CARPETS.

The prices we are selling all our Carpets at, we are making a present of a cash equivalent on every yard. A second inducement to buy now: We will make and lay the carpets sold free of charge.

We guarantee lower prices and better terms than you will be able to secure anywhere.

NEW ADVERTISEMENTS.

Many people have asked us (and not unreasonably, either) how is it you get so many elegant, stylish, useful goods, to sell at so much lower prices than we can buy same class of articles for anywhere else? Our answer is plain, simple and of easy understanding. Suppose a manufacturer produces \$100,000 worth of goods, sells, 'say, seven-eighths of them at a fair profit, but the other eighth won't move, sticks fast-what's he going to do about it? "Wait till something turns up?" Not a bit of it. If the goods are worth \$1 each, and he can only get 25c, and that quarter spot cash, he's ready to take it every time. On the whole, the maker has cleared a satisfactory enough profit. Now, as most of you know, we're ever on the watch tower after "sich." We secure the merchandise at from 50 to 75 per cent less than its intrinsic value. We make a small but very quick profit, and the cash-purchasing public, as usual, reap a big, big benefit. See how it's done?

Mrs. Duffy doesn't want to live vide for the family, but if he could not live with her he was only willing to give her \$5 a week and let her support the children. He also offered to provide for their education and support, the boy at St. Vincent's College, Latrobe, and the girl at a school in Columbus, O. This, it was shown, would cost him \$400 a year. Lizzie's henchman insisted that Terrence should pay more and live separately from his family, claim-ing that he was violent and that the wile should not be compelled to live with him when she was in fear of her life. Judge Porter took no stock in this story, stating that Lizzie had not made out her case.

As to whipping the boy Duffy was al-lowed to make an explanation, and he said he had given the boy a rather severe casti-gation because, when his mother had sent m for the weekly allowance of \$5 agreed upon, he spent the money and did not report, and then borrowed more, which he (Duffy) had to pay. The boy acknowl-edged the corn and the Court opined that such a boy was not in-jured by flagellation. Mr. O'Donnell, Duffy's attorney, stated that Duffy had oftered to provide for his wife and family in

good style, but that she utterly refused to live with him. The conclusion of the whole matter was that, as the Court considered the 18-year-old girl rather too young to be sent away to school, Duffy might continue his own arrangement for the present, pay \$5 s week and go on his own recognizance, and Lizzie was forced to acquiesce. John Bereslord, of McKeesport, was arraigned for non-support for Mrs. Beresford. The combined ages of the pair would probaaly be somewhere between 30 and 40 years and they have two children. John ad-mitted that his income was \$2 a day and said he would support them if Mrs. Beres-tord would abstain from going to dances, or otherwise make arrangements to give him his supper when he came home from work. He said he told her she'd better go and she went. As the case was complicated by the charge that John had threatened to break his wife's neck, he was required to give her 52 a week and give security in \$1,000 to do sa

MUST GET OFF THE STREET.

Judge Slagle Reverses the Decision in the Verona Case.

Judge Slagle yesterday handed down an epinion in the case of Verona borough against the Allegheny Valley Railroad Company. The suit was brought by the borough to restrain the railroad company from taking a portion of West Railroad avenue on which to build a freight house. The company claimed that the street was never properly opened. The master in the case held that act of Assembly requiring the ordinances to be published and filed with the borough regulator had not been complied with the ordinance having been filed with the Burgess. He therefore ruled that the street had not been legally opened and the railroad could therefore construct in dense. its depot.

Exceptions were filed, however, and Judge Single reversed the master. He de-cided that as the borough had no regulator the filing of the ordinance with the Burgess was a compliance with the law, and the other proceedings in the opening having been legal, the opening was legal and valid. He granted an injunction restraining the company from occupying the street.

Struck by an Unlucky Car.
