and have sold out and gone short. The short interest that was pretty well limited by the Reading rise has grown again to its former proportions, and next we shall see their re-purchase against their recent sales. Holders of stocks are not nervous or hysterical yea. The Nebraska sentiment will scarcely be radical enough to force a new session of the Legislature, and the dismissal of that project would lead to a scramble to re-purchase Granger stocks thrown overboard yesterday and to-day."

relations with the London market. Some

rders for those securities have been received here, but the sales at the high prices a good deal more than offset the purchases.

a good deal more than offset the purchases. The London market shows more steadiness and some symptoms of returning confidence in the Baring group of investments. The total amount of new loans and new companies brought out in London since January I falls about \$19,000,000 below that for the same period of 1891, a change which would seem favorable to an increased demand for foreign investments; but it may be expected that England will discriminate against American issues until it becomes more apparent what is to be the future basis of our currency system."

Hussier, Davis & Botts' No. 2, on the Boyce, is due to get the fifth sand this afternoon. They intend to drill to-day, as it has been making from 75 to 80 barrels a day from the fourth sand, and they are afraid to stop drilling lest it sbould settle back and stop flowing when it would take much longer to drill it into the fifth.

Their No. 4 on the Boyce is down 1,800 feet, and they have started to build a rig for No. 4. They have been cleaning out No. 1 for a week and will start to tube it Monday.

Kennedy, Fitzgiobons & Gardiner's No. 6 on the Mertz farm, in southwest McCurdy, is on top of the fifth sand, but will not be drilled in before to-morrow.

Phillips & Co. will commence spudding tomorrow at their No. 1 on the Schieb farm just north of Mellon & Co.'s pump station.

We will tube it, and pump the water out, when I believe it will start to flowing again almost as good as it did at first."

The Jolly Oil Company is down 300 feet in its well on the bridge lot, across the railroad from the station at Noblestown.

Harris & Co.'s well on the schoolhouse lot at the Jumbo mines, west of McDonald about a mile, is drilling at 18 feet in the Gordon sand without showing for a producer. It has made a few flows and there are several hundred feet of oil in the hole. It will be drilled to the fifth sand.

Shay & Smith's well, down at Sistersville, was reported yesterday to be showing a little better than it has been heretofore, and the owners are now almost certain of getting a good well.

The cable noted no change in values in London, but Liverpool oil was not being saved. One of the owners said last evening that a couple of 250-barrel tanks would be furnished by Monday, and a pipe line would also be laid to it. The owners then intend to drill it into the sand. Judging from present indications it will be a good well as the oil which it has been making so for executions. was I penny lower. Domestic markets were all lower. Crop news was somewhat con-flicting, many private dispatches being very discouraging; but the Farmers' Review had a very discouraging; but the Farmers' Review had a very favorable summary of the sination.

The committee of the board which was sent to Washington to oppose the anti-option bill returned this morning, and its members were inclined to the opinion that the bill would be probably passed by the House. This, doubiless, had something to do with the weakness. On the whole, operators were disinclined to deal heavily on either side, and the result was an unusually small business with narrow fluctuations. The export movement was not very encouraging. New sand.

The well is located on the John Scott farm, about two miles northwest of Venice and 2½ miles southwest of McDonald. The John Reed well, which was drilled by Mercer and the Pittsburg Oil Company, is located about a mile southwest of the Scott, on almost a 45 degree line. Oil was found in the fifth sand in the latter well, but not in sufficient quantity to warrant the drilling of other wells on the same farm. and the result was an unusually small outsiness with narrow fluctuations. The export movement was not very encouraging. New York having cleared but 108,000 bushel yesterday, and other points hardly any.

After the noon hour there was some show of strength for a time, but late cables quoted Paris lower and Berlin 3½ marks off, though Antwerp was a shade higher. This checked the advance and prices receded again. May opened at 33%,033%c, against 94%c at the close yesterday; sold up to 33%,034c declined to 33%c, advanced to 9c, receded to 33%c, reacted to 95%c, weakened and closed steady at 33%c.

Corn was quiet and easy. The duliness in trade with the weakness in wheat and provisions caused corresponding weakness in corn. May was ½c lower; fluctuated all day within a range of ½c, and closed ¾c lower than yesterday at 44%c.

Oats quiet and weak, showing a loss of ½c. In all of the wells which have been drilled southwest of the Moorhead, sait water has been found in the Gordon sand in such case through that formation, and over 2,300 feet of casing was put into the Scott well, and the Wheeling Gas Company's well on the W. J. Kelso farm is now shut down waiting for casing to shut off the Gordon sand water.

If the Scott well should prove to be as good as its present condition would seem to indicate, it will stimulate the lease holders in that territory, and cause an increase in operation.

The National Real Estate Congress, which met in Nashville last week, discussed, among other questions, the direction of legislation in reference to laws bearing on the transfer of realty, the simulification of lien laws, mortgages, etc. The Australian solution of this problem is engaging the attention of real estate men and economists in this country, and in Massachusetts its adoption is being seriously considered. By this system the owner of a tract of land can surrender his deeds to the State, and, upon the newwork of a certain amount for an angular for \$3,800.

McDowell & Roberts report the following sales of Allegheury properties: For F. C. Echols to D. C. Harrison, a brick house and lot on Esplanade street, Third ward, for \$4,500 to Echols to D. C. Harrison, a brick house and lot on Esplanade street, Trid ward, for \$4,500 to Echols to D. C. Harrison, a brick house and lot on Esplanade street, Third ward, for \$4,575, for Rev. M. D. Lichliter to A. L. Haddeaus, a brick house and lot no. 20 Norman street, Sixth ward, for \$6,200; for E. Holden & Co. to Michael Rousseau, a house and lot no. 20 Norman street, Second ward, for \$3,000.

M. F. Hipple & Co. sold for William Bauersemith for \$4,500 or \$90 per foot a lot 50x140 feet, on the west side of Rebecca street, in the Anchor Bank plan of lots, Twentieth ward, to A. C. Beeson, A handsome improvement will be erected in the near future. Charles Somers sold for Jacob R. Layton to Joseph N. Charles Somers sold for Jacob R. Layton to Joseph N. Watters, a livery atable property situated at Coraopolis, Pittsburg and Lake Erie Railroad, comprising ground, buildings, livery acceptance of the provident will be receded in the nea surrender his deeds to the State, and, upon the payment of a certain amount for an official examination of the title, the State issues him a registered title, guaranteeing the same ever after they have been once examined, passed upon, and registered under the act. The land can then be sold with the same facility as factory or bank stocks, and future investigation of the title is unnecessary. Another argument in favor of this plan is that it would greatly facilitate the transfer of property and make it much easier to borrow money on land.

Lots Not a Drug. As showing activity in the lot market, Van Gorder & Lloyd's sales in the East End district alone during the week foot up \$32,200. Most of the purchasers will commence building as soon as the weather settles. In the same period, according to a rough estimate by an extensive operator, taking in all the districts around the city, sales of lots aggregated 200 or more. Pur-chasers as a general thing being people of moderate means, transactions on so large a scale lead to to the conclusion that the activities of the city are in a prosperous condition and that money is well distributed.

Not Up to the Mark. W. C. Stewart received an offer yesterday which he refused, of \$50,000 cash for the Kennedy frontage of 800 feet on Forbes street, near the park. It was made by a New York gentleman who thinks well enough of Pittsburg realty to buy it as an investment. The principal event in real estate on the Northside during the week was the sale by John K. Ewing & Co. for William J. Dunn, the well-known contractor, to Robert B. McMasters, of the property No. 167 Lacock street, Fourth ward, a four-story brick apartment building, consisting of a storeroom 20x100 and six flats of five rooms and hall each, with all conveniences, lot 22 feet front on Lacock street and extending back 100 feet to Penn street, for \$20,000. property is leased at an annual rental of

\$2,342, being a 10 per cent net investment. Extending a Park Entrance, It was learned yesterday that one of the factors which are promoting investment in the Squirrel Hill district is the fact that the Murdock entrance to Schenley Park, to be known as Bigelow avenue, which is 100 Beechwood avenue, which is old Putnam street widened to 80 feet, thence running in a northerly direction one mile to Fifth avenue, passing through the Armstrong, Murray, Bruce and Frew estates. This avenue extension will meet a long-needed want for a boulevard whereon owners of fine turn-outs can drive without fear of collision with cable or electric cars. This information is something of a secret, but is none the less

Looking After Acreage. Twin City Lodge, 42, has been very busy initiating new members, having taken in 15 candidates the past two weeks. It degree that acreage than at present, The staff is doing wonders, and with a little more built of it. bulk of it comes from means, who have faith in the continued growth of the city. Their object in most cases is subdivision to meet the broadening demand for building sites. J. H. Coleman & Co., speaking on this subject vesterday. said they had several important deals in this class of property on hand, and likely to be closed in a short time. While there is considerable acreage in all of the East End wards except the Twentieth, it espec-ially abounds in the Eighteenth, Twentysecond, Twenty-third and Twenty-first. The Eighteenth is held back more than any other ward by inadequate transportation

Bomes for the People. The sale of the House property in the Squirrel Hill district was the only important transaction in East End realty tha reached the consummation stage during the past week, but deals of moderate magnitude were numerous. One of these was the purchase by Mr. J. C. Dick of 30x95 feet on Penn avenue and 60x90 in the rear, for \$12,000. He intends creeting a number of medium-sized brick dwellings on these lots the coming spring. The survey of the Nimick property, at Wilkinsburg, sold a short time ago to a land company for \$67,-500, was completed. It will be plotted and put on the market at once. The proposed Homewood branch of the Duquesne road

will pass immediately in front of this property. Movements Out Fifth Avenue. The demand for Fifth avenue property, noted a short time ago, shows no abatement. Baxter, Thompson & Co. yesterday closed the sale of a business stand on this street, a short distance beyond the Court House, at a price close to \$16,000. The purchaser will occupy it with a large stock of goods April
