and provisions was undeniably still unfavor-ably influenced by the threatened anti-option legislation, it was not so thoroughly domi-nated by it as it had been for the two days preceding. The early feeling was strong, but the feeling soon became vigorous. Later

some strong cables from Paris turned the market sgain, but the improvement did not hold. During the last hour, the feeling was dull until the close, when there was sharp buying. To-morrow is a holiday-Abraham Lincoln's Birthday-and there was a smart

Lincoln's Birthday-and there was a smart rally. May opened at 592,630%c, against S9c at the close yesterday: sold up to 199%c, back to 89%c: advanced to 90c; back to 89% rallied to 90%c: receded to 90c; back to 89% rallied to 90%c: receded to 8%c; advanced to 90%c, and closed steady at 8%c. Corn showed a good deal of the firmness at the start, largely due to the better tone in wheat, and May sold from 41% to 42%c; but there was not much activity, and hold-ers, owing to the uncertainty attending pending legislation, deemed it a favorable time to close cut, and sold freely. These offerings, with a drop in wheat, caused a weak feeling and the price went back gradu-ally to 42%c, the market growing dull with marrow fluctuations, and the close was stendy at 42%c, the same as the closing price of vesterday. is the center and distributing point.

equally large scale, and the extreme fluc-tuation of Jersey Central on a comparatively moderate business was 8½. Owing to the interest in the leading shares, the low-priced specialties were entirely neglected during the day. The market opened with great activity and at materially higher figures in most cases, Reading being up ½ per cent, and the erowd on the floor waiting for the sound of the gavel was the largest ever seen in any one hour since the foundation of the Ex-change. The excitement was intense, and the trading in the stock for the first quarter hour reached considerably over 100,000 shares. The price rose steadily in the face of the heavy realizations to 64, at which point it halted and went back; but in the late trading of \$% per cent at 60%. Jersey Central was more rapid in its move-ments, being rushed up from 130 to 135%, and it closed at 137 with a gain of 5 per cent. Delaware and Hudson were raised more rapidly in the late trading and closed at its highest figure, 15, with a gain of 5%, while Lackawanna, which was especially shuggish in the forenoon, was advanced sharply at the same time, rising from 157 to 163, but it closed 2 per cent lower with a gain of only 4% per cent. New England was very largely traded in and rose from 45% to 56%, and closed at 5%, with a gain of 4%. The most marked feature was the sudden extreme activity and strength in Ontario and Western, one of the four stocks whose sales reached over 100,000 shares, and its price was raised from 19% to 23%, and its final gain was 3% per cent. Erie, St. Paul, North-ern Pacific preferred and Atchison among the rainty as especially strong for a time, hast named was especially strong for a time, starting a branch of that establishment in this city, have purchased the bolt and nut works property between Forty-sixth and Forty-seventh streets, Eighteenth ward, at a figure close to \$20,000. One of these buildings will be for business purposes, the increase of population in that quarter making this a necessity to accommodate the people. the railroad stocks, and Chicago Gas among the Industrials, were especially active. The last named was especially strong for a time, crossing 80, but falled to hold the improve-ment. Rock Island was the weak point in the market during the forenoon, but it fully recovered its loss later and closed un-changed at 91. The general list was comparatively ne-glected and fluctuated within narrow limits, in market contrast to the few leaders, in which sales on the bulges led to sharp de-clines, but were always followed by equally sharp railies. The close was strong and confident at practically the best figures, and was made on an extremely large volume of business. Henry Smith, who a few months ago sold 70 feet of ground on Penn avenue, Law-renceville, to the St. John's R. C. congregation as a site for a church, has bought for about \$10,000 a lot on the same avenue, near Twenty-eighth street, upon which he has started three handsome dwellings.

The railway bond, market showed the same general characteristics as the share list, and, with enormous transactions in the leading issues, the grand total was run up to an unprecedented figure. The strength in those bonds, however, failed to stimulate any very marked gains in the rest, as a In New York the other day property Nos, 22 and 24 West Third street which was sold for \$135,000 at private sale in 1890 was offered at auction on the Real Estate Ex-change. The opening bid was \$100,000 and by subsequent bids the price was run only to \$132,000 and bid in. Three, four and five-story buildings stand on the lot, which is at the southeast corner of West Third and Greene streets. Property is cheaper at Avenue A and Seventy-first street, a twostory frame house and four lots selling at auction for \$24,400. The London markets by cable are re-viewed as follows: Speculation in Scotch warrants is yet almost at a standstill, and prices have remained stationary at 43s. In Contal's stores there are not 54 600 itons, 1,000 tons less that a week ago. Owing to the slackness of demand Scotch makers have re-duced their prices for shipping brands about 28, but the concession has failed to stimu-inte business perceptibly. Production con-tinues heavy, and the number of furnaces in blast has been increased to 77. Lyports of pil: iron last month were 40,000 tons, against 21,000 tons in January, 1891. Cleve-land warrants are firmer, advancing to 35: 10% under the influence of freer specu-lative purchases and more buying for con-sumption. Hemasite warrants have im-proved to 45s 7% d, but are not deals in with any freedom. The London markets by cable are re-

back. Isn't it likely to be the best? All the year round, as well at one time as another, it cleanses and purifies the system. All blood-poisons must go. For Dyspepsia, Biliousness, Scrofula, Salt-rheum, Tetter, Erysipelas, or any blood-taint or disorder, it is an unequaled remedy. It's the chaspest, too. With this, you pay only for the good you get. And nothing else is "just as good." It may be better—for the dealer. But he isn't the one that's to be helped. "Value received, or no pay,"—you can't get these terms with any other medicines, at any price.

NO CHANGE IN MONEY.

The Market Presents the Usual Features-

Selling for Cash. There was about the usual movement at the city banks yesterday. Demand was below supply, but in view of better times coming lenders were not discouraged. A cashier said: "One reason for the big sur-plus we hear so much about is that merchants are making very little paper. They seem to be buying for cash and selling for cash." The 6 per cent rate was main-tained. Bank clearings were \$1,945,579 G. Selling for Cash.

Groceries.

The movement in this line is slow and prices are unchanged. Package coffee and canned goods are the firm factors of mar-kets. Canned corn and tomatoes are firm enough to go higher and all signs point to an advance.
