New Steel Rails Quiet and Unchanged and Iron Ore Prices Cut.

REPORTS FROM ALL THE IRON CENTERS

OFFICE OF THE DISPATCE. |
PHYSICES, FRIDAY, February 5. |
RAW IRON AND STEEL—The iron and tions are lower. Consumers seem to have disposed to wait and take the chances of the market for their next supply. In another part of this report will be found the January sales of raw iron, which reaches the aggregate of 173,995 tons, the largest sales for that month on record, exceeding January last year 88,933 tons. From this it can be perceived that consumers are certainly in a pretty good condition to hold off at least for a time. Under these circumstances the outlook is certainly not a very stances the outlook is certainly not a very favorable one, as nothing of an encouraging nature can be said of the iron trade at but the

Phenomenal Production of Pig.

Since our last report there has been a general slackening of trade and prices have been perceptibly weakened, while the production of pig iron still continues at a phenomenal rate. The demand is falling a little behind, and there are more sellers than buyers not only of pig iron but also in every other branch of the trade. At the same time this condition of affairs cannot last long; the stock of raw iron in the hands of consumers, at the present rate of consumpwill find it again necessary to enter the market for a supply of material to keep their mills in operation. Stocks of unsold iron are growing gradually, although the aggregate of the surplus is still small in com-parison with the great consumption. It must not be imagined that the consumption of iron and steel is decreasing, for the contrary is the fact; but the great increase in mand for product.
STEEL RAILS—The Louisville and Nash-

ville Railroad has placed un order for 6,000 tons rails with Carnegie Bros. & Co., the price being \$30 at the works. An order for the same amount from the same parties was placed with the Cambria Iron Com-

pany.

The President of a prominent Southern mill says: "I was in Pittsburg a few days ago, and in conversation with the manager of one of the most prominent iron works there he told me that the business has suddealy sprung into great activity, and for the last ten days orders have been pouring in, giving them all they can do for months to

An Eastern Firm Meets Competition,

The Thomas Pig Iron Company, one of the largest Eastern producers, announces a reduction of 59 cents per ton on foundry grades, but this merely signifies meeting gures named by competitors for some time past. The Eastern prices are: No. 1 foundry, \$17 00@17 50; No. 2 foundry, \$16 00@ 16 25; mill iron, \$13 50@14 50; these rates from \$1 to \$1 25 per ton above Pittsburg prices. A Philadelphia paper says a Pitts-ourg mill has secured an order for 2,500 tons of ship plates for San Francisco at \$1 85

The local feeling has been brightened by the increased trade in the manufactured products. The lessener Pipe Works have this week made contracts with Texas cities alone for \$400,000 worth of sewer pipe and there is a general increase in the demand.

FAIR RUN AT CINCINNATI.

Only Small Orders Reported, but Quite Good Many of Them. CINCINNATI, Feb. 5 .- [Special.] - Rogers Brown & Co. say: Dealers have enjoyed a fair run of orders for pig iron during the past week. They have been mainly small RAW IRON AND STREEL.—The iron and orders, and a good many of them. This steel trade shows no improvement, compared with the preceding week, but rather provide for immediate or early needs and pared with the preceding week, but the reverse. Prices for most descriptions are lower. Consumers seem to have quirements as far anead as possible. Some quirements as far anead as possible.

offerings are reported. Lake ore coke from an establect to a fair and steady demand, out hardly equal to the output. General influences continue backward and hesitating. There is a good deal of money everywhere, but the use of it is wanting. Bates at the banks are slowly declining, and it is a question how long the holders of idle funds will be willing to forego their earning power and retrain from making investments.

There is certainly a general absence of specularive feeling throughout the country, but conditions are very favorable for an outbreak at any time. Furnages are studying possibilities of lower cost, but this ground has been gone over in the past so thoroughly, under the pressure of necessity, that it is difficult to see how it can be materially cut down in any district in the United States. Nearly all producers are holding on, however, in the hope that the turn will come soon. If it should be much longer delayed, production will be materially decreased.

NOT A BOOM AT CHICAGO.

But Quite a Good Eusiness Is Being Done in the Coke Irons.

CHICAGO, Feb. 5 .- [Special]-Rogers, Brown productive capacity during recent years has been rather in excess of the consumptive deseveral instances deliveries have been through the entire year, and prices, even on these deriveries, have been shaded below bottom quotations. Other buyers are in the market fleuring on contracts extending over six to ten months. Charcoal irons remain for the most part inactive, various Lake Su-perior furnaces holding at \$17.00 as mini-mum, while two or three leading companies are refusing to sell below \$17.50 Chicago. As to the outlook, while zeneral business is good and consumption of from heavy there are no signs of any immediate improvement in the way of prices. Manufacturers have expected that at least a stiffening would take place before this time, but they have been disappointed. The market remains on the same general basis which has ruled Juring the past 30 to 60 days.

No Market at All at Philadelphia. PHILADELPHIA, Feb. 5 .- [Special.] - Rogers, Brown & Co. say: We believe in being frank and hitting the nail on the head. There is no iron market to report. No sales of moment have been made this week. We are hopeful-furnacemen are hopeful.

ABOUT AND AROUND.

Prosperous Condition of Towns Just Beyond the City Limits.

MOVEMENTS IN EAST LIBERTY.

Lumbermen to Hold a Convention to Discuss Some Leading Questions.

TALK OF A GREAT FRUIT GROWERS' TRUST East Liberty can always be depended upon for real estate news. That quarter of the city keeps up with the procession. J. C. Dick yesterday purchased 65x100 feet, with a brick building, corner of Penn ave-

nue and Beatty street, at a figure close to \$18,000. He expects to put a handsome dwelling on this lot in the spring. The American Mechanics have bought the adjoining lot, upon which they intend to erect a permanent home for themselves. Talk favors the lot on Penn avenue, adjoining the Kuhn property on one side and the Warmenstle property on the other, as the best site for the proposed Opera House. On account of the abundance of cheap money many urge this as a good time for consummating some, or all, of the many building schemes on Penn and Frankstown avenues. There are lively times ahead.

Pittsburg's Prosperous Colonies. Improvement in the outlying districts shows no sign of abatement. On the contrary, progress is visible on every hand. A gentleman went up to Kensington yesterday, and upon his return expressed astonishment at the change which had taken place since his former visit about a year ago. Then the only improvement was a farm house. Now there are between 300 and 400 dwellings and several industrial plants in operation. The phenomenal growth of Wilkinsburg is a matter of public notoriety. Homestead, Sharpsburg, Wilmerding, Ellwood-all are expanding so fast as to almost lose their identity to the casual visitor.

States to consider the question of the importation of Canadian logs, lumber and wood pulp, and to urge upon Congress the re-imposition of the duty on Canadian lumber, which was reduced by the McKinley act, has assumed definite shape, and it will be held in Washington on the 23d inst., immediately following the Convention of the Southern Lumber Manufacturers' Associa-tion of New Orleans Indications are that the attendance will be large. Pittsburg will send representatives. The outcome will be of great interest to all lumber dealers.

A Fruit Trust Next. It has come to light that the object of Mr. P. B. Armstrong's visit to California is for the purpose of organizing a great Fruit Growers Trust by consolidating the fruit farms in that State into one enormous association. The trust would take the property ciation. The trust would take the property at an appraised value, issuing stocks and bonds in payment for the same. Mr. Henry Morgenthau, the capitalist who so successfully managed the "Morgenthau Syndicate" deal in Levi P. Morton's Washington Heights property, is interested with Mr. Armstrong in the formation of the trust.

Busisess News and Gossip. Small houses are scarcer in Allegheny than in any previous year at the same season. Real estate brokers cannot fill half of the

orders.
S. R. Loomis has sold to John A. Garroway
a house and lot on Resacastreet, Second a house and lot on Resaca street, Second ward, Allegheny, for \$8,500.

Insiders in the Whisky Trust say that another reduction in the price of spirits will be made within a week, and that the next dividend is pretty certain to be passed.

The pace was too rapid for it, however, and slumped off to 23/4. The last offer of it was at 23/4. The rise and fall were so sudden as to suggest manipulation.

There was reason for the advance, but none for the decline. For Duquesne 24 was bid without bringing out a share. Central Traction improved its position, finishing at 28 bid. Switch and Signal was another strong feature. Luster and Philadelphia

Gas finished fractionally better than the opening.

Sales at first call were 70 Citizens' Traction at 61, 436 Birmingham Traction at 23, 50 Central Traction at 25. Be one call, 100 Birmingham Traction at 25. The only option sale was that of 100 Pitts-burg Traction, s. o. 10, at 50%. There was a strong disposition to trade under the new rule, as shown by the number of bids. A feature of the day was the sale of a block of new electric stocks the first on the floor. According to talk Piensant Valley will be the next boomer. Bids and offers:

day, and especially during the forencon they had a marked effect for evil on the market.

The Coal stocks, however, came to the front, and by their pronounced strength and sharp upward turns the general market was brought out of its condition of lethargy in which it had remained during the entire day, and a general improvergence in values occurred. The Grangers were rather sluggish throughout the day, and St. Paul was pressed for sale to some extent; but Louisville and Nashville responded to the changed condition of the foreigners and also to the disappointment of the bears over its good showing of earnings. Edison electric opened up to 104, but realizing on the advance caused by the new combination sent it back again to last night's price, and the other specialties were quiet and without feature during the entire day.

The general market opened active and higher, but the realizations in the Atchison securities and their material losses developed a drooping tendency in the whole list, and fractional losses were the rule. Distillers, however, after a decline of 1½ per centralied over 3 per cent and lifted for rest of the list slowly, and when the movement in the Coalers and Western Union began everything responded with more substantial gains. The fluctuations in the general list, however, were insignificant in almost all cases, and the final changes, while general advances, were without importance.

The close under the stimulus of the advance in the Coalers was very active and strong at the highest points. There were no declines of note, and Jersey Central and Delaware and Hudson each rose 2½ per cent; Distillers', 2½ Louisville and Nashville, 1½: Reading, 1½ and Lackawanna and Western Union, 1 per cent.

Ealiroad bonds were affected by the heavy realizations in Atchison incomes, but the latter, after dropping from 61½ to 59, recovered and closed unchanged at the

THE MONEY MARKET.

Bankers Encouraged to Hold Out for Full Interest Rates.

City bankers reported a moderate degree of activity yesterday, but no new features. Supply was in excess of the call, but there was no variation in the interest rate, in a regular way. As usual for some time there was some shading on the street. The good tions, which for more than a year back have tions, which for more than a year back have been difficult, have now become easy, and the West, which has suffered during the past two years, has been paying debts of long standing to the East."

At New York yesterday money on call was easy at 15,622 per cent; last loan, 15; closed offered at 2 per cent. Prime mercantile paper. 35,635,c. Sterling exchange quiet but firm at \$4.85 for 60-day bills and \$4.87 for demand.

A Decidedly Bullish Day on Wheat-Cables Very Favorable, as Is the General Sentiment on 'Change-Corn Continues Strong -Oats Quiet and Firm.

CHICAGO-The feeling on 'Change to-day n regard to wheat was more decidedly bullish than it has been for some time past, and a marked advance in prices was recorded. A sentiment seems to be growing among operators that after a shrinkage of about 300 per bushel in value since the high prices were made as the result of the European crop shortage, there is small ground to ex-pect a further marked decline, and that the time has about come for an upward move-ment. This sentiment was fostered by the day's news. Cables indicated advances at nearly all foreign points. Reports from India in regard to the crop to be harvested next month, said it would fall short of last

as they are at present. Choice dairy products are firm. Cheese is active at the advance already noted. Eigin creamery is steady at prices quoted. Country butter of high grade is scarce and firm. Fruits and vegetables of all kinds are slow. Poultry is in bountiful supply and markets are weak and slow.
