SPEAKER CRISP YET A SICK MAN.

He Tries to Put in a Day, but Is Forced to Leave the Chair.

THE FIRST DAY UNDER THE NEW RULES

WASHINGTON, D. C., Feb. 5.-The Census Bureau, its management, and the extent to which it has been subordinated to political ends were the subject of two hours' spirited discussion in the House to-day. While the discussion in a general way was the Census was not without supporters on the Democratic side-Representative Stone of Kentucky, being among the warmest champions of Mr. Porter's efficiency and official seal

For the first time this session the House met this morning with a code of rules to govern its procedure, but owing to a driving snow storm which visited Washington to-day, the attendance of members was very small. Speaker Crisp, who, though present vesterday occupied the chair for but a brief period, was in his place this morning, and called the House to order promptly at

Mr. Fithian, of Illinois, sent to the Speaker for reference a bill placing farm implements upon the free list. He wished to have the bill printed in the Record, but the Speaker declined to recognize him for the purpose of making the request at the

### Speaker Crisp in Bad Shape.

Speaker Crisp was very hoarse, and his voice was hardly audible. The calling of the committee for reports, which is usually made by the speaker in person, was dele-Speaker being desirous of saving his throat as much as possible. Finally he left the

Several reports were made from committees and placed on the appropriate calen-

The call of committees having been com-pleted Mr. Fithian, of Illinois, made his regulest that the bill introduced by him be pointed in the Record, and the request was

The House then went into committee of the whole, Mr. Richardson, of Tennessee, in the chair, on the census deficiency bill. Mr. sught a charge of extravagance against in administration of the Census Bureau. He said that hundreds of men and women who never ought to have been employed had been employed in that office at the instance of members of Congress. Had the Superintendent of Census been left to operare his bureau without pressure from the causide to put in office a large number of incompetent persons, the expenditure would have been very much less. Mr. Henderson, of Iowa-Do you refer to the number or the quality?

Mr. Sayers-To both. Lyslence in the Hands of Mr. Sayers. Mr. Henderson inquired whether the gentheman had any evidence to justify his

dr. Savers insisted that he had. That evidence had come to him from outside secrees. It had been stated to him that the salaries of incompetent persons had been largely increased. There had been a useless expenditure of public money.
Mr. Henderson contended that the office

contection.

This Mr. Savers declined to do, stating that from the information he had received

he could not indorse the declaration. Many employe who was drawing a salary \$100 a month was unable to discharge his shales. He believed that a committee should be appointed to investigate the adration should justify him in his statement almost unanimous vote at the meeting of to the extravagance of the bureau.

Mr. Dingley, of Maine, regretted that the releman from Texas had made charges mast the Superintendent of the Census at had never been made before the Comthe ou Appropriations. It seemed to on (from anonymous sources) should have been brought to the attention of the com-nective. He was sure that had this been core the minority of the committee would CARPENTER gives the have insisted that an investigation be made. A Charation for Committee First.

It was uniair to the superintendent that such charges should be made against him on the floor of the House. If there had been any mismanagement of the Census office; if employes were unfit to perform their these allegations were matters that should have been brought to the attention of the committee and not launched upon the House when the members of the committee could not have an opportunity of inquiring whether there was any foundation for the charges. He believed that the superintendent had laithfully performed the duty that had been intrusted to him. If the expenditure of the Census Burean had cen increased this was due to the fact that Congress and imposed upon it the new and anneard-of duty of inquiring into the private business of citizens and compellingm to disclose the amounts of their farm

Mr. Dungan, of Ohio, opposed an app oriation for the Census Bureau until the charges made against it had been answered estimatorily. It had been said that tons and tons of statistics had been destroyed after compliation, and that a lot of punchag amelines (the invention of a relative), which could be purchased for \$10 had been employed at a royalty of \$3.

Indiana Limestone a Factor.

Mr. Cooper, of Indiana, criticised the ceasus office on the ground that it had discriminated against certain limestone industries of Indiana and in favor of others. In the taking of the census great inaccuracy, if not dishonesty, had been committed, as far as the limestone countries were con-

Mr. Stone, of Kentucky, paid a high tribute to the ability and efficiency of the Smerintendent of the Census. Mr. Sayers, of Texas, offered an amend-

ment appropriating \$115,514 for the subsist-ence of the Sioux Indians, and calling upon the Secretary of the Interior to report to the House the names of all employes under the direction and supervision of the Indian Bureau. The latter clause of this amendment was the first reneral legislation to be incorporated upon an appropriation bill, but no objection being made, the amendment was adonted

The committee having arisen, the bill was passed. The private calendar was then tallen up for consideration, but no progress was made, and the House adjourned until was made, 12.45 a'clock to-morrow, when eulogies will be delivered upon the late Representative

### THE CHINESE PROBLEM.

Again Considerably Agitating the House Committee on Immigration.

WASHINGTON, D. C., Feb. 5 .- The House Committee on Immigration to-day further discussed the subject of Chinese immigrants, but came to no conclusion. There is an evident disposition on the part of the members of the committee to report a bill in relation to the subject at an early day. The sub-committee on Chinese immigration, appointed to-day and consisting of Messrs. Geissenhainer, Hare and Ketchum has arranged for a meeting to-morrow, with Chairman Stump and Representative Geary, of California, both of whom have introduced bills to prohibit Chinese immigration. The sub-committee

opes to report its conclusions to the full ommittee at a special meeting next week. Two other sub-committees were appointed to-day, viz: On European immigration, Covert, Epes, Funston and Coburn; on naturalization, Elliott, Fyan and Wright. Chairman Stump is ex-officio member of the three sub-committees.

WAYS AND MEANS SUB-COMMITTEES.

The Committee to Proceed at Once to Do Business in the House.

WASHINGTON, D. C., Feb. 5.-The House Ways and Means Committee ordered favorably reported a bill making Sandusky, O., a port of entry. Some routine business was transacted, but the principal business of the committee-that of tariff revision-was not even under discussion. The Chairman announced the appointment of the following sub-committees: On customs-Springer, Whiting and Burrows; internal revenue-McMillin, Shiveley and McKenna; reciprocupon the party lines, the Superintendent of ity and commercial treaties-Turner, Cockran and Reed; administration of revenue laws—Wilson, Stevens and Dalzell; public debt, Montgomery, Bryan and Payne. The tariff question will not come up before any of the sub-committees, jurisdiction over the subject being retained by the full com-

Mr. McMillin was instructed to move in the House on Monday that the House re-solve itself into committee of the whole for the customary reference of the various por-tions of the President's annual message to the appropriate committees of the House. All the private bills in the hands of the Committee on Ways and Means were directed to be reported back to the House for reference to the various committees having jurisdiction of private claims. This was understood to indicate the determination of the committee not to give considera-tion to private claims during this Congress.

## JUDGE WOODS' CASE UP AGAIN.

Owing to the Illness of Chairman floar It's Postponed Again.

WASHINGTON, D. C., Feb. 5.-The nomination of Judge Woods was under consideration again before the Senate Judiciary Committee to-day. Senator Turple brought before the committee District Attorney E. R. Sellers, who gave a detailed statement of Judge Woods' conduct during the Coy-Dudley prosecution. His statement was very conservative. It is said it did not bear hard on Judge Woods.

There were also in attendance in answer to subposnas issued at Senator Voorhees' request, Captain Ely Ritter, who was employed by the Committee of One Hundred to prosecute Coy and Dudley, and Nathan Morris, ex-United States Commissioner, who was also concerned in the Dudley case and issued the process against Dudley which Surers, of Texas, in charge of the bill, made was never enforced. Both of these witnesses told of their share in the prosecution and of Judge Woods' connection with it. Chairman Hoar was absent on account of illness, so the committee did not undertake to reach a decision upon the nomination to-

### A BILL TO PREVENT KITING.

How National Bank Scandals May Be Pre vented in the Future. "

WASHINGTON, D. C., Feb. 5.-The Fidelity Bank scandal, the Sixth National Bank in New York, and various other breaches of trust by national bank officers, found a cumulative echo to-day in a bill drafted by Representative Walker, of Massachusetts, which the House Committee on Banking and Currency authorized to be

favorably reported to the House.

The bill's title is "for the better control of and to promote the safety of national banks," that being the title of a measure introduced by Representative Harter, of Ohio, for which the committee to-day prohas been economically administered, and vides that national banks shall not make asked Mr. Sayers to bear him out in this loans to officers nor employes, except by a vote of the Board of Directors, and that re-ports of loans to officers of the bank shall be made to the Comptroller of the Currency.

Cession of Arid Lands to the States,

WASHINGTON, D. C., Feb. 5.-The prosition to cede the arid lands to the States, the House Committee on Irrigation, to-day. The method by which the transfer of the lands is to be made and the proper safe-guards and restrictions to be thrown around them to prevent their diversion into other uses than for the benefit of the settler, are matters that have not yet been determined upon. They will form the topic of discus-

CARPENTER gives the progress in the American Inter-Continental Railway in THE DISPATCH to-morrow.

During Our Fire Sale

We give you the chance to step into our store and select any overcont or ulster in the entire stock for \$13. This includes garments that are worth \$25 and \$30 and \$35 and for which tailors would charge \$50. This is no ordinary sale, but because of our late fire we are justified in selling off every garment at an enormous reduction, lower than any other clothier dare name. To-day you have our permission to walk through our establishment and pick any overcoat or ulster for \$13. It matters not what the former price was. None of these fine goods were damaged by smoke, fire or water.

P. C. C. C., Pittsburg Combination Clothing Company, corner Grant and Diamond

streets, opp. the Court House. Would You Buy \$1 50 for 98c?

Here's your chance. To-day Kaufmanns will close out 50 dozen men's celebrated Glastonbury cashmere undershirts and drawers, brown or tan, with silk front, always sold at \$1 50 and cheap at this price, always sold at \$1 00 and \$1.00 for the reduced figure of 98c.
