the cities, where the \$1,000 license fee is required. There seems to be an increase in the retail applicants from the districts outside the cities. When the License Court, on the third Monday of March, begins hearing license

applicants it will have to consider 1,475 retail applications, 229 wholesale, 43 bottlers, 25 brewers and 3 distillers. Last year there were 1,501 retailers, 329 wholesalers, 63 bottlers, 32 brewers and 3 distillers, The fact that the Court this year will have the same discretionary power with regard to wholesale applicants as they have had with retailers no doubt accounts for the drop of 100 in the number of wholesale applicants.

### Dealers Who Became Reckless,

The same reason is given for the decrease of 20 among those applying for bottling license. It is said that a number who en-joyed either wholesale or bottling license this year have been flagrantly violating the new wholesale law ever since its passage, because they knew it cut them out of secur-

ig another license. The decrease in the number of retail applicants is only 26, but as stated before, there is a slight increase outside the cities and the decrease is altogether in the cities. The drop of seven in the number of brewery applications is partially accounted for by the fact that last year Robert Liddell and the William Tann Brewing Company's business was in an unsettled state, and in order to provide for any condition that might arise they had four applications. Neither Richard Gangwisch, the Allegheny rewer, nor the Vesser brewery at Chartiers

are applicants this year. An attorney, in looking over a number the applications filed vesterday said that if rt is inclined to be critical this year a good many of the petitions for license will be thrown out because of the careless man-ner in which the papers have been drawn p by the attorneys. As an instance he icked up the petition of Nicholas Klinkler, of 117 Southern avenue. Mr. Klinkler, of 117 Southern avenue. Mr. Klinkler wants a retail license, but his application is made out on a wholesnle blank, which differs from the retail form. Other defects equally serious were noted.
