NEW YORK, Feb. 4-[Special]-The Iron Age says: American pig-There are evidences again of a disposition on the part of sellers of Southern iron to shade prices. It is re-ported that stocks are accumulating and that financial pressure is making some con-cerns eager to place their iron. The Thomas Iron Company report a fairly good demand, having added about 8,000 to 10,000 tons of con-

tracts to their order booked during the past week.

Spiegeleisen and Ferro-Manganese—Nothing of consequence has been dwne in spiegeleisen, although it is expected that one of the large buyers will soon be in the market. IT IS A BIG OIL WELL

Brown & Robison's McMurray Making Fifty Barrels an Hour.

SOME WELLS DRILLED DEEPER

Three Light Fifth Sanders Which Were Finished Yesterday.

PRODUCTION IS STILL UNCHANGED The well of Brown Bros. & Robison, on the McMurray property at Noblestown, is making 1,200 barrels a day. It fully bears out the prediction made in THE DISPATCH.

when the fifth sand was first struck, that it would be a good well. ome alleged scouts who know all about wells on paper declared that it simply struck necket of eas and was throwing out Gorn oil, when it put 90 barrels into a tank

sil left in the fifth.

orly yesterday morning the gas was so mig that the connections were broken nearly 300 barrels escaped before the mage could be repaired. The operators owere skeptical at first regarding the blave no longer any doubt as to the protiveness of the fifth sand in this locality, are coing agend with all possible sneed. id are going ahead with all possible speed

complete wells around it.

The well of Guffey & Queen and J. M. Gufy, on the Mark Robb farm, was drilled
coper into the sand yesterday, but did not
better than 25 barrels an hour. The sand eved that they had struck a hard shell in

the sand.
Gardinier, Kennedy & Co.'s No. 5, on the
Mertz farm, in Southwest McCardy, was
four or five feet in the sand last evening and
filled up several hundred feet. The pay is
not found in the neighborhood of the Mertz
until the bit has penetrated the rock 8 or 10
feet, and the capacity of this well may not
be known before to morrow morning.

Another Western Well Due. aley Bros. expect to get the sand to-day No. 2 on this property is making 18 barrels to hour. These wells are located south of hose on the Wetmore farms. They are ouilding a rig for No. 3, on the Walker, ocated 400 leet southwest from the big Sam The Oakdale Oil Company is drilling a ocket out of its old No. I John Wetmore,

ich was a gasser, and will put it down to he flith sand.

Westhead & Co.'s No. I on the McFarland

lot, at Laurel Hill, is through the fifth sand and dry.

The Jelly Oil Company, which has had a rig completed just across the railroad from the station at Noblestown for several months, is preparing to rig up and drill their well to the fifth sand as a result of the McNurray well.

The Forest Oil Company's No. 7 on the W. C. Herron farm is in the fifth sand, showing for a light well. Their Sintler No. 4 is through the fifth and good for only 20 barrols a day. This company's No. 1 on the Martha Wright is drilling a few feet above the last sand. uffey & Queen's No. I, on the Nancy Bell, lown 100 feet. They drilled their Sam stmore No. I a few minutes yesterday and ought its production up to 100 barrels an ar. They are building a rig for No. 2 on

GRAIN LOOKING UP.

Nothing Interferes With the Inheren Strength of Corn, and It Advances Steadily-Bears in Wheat Think They Have Gone Far Enough for the Present. CHICAGO — Wheat opened quiet this morning and a shade under the closing figures of yesterday, and for a time showed slight tendency to weakness. Owing to lower cables there were free offerings, and May, after opening 1/sc lower at 88%c, touched say, after opening is clower at 88%, touched 88%. The discovery was soon made, however, that the offerings were being readily absorbed and the market began to harden. The Cincinnati Price Curren's unfavorable report of growing wheat in Kansas put a little strength into the market. Then came a dispatch from Minneapolis saying that 100,000 bushess of wheat had been taken there 100,000 bushels of wheat had been taken there this morning for export, and also that the

this morning for export, and also that the export euragements for three days were estimated at 300,000 bushels. Buying for a time was quite sharp, many of the early sellers trying to get back their wheat.

For a time the feeling was rather feverish, and there was a gradual advance to 89%ct, but the absence of any other buil news and free selling on the advance checked the upward movement and turned the market the other way, May going to 88%c. Renewed buying, however, sent the price up to 89%c, and closed firm at 89%c. The speculative element seemed to feel that it was nawiso to attempt to bear the market further on this break.

Corn was more active and strong. The price slowly advanced nearly all day with only one or two reactions, closing within a point of the top and at an advance of 3.0 Oats were quiet and firm, and show an advance of \(\frac{1}{2}c. \)

Hog products opened firm on account of the lighter receipts and higher prices for hogs, and advanced further in sympathy with the strength \(\frac{1}{2}n \) grains, closing generally slightly below the best figures, but at something of an advance over yesterday's last quotations.

TRADE OF THE CITY. Market House and Hotel Ideas in East Liberty Assuming Shape.

ENCOURAGING TO HOME SERKERS.

A Conservative Business Man Rises t Sound a Mild Note of Warning.

FEATURES OF MONEY AND SPECULATION

About a year ago a few enterprising citizens of East Liberty commenced agitating for a market house in that quarter. They believed it was necessary, and, besides, would be a profitable investment. They have been working up the scheme ever since, and yesterday one of the promoters reported that sufficient money was in sight to assure success. He added that the loca-tion had not yet been definitely decided, but as there were several good sites in the market, he thought there would be no trouble in making a choice. The same informant also stated that the site for the proposed hotel, of which previous mention has been made, is practically settled. It is on Frankstown avenue.

Better for Home Seekers. There are many things to encourage home seekers, which, taken together, make it much easier for a workingman to change from renter to proprietor than was the case a few years ago. Then owners seidom parted with property unless they got the money in hand or so secured as to be equivalent to spot cash. This made it hard for purchasers of limited means to meet payments as they fell due. Now all of the real estate agents are in a position to make ments as they fell due. Now all of the real estate agents are in a position to make terms to suit buyers. Then mortgages had to be paid in bulk. Now, by the liberality of one or more of the leading financial institutions of the city, they can be paid in installments. The change has been beneficial to all classes of home seekers, but most of all to working people, as it gives them every opportunity in the world to own the houses that shelter them. The change has also been of great benefit to the city.

as also been of great benefit to the city, hich, under its influence, is growing beond all precedent. yond all precedent.

A Note of Warning.

It is well enough to the all phases of the business situation and all views bearing upon it, and let the public sit in judgment. A former active member of the Stock Exchange, now engaged in developing oil territory, said yesterday: "I admit that business conditions and the temper of the people are bullish. There will, no doubt, be a heavy spring trade. The bulge may continue throughout the year. But I am afraid of a reaction. The abundance of idle money is to my mind a bad feature. It is a great temptation to extravagance, reckless specutemptation to extravagance, reckless specu-lation and overproduction. I do not say that these will necessarily follow, but I fear they will sooner or later. In any event, it will do no harm to put the people on guard. I think the danger point will be reached by July. The position of affairs then will decide the fate of the country for the next two

or three years."

The situation at Chicago seems to be that commercial affairs are running along so amoothly that it gives the appearance of quietness to the minds of bank officials, although when totals come to be examined it is seen that transactions are on an unusually large scale. The rate situation is unchanged. The effect of offers of New York capital to Chicago borrowers is being watched with interest. Some Chicago merchants have been offered New York money as low as 4 per cent, and, as the surplus in New York continues to increase in an astoundingly rapid fashion, the prospect of a pressure of New York money on Western borrowers is likely to be more pronounced. NEW York Feb. 4.—The stock market was again act /e to-day, but, as is usual of late, the increased business done was all due to the persistent attacks of the bears on the Industrial stocks, and incidentally some of the railroad list, though considerable buying of the Conlers was responsible for a great deal of the animation late in the day. The to be more pronounced.

At New York yesterday money on call was easy at 13462 per cent; instican, 134; closed offered at 2 per cent. Prime mercantile paper, 36556. Sterling exchange quiet but strong at \$4.844 for 60-day bills and \$4.87 for demand. nost severe drive was made at the market during the forencon, and it created a large short interest in nearly all the leading shares. Burlington, however, was the only railroad stock in which the transactions assumed any importance, and a proposed issue of convertible 5 per cent bonds by the company caused some investment selling of the stock. On the other hand, in the afternoon the market became stronger under the lead of Lackawanna, and with good buying in that stock, Reading, Western Union, Lake Shore and Louisville, New Albany and Chicago, the shorts became frightened for the mo-ment and covering was in order, with the effect of wiping out about all the early losses. The Industrials, however, were the losses. The Industrials, however, were the principal features of the day, and Distillers', after opening off a fraction, remained very feverish without yielding much for some time, but a most victous drive at it in the afternoon broke its price to 45½, against 50½ last evening. The Cordage stocks followed, and Chicago Gas, while not so active as usual, felt the effect, yielding nearly 2 per cent. The railroad list suffered only slight declines, with the exception of Burlington and New England, whose losses were over 1 per cent.

and New England, whose losses were over 1 per cent.

The remarkable strength and activity developed in Lackawanna in the last hour, however, pulled the whole list up again, and the early declines were in most instances recovered. Jersey, Central sympathized closely with the leader in this rise, but Reading, which had risen I per cent in the face of the early decline, was held at a shade under its best prices. Denver and Rio Grande preferred was also a strong feature of the early trading, and a sharp rise of about 8 per cent in Edison General Electric marked the final dealings. The rest of the market were traded in, as a rule, within narrow limits, though considerable activity was seen in a few.

The opening was fairly steady at irregular, but slight changes f. om last night's figures.

The opening was fairly steady at irregular, but slight changes f. om last night's figures, and the drive at the Industrials caused fractional concessions in the early trading. An advancing tendency was shown whenever the pressure was removed, however, and the rush to cover in the last hour brought almost everything up to last night's figures. The close was active and fign to strong at insignificant changes for the day. The only important changes are that of Edison Electric, which is up 5%, and Lackawanna, 3, while Distillers' is down 2%.

Total sales of stocks to-day were 418,392 shares, including: Atchison, 34,965; Chicago Gas, 27,076; Delaware, Lackawanna and Western, 28,655; Erle, 5,156; Louisville and Nashville, 16,160; Missouri Pacific, 3,760; Northwestern, 9,825; New Jersey Central, 3,440; Northern Pacific preferred, 4,514; New England, 13,920; Reading, 37,600; St. Paul, 25,220; Union Pacific, 10,439; Western Union, 19,080.

Railroad bonds quited down materially, the total transactions reaching only 2,335,000, but there was a firmer temper than for the last few days, and the important changes are almost invariably advances. Atchison incomes contributed 195,000 and Lake Shore fours 203,000 to the total, but the rest of the business was well and widely distributed.
