1 00; yellow dip, \$1 90; virgin, \$1 92. SAVANNAH-Turpentine firm at 32c. Rosin SAVANNAH—Turpentine arm at 32c. Rosin firm at \$1 5 @ 1 10.

CHARLESTON—Turpentine steady at 21 ½c. Rosin firm; good strained, \$1 00.

NEW YORK—Rosin quiet and steady; strained, common to good, \$1 33 ½@ 1 37 ½c.

Turpentine quiet and firm at 36c.

The Drygoods Market. The Drygoods Market.

New York, Jan. 30.—Business in drygoods disclosed few new features. Being a short day, the general movement was relatively quiet. Prints were in fair demand and the tone very strong. The Merrimack shirting prints will be advanced Monday to 4½c, and furniture twill to 6½c; Merrimack fast black satins will also be advanced ½c. The duplicate request for spring and summer specialties generally tends to more activity, and February is looked to as probably bringing out a strong demand. Staple cottons were more or less quiet, but a good many small orders keep the position of the market materially unchanged.

The Metal Markets. New York, Jan. 30.—Pig iron steady; American, \$15 75@17 75. Copper quiet and firm, lake, \$10 70@10 75. Lead dull and easy; do

mestic, \$4 20. Tin quiet and steady; Straits,

Wool Markets.

St. Louis-Wool-Receipts, 6,800 pounds; shipments, 96,225 pounds; there is only a slight movement to wool at present. The Coffee Markets. New York, Jan. 30.—Coffee options opened steady, 5 points down to 15 points up, closed steady 5 up to 5 down; sales, 19,250 bags, including: February, 13.00@13.15c: March, 12.70 @12.85c; April,12.40c; May, 12.30@12.35c; June, 12.20c; July, 12.00c; September, 11.85c: spot Rin quiet and firm: No. 7, 14c.

The Most Pleasant Way

WEST CHESTER, PA., Jan. 31.-[Special.] -The following cable message as to missing R. Jones Monaghan's departure from Australia was received by Mr. Monaghan's family here to-day:
"Monaghan sailed on the 25th." This brief
message has brought a great degree of relief
to the Monaghan household.

In connection with the two letters retery. Mr. Monaghan left home with his mind so clouded that since his recovery he has explained and asked forgiveness for a departure which he now sees must have

the negotiations for a restricted reciprocity treaty between Canada and the United States are to be resumed in about a fortnight. Newfoundland is urging upon the Colonial Office that it is

unity of its policy regarding the Atlantic fisheries. Some officials here still hope for a way out of the difficulty by a general reciprocity treaty between the United States and all British North America. High Canadian authorities here, however, do not disguise their belief that the negotiations, if resumed now, are hardly likely to succeed. Meanwhile, such English journals as refer to Canada's trouble with Newfoundland say it is best

PHILADELPHIA—Flour quiet and weak. Wheat opened weak, closed dull and practically nominal: No. 2 red January and February, \$1 00%@1 01; March, \$1 01%@1 02: April, \$1 02%. Corn—Options weaker: local car lots in fair demand and steady; No. 4 mixed on track, 47c; No. 3 in elevator, 44%c, for local track 48c; steamer in export elevator.
