The name and location of each and every applicant for any kind of liquor license filed up to the close of business last evening is appended. The names of those which will be filed before Saturday night will be reported daily in THE DISPATCH. The list follows:

having once been started, 'it was developed that there is a great deal of friction in the Cabinet, and that some changes may be exnected before long.

It is not believed that Mr. Blaine will stay to the end of the administration, unless he does so because he does not want it to appear that there are differences between himself and the President. Since the Chilean difficulty there has been a marked absence of cordiality between the Secretary and the President, and Mr. Blaine's family are known to be anxious to have him sever his connection with the administration.

The foundation of the report that Postmaster General Wanamaker will soon retire is much the same as that upon which the Blaine story was built. The relations between the Postmaster General and the President are strained, for reasons that are not perfectly clear at the present time, but it is said that politics has considerable to do with it.

#### Benjamin and John Are Ont.

In short, the Postoffice Department has not been used to the best advantage to further President Harrison's ambition to serve a second term, and Mr. Wanamaker appears to be indifferent whether or not Harrison is renominated. The former cordial relations which marked the intercourse between the members of the Harrison and Wanamaker families do not now exist. It is upon these facts that the prediction of Mr. Wanamaker's retirement was made.

The real source of trouble in the President's official family appears to be his own anxiety for a second term. Every Cabinet officer is expected to man a handspike and help keep the movement going. The President has come to admire the boldness with which Secretary Foster pulls the political wires, and he would be glad to have the rest of the Cabinet show the same spirit of enterprise. Foster has thus become the real political manager of the administration, and his methods have irritated other members of the Cabinet. These facts are slowly leaking out, and a reorganization of the Cabinet at Sany time would not be a surprise.

### The President Against the Field.

The long list of Republicans who have entered the Presidental race since Mr. Blaine announced his withdrawal has caused the President to fear a combination of the field that would destroy his own chances, and naturally he wants his Cabinet to do some political hustling.

It was Mr. Blaine's intention to retire from the Cabinet at the end of the year. Ever since his return from Bar Harbor he has realized that his physical condition would not allow him to properly attend to his dufies at the State Department, and this fact fretted him a great deal. He has remarked to a number of friends that he did not think it was fair to the President for him to remain in the Cabinet and not be able to do the work. It imposed upon President Harrison not only the work of the Chief Magistrate, but really the general supervision of the State Department. When Mr. Blaine began to realize this he at once decided to retire.

### Bisine's First Letter Never Sent.

The end of the year was fixed upon as the proper time to withdraw, and Mr. Blaine wrote a letter, giving at length his reasons for retiring, with warm words of praise to the President for his wonderful work in carrying out the policy of the administration. This letter also made 'the public announcement that he could not be a candidate for the Presidental nomination.

Before this letter could be made public the Chilean incident assumed such proportions that it was not advisable for the Secretary of State to make public his letter.

NEW ORLEANS, Feb. 10.-[Special.]-C. H. Fitzsimmons, brother of Fred Fitzsim mons, who committed suicide in the Parish prison last week, reached here to-day from Brockville, Ontario, for the purpose of taking the remains of his brother home, and will probably leave with them to-morrow.

Mr. Fitzsimmons said that the capture of his brother had caused some regret among the people of Brockville, as it was thought after having attained his liberty so long he would not go where there was any chance of capturing him.

"I was not surprised at the suicide of my brother," he said. In fact, it was the best think he could have done under the circumces. I was surprised at his capture, how ever, for I thought that having escaped the police so long, he had gotten out of the country. Fred left home when very young, and I suppose got into bad company, as he was a man of 37 at the time of his death, but for 18 years he hadn't been home, with one exception. His last visit home had been

in 1891, and for a very short time. "I have not decided what disposition will be made of his body, and will not until I find the condition in which it is, but it is probable that it will be cremated."
