OFFICE AND STREET NEWS AND GOSSIP

There was considerable talk in business circles yesterday apropos of the possible re-location of the 14 plants of the United States Glass Company. One of the mem-bers of the combine was reported as saying, in substance: "We have been importuned in substance: "We have been importuned by a great many people for information as to the locality which we have in mind. I believe the company has an option on sev-eral hundred acres which possess all requi-site advantages, but I am not in a position to say anything further on that point. If the place were known it would at once

May wheat opened unchanged at Sic, ad-vanced to 33, c: reacted to 95%c; advanced to 35%c; broke to 25%c; milled to 36; dropped to 35%c, and closed steady at 95%c. Corn was stronger and more active in the early trading, one house taking 250,000 bush-els. The strength was due to light receipts, poor grading, an active and higher shipping demand, firm cables, damp weather tending to lower the grade and reports that foreign-ers were buying freely at the seaboard. These things led to covering by shorts and an advance. This was met by free realizing sales, and there was a reaction. May opened the broke to and closed steady at 42%c. Onts dull, closing at a loss of %c. The receipts of hogs were lighter than had been estimated, with prices loe up. This, together with the early strength in grains, caused pork to open higher, but later, when grains weakened and a further decline in cotton was reported, presaging a diminished demand for hos products from the South. cause a regular boom in real estate in that quarter. Wherever we may go-if we go at all-a new and populous town will

spring up." Although the exact location of the op-tioned land is a secret, it is known to be at no great distance from Blair station. So much can be said without harm to anyone.

Grew Rich by Waiting.

That "all things come to him who waits," is aptly illustrated in the following true story. It is commended to Pittsburg people who have bought homes on time and are hard run to make payments. Pay some-how-you will find a way-and hold onto your property grains weakened and a further decide in cotton was reported, preasing a diminished demand for hog products from the South, the price broke and the market closed lower. May pork, after selling at\$11 80@11 85 around the opening, went off to \$11 47%, and closed at \$11 3.2%, against \$11 75 at the finish yester-day. Lard lost 5c and ribs 7%c. your property. When General Bruce Picketts returned

from the war he at once began to buy up mountain lands in Luzerne and adjoining counties, Pennsylvania, until he had bought The leading rutures ranged as follows, as cor-rected by John M. Oakley & Co., 45 Sixth street, members of the Chicago Board of Trade: Open- High- Low-ing. est. est.

counties, Pennsylvania, until he had bought up 50,000 acres of wood land in the mountain county near Wilkesbarre. He predicted the day would come when these lands would be valuable, but the day of fortune was so long delayed that he was tempted several times to sell his possessions for what he could get. Upon one occasion he was so poor that he could not pay the tares. Colonel B. K. Jamison, of Philadelphia, then came to his assistance, and they have worked together, as they had the same con-fidence in the tuture value of their timber land. Jamison owns a large strip of land 90% 9 90% 9 90 8 90 98 90% 90% 92% 92% 41% 41% 42% 19 3134 land. Jamison owns a large strip of land which starts at Fishing Creek, Columbia county, and meets Picketts' dense forest at

Harvest Lake. Two years ago the railroad tapped Pick-etts' land and it trebled in value. He held onto it, however, and lately sold 40,000 acres to an English syndicate for \$28 an acre, placing him on the list of timber land millionaires. millionaires.

Pennsy's Engine Programme

The equipment programme of the Penn-sylvania Southwest lines for 1892 has been finally arranged. Fifty-one new freight engines will be built at Columbus and Alengines will be built at Columbus and Al-toona. Seventeen passenger engines will also be built. Ten will be of a new type known as the class "X." They will weigh about 115,000 pounds and have six drivers. Seven will be of the class "O" type, which has been the standard for a number of years on the Deventue of the standard for a number of years on

ONLY ONE WEAK POINT.

NEW ENGLAND ALONE DECLINES IN A DULL SHARE MARKET.

New Stock of the B. & O. Appears on the Markst in Good Shape-Distillers' and Lackawanna Score Advances-Edison

Electric and Erie Up. NEW YORK, Feb. 25.-There was very little in the stock market to-day, and with the trading almost entirely professional and no news of a character to influence prices in either way, the list, as a rule, was dull. The traders were more bullishly inclined, but no

buying of importance appeared, and while arbitrage brokers were again buyers, it is well understood that their purchases or sales at present have no significance.

The traders paid special attention to Dis-tillers' for a time, and it advanced materially, Lackawanna on very limited offerteriality, Lackawanna on very limited offer-ings following. Among the specialties Lake Erie and Western was active but only firm, while lowa preferred spurted up 3½ per cent on very limited dealings. The stock of the Baltimore & Ohio, just

while lows preferred spurted up sy per cent on very limited dealings. The stock of the Baltimore & Ohio, just admitted to dealings on the Board, was traded in for the first time to-day, and after a sharp rise of ½ per cent to 37½, lost a large portion of the improvement. Among the Industrials, Chicago Gas was still under the hammer this morning, but it yielded only a fractiou, and afterward regalned the loss, though its price is now on a materially lower plane than a week ago. Activity was to be seen only in Reading, St. Faul, Northern Pacific preferred and Louisville and Nashville of the usually active list, with the addition of New Eng-land, which frowed to be the one weak point in the market, declining steadily, and scoring a loss of over 1 per cent. The Vanderbilt stocks were remarkable, as of late, for their dullness, which was specially marked in Lake Shore. The general list opened with small gains, and during the greater part of the day ad-vanced slowly without material change, and late in the day, after the announcement of another engagement of gold for export, the bears succeeded in raiding some stocks to below the opening prices. In this decline, New England, Northern Pacific preferred and Reading were the most prominent, but no material concessions were seen, and no long stocks coming out, the raid came to a sudden end, and the animation induced by it quickly subsided while prices again rose, the market resuming its firm temper. The market cosed quiet to dull and firm, generally at small fractional advances over inst night's prices. The only changes of note were advances of 1½ in Edison and 1 per cent in Lake Erie and Western, while New England lost 1 per cent. The total sales of stocks to day were 272-di stares, including Atchison, 3,580; Chicurgo Gas, 35,690; Delaware, Lackswanna and West-

THE MONEY MARKET.

A Dollar Comes Back for Every One Shipped to Europe.

The local money market was moderately active and easy yesterday at 6 per cent as the rule. Supply was large, but accumula-tions were smaller, if there was any change at all in this item. The trend of the market denoted some expansion of trade. Bank clearings were \$2,508,880 05 and balances \$472,091 73. clearings were \$2,568,880 05 and balances \$472,091 73. An international banker is quoted thus: "I can only reiterate to you the opinions I have hitherto given on the subject. I sup-pose certain neople will go into hysterics again over every dollar of gold that goes out. They do not for a moment stop to re-flect that we are getting 100 cents' worth of something or other for every dollar of geld sent abroad." At New York yesterday money on call was easy at 1½ to 2 per cent, last loan 2, closing offered at 2. Prime mercantile paper 3½(6) 5c. Sterling exchange quiet but easy at \$4 85½ for 60-day bills, and \$4 87½ for demand.

will open in Washington, D. C., March I. Pittsburg will be represented.
The New York and Middle Coal Field Rafi-road and Coal Commany, Israel W. Morris, President, has just been organized in Phila-delphia. The capital is \$1,150,000.
Six permits were issued yesterday for buildings and additions, the largest being for \$2,300, and the estimated cost of all, \$7,200.
The Southern Lumberman says: "As far west as Pittsburg there is a reviral of de-mand, and prospects for a good year in lum-ber are promising. There is unusual build-ing activity, and much yellow pine and other Southern woods will be wanted. Yellow pine is coming into general use in Pittsburg for flooring and ceiling. All the local yards seem in good shape, and a confident tone pervades the local market."
It is reported that a plan is being nego-tiated by the copper producers of the coun-try to restrict the output.
Mother effort will soon be made to sell the Exchange building. Details will be made at a directors' meeting next Thurs-day. It is understood no offer below \$150,000 will be entertained.
Mr. Nelson Morris says there is no truth in the report that the Distillers' Company is In-tending to buy Chicago brewerie.
Isaze N. Hay his soid to D. B. Fassett a residence property on Bidwell street, Alle-chen, lot \$2x47, for \$5,500.
On call yesterday Panhandle Railroad first motage 75 were quoted at 113 bid, and Point Bridge second mortgage 6s at 100 bid.

Boston Stocks-Closing Prices.

Nothing transpired to enthuse the crowd which attended the early stock calls yestorday. They were next to featureless, the only events of any interest being an ad-vance in Switch and Signal and a slight weakening in Birmingham Traction. Philadelphia Gas showed no change whatever. The afternoon session was enlivened by a brisk demand for memberships in the Exbhange. McKee bid \$500 for 10 or 20, but they were not forthcoming. Other brokers got three at that figure, and one was sold at \$475 just before the boom started. The spart on & Mont. 32%

Boston Electric Stocks BOSTON, Feb. 25. -(Special.)-The latest electr

was due to the prospective sale of the hnjid-ing, bids for which at \$150,000 or better will ing, bids for which at \$150,000 or better will probably be authorized at the meeting of the directors next Thursday. Another incident of the afternoon was heavy trading in Duquesne Traction bonds, which reached par for the first time. J. D. Balley bought \$51,009 at that price. There was a slight recovery in the Birming-ham Traction at the finish, and Citizens' Traction was a little stronger. Sales at first call were 29 Citizens' Traction at 61, 65 Switch and Signal at 19%, 50 at 19%. tock quotations to-day were: Asked. 111 58% 29 13% 15% 15% Boston Electric Light Co... T. H. E. Co... situation remains as it has been all the week

WHEAT-No. 2 red, 99c to \$1 00; No. 8 red, 94c to

When she had Children, she gave them Castoria

The first sale of the week was recorded at

 Beed. Calves-Receipts 127 beed without the standard of the second terest, because they clearly prove that early in the year the railmakers who gave out the reports of sales did it with the object of "booming" the market. It was then stated that the tail makers entered the year with 600,000 tons of orders and "options" on their books. The "options" have evidently not been taken to any startling extent, al-though it must be remembered that it is probably too early. While it is true that orders of S2,000 tons is a very great improvement over last year, when the quan-tity was nearly 200,000 less than that, it is also worthy of note that 189 was an excep-tional year, and that the quantity now booked does not represent more than a fair average. From all the leading markets come complaints of declining prices in pig iron, and sacrifice sales are cropping up in every direction. They are widely attributed to financial weakness, and for that reason cause additional alarm. Extraordinary stories come from the Pittsburg district concerning prices at which steel billets are offered stock at less than \$23. Sales close to \$325 are ad-mitted by aellers. In structural material, Chicago reports sales of beams aggregating about 2,000 tons at 2,25c delivered. In tho East the business hangs fro because New York architectural works have old contracts on foreign peams, which are said to aggre-gate about 7,000 tons. Flates are very weak,

The first sale of the week was recorded as the Grain Exchange to-day, namely, a car of No. 2 middlings, \$1675, spot. Receipts as bul-letined, 24 cars. By Pittsburg, Ft. Wayne and Chicago-4 cars of corn, 5 of cats, 2 of barley, 1 of malt, 1 of straw, 1 of hay, 5 of flour. By Pittsburg, Cincinnati and St. Louis-S cars of hay, 1 of cats, 1 of corn. The cereal circuit and stars and the barn all the scale decidedly in favor of the buyer. Receipts

decidedly in favor of the buyer. Ecceipts are liberal and demand is light. The only articles that give any signs of firmness are wheat and fiour. Spring patent flour is a shade higher at sources of supply, and it is only a question of a short time when prices here must advance. Following quotations are for carload lots on track. Dealers charge an advance on these prices from store: on foreign beams, which are said to aggre-gate about 7,000 tons. Plates are very weak, notably in Eastern Pennsylvania, one of whose mills has captured a Duinth order for 1,000 tons of ship plates at 2c, delivered. In track material, merchant steel and other lines the market are monoied to be dother

In track material, merchant steel and other lines the markets are reported to be demor-alized. Prices in the majority of cases are lower than ever before. The foreign markets are reported for the *Iron Age* as follows, by cable from London: In the price of Scotch warmants there has been a further decline, and the market is still in a very unsettled condition. On the 18th inst, the syndicate ceased buying, whereupon other holders began to realize, and over 10,000 tons changed hands at 40 dd. Subsequently there were liquidations at 40s and some transactions at a sinde less. The last statement shows 502,000 tons in connais stores, which is about the arenge for some inst statement shows 502,000 tons in connals stores, which is about the average for some time past, but additional furnaces have been lighter, and there are now 78 in blast. The increased production, along with slow ship-ping demand, makes the situation appear critical. Finished inch trade is unsettled, owing chiefly to threatened stoppage of work at collieries. Operations have been suspended at the West Cumberland Iron Works owing to depression in business.

The pleasant effect and perfect safety with which ladles may use the California liquid laxative Syrup of Figs, under all conditions, makes it their favorito remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.
