A Sensational Vitrol-Throwing Case on Trial at Carlisle.

NEWSY NOTES FROM NEARBY TOWNS

PEPECIAL TELEGRAM TO THE DISPATCH.1 ERIE, Feb. 8 .- A few evenings since the trustees of the State Normal School at Edinboro held a meeting and summarily dismissed the principal, Prot. J. A. Cooper, but the latter refused to accept notice of the fact, having been employed for a year, and this morning refused to deliver up the keys. Prof. G. A. Langley, who was appointed principal pro tem, was refused the

principal's chair. Trustees Lewis and Haskins hastened to Erie, and an exciting time is expected at the chapel hour to-morrow. Prosecutions are threatened against the trustees, who are

bank officers, for conspiracy. The trouble was commenced last week through the issue of a number of executions against Prof. Cooper on claims trumped up by enemies, but which were promptly satisfied by Cooper. It is alleged the failure to have Cooper sold out and ruined led to the action of the trustees. The students attending the school are up in arms, and all stand by their Principal.

NEWVILLE'S VITROL THROWER.

A Sad Case of Domestic Infelicity Is Now

on Trial at Carlisle. CARLISLE, Feb. 8 .- The Newville vitrolthrowing case occupied the attention of the court for almost the entire day, and has proved to be far more sensational than anticipated. Cora Frey, a comely woman, aged 24, is on trial for pouring vitrol upon her husband while he was in bed asleep, and the offense is admitted. It is the result of three years domestic infelicity. They were married in Camden, N. J., years ago. They separated and then compromised their diffi-culties. In September the husband left

home, going to the home of his father. That night she asked her father to take her in, but he refused as he had compromised the former difficulty. She went at once to Frey's home and asked to stay for the night, and was permitted to room with her husband. That night she asked him to forgive her. He refused, and she then poured into his face an ounce of vitrol she had purchased the evening before. He was severely burned, but has since recovered. The woman is subject to hysteria, and the defense is that owing to her infirmity and the great provocation, she is not responsible for the rash deed.

The Board of Trade will take a stick.

CAUGHT BY THE MONEY MACHINE

A Buckeye Farmer Sees the Toy and Pays

\$500 to a Stranger for It. ALLIANCE, Feb. 8 .- [Special.] -Silas Lampson, a farmer living near this place, came into the city Saturday. A well dressed young man called on him, and drew from his pocket one of those toy money making machines, used by practical jokers. The young man showed Lampson that by placing a piece of white paper between two rolls and turning a crank, brand new money

could be turned out of any denomination.

Lampson has a son in Pittsburg who in Lampson has a son in Pittsburg who in jest had told his father of the phenomenal money-making machine shown him by a hotel clerk, and the elder Lampson's eyes opened when he saw the miracle with his own eyes. Lampson offered to buy the machine, and was told its price was \$1,000, \$5000 to be paid down and the balance when he received a consignment of the proper paper. The \$500 was paid over at once and the stranger left. Yesterday young Lamp-son came down from Pittsburg and jokingly told his father he had a wonderful machine, at the same time drawing one of the toys from his pocket. The elder Lampson then told how he had been victimized and they started after the stranger, who had hired a rig and escaped into the country.

SUING VON DER AHR

Detroit Magnates Want Vondy to Settle Up

for a Deal. St. Louis, Feb. 8.-[Special.]-Judge Dillon heard the testimony yesterday in the case of William J. Gray against Chris Von der Ahe. Messrs. John D. Johnson and Virgil Rule represent Gray. They seek to recover from Von der Ahe \$1,666 on an agreement en tered into July, 1899, by which the Detroit Baseball Association promised to release J. K. Virtue and W. H. Wheelock that they might go into the employ of the defendant. The Association had engaged the players mentioned for the season of 1899, and it is claimed that Von der Ahe bound himself to pay them \$1.666 if they would allow Virtue and Wheelock to come to him on July 4 for the remainder of the season. He did not employ them, and refused to pay the consideration which the Association claim he obligated himself to pay for their release. Judge Scott represents Von der Ahe. tered into July, 1899, by which the Detroit

Fulford Going to England. In a letter C. D. Fulford, the champion wing shot, says: "This week I close up work and disband for the winter. You know, of course, that at the request of friends I consented to shoot a match with Mr. Kleinman, of Chicago. His friends seem to think that all my shooting here at the East has been a fake, and as much as intimate that the matches have not been straight, and that the matches have not been straight, and that the birds were simply 'peepers.' Well, I hope they will keep thinking so long enough to put up \$500 or \$1,000 on the result. Mr. Brels-lord, of Harrisburg, had arranged for a spe-cial car, and a large party expected to go to Chicago. Brewer had consented to be of the cial car, and a large party expected to go to Chicago. Brewer had consented to be of the party, and expressed a good deal of pleasure at having a chance to meet some of the shooting cracks at Chicago. There was nothing from the Chicago shooters. It is all wind, so I have made all my arrangements to go to England and Monte Carlo. Will sail next week. Expect to be away until April 15 next."

published in an early issue. The performances
marked with an asterisk are those in a class of contest for which the A.A.A. have never quoted a

test for which 'the A.A.A. have never quoted a record.

The walking of H. Curtis, the amateur champion, last year was one of the leading features of the sthictle season. He made three new records on three successive Saturdays. On July 4 he walked two mile in 14:22-5: on July 11, one mile in 6:23, and on July 18, eight miles in 1:1:51-5. These records have, however, to be confirmed by the Records Committee of the A.A.A., who will hold their annual meeting shortly.

The action of this committee in the matter of the reputed records of Cary and Queckberner will be awaited with interest. Cary was timed as doing 10s. for a 10s-yard race at a little meeting in the North, and Queckberner has shown 'record' achievement in hammer throwing and weight throwing, but in exhibition only. Sponsors for these records may be hard to find, and their rejection will not greatly surprise us.

BUCK MUST PLAY BALL

If He Wants to Draw a Fat Salary and Remain in the Club.

NEW YORK, Feb. 8 .- [Special.] -- Buck Ewing is credited with the statement that he thinks he will be able to go behind the bat next season, and that it would be advisable to engage John Reilly to play first base. If Ewing made the remark, and there seems no reason to doubt its authenticity, it is full of significance, and furnishes strong evidence that the wily Buck is laying plans for another season of ease and luxury on the player's bench.

There is good ground to believe that Ewing will be unable to do the constant and hard throwing required of a catcher, while he might get along at first base without trouble. As a catcher he would be of no value to the team wintever, but at first base the nine would laye the constant benefit of his abilities as a field captain and batsman. A well based opinion exists that Ewing will give full value for his salary next season or else retire from the club. The days of drawing a fat salary in return for sitting on a bench are over, so far as the New York club is concerned. A statement has been going the rounds that Ewing's salary is guaranteed. There is no truth in it. Welch is the only player who has that sort of an arrangement with the club. reason to doubt its authenticity, it is full of

How Many of the Latter Lie in the Hotel Royal Ruins Unknown.

WORKMEN TAKING OUT CORPSES.

Sensational Surmises Current as to the Cause of the Fire.

NEW YORK, Feb. 8.—One hundred men are at work on the debris of the ruined Hotel Royal, and will be kept going night and day until they have completed the work of clearing away the rubbish, which will probably take about three days. How many bodies will be unearthed before the sickening task is complete, is, of course,

not now known. The firemen at 9 o'clock this morning found the sixth body, that of a woman, in a room on the fifth floor of the portion of the building still standing. At 9:20 the seventh body was found. It was that of a man. At 10 o'clock the eighth body was

found, also that of a man. Four more bodies were later uncovered by the workmen, but cannot as yet be taken out of the ruins on account of the heavy timbers lying over them. Then the body of a man was taken out. It was charred beyond recognition. It was that of a man 5 feet 7 inches in height, about 35 years old, dressed in dark clothes. The face had a dark mustache. A gold watch and chain were on the body. On the chain was a Masonic emblem bearing the motto "Love, Truth and Life.'

Finding Corpses by Piecemeal. Late in the afternoon the men found a foot in the ruins. At 3:50 o'clock a body was found. It was so badly burned as to be unrecognizable and was sent directly to the morgue. About 6:45 the eleventh body was brought to view. The legs were almost gone, the arms had been burned off and the head was crushed almost to a jelly. In the upper jaw a set of false teeth were found which looked like those of a woman.

Three of the bodies recovered from the uins during the morning were taken to the morgue. A deputy coroner came with them to ascertain the cause of death, orders having gone out that all bodies should be brought to the morgue and identified there Body No. 7, that of a man with arms across his breast and bowed head, as if to protect his face, was the first examined. He had evidently made a desperate effort to escape, as he had hurriedly dressed himself in trousers and wast not stopping to remove

By this time the number of persons seeking information or prompted by curiosity to visit the dead house, which was rapidly piling up with horrors, had increased to a mob. She is not expected to recover. Mrs. W. Lockard, of this city, who is suffering from internal injuries, is in a critical condition at the Geddes House. All the others rescued from the hotel, suffering from burns or other injuries, are said to be doing well. From a careful examination of the hotel register and journal, the number of persons in the building when the fire broke out was 152. Of these, 11 are known to be dead Eighty-one were rescued before the walls

collapsed, and the others are missing. The Possible Origin of the Fire. Victor Follerin, a waiter, who worked in the Hotel Rayal some time ago, gave, in an interview to-day, some interesting facts that may throw some light on the origin of the fire. He said that while he was working there it was the habit for rubbish to accumulate in one corner of the kitchen. The pile of rubbish, on three different occas caught fire, but was quickly extinguished by pails of water. Follerin believes that it was here the fire originated.

This morning it is also learned on good authority that Herbert Harding, the fireman of the hotel, who first discovered the fire, fought the flames 15 minutes before he raised the alarm. It is now said that he has confided this fact to a friend, and by the friend's indiscretion some of Inspecto Byrne's men have learned the fact and are One of the scrub women at the hotel also

The chef of the hotel said that one of his cooks may have left the grease pot on the stove, and that may have boiled over. The burning fat, in that event, could have set fire to the floor or wall or blazed up to the ceiling. The fire may have started in this way.
