## LIVE STOCK MARKETS.

Receipts at the Local Yards Lighter Than Usual, and

PRIME STOCK- IS QUOTED HIGHER.

Choice Beeves Are Reported Scarce at All

Shipping Points. HOGS HIGHER AND SHEEP SCARCE

OFFICE OF THE DISPATCH, PHYSBURG, THURSDAY, February 8. Markets opened at East Liberty Yards this morning with about 60 carloads of cattle on sale against 70 loads last Monday, and 90 loads the previous Monday. In today's receipts were 23 leads from Chicago, the balance being mostly from Ohio and Indiana. Quality of offerings was a shade better this week than last. There was one load of prime Chicago beeves, weighing 1,500 lbs, which was sold at \$5 30, the highest price paid at East Liberty A few loads of good Ohio eattle weighing from 1,425 to 1,475 pounds were sold at \$4.80 to \$4.90 per cwt. Buyers were not plenty, and markets opened strong at a shade better prices than were obtained a week ago. But with the exception of the sale noted above there were no beeves sold in carload lots as high as \$5 per cwt. A great scarcity of prime beeves is reported from all live stock centers. In to-day's of-ferings were 10 carloads of bulls, which were not in demand equal to supply, and markets were slow with a prospect that there would be necessary concessions in order to unlead.

#### Light Receipts of Fresh Cows.

There was a very light run of fresh cows the total being not much above a dozen leads. No fancy stock was offered, and the highest price paid was \$35 per head. Veal calves were in light supply, and were sold at last week's prices, the top being 6% per lb. There were 25 loads of hogs on sale at the opening of markets, against the same number a week ago. A few more loads were due later on, so that Monday's offerings amounted, no doubt, to about 30 carloads. Markets opened strong and active at \$5 10 for Philadelphias, an advance of 10c per ewt. on last week's prices. Sheep-Receipts, 22 londs against the

same number a week ago. Choice sheep and lambs were in good demand at last week's prices, and common stock was slow and a shade lower. Sales of sheep were reported at 5%c, and lambs at 6%c per lb. These were outside prices for fancy stock.

Receipts of cattle at Herr's Island Yards were light, and demand was active at an advance of 15c to 25c per cwt. on prices of a week ago. Best Chicagos sold at a range of \$5 35 to \$5 60, medium weights at \$4 65 to \$5 25, light weights at \$4 15 to \$4 65, common to fair thin steers, \$3 15 to \$3 75. Dry cows, bulls, helfers and stags ranged in prices from \$2.50 to \$3.50 per cwt. Fresh cows were sold at a range of \$25.00 to \$40.00 per head, and veal calves at 53/c to 63/4 per

per head, and veal calves at 51/2c to 63/4 per pound.

#### A QUIET MONDAY.

Frading in All the Grain Pits Dutl, With Sharp Up-Turn at the Last Hour-The State of the French Crop Causes the Change.

the market developed some strength, chiefly on the higher Continental cables;

weakened some, then made a sharp advance right at the close on a report from New

York that cables there said 40 per cent of the

York that cables there said 40 per cent of the French crop would have to be resown, and that Russian prices were growing worse.

May opened at 91@91½c, against 91½c at the close Saturday: broke gradually to 90½c; advanced to 91½c; weakened to 90½c; rallied to 91½c, and closed firm at that price.

There was little to affect the prices of corn, and the market was quiet during the most of the session. May opened ½c lower at 42½c on weaker cables and rather liberal receipts with improved grading; but one or two local storing and shipping houses bought freely, and the price gradually advanced to 42½c. At this point the large increase in the visible supply was made public and the price weakened to 42c. Covering by shorts, in estment buying and the late strength in wheat, however, caused a reaction, the price going to 43c, and the close was steady at 42½c.

Outs followed corn in fluctuations and closed with an advance of ½c.

Oats followed corn in fluctuations and closed with an advance of \( \frac{1}{2} \) c.

Hog products continued to exhibit the strength that set in toward the close of last week. The advance in the price of hogs is the leading element on which the growing confidence in provisions is based. It is said to be impossible to produce them at the current quotations while hogs command such high prices. The close shows an advance of 15c for May: lard and ribs, 5c.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 15 Sixth street, members of the Chicago Board of Trade:

FEATURES OF MONEY AND SPECULATION

The evening cotemporary referred to in this column a short time ago in connection with the purchase of a lot and the erection of a 12-story office building on Fourth avenue, has changed its base of operations to Fifth avenue, on account of inability to secure the Fourth avenue site. It has leased for a term of years the Schmertz building, which passed into the hands of Mr. D. P. Reighard on Saturday. The building will be remodeled, to some extent, and occupied about April 1. So the prospect of a skyscraper in Pittsburg the com-ing season has, in the language of the late James Fisk, "gone where the woodbine twineth.

Only an Investment.

The sale of the Phelps tract by Ira M. Burchfield to William E. Howley, the railroad contractor, gave occasion for considerable talk yesterday. The main facts in connection with the deal were given in THE SUNDAY DISPATCH. It should be stated, however, to remove a misapprehen-sion, that there was no idea of a lawsuit, nor was there any controversy, legal or otherwise, in the matter. Mr. Steele, whose name appeared in connection with the transaction, had nothing whatever to do with it. The statement that the deal was in some way a link in the projected Squirrel Hill Railroad is said to be entirely error. roneous. Mr. Howley bought the property

The case of Dort versus Nicken, recently decided by the New York Court of Appeals, involves the following state of facts. They are of interest to real estate people: A husband conveyed to his wife for the consideration of \$1 land which was subject to a mortgage, and afterward, without her knowledge or consent, procured a loan from a third party for the purpose of discharging the mortgage, which was about to be forethe mortgage, which was about to be fore-closed, agreeing that the wife should give the third party a mortgage on the land to secure the loan. The mortgage debt was paid by the husband with the money so lent, and a release was executed by the mortgage and recorded. The wife paid the fees for recording and obtained the release from the recording and obtained the release from the third party, who had taken it from the clerk's office after it was recorded. The Court held that the wife had ratified her husband's unauthorized promise, and that equity would compel her to execute a mort-gage to the third party for the amount of his loan.

ANOTHER BOOMING DAY IN SPECULA-TIVE CIRCLES.

Pleasant Valley Railway Comes to the Front as Leader of Activity-Philadel-phia Gas Starts Out on Another Bull

Campaign—The Field Broadening. Proceedings on 'Change commenced the week with a whiri which nearly carried the brokers off their feet. Sales were upward of 1,000 shares. The feeling was more pullish than any time last week. There were more

sellers than buyers.

Pleasant Valley led the market in activity, and was stronger in sympathy with the rest of the street railways. It looked as if the predicted boom in the stock had set in. Pifiladelphia Gas recovered its loss and started on another bulge. Orders were said to be largely of Eastern origin. Central heard concerning the Supreme Court decision. Switch and Signal was strong, but not quite up to Saturday's pitch. Luster and Airb.ake advanced a fraction. Electric showed a disposition to join the boomers. There was no special departure in other parts of the list,

Sales at first call were 110 Citizens' Traction at 61½, 100 Central at 29½, 620 Pleasant Valley at 2½, 53 Manchester at 39, 52 Philadelphia Gas at 14½, 10 Switch and Signal at 19½. Second call, 30 Pipeage at 7½, 15 Manchester at 39, \$1,000 Duquesne bonds at 9½, 100 Pleasant Valley at 23½, 100 at 23½, 10 Luster at 9½, 35 Switch and Signal at 20. Third call, 30 Litizens' Traction at 61½, 20 Central not quite up to Saturday's pitch. Luster and

## A WHIRL IN SHARES.

THE LARGEST DAY'S BUSINESS SINCE THE PANIC OF 1886.

Its Activity Mostly in the Coalers, Especially Reading-Erie Goes Hand in Hand With the Leader-Coal Road Securities Foremost in the Bond List.

NEW YORK, Feb. 8.-The stock market today was more active than on any day for years, and we must go back to the panie of 886 for a parallel to the enormous business transacted in both stocks and bonds at the Stock Exchange to-day. The Coal stocks were again the great feature of the day, and the unprecedented activity in Reading was not only maintained but surpassed the transactions in that stock, being the largest ever known on the Exchange. At the same time the late strength developed in the anthracite properties was fully maintained, and heavy advances were scored in all of for some time this morning there was

For some time this morning there was nothing in the market but the Coal stocks and Erle, which latter was also heavily in demand on the theory that anything which helped the Coal trade would be of benefit to the Erie. The transactions in these stocks were more than half of the total business of the day. The improvement in values was extremely sharp in the early trading, but with the diminution of the enormous trading prices became more settled, and, while the best prices were not reached until the last hour, there were frequent fluctuations in the downward direction. The extreme advance in Lackawanna reached 6½ per cent; in Jersey Central, 4½, and in Reading, 4½ per cent: Delaware and Hudson being more moderate in its changes, while Erie rose 2½. rose 2/s.

The strength in the Coal stocks did not

rose 2%.

The strength in the Coal stocks did not affect the rest of the list to any appreciable extent during the early trading, and the bears and traders were still disposed to hammer the general list, as usual, and in Union Pacific over I per cent was lost before the stimulus reached the rest of the list. The steady and unprecedented gains made the shorts uneasy at last, and as the morning were away more attention was paid to the Grangers, Louisville and Nashville and Northern Pacific preferred, as well as some of the low-priced and specialties. Prices began to rise, and before the close of business the early losses had not only been recovered but material amounts in addition, Burlington. Northern Pacific preferred, Union Pacific and some others being by turns remarkable for their advances.

There was a sharp reaction in the Coalers in the last few minutes, but while Lackawanna dropped from 159 to 157 itclosed at 158, with the others in proportion. The rest of the list was held well and the market closed active and strong generally at close to the highest figures of the day. The final changes in the general list are all large fractional advances, but Lackawanna is up 6½; Reading,4; Jersey Central, 3½, and Erie, 1½.

Total sales of stock to-day were 806,691 shares, including Atchison, 38,109; Chicago Gas, 7,500; Delaware, Lackawanna and Western, 54,200; Delaware, Lackawanna and Western, 54,200; Delaware, Lackawanna and Western, 55,00; Pala, 16,863; St. Paul and Omaha, 8,100; Union Pacific, 17,500; Western Union, 4,200.

As the coal stocks monopolized the at-

reports are more favorable; they offset almost exactly, perhaps a little more, the losses of the third week. The gain is 4½ percent for 37 roads.

Mr. Henry Villard, President of the Edison General Electric Company, is quoted as saying that the negotiations looking to consolidation with the Thomson-Houston Company were progressing rapidly and that there is every probability that a conclusion satisfactory to all interests concerned will be speedily reached.

Eliza C. Davis has sold to L. H. Willard two acres of ground near Sewickley for \$5,200.

The lead neople yesterday declared a quarterry dividend of 1½ on the new preferred.

A director of the Whisky Trust says the annual report of that concern to be made public at the April meating with the second stocks monopolized the attention in the stocks, the bonds of the Reading, with the help of Atchison incomes, furnished more than half of the total transactions in that class of securities. The strength, however, was all in the junior issees, and while the thirds rose 5 per cent to 49 and the seconds 3 to 19½, the others socred only small fractional gains. The rest of the list being completely overshadowed were firm without material change in prices. The total transactions reached \$5,22,000 and the Atchison incomes \$491,000.

The following table shows the prices of active the stocks on the New York Stock Exchange, 57 Fourth avenue.

THE MONEY MARKET.

Borrowers a Little More Urgent, but Supply Still Large.

is on the mend. This view is reinforced by the Financial Bulletin which says: "The improvement in commercial circles is indicated by an increase in loans and denosits." There was no change in the interest rate, Bank clearings were \$2,374 363 54, and balances \$466,670 67.

The New York authority quoted above says for the week ending Saturday: "The flow of money from the interior has proved to be not quitte so much of a feature this week, while the shipments have been heavier. Our banks are paying interest for as large an amount of deposits as they care to, so long as rates for money continue so low, and hence the rivalry to pile up funds has become a trifle less apparent in some quarters than it was. We may assume that this feeling has checked the inflow in some measure."

### SHIPMENTS TO THE BAST.

A Big Week for Railroad Traffic Owing to a Plentitude of Cars.

CHICAGO, Feb. 8.—Once more a gain is to be recorded in eastbound shipments, the statement for last week showing a total of 105,259 tons by all lines, against 96,812 tons for the preceding week and 75,467 tons for the corresponding week last year. This was caused ot so much by a stimulated movement not so much by a stimulated movement from the West as by an increased supply of cars with which to move the accumulation of freight toward the seaboard. The fact that the Michigan Central was open for the transportation of all freight offered, while nearly all its competitors were temporarily blockaded, enabled that road to outstrip all others in the amount of its tonnage. It carried 1,000 tons more than the Lake Shore or the Fort Wayne, and at least 5,000 tons more than any other road.

or the Fort Wayne, and at least 5,000 tons more than any other road.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines in the Central Traffic Association amounted to 71,753 tons against 70,997 for the preceding week, an increase of 755 tons, and against 40,550 for the corresponding week last year, an increase of 31,203 tons. The last year, an increase of 31,203 tons. The Vanderbilt lines carried 53 per cent of the traffic; the Pennsylvania lines, 24 per cent; the Chicago and Grand Trunk, 14 per cent, and the Baltimore and Ohio 1 per cent.

MINNEAPOLIS, MINN., Feb. 8.—The stock of wheat in private elevators at Minneapolis, as given by the Northwestern Miller, is 1,653,000 bushels, an increase of 179,000 bushels since tast Monday. The total stock at Minneapolis and Duluth were 18,029,334 bushels, a gain of 486,230 bushels for the week. The Market Record gives the stock in country elevators of Minnesota and the two Dakotas at 11,834,900 bushels, a decrease of 432,300 bushels for the week, against 7,954 000 bushels for the corresponding time in 1891. This makes the appropriate stock of wheat in the Northwest as given by the Northwestern Miller, is 1.653 000 aggregate stock of wheat in the Northwest 29,804,234 bushels, or only 54,020 bushels more than last week. One year ago the total stock was only 22,397,887 bushels.

The Drygoods Market,

New York, Feb. 8.—Woolen dress goods, fine brown cottons, wide sheetings, colored cottons, prints, ginghams and wide printed fabrics were in good demand. Men's wear woolens were in irregular request. The jobbing trade was more active in all departments. The general outlook seemed more promising, though business is still fraggy in some directions.
