One Venture to the Southwest Which Wil Soon Be Completed.

NEW LOCATIONS EAST OF NOBLESTOWN

There was a big jump in the production of the McDonald field yesterday. It went from 31,500 to 35,590, an increase of 4,000 barrels. This was due to the drilling in of Gufley & Queen's No. 1, on the Samuel Wetmore, and an increase in some of the

This was never more fully illustrated than within the last two days. Monday Brown Bros. & Robison's well, east of Noblestown, surprised everybody, as the gion in which it is located had been conregion in which it is located ind occur con-lemned as no good long ago.

The astonishment it caused had scarcely ind time to pass away yesterday when a sell authenticated report was received that dirach & Co.'s venture on the Fife farm was in the fifth sand and making 20 barrels an

our. It is located on the extreme western edge of developments, and was considered so poor that several operators were unwilling to drill a well on it free of bonus. The old Matthews well is about a mile southeast of it, and the well which Rend & Co. drilled on the Stinkmeyer farm a short time ago is only a few hundred feet due east. The Stinkmeyer well is not making over 15 bar-

Brown Bros. & Robison's well, at Nobles town, on the McMurray farm, was not drulled any deeper in the sand yesterday, and it dropped off to about 40 barrels an and it dropped off to about at parreis an bour. The boiler was being moved back and as soon as possible the bit will be put deeper into the vay, when it is expected to make a big increase.

Already a number of locations have been

nade around it, and yesterday grades for rigs were being made in several places. Among these was one for Weixel & Co., on the Gold 12 acres, which adjoins the McMur-ray. Brown Bros. & Robison will put fown another well immediately on their ee & Forst's No. 2 Gladden will be

Greenlee & Forst's No. 2 Gladden will be in the Gordon sand to-day, and as it is located only a few hundred feet from the Moorhead well, it is already set down for at least a paying producer in the third sand. Gardnier, Kennedy & Co.'s No. 5, on the Mertz farm, in southwest McCurdy, should be in the sand this morning, as it was drilling immediately above it last night.

The Forest Oil Company's No. 1, on the Martha Wright, which was drilling on top of the fifth sand, has suddenly developed a strong gas vein in the 190-foot. The same company's No. 4, on the Shuffer farm, was drilling in the sand last night and showing light. Bloy & Curtis' well, on the schoolhouse re-brye ior at Laurel Hill, is good for about 80 arrels a day from the Gordon sand.

POOR GRADING OF CORN

Causes a Stiff Market in All the Near Fut ures-Wheat Drops 1 3-8 Cents for May on a Steady Day's Decline-Hog Prod-

ucts Irregular. CHICAGO-Wheat declined nearly all day and closed easy at bottom figures with a

loss of 1%c on May, the active future, com-pared with yesterday's last price. Besides being weak, the market was dull. About all of the news was unfavorable to holders, and discouraged longs were generally in clined to let go. There was good buying at the start around 90 cents, but it did not take long to satisfy the demand. May, which opened at 90% engainst 90% at the close yesterday, soon declined to 80%c. There was

rather free covering by shorts at the decline, and there was some investment buying with a reaction to 89%c. The market weakened again on free selling during the last hour, and closed easy at 89%c.

Corn was fairly active and showed a good deal of strength. The liberal export movement, the brisk Eastern and New England demand and the continued poor grading were all strong factors. A notable feature was the strength in the near futures, which are very close to May. This is because of the continued poor grading. February shows an advance of I cent over yesterday, closing within 1%c of top figures, while May closed unchanged after having been % cents higher. The advance was steady with very little reaction.

ANOTHER NEW TOWN.

Purchase of 360 Acres as a Site for a Manufacturing Center.

WEBSTER STATION IS THE PLACE.

Facts About Industrial Properties of Interest to Untsiders.

FEATURES OF MONEY AND SPECULATION

One of the most important transactions in outlying realty for a long time has just been consummated. Final papers were signed yesterday. The property involved consists of 360 acres, situated at Webster station, on the Pittsburg, Virginia and Charleston Railroad and Monongahela river, 33 miles above Pittsburg, known as the Heslep, Bradford-Allen and Castner farms. The consideration was in the neighborhood of \$108,000, or a little over \$300 an acre, which is considered reasonable, as over 200 acres of the tract are underlaid with coal. The object of the purchasers, whose names are withheld for the present, is to lav out and build up a manufacturing town. The transaction was accomplished through the agency of Kelty & Rogers, of the East End.

The Other Purchaser. The sale of the Dr. Dake property for The sale of the Dr. Dake property for \$90,000, reported in this column yesterday, was effected through the agency of Black & Baird. Mr. H. Childs was mentioned as one of the purchasers. It was learned yesterday that the other is Mr. G. J. Young, the Wood street picture man. The lots are the deepest on the avenue. Tenants were greatly exercised when they read the account of the transaction. Plans for the new buildings are now in the hands of architects.

Concerning Manufacturing Sites.

As will be seen by reference to the advertising columns of THE DISPATCH, several line manufacturing sites are on the market. No one desiring to locate in Pittsburg and share in its prosperity should be discouraged by reports that this sort of pro-perty is scarce. This is not the fact, as every well-informed citizen knows. It abounds both in the city proper and in the suburbs, and can be bought at prices all the way from \$500 to \$1,500 an acre, with coal, gas. rai!road and river frontage, and everything else necessary to cheap production and easy access to all the markets of the

The Eastern Idea. Here is an Eastern diagnosis of the speculative position. "The general public certainly is not in the market to the extent that many people think, but the holders of great wealth, both individuals and corporations, have for a long time been picking up prime stocks and fair to prime bonds. SPOTS THINNING OUT.

THE SHARE MARKET FAST LAPSING INTO DULLNESS.

London, Supposed to Be Rigged on This Side, a Prominent Factor-Buying of a Better Quality Than Selling, Hence Weakness Does Not Prevail.

New York, Feb. 2.-The dealings in the stock market confinue to show a decreased volume, and the activity tends to restrict itself for the present to spots which are paid special attention by the shorts or the bears. London was a factor in the market during the morning, and the selling was free in the specialties in which that center is interested. While there was a suspicion that the lower figures sent from London before the opening here were rigged from this side of the water, it seemed to have no immediate influence on the speculation.

Later in the day the covering of the shorts

became more pronounced, but all through the day the buying was seen to be of a much better character than the selling, and with the professionals ranged on the side of lower figures. There was a decidedly strong temper developed in the final trading. The feature of the late rise was Western Union, which continued its advance with a con-stantly increasing business, and at the close it was the most active stock in the list. The buying was believed to be stimulated by the insiders, and this fact had much to do with the strength of the general list at the time though in none of them was the improve ment of special significance.

The selling of Louisville in the forenoon

did not assume large proportions, and the impression made on the stock was no greater than that in any other part of the market, the concessions under the free covering being alike in all cases after the opening losses, which amounted to 1½ in New York Central, and large fractions in Union Pacific and Erie. The demand in the loan crowd was very marked, and the selling at the opening was soon seen to be for the purpose of buying stocks in different portions of the list, so that the temper of the market soon changed for the better, and while the advances in the forencom were slight in all cases, except Distillers', that security was suddenly advanced 2 per cent and as quickly let off over 1 per cent.

The movements in this stock, however, failed to affect the rest of the market. The other Industrials were strong, Sugar rising 2 per cent on small transactions. As the afternoon wore along the selling became less and less and the market drifted into positive dullness. The last hour, however, was marked by the awakening of a new demand, the shorts becoming specially cager in view of the strength in Western Union, while the impression made on the stock was no greater

prime stocks and fair to prime bonds. These securities they are able to, and do, hold very firmly, and as concessions come in the market they pick up more, having great confidence that the phenomenal conditions of prosperity now visible will bring about very much higher prices."

Business News and Gossip.

Home money is abundant. A Fourth avenue broker yesterday placed \$25,000 at 5 per cent flat.

Henry M. Long yesterday sold \$10,000 Troy Hill Traction bonds at above par.

The strongest features of the stock market vesterday were Birmingham and Duquesne Traction and Switch and Signal. Street talk, after the afternoon call, was quite bullish. Yesterday was a good day in the building line. Eleven permits were taken out, aggregating \$15,703. The most important were these: A. S. Davies, brick three-story store and dwelling, corner Boquet and Frazier streets, Fourteenth ward, to cost \$4,000: Mrs. Sophia Gross, brick two-story dwelling on Alger street, Twenty third ward, to cost \$1,700, John Zeigler, brick butcher shop on Butler street, Fffteenth ward, to cost \$2,000. Thomse Blackham, brick two-story dwelling and hall on Main street, Thirdy fourth ward, to cost \$2,000. Thomse Blackham, brick two-story dwelling and hall on Main street, Thirdy fourth ward, to cost \$2,000. Thomse Blackham, brick two-story dwelling and hall on Main street, Thirdy fourth ward, to cost \$2,000. Thomse Blackham, brick two-story dwelling and hall on Main street, Thirdy fourth ward, to cost \$2,000. The third attempt to sel the Government property on Penn avenue will be made about March 1.

Rev. N. Johnson, who purchased a lot a few months ago, has just completed a nice dwelling on it. He expects to build a church this year.

Andrew Castor sold \$5,000 Allegheny county light bonds at 103.

FACTS ABOUT LEMONS.

The Florida Fruit Not Popular in This Market-The Mediterranean Article Has the Call-Facts Secured From Deafers

Here.

It will be seen by reference to the home market column that bananas and oranges are dull with a tendency to lower prices, and fancy lemons are firm at advancing prices. A Florida correspondent, who is in the lemon trade, complains that our quotations in this line are that lemons can be delivered to the Pitts that lemons can be delivered to the Pitts-burg jobber at prices which will enable him to sell at prices much below our quotations. The writer looked up this question as to Florida lemons, and his investi-gations yielded the following results. There is tittle or no call in this market for Florida lemons. The call is almost entirely for Messina stock, which in quality and size of Messina stock, which in quality and size of boxes seem to suit this market. Said one of our leading jobbers: "Florida lemons come to this market generally in boxes containing from 150 to 200, while Messinas come in boxes containing 320 to 360 lemons. The former are thick skinned as a rule, and neither quality nor size of boxes suits our trade. We cannot get over \$3 per box for Florida lemons, and the markets are slow at this price. Fancy Messina lemons, on the other hand, are quick sale at \$4.25 to \$4.50 per box. We have frequent offers of Florida lemons, and would be glad to handle them if there was a market, but Mediterannean lemons have the call, and we are forced to meet the demand even though at the expense of the Florida fruit."

Brooklyn, Importers and Dealers in Dry Goods, was established in January, 1844 by Mr. Henry P. Journeay and Mr. Lyman S. Burnham, In the following year Mr. Hugh Boyd became a partner. nd the firm remained unchanged until the death of Mr. Journesy a year ago necessitated a reor

and for the high class of goods which it handles, has always been recognized, and its credit and that of the Company succeeding it, is the highest accorded by the Commercial Agencies of the country. It has over 50,000 patrons, not only in Brooklyn, but throughout the New England States, New York, New Jersey, Pennsylvania and Maryland, and extending as for South. Its career has been one of continued prosperity, the SALES FOR UPWARDS OF FORTY YEARS

the SALES FOR DPW-ARDS OF FORTY YEARS
PAST HAVING AMOUNTED TO OVER \$1,250,000 PER ANNUM. For the three months ending
December 31, 1891—the first complete quarter of
the Corporation—its gross business amounted to
\$36,965 17, being \$71,963 48 greater than the business of the firm during the same period in the preceding year. The net profits for the quarter were
\$37,777 18, being at the annual rate of 8 PER CENT
UPON THE CHAMON STOCK, 12 PER GENT
UPON THE CHAMON STOCK. UPON THE COMMON STOCK, and a surplus equal to 5 11-100 per centupon both, making in all 13 11-100 PER CENT UPON THE PREFERRED STOCK AND 1711-100 PER CENT UPON THE COMMON STOCK. It is, however, expected that the business will show a much greater increase after March ist, upon which date the Com-pany will remove from its present limited and inconveniently located premises on Atlantic Avenue to its new and ed advantageous location in the City of Brooklyn for a dry goods business. It is reached by seven different lines of street cars, is opposite the station of both Elevated Raiiroads and within two blocks of the Long Island Raiiroad station, whereas the present location is reached by but two lines of street cars. The removal is in response to a popular demand, and universal assurances of approval have been received of the contemplated change.

The Company is managed, under the control of its Board of Directors, by the surviving members of the late firm, aided by its well known, reliable and experienced staff of employees. Messrs. Lyman S. Burnham and Hugh Boyd, and Mr. John M. Conklin, for many years associated with the late advantageous location in the City of Brooklyn for

Conklin, for many years associated with the late firm, have entered into an agreement with the Company to remain in its service until July ist, last, and for such longer period as their services may be required.

The stock now offered is the balance of that issued by the Company to acquire the interest of the deceased partner. The eight per cent, stock which was offered in July last was largely over-sub-

scribed, and was allotted pro rata among nearly six hundred applicants. It is now quoted 106 ex-dividend bid, with no stock offered.

CONDITIONS OF SUBSCRIPTION
