

TWO GREAT TEAMS. Something about the Football Players Who Will Contest Here To-Morrow.

MR. SLOSSON'S VERY PLAIN TALK. Latest about the Condition of Fitzsimmons and His Work of Training for Maher.

GOOD ENTRIES FOR THE DOG SHOW. An Interesting Story of Cocker Spaniel Effie's Mind Reading.

To-morrow promises to be a great day among local football players. The great championship contest between the teams of Chicago and the Pittsburgh team is causing considerable interest both in the East and West, and the result is anxiously anticipated by the thousands of patrons of the popular winter sport.

The Chicago team. A brief sketch of the players of this famous team and of the local team will be interesting. T. Ballingall, goal, is a native of Dunfermline, Scotland, where he played with the local club as center forward. Since coming to America he has been captain of the Chicago club's goal, and has filled that position with much success. Height, 5 feet 9 inches; weight, 150.

G. Hendry, right full back, was born at Comar Angus, Perthshire. He has played football since he was a boy. He is the best in Chicago, being speedy and a very accurate kicker.

S. A. McFarlane, left full back, was born at Dunbar, Scotland. He is the most prominent player in the Dunbar team and is a player of undoubted ability.

L. Anderson, right half back, has only recently arrived in this city. He is a native of Dunfermline and played among the winners of the Fishers Cup.

C. Ballingall, center half back, is a native of Dunfermline. Although young, he is a splendid tackler.

H. T. Atkinson, left half back, was born in Sunderland, England, where some of the best football players in the world are found. At one time he was a famous league player.

An Able Captain. T. Gibson, center forward, is captain of the team and it is owing to his remarkable ability that the club has been so successful. He is a Canadian by birth. In 1888 he visited England with the Canadian team and there his play was very favorably commended. He is considered to share with Warty Thompson the honor of being the best center forward Canada ever produced.

Coming to the States business prevented his playing for a time, but he has now recovered much of his form and is playing a grand game. He is the dribbler and an excellent shot on goal. He has been at all times seen to give a good example by playing a thoroughly sportsmanlike game.

B. Balster, right inside forward, was born at Woolwich, England. Formerly he was a league player, but has become an expert in the Association game.

R. F. Webb, inside left, is a native of Stretford, England, and was a member of the Manchester United championship cup three years in succession.

W. McLuckie, outside right, was born near Fitzmaurice, Scotland. He is a good and a very useful man on a football team.

Joe Attwell, the Pittsburgh goal keeper is by long odds the greatest in the two teams. He stands 6 feet 2 inches, and weighs some 230 pounds. Although such a big man he is wonderfully active and can kick as well as any man in the game. Possessed of enormous reach it is hard, indeed, for an opposing team to get a ball by him.

Howell and Tom Attwell, full backs, have been, and very aptly so, called Pittsburgh's stone wall. Their defense is excellent and their kicking has often saved the day for their side. Howell is a member of the Oldburg Town Club, and afterward Captain of the famous Howell's team, of Birmingham. Attwell is a most sturdy built player, and stands 5 feet 11 inches and weighs 180 pounds. His kicking power is tremendous and very few care to attempt to withstand his rushes.

Beck, Childs and Joe Attwell Pittsburgh have a grand half-back force. Beck on the right is a magnificent player, knows the game thoroughly and is a beautiful dribbler, dodger and a player with great accuracy. Childs, on the left, is a player of determination from start to finish, while Attwell on the left is as sure and as pretty a kicker as there is on the team. All the forward line with the exception of McEwen are lightweights.

He Is a Hoosier. Mathews is as indistinguishable on the field as he is in his secretarial duties. He is well known as a player who will do anything. The way they work the ball up on the right is a treat to see. McEwen is the well-known swimmer, and was a prominent player with the team in the Scottish league. O'Brien, inside left forward, is always there when wanted. He played for his county (Lancashire) in many a hard fought game, and is a player of great determination from the spectators for his splendid play. Joe Wardle, Waldron and O'Brien work together like a piece of machinery, and their combination play is a treat to witness. Each one is as active as a cat, very speedy and an accurate kicker, and it will take all the defensive play of the Chicago to keep one another of the trio from scoring when they enter the ball in their possession. The game will be a great one, scientific from the very outset, and whichever side wins the victory will not be a moment too soon.

The game will start promptly at 3:30 P. M. The visitors will arrive in the city to-morrow morning. Alex. Macpherson will be referee and Messrs. George Macpherson and J. E. Kelly umpires.

The Local Fencer. The E. E. Gyns has entered A. C. Leuzbach, who is a local fencer, in the tournament of the Amateur Fencers' League of America in New York City, March 10 and 11. Gyns is the master with Schaeffer, and bringing a prize home with him. March will be disappointed if he cannot see him at the club's games on the evening of March 10, but as four entries have already been received and others may yet come in, a good fencing contest is assured.

May Postpone It. It is likely that the proposed wrestling match between Ed. Kelly and Bob Miller will be postponed a week on account of their inability to secure a suitable place to wrestle. The contest was intended to take place next Saturday evening. Both men are training earnestly for the event.

THE ICE GORGE IN THE ALLEGHENY RIVER STARTS SLOWLY DOWN STREAM. Will Probably Reach Pittsburgh Some Time This Morning.

FITZSIMMONS IN TRAINING. The Tall Australian Doing Great Work in His Daily Exercises.

Box St. Louis, Miss., Feb. 20.—Robert Fitzsimmons has reached St. Louis, and he is thoroughly fit to enter the ring to-morrow and render into Peter Maher as hard a time as any pugilist ever had.

To-day's exercise of boxing was with Felix Vauquelin, an rounds and he didn't win for a second. His exercise to-day was the hardest he had yet put in, and he seemed to enjoy it all the more on account of his security. Vauquelin, weighing 215 pounds, had his hands far more than fall trying to elude or foil his antagonist.

Local interest in the Fitzsimmons-Maher battle is becoming exceedingly warm. Yesterday a considerable amount of money was bet on the fight, and the odds are now 6 to 4 on Maher. There is still some more Fitzsimmons money here to be invested at the same rate of odds.

With Bare Knuckles. Thomas Thompson, Feb. 20.—(Special.)—Thomas Thompson, who has been knocking near this place this afternoon. After four rattling rounds, the winner was declared to be the fight was for 100 a side, and a large crowd witnessed the combat.

THE SILVER KINGS WITHEDRAW. They Make Room for a Good Team in the City League.

There is now a vacancy in the City League, which means a chance for some good amateur club to get into an organization. The Silver Kings have decided to remain in the League, believing that it will not "pay them." There will be a meeting of the City League on the evening of March 1, and all clubs are invited to take the place of the Silver Kings.

Donoghue the Skating Champion. Montreal, Feb. 20.—(Special.)—Joe Donoghue proved a drawing card at the championship races of the Canadian Amateur Skating Association this afternoon. There never was such a crowd, and 5,000 persons shouted themselves hoarse over winning. The race was generally slow, except the 200 yards. In the five-mile race Donoghue won every thing in which he entered, and added the championship of Canada to his other laurels. He is the only Canadian to have won the Canadian championship, made a bad showing against him.

Winners at Gouttenburg. GOTTENBURG, Feb. 20.—The track was very heavy to-day and the drizzling rain had the effect of making the going very slow. Saturday attendance. First race, 7 furlongs—Perallo, first; Cascade, second; Turk, third. Time, 1:28. Second race, 1 mile—Laurie, first; Balzar, second; Sir Laurence, third. Time, 1:04. Third race, 5 furlongs—Squire, first; Squire, second; Innovation, third. Time, 1:04. Fourth race, 1 mile—Laurie, first; Squire, second; Prince Howard, third. Time, 1:04. Sixth race, one mile—Harry, first; Lady Foster, second; Frost, third. Time, 1:28.

General Sporting Notes. DAVID L. is probably the smallest horse that ever beat 2:23. There is a movement on foot to organize a new racing association, consisting of Keokuk, Quincy, Burlington, Canton and Hamilton.

The Senior and Junior cross country championships were held at Keokuk, Iowa, on Saturday, Feb. 20. The winners were as follows: Senior, W. H. S. Miller; Junior, W. H. S. Miller.

ACTS LIKE A COWARD. That's What Mr. Slosson Says About Champion Billiardist Jake Schaeffer.

NEW YORK, Feb. 20.—George Slosson made a statement last night which was deemed to settle definitely and finally the much talked of proposition for a three-night match between Champion Schaeffer and his opponent, Billiardist Jake Schaeffer. The match was suggested by a newspaper correspondent from Chicago. Slosson declared that he had never made any proposition for a three-night match to the champion.

Only one way will play Schaeffer three nights," Slosson said, "is that each night's play shall count as a distinct and separate game, the winner of two to take the money. These terms are the only ones which I will accept. The man who gets 800 first each night is to be declared the winner of that particular game. To make this as definite as possible concerning the championship game, Slosson said he would play the winner of the Schaeffer-Verles game either in this city or in Chicago. He would allow the winner \$200 cash money to play here, or accept the same money to go to Chicago and play. Slosson laughed at the suggestion of a three-night match offered by Schaeffer to play him in Chicago. "That's the most ridiculous offer I ever heard of," he said, "and I will not accept it. If Schaeffer should lose," Slosson added, "I am willing to play him a side match in New York or in Chicago. I will accept any terms that I get with lives for the life of the game. I will accept any terms that I get with lives for the life of the game. I will accept any terms that I get with lives for the life of the game."

THE LOCAL FENCER. The E. E. Gyns has entered A. C. Leuzbach, who is a local fencer, in the tournament of the Amateur Fencers' League of America in New York City, March 10 and 11. Gyns is the master with Schaeffer, and bringing a prize home with him. May Postpone It. It is likely that the proposed wrestling match between Ed. Kelly and Bob Miller will be postponed a week on account of their inability to secure a suitable place to wrestle. The contest was intended to take place next Saturday evening. Both men are training earnestly for the event.

The Braddock Club is preparing to open up the spring season with a big live

BROKEN UP AT LAST. The Ice Gorge in the Allegheny River Starts Slowly Down Stream.

FANCY FARMING IN OHIO. Wooster University and People Now in Possession of the Station.

WOOSTER, O., Feb. 20.—(Special.)—The people of this beautiful little city are very proud of the fact that the new State Agricultural Station has been located near here. For years the State Experiment Farm has been near Columbus, where it was located when the Ohio State University was founded. But the encroachments of the capital city have made the land too valuable to permit of its use longer for such a purpose, and the last Legislature on April 23, 1918, passed an act providing for its removal. The farming along scientific lines in always been near Columbus, where it was located when the Ohio State University was founded. But the encroachments of the capital city have made the land too valuable to permit of its use longer for such a purpose, and the last Legislature on April 23, 1918, passed an act providing for its removal.
