Pittsburg Leaps Ahead Two Points in the Clearing House Race.

DUN'S REPORT FROM LEADING CITIES

SPECIAL TELEGRAN TO THE DISPARCE. NEW YORK, Feb. 26.—There has been some improvement in the number of orders received for spring goods by Western and Northwestern jobbers and in the volume of goods shipped by them to interior merchants, as indicated in special telegrams to Brodstreet's from Kansas City, St. Louis, Omaha, St. Paul, Minneapolis and Chicago and elsewhere in the region tributary to those cities. This influence is felt as far East as Cincinnati, where manufacturers are

Failures and Bank Clearings. Business failures in the United States this week as wired to Bradstreet's, aggregate 227, against 260 last week and 218 in the week a year ago. The total from January 1 to date is less than in a like share of either of the four preceeding years. Of the week's total, 85 per cent employed \$5,000 capital or less, and 9 per cent capital each of between \$5,000 and \$20,000. There were only seven tailures where the capital employed was between \$20,000 and \$50,000; only four where it was between \$50,000 and \$100,000.

and only one with a capital equal to or in Nearly 1,100 banks at 58 cities in the United States report total clearings this week by wire, exclusively to Bradstreet's, amounting to \$1,079,000,000-a decrease of 23 per cent on the week and of 32 per cent as compared with the like week a year ago. Wool has sold more freely at the East, but as a result of lower prices. Good orders for cotton goods have been received at Bos-ton from the West. There is no accumula-tion of print cloths. Weolens and worsteds are in only fair demand, but carpets are

Southern Trade and Foreign Exchange. ducted on a very conservative basis. Orders are not received freely, and jobbers are cautious in the matter of pushing sales.

activity in the share market. The duliness of speculation has, however, not been ac- Cash and easy monthly payments. companied by decided weakness, prices being supported to some extent by renewed foreign buying and later on by the favor-able sentiment aroused by rumors of an igternational silver conference. The fact that local sentiment in Pennsylvania shows a tendency to favor the leases of older roads to the Reading, is accepted as an indiention that the proposed investigation by the State's law officers may not result in actual interference with the combination. Foreign exchange declined slightly, at first on decreased inquiry, but was stronger at the close of the week, it being understood that Germany was offering a premium for gold with a view to inducing shipments.

The New Gold Export Movement. On Thursday and Friday the engagement of \$1,250,000 gold for export was announced, the total outward movement to date aggre-gating \$2,600,000. Banking authorities are divided in opinion as to the continuance of the drain, which seems to depend entirely on the premium, which continental countries are willing to pay for it. The money market has not, as yet, been affected by the movement, and though lenders exhibit a more conservative disposition in regard to funds prevents the market from displaying | specials.

a stronger tone. Exports of wheat, including flour, from 13 ports, both coasts of the United States this week, equal 3,307,000 bushels, a decrease from the total a week ago. The average exports weekly since January 1 have amounted to about 4,000,000 bushels, rather less than had been anticipated by those who took the more bullish view of the

breadstuffs situation Exports of Indian corn continue excep tionally heavy, 3,377,973 bushels this week against 3,243,260 bushels a week ago, Balts

more and Philadelphia each shipping more than 1,000,000 bushels. Dun's Review of Eastern Trade.

R. G. Dun & Co.'s weekly review of trade

The state of domestic trade has not ma The state of domestic trade has not materially changed, though the continuing duliness is, perhaps, more generally felt. Boston notes trade of satisfactory volume, with considerable activity and large Western orders in drygoods. At Hartford quiet trade in most lines is reported, at Philadelphia money is easy, from much depressed by Southern sales, hardware dull in the city, the wool market quiet, but drygoods more active, with sales aliend of last year, and satisfactory orders from the West. Baltimore notes good business in drygoods, but slow collections.

At Cincinnati the shoe manufacture is do ing well cigar factories are busy and the demand for machinery brisk. Trade is better at Cleveland in all lines except shoes, but iron is still inactive.
At Chicago merchandise sales show an in At Chicago merchandise sales show an increase over last year, and collections are easier. Receipts of dressed beef are three times and of wheat double last year's, and liberal increase appears in other breadstuffs, but a slight decrease in animais and their products. Milwaukee reports business only tair and collections slow, owing to bad weather.

At St. Louis the same cause makes coun try trade almost impossible, but the outlook for spring trade is, nevertheless, considered more encouraging than a week ago. Build ing operations promise to be very large, and the demand for materials is already active.

At the Farther West and South. Minneapolis reports good business, with an output of 172,000 barrels of floor against 112,000 the same week last year. At Omaha rade is quiet, owing to bad weather. At Kansas City business is tair, and at Denver

Little Rock reports a fair trade, but at New Orleans general business is dull, though Orleans general business is dull, though sngar is strong and active and rice in fair demand, but cotton is dull and low. At Savannah, also, the low price of cotton is depressing and money is in active demand. Speculation in breadstuffs has been much less active since gold began to go abroad, and declined 4 cents during the just week, the Atlantic exports of wheat being small, the receipts at the West were over 2,000,000 bushels in three days. Corn has risen % of a cent and cats % a cent, while scarcely any change appears in pork products.

Oil is 1% c lower and coffee % stronger, with small transactions in both.

The only great branch of manufacture which makes discouraging reports at present is the iron and steel industry, and the difficulty there is not shrinktny consumption, but enormous increase in production.

The Building and Iron Trades.

The Building and Iron Trades. The building trades are irregular, some cities reporting greater activity; but where last year's strikes shortened hours and in-creased wages there has been a general shrinkage, which affects the iron industry. The rail combination also restricts pu chases of steel rails and started the year, it appears, with orders for only 525,000 tons, no appears, with orders for only \$22,000 tons, no transactions having been reported for the past week. There are orders placed for several thousand cars and some locomotives, and the demand for plate iron is somewhat better, and for structural iron satisfactory at present, but no improvement is seen in bar iron, while the market for pig iron is depressed by sales which are generally attributed to fluncial difficulties. Southern No. 1 is even quoted at \$16.50 per ton, about the lowest prices ever made.

Pittsburg Comes Up Smiling Again, NEW YORK, Feb. 26.—The following table, compiled by Braistree's, gives the Clearing House returns for the week ending February 25, and the per centage of in-

A Neglected Feature.

Quality has been a neglected feature with many retail grocers, and this no doubt, has had an influence in encouraging adulteration. It makes no difference under what conditions adulterated articles are sold or what excuse competition may furnish for their existence, the grocer owes it to his calling and to the consumers who trust him, to encourage the sale and use of Dr. Price's Delicious Flavoring Extracts because of their high standard and purity. Never substitute a low grade for a good quality. Cheapness means poorness

and a loss of business in the
