LEGAL INTELLIGENCE IN CRISP FORM

Attorney D. F. Patterson has filed the

answer of the defendants in the suits

against F. R. Schmidt and 34 others,

brought by G. W. Russ, through Attorney

A. Blakeley, to recover the penalty for

selling oleomargarine. In the answer it is

admitted that the defendants had in their

possession and sold oleomargarine to Russ.

The article, however, it is said, is whole-some and was manufactured in Illinois, and

was sold from the original packages, labeled

oleomargarine. The act prohibiting the

manufacture and sale of oleomagarine in

Pennsylvania, it is contended, is unconsti-

tutional, because it is defective in its title.

purchase the article in the ordinary course

of trade for consumption and use as food, but in pursuance of an unlawful combina-

tion and confederacy between Russ and A.

Blakeley, Esq., whose name appears as coun-

sel for Russ, for the sole purpose of setting

up a cause of action and coercing the de-

fendants to pay money for the benefit of

Russ and Blakeley, and not for the purpose

of enforcing the law and preventing the sale

of the article. As evidence of this combination it is al-

leged that Blakeley appeared as counsel for Brown Calley in ten suits brought by Cal-

lev in 1891 against persons for violating the oleomargarine law. Five of the cases were

settled by the payment of \$150 in each case to Blakeley and Russ, although the penalty

to binkeley and ituss, although the penalty in each case was \$500. The receipts for the money were signed by Calley and attested by Blakeley. They set forth that for a con-sideration no turther steps would be taken

in the case nor any other prosecutions made against those persons for violating that law.

They are confident of being able to furnish the oil, but if they agree to deliver so many thousands of barrels for a year at 60 cents a barrel the market is almost certain to ad-vance, and the producers who would not be in the combination would reap the benefit. Those who were supplying the manufact-urers would simply be out the difference be-tween the market price and the price for tween the market price and the price for which they had agreed to deliver oil in Pittsburg. CUBA'S VARIED TROUBLES.

Reducing Government Expenses Playing the Mischief-Brigands Let Loose,

HAVANA, Feb. 17 .- In the efforts of the epresentatives of the Spanish Government officials to carry out the plans of Min ister Robeldo to reduce the general expenses of the island, the most important branches of the public service, the post-offices and cable and telegraph, seem to be the first to be attacked by reducing the employes to such a small number as to require many more hours for the distribution of the mails and the transmission of messages. In the box department at the postoffice, where five men had all they could do formerly, only two are now employed, and in the telegraph about one-half the force has been dis-missed, so now it takes from six to ten hours to send a message to Cuba and get an answer. The whole distance is 300 miles. The brigands, who in the death of their amous leader, Arturo Garcia, were supposed

to have been entirely exterminated, are not yet suppressed, as within a few days two of these outlaws made their appearance at the abandoned sugar estate "La Amiba." This This is very unfortunate, as just now a large number of Americans and other tourists are

daily arriving here with the expectation of passing the cold months of the winter in our more genial climate. They will hardly teel safe to travel about the country. The weather is very cold for Cuba. Mercury is down to 68° at night.

relative to the leasing of State lands for oil and gas purposes, so far as that body is con-

his license was revoked. Mary Hickey was convicted of selling liquor without license and on Sunday.

Denies the Charge of Crnelty.

Mrs. Catharine Zeller yesterday filed an answer to the suit for a divorce brought against her by Charles Zeller, Jr. They were married September 27, 1887. Mrs. Zeller denies that she treated her husband cruelly, but on the contrary says she was a good wite. Her husband, however, ill-treated her and, she alleges, choked and beat her, and on August 6, 1888, deserted her. She instituted proceedings against him and the court ordered him to pay her a monthly allowance. She states further that in 1890 Zeller sued for a divorce from her in Common Pleas No. 2, but the court refused the divorce. She asks that the present suit be also dismissed.

Briefs of the Courts.

THE suit of J. C. Boyle against Tutia Browarsky, to recover for work done, is on trial before Judge McCiung.

THE jury is out in the case of Williams & Harger against Wilbert & Bro., a suit on an agreement for commissions.

In the suit of Phillips, Dunn & Co. against the Rock Torpedo Company, for damages for injury to an oil well caused by a prema-ture explosion of a torpedo while "shooting" the well, a verdict was given yesterday for \$2,500 for the plaintiffs.

OCTAVIUS J. SMITH, yesterday entered suit against N. B. Richardson, for \$5,000 damages for alleged false arrest. Smith alleges that on January 16, 1892, Richardson falsely charged him before Magistrate McKenna

from Paul Eudert, of Tarentum, on the in-stallment plan. He failed to pay the incovery of America to be held in the public schools of the whole country October 12, 1892. The resolution ask teachers to do all in their power to make the cele-bration a success, and requests the news-papers to lend their co-operation; that the various State Superintendents of Education should form a general committee on the subject, and that an Executive Com-

mittee of five be appointed to arrange a fitting programme for the simultaneous school celebration. The resolution was adopted

adopted. Frank A. Fitzpatrick, Superintendent of Public Schools at Omaha, read a paper on what is the duty of the State toward chil-dren of kindergarten age. Mr. Fitzpat-rick favored the extension of the school age from 6 to 415 years, and the establishment of bindergarten age. additional school age kindergartens as adjuncts to the public schools by legislative enactment.

NO RECIPROCITY WITH MEXICO.

Negotiations Suspended Since December, and a Renewal Is Improbable.

CITY OF MEXICO, Feb. 17 .- One of the most prominent personages in Mexico said recently that reciprocity with the United States was improbable. When asked his reason, he replied that the negotiations had been suspended since the end of December on account-of difficulties in regard to the question of cereals. The" United States made attempts to secure exemption from the duties, or, at least, a considerable re-duction on American wheat, corn and flour. It may safely be said that Mexico will not increase the concession made to the

United States. The general public feeling is opposed to special commercial treaties, and there is now considerable opposition because part of the American press has been attacking Mexico, it is claimed, unjustly.

EDWARD FIELD INDICTED AGAIN.

He is Charged With Securing \$75,000 on a Bogus Bill of Lading.

NEW YORK, Feb. 17 .- The sixth indictment against Edward M. Field, of the defunct firm of Field, Lindley, Weichers & Co., was filed to-day by the grand jury. The indictment charges forgery in the second degree. The indictment is predicated on a bill of lading which Field is said to on a bill of lading which Field is said to have forged and secured money on. The complainants are Frank E. Johnson and Henry Hague. Mr. Hague charges that Field, on this bill of lading, together with another transaction, which will be in-vestigated by the graud jury, secured some \$75,000.

The Defense Rests in the Curtis Case, SAN FRANCISCO, Feb. 17 .-- In the Curtis trial to-day the defense announced quite unexpectedly that they rested their case. Prosecution asked for time to prepare testi-mony in rebuttal, and Judge Troutt con-

tinued the case until to-morrow.

Another Rebuff for Phoebe CHICAGO, Feb. 17 .- The World's Fair Board of Control has declined to pay the bill presented by Phoebe Cousin for print-ing the minutes of the first session of the Board of Lady Managers, while she was secretary of the Board.

It has a minute pressure of almost 250 pounds, and its price was more than four times the cost of drilling the well. C. D. Robbins has sold a one-half interest in the J. I. McMichaël farm, adjoining the Martha Wright on the west, to the Forest Oil Company for \$10,000. J. M. Guffey owns the other half.

Nitro-Glycerine Shooters Busy.

The nitro-glycerine men in the McDonald field claim that they are busier now than they have been at any time in the his-tory of the pool. The producers are using every effort to keep up the production of their wells and instinctively resort to glycer-ine. It has little effect, however, on wells which have been his noderers and the which have been big producers and then suddenly stopped. Where a well produced thousands of barrels a day for weeks and months it naturally drained all of the sand months it naturally drained all of the sanu for hundreds of acres around, and all the glycerine which could be poured into the hole will not bring it to life again. SISTERSVILLE-Shay & Smith's well in SISTERSVILLE-Shay & Smith's well in

Sistersville is in the sand and showing for a small well. It is filled up with salt water, but they are drilling for a third pay. If it is not found an effort will be made to exhaust the water by pumping. It is the second well on the Virginia side of the river at this point. Mellon Declares It Was a Fake.

There have been many stories going the rounds among oil men recently in regard to pipe line deals. They have all been not only mysterious, but turned out to be mythical. mythical. The pinnacle of imagery was reached, however, yesterday when a morning paper published a story to the effect that the Standard Oil Company had offered W. L. Mellon & Co. \$4,000,000 for their in the standard offered with the standard offered with the standard offered with the standard stand their pipe lines and oil territory. The offer was reported to have been refused, as Mel-lon & Co. were said to be unwilling to part with their holdings for less than \$5,000,000.

The story created considerable comment smong producers who had contemplated hitching on to Mellon's lines. They were inclined to hold off until the story should be denied or verified, as one of them said: "We do not want to connect to Mellon's lines and then be dumped back immediately into the Southwest Pennsylvania lines."

When asked about the report last even-ing, Mr. Mellon replied: "It is a fake, pure and simple. There have been no negotia-tions between the Standard and myself, and I do not know what gave rise to the re-

A pipe line man said, in speaking of the story: "In the first place the figures are en-tirely too high. Four million dollars would almost build two pipe lines between this eity and the seaboard, with everything com-pleted. Mellon's lines are only local ones, running between Pittsburg and the McDon-ald oil field, with two or three small pump stations and a few tanks. The Standard would never pay the price quoted for such an outfit."

The Oil Fuel Scheme Discussed.

The plans of the producers in regard to pumping McDonald oil to manufacturers in pumping McDonald oil to manufacturers in Pittsburg to be used as fuel, as published Tuesday in THE DISPATCH, are being taken up and indorsed by a cotemporary which could not see any news in the scheme until it was ventilated by this paper. It is the large producers, those who have stocks stored up in the field, who are the atrongest advocates of the plan. The de-tails have not yet been fully completed, and cannot be until a definite arrangement can be made with the manufacturers. In the

Supreme Court by a citizens' committee on the plea that any person has the right to file information against another who is alleged to be breaking the laws of the State.

Northwestern Stocks of Wheat.

MINNEAPOLIS, Feb. 17 .- The Northestern Miller reports the stock of wheat in Minneapolis's private elevators at 1,527,000, a decrease of 126,000 bushels. The total stock at Minneapolis and Duluth is 18,407,-637 bushels, some more than last Monday. The market Record gives the stock of wheat in country elevators of Minnesota and the two Dakotas as 11,671,000 bushels, against 11,834,900 a week ago, and 7,806,000 in 1891. This makes the aggregate Northwestern stock 30,078,632 bushels, an increase for the week of 214,398 bushels. A year ago the total stock was only 22,304,000 bushels.

Polish Nihilists for Siberia.

WARSAW, Feb. 17 .- A large number of arrests continue to be made here in connection with the alleged Nihilist plots. There were recently arrested here 350 persons. They were sent to St. Petersburg, and from there they were sent in exile to Siberia. There yet remain 160 political prisoners in the Waraw citedel the Warsaw citadel.

Garcis, the Alleged Embezzler, Acquitted. NEW ORLEANS, Feb. 17 .- The case of the United States against Eugene Garcia, for the embezzlement of \$194,000 from the Louisiana National Bank while he was paying teller, was concluded to-day, the jury returning a verdict of "not guilty."
