ELKINS TRUE TO HIS CHIEF.

Though He Finds a Paucity of Harrison Sentiment in New York.

NEW YORK, Feb. 6 .- [Special.]-Hon. Stephen B. Elkins, Secretary of War, had the busiest kind of a day to-day. Before his breakfast hour at the Fifth Avenue The following officers of Carl Heinzen | Hotel there were people waiting to see him. They all believed he was in town as the representative of the Harrison administration. The Secretary told a reporter something of his talks with ex-Senator Platt. "We talked about the weather," said the Secrerary," and about railroads and about President Harrison. Many newspaper men have called upon me asking me to explain the article in a morning paper of to-day declaring Mr. Platt to be unalterably and about railroads and about opposed to the renomination of Harrison. I declined to reply to their inquiries." Some of the Secretary's callers told him

plainly that the President was unpopular with the majority in his party in New York State. He replied that he had heard that such was the case, but in all his conversations he was loyal to his chief. He was here to listen to statements and to ascertain the facts, and not to express his own opinions. Colonel George Bliss and others have flatly announced that with Blaine the Republicans can carry New York State, and that with Harrison there would be a Waterloo. All this and much more was dinged into the ears of Secretary Elk-

BOOMERS TO INVADE THE STRIP.

They Base Their Action on the Theory That It Never Was Indian Land.

GUTHRIE, O. T., Feb. 6.-Boomers arriving from Stillwater and vicinity say that would-be Strip settlers, believing that Secretary Noble will not approve certain clauses in the Strip sale treaty, thus preventing the formal opening of the Strip this spring, have determined to move up on the land at once. Judges Green and Gray, of the Territorial Supreme Court, have both held that the Cherokees have had no title to the Strip except one of easement for pur-poses of passing, and that right, they assert, has been forfeited by non-usage.

In view of this the boomers claim that

by moving upon the Strip they will not violate the "sooner" law, inasmuch as the title to the land has always been in the Government, while the law referred to is with re gard only to land purchased from Indians. The boomers now say that within ten days there will be on the Strip 25,000 persons putting up dug-outs and preparing the ground for spring planting.

A Steady Upward Movement Noted Throughout the Country.

IMPORTANT EVENTS IN REALTY. A Lively Whirl in Business and Values on

the Local Stock Exchange. OFFICE AND STREET NAWS AND GOSSIP

The past week witnessed further improvement in the trade situation both generally and locally. Reports from nearly all the great business centers bear out this position. It was the best week of the year. Confidence was more pronounced and or ers on a more liberal scale. Locally there were a number of strong features. Bank clearings fell below those of the previous week, but were larger than last year. There was Supreme Manager Ganse is at Washington a more general demand for funds, showing an upward tendency of trade. Trading on the Stock Exchange was the heaviest since the break in Westinghouse Electric nearly Moltke Lodge of Allegheny, instituted in the break in Westinghouse Electric nearly January, has lê initiations on file for next a year ago, and prices for nearly all of the active stocks were marked up. Real estate, while characterized by no special activity, presented a strong front, backed by a substantial inquiry which means business. Results of the week show that trade is gradually enlarging. The plethor of money is opening up many new avenues of activity.

Another Cherry Alley Deal. Cherry alley mysteries are being picked up at a lively rate. Black & Baird closed the sale of another one of them yesterday, being No. 968 Liberty street, running through to Cherry, for \$24,500 spot cash. The purchaser is Mr. Stanislaus Zock, the Wood street caterer, who recently bought the Young property on Smithfield street. Immediately after the transfer the property was leased to H. A. Potzer for three years at an annual rental of \$1,800. Contemplated improvements in that quarter, heretofore mentioned, are said to be making cretofore mentioned, are said to be making good progress.

Taken at His Word. Ex-Delinquent Tax Collector Thomas Phelps has, in a rather unusual way, just disposed of a tract of about 30 acres in the Squirrel Hill district. He had put it into the hands of Ira M. Burchfield for sale. the hands of Ira M. Burchfield for sale. After the assessment of about \$60,000 had been made the agent took an appeal, and to back up his contention that the valuation was too high, with the approval of his principal, offered it for \$35,000. An investor, getting wind of the 'offer, hunted up the agent, and on being informed that \$35,000 would buy the property, he closed the deal at once, paying over \$500 on the spot to bind the bargain. It is understood the purchaser is William E. Howley, the railroad contractor. All who have spoken of the deal consider it a good investment.

One of the Finest. One of the Finest.

The character of the building to take the place of Colonade row, on Federal street Allegheny, according to reliable information, has been settled at last. It was stated some time ago that it would be a hotel, bu it appears that this idea was never enter tained by the owner, Mr. Martin. The pressing need for more business stands or that thoroughfare determined his action in the matter. He will erect a business block conforming the front elevation to that the Boyle building adjoining. It will be modern in all respects, and will be one of the largest and handsomest on the Northside.

Real Estate Men Moving. The real estate men of the country have

for some time been formulating a plan to place this important interest on a national basis. To further this end a national con-vention will be held in Nashville, Tenn., vention will be held in Nashville, Tenn., on the 17th, 18th and 19th of the present month. It is expected that papers will be read from such economists of national re-pute as Edward Atkinson and others, and from support invists on and others, and from eminent jurists on a number of ques-tions of vital interest to land owners and agents. A very energetic local committee has the matter in hand, and it is a safe prediction that it will be one of the largest conventions of its class ever held, and that it will be truly representative of American landed proprietors and capitalists. Large delegations will be in attendance from all the principal cities.

Big Figures at Forced Sale.

The Schmertz property, on Fifth avenue, near Book aliey, lot 23.6x240 in depth, sold at Sheriff's sale yesterday, brought \$145,000, or \$6,000 a foot front, the best price ever realized in the city, loot frontage alone considered. But if the great depth of the lot be taken into consideration it will not appear so steep, being about on a level with that paid for the Tradesmen's National Bank or for the Newell property. The fact Bank or for the Newell property. The fact of a forced sale at these figures shows that city realty occupies a strong position. It is worthy of remark that the consideration is more than the assessment.

Business News and Gossip.

Stock and real estate brokers were in good spirits at the windup of the week. It was stated yesterday by Mr. Quinn, the executor, that the Trimble property sold for \$15,000 more than the assessment for 1891. J. W. McIntyre has sold to M. A. Ross six J. W. Mointyre has sold to M. A. Ross six lots in Coraopolis, Dillon plan, for \$4,025. Thirty-two permits were issued during the week for the erection of the same number of buildings, aggregating \$60.235. Curb quotations yesterday afternoon were: Central Traction offered at \$23\cdot 200,000. Birmingham at 23\cdot 200,000 and Signal held closely to board figures. For Pittsburg Traction 50\cdot was bid for 100 shares.

shares. Two of the Cherry alley mysteries have been sold and another is cooking. It is evident the syndicate which gobbied it so voraciously made a mistake.

The speculative feeling is strong on distilers, and the tip is quite general that it is going up, and will probably be a strong feature.

McKeesport is to have a \$75,000 hotel. Ground for it will be broken in a short time.

Movements in Realty. J. B. Larkin & Co. sold for John Ballantine to Dr. John Kirker house No. 100 Arch street, Allegheny, being a two-story and mansard brick, containing ten rooms, with lot 25x120 feet, for \$15,000.

EXCITEMENT IN COALERS.

PRESIDENTS OF THREE BIG COM-PANIES IN CONFERENCE.

Reading Leads in Activity and Jersey Central in the Advance - The Ever Tenor and Strength of the General Share Market Is Not Affected,

New York, Feb. 6.-It was known to-day that the presidents of the Jersey Central Reading and Lehigh Valley were in conference, and this fact, with the addition that a large order to buy Reading and been placed in Philadelphia, a large portion of which was executed here and which was believed buying for control, made the coal stocks the one feature of the stock market to-day, and their enormous transactions and extremely rapid rise overshadowed the entire market without giving any of the strength manifested by them to the rest of

The general market opened strong but quiet, and after slight gains in sympathy with the Coalers, realizations and considerable short selling by bears who believe that the pace in the Coalers is altogether too fast, caused a full reaction, and the final changes in the general list are all for small fractions and general losses. The trading in Reading was something un

The trading in Reading was something un-precedented. Lackawanna was also ex-tremely active, but its transactions were far behind those of Reading. All the Coal-ers, however, were unusually active and strong, and Jersey Central took the lead in the upward movement, rising from 121 to to 120% and losing only a fraction from its best prices. Lackawanna rose from 145% to 152, while Delaware and Hudson and Read-ing were more moderate. ing were more moderate.

Distillers at one time showed a gain of 1 per cent over last night's price, but failed to hold it, and the other Industrials were to hold it, and the other Industrials were quiet and without feature. Among the railroad stocks Atchison and Louisville were inclined to weakness, but while with Erie and Western Union they were more active their fluctuations were unimportant. The rest of the market was absolutely featureless, and, while after the first spurt prices settled down slowly, the final rally closed the market firm, with great activity at insignificant changes for the day in most stocks. Jersey Central, however, is up 5½ per cent; Lackawanna, 3½; Reading, 3½ and Delaware and Hudson, 1½.

The total sales of stocks to-day were 356,670 shares, including Atchison, 17-03; Chicago

The total sales of stocks to-day were 356,670 shares, including Atchison, 17,035, Chicago Gas, 4,175; D. L. & W., 83,380; Deiaware and Hudson, 7,520; Eric, 9,250; Louisville and Nashville, 12,620; Northwestern, 3,400; New Jorsey Central, 16,250; Reading, 129,090; Northern Pacific pref., 2,520; St. Paul, 6,250; Union Pacific, 5,745.

Railroad bonds regained their firm temper to-day, and the Reading issues, as was natural, occupied the first place in the market, both for activity and strength. Out of a total-of 2,881,000, the first furnished 464,000; the seconds, 655,000; the thirds, 455,000, and the fours, 185,000, while the only other active issue was Atchison incomes, 210,000.

Forecast for This Week. John M. Oakley & Co. received the following: "Wall street dearly loves a mystery, and it is willing to pay for it. The cont stocks have been booming in a most sensational way, and many-directors of the comcanies whose shares have been rising are as much in the dark regarding the cause as the smallest trader who reads the news bulle-tins. Somebody knows and somebody is doing it, and as the pleasures of anticipation are greater than those of participation it is fair to assume that as long as the scheme is lazy the uncertainty will put prices higher than they will remain after the facts become public property.

public property.
"The razzle-dazzle in the coalers sent bears in a lot of other things to cover but they got their stocks, without any advance of consequence. The Atchison and Missouri their stocks without any advance of consequence. The Atchison and Missouri Pacific stocks were very weak as was also Union Facific, the latter partly on fears of a strike among the employes. The market next week will probably feel the adverse effects from the squeeze in the coalers as such rapid movement is over. The bank statement was the first for a number of weeks, showing a loss in its reserves. It showed a loss of two and a half millions."

was the consequence of panic and its usual attendant widespread bankruptcy. It is true that the Baring suspension and its surrounding circumstances were a sharp shock to business in all parts of the world; but there was nothing like the contraction of credit and the losses from failures that usually attend the great periodic panics. It was a shock, but little more; and its effect has been principally to great conservatism, to check really unsound enterprise and to eliminate wild speculation at a tew diseased spots in South America, a rather than to produce a general violent disorganization of trade and finance."

Good Trading, but the Figures Assum Lower Level. The past week was one of the best for nonths in the way of business, but the price underwent a radical decline, the finish vesterday being nearly 4 cents below the opening on Monday. GREAT GORDON WELL

The Faraday Well at Willow Grove Doing 18 Barrels an Hour.

ANOTHER BIG WESTERN WELL.

Benner Oil Company's Morgan Elliott Making 1,000 Barrels.

DEVELOPMENTS IN BUTLER COUNTY

The week which has just ended has been s remarkable one in the history of the Me-Donald oil field. New pools have been opened, new wells drilled and the field in general widened from two to three miles be-yond its former width. The field has taken a new lease of life, and promises to hold the fort for many a day to come.

Operators all through it are hopeful of striking big wells, and there are few who predict its speedy downfall. The town of McDonald is quieter now than it has been for months, but Noblestown and Oakdale for months, but Noblestown and Oakdale have captured the boom, and in these two villages energy is now a common habit. McDonald may revive again in the spring if the wells to the southwest prove to be any good/and, judging from the results at Greenlee & Forst's No. 2 Gladden, this will be the case.

Within the last ten days the big Sam Wetmore, the Mark Robb and the Fife wells have come in on the west, and are the centers of great activity.

On the east, Brown, Bobinson & Co.'s well on the McMurray and Alken & Co.'s two wells at Willow Grove have caused at least a score of rigs to be built on the esstern side of the field. It looks more as though the central part of the pool would be practically neglected and efforts made to develop the sides.

Gordon Well at Willew Grove.

The greatest feature of the field yesterday

The greatest feature of the field yesterday was Stafford Clark Wilson & Phillins' well on the Faraday lot at Willow Grove. It

reached the Gordon sand Friday afternoon and started to flow immediately. From o'clock Friday night till 8 o'clock yesterday morning it put out 400 barrels.

They are only in the sand three bits and yesterday afternoon it was making 614 inches in the bottom of a 250-barrel tank, or is barrels an hour.
This well is located southwest of the Wil-

developments in the lower part of the field, and as it was reported yesterday to be flowing at the rate of 1,000 barrels a day, it occasioned much surprise among the western operators. Friday night it struck the pay at about seven feet in the sand and made almost two tanks of oil before morning. It is located 2,500 feet justenst of north from the Devonian Oil Company's No. 4 Elliott, which is making 40 barrels an hour and 2,000 feet west of a 45 degree line running through the Elliott No. 4. The Devonian Oil Company's No. 5 Elliott, located midway between their No. 4 and the surprise scientific and reliable treatment on common sense principles. Benner Oil Company's well, is in the Gordon sand.

The Benner Oil Company has 90 acres in this lease, and intends to put several other wells as soon as possible. The Devonian Oil Company will also start three wells this week in the vicinity of the Benner well. The latter venture was purely a wildcat, and it extends the pool at this point at least three-fourths of a mile pearer to the setting sun. Values have incompany to the setting sun. Butler County Developments. BUTLEB-All the interest, oleaginously speaking, in Butler county, is centered in Pean township, near Brownsdale. The well was drilled to-day, but owing to the adamantine character of the sand the drill only advanced about one foot, making in all a depth in the sand of five feet. The well depth in the sand of five feet. The well gasses quite freely, which is considered favorable, and it is thought by to-morrow the hard cap will have been passed and the character of the well known. There are three other wells drilling beside the above well in different directions. One of these, the Farmers' Oil Company No. 1 on the Marcus farm, should be in the latter part of next week.

This well is located southwest of the Willow Grove station about 200 feet, and the same distance from Aikén & Co.'s No. 2 on the Patterson lot. It is the bigyest Gordon sand well which has been struck with the exception of Greeniee & Forst's No. 2 on the Giadden farm and the latter is at least two and a half miles southwest of the Faraday well. It is the largest well south of the railroad at Willow Grove by long odds, and already operators are negotiating with contractors to drill wells still south and east of the Faraday lot well.

S. S. Wilson, who is associated with W. L. Mellon in a big block property, said that the well would no doubt do better when drilled deeper in the Gordon.

The Willow Grove Oil Company's well on the Mankedick, southeast of Willow Grove, was not drilled deeper into the Gordon yesterday, as the boiler had not been repaired. It was flowing occasionally. The owners expect to be ready to start up Monday morning.
