THE GREAT SURPRISE

Dr. Talmage Discourses on the Wonderful Glories of Solomon.

Why Women Are the First to Surrender to God and the Church.

A LESSON FROM THE QUEEN OF SHEBA

(SPECIAL TELEGRAN TO THE DISPATCE.)

BROOKLYN, Feb. 28 .- The congregation at the Tabernacle this morning listened to a giowing description of the magnificence of solomon which Dr. Talmage likened to the glories of the Christian religion. His text was: I. Kings x., 7. "Behold, the half was not told me."

Solomon had resolved that Jerusalem should be the center of all sacred, regal, and commercial magnificence. He set himself to²work, and monopolized the surrounding esert as a highway for his caravans. He ulit the city of Palmyra around one of the principal wells of the East, so that all the long trains of merchandise from the East were obliged to stop there, pay toll, and leave part of their wealth in the hands of non's merchants. manued the fortress Thapsacus at the

chief ford of the Euphrates, and put under guard everything that passed there. The three great products of Patestine-wine from the richest clusters and cele prated all the world over; oil which in that hot country is the entire substitute for but-ter and lard, and was pressed from the olive branches until every tree in the country became an oil well; and honey which was the entire substitute for sugar-these three great products of the country Solomon ex-ported, and received in return fruits and precious woods and the animals of every

He went down to Ezion-geber and ordered a fleet of ships to be constructed, oversaw the workmen, and watched the launching of the flotilla which was to go out on more than a year's voyage, to bring home the than a year's voyage, to bring home the wealth of the then known world. He heard that the Egyptian horses were large and swift, and long-maned and round-limbed, and he resolved to purchase them, giving \$55 a piece for them, putting the best of these horses in his own stall, and selling the sur-plus to foreign potentates at great profit. He heard that there was the best of timber on Mount Lebanon, and he sent out 180,000

Lebanon, and he sent out 180,000 hew down the forest and drag the er through the mountain gorges, to con-tit into rafts to be floated to Joppa, roun thence to be drawn by ox-teams exacross the land to Jerusalem. He Similes across the land to Jerusalem. He could that there were beautiful flowers in ther lands. He sent for them, planted hem in his own gardens, and to this very ay there are flowers found in the rulns of hat eity such as are to be found in no other art of Palestine, the lineal descendants of he very flowers that Solomon planted. He eard that in foreign groves there were irds of richest voice and most luxuriant fug. He sent out people to eatch them ind bring them there, and he put them into is enges.

A Collection of Jerusalem Buildings.

Here we find ourselves amid a collection of buildings on which the king had lavished the wealth of many empires. The genius of Hiram, the architect, and of the other artists is here seen in the long line of cor ridors and the suspended gallery and the pproach to the throne. A laver capable of olding 500 barrels of water on 600 brazen x-heads, which gushed with water and ox-heads, which gushed with water and filed the whole place with coolness and crystalline brightness and musical splash. Solomon sat on a throne of ivory. At the scating-place on the throne, on each end of the steps, a brazen lion. Why, my friends, in that place, they trimmed their candles with snuffers of gold, and they washed their fuces in busins of gold, and they washed if faces in busins of gold, and they washed oped out the nshes with shovels of gold, they stirred the altar fires with tongs old. Gold reflected in the water! Gold hing from the apparel! Gold blazing in crown!

ran the news of the affluence of thet Of course the news of the affluence of that phace went out everywhere by every cara-van and by wing of every ship, until soon the streets of Jerusalem are crowded with curiosity sockers. What is that long pro-cession approaching Jerusalem? I think from the pomp of it there must be royalty in the train. I smell the breath of the spices which are brought as presents, and I hear the shout of the drivers.

South"-that is, this very woman I am speaking of-"the Queen of the South shall rise up in judgment against this generation and condemn it; for she came from the ut-termost part of the earch to hear the wisdom of Solomon; and, behold a greater than Solo-mon is here." God help me to break up the infatuation of those people who are sitting down in idleness expecting to be saved. "Stirte to enter in at the strais gate. Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened to you." Take the Kingdom of Heaven by violence. Urge on the cameis! FEATURES OF TRADE The Week's Volume of Business in Produce Lines Very Light. HEAVY LOSSES OF EGG DEALERS. Again, my subject impresses me with the Again, my subject impresses me with the fact that religion is a surprise to any one that gets it. This story of the new religion in Jersalem, and of the glory of King Solo-mon, who was the type of Christ-that Story rolls on and on, and is told by every tra-veler coming back from Jerusalem. Religion is always a surprise to any one that gets it. The story of grace-an old story. Apostles preached it with rattle of chain; marryrs declared it with rattle of glory, and ministers of religion have sounded it through the lanes, and the high-ways, and the chapels, and the cathedrals. It has been recited in the doxology of gract congregations. Appealing to One's Own Experience. Calfskins and Sheepskins in Active Demand and Rides Dull.

BOSTON VIEW OF FOOTWEAR TRADE

OFFICE OF THE DISPATCH. } PITTSBURG, SATURDAY, February 97. } In general produce lines there have been few new developments in the past week. Vegetables of all kinds are slow at about the same prices as have prevailed for a month or more, and are lower than they have been these many years at this season.

A year ago potatoes, apples and cabbage were in brisk demand at more than double Appealing to One's Own Experience. I appeal to those in this house who are Christians. Compare the idea you had of present prices. During the week past game has disappeared from the market, and supply of poultry has been scarcely up to de-mand, with prices a shade higher. Tropical fruits are in better demand than the joy of the Christian life before you became a Christian with the appreciation of that joy you have now, since you have be they were a week ago, and prices are also better, particularly for fancy Florida oranges. At the beginning of the week the come a Christian, and you are willing to

come a Christian, and you are willing to attest before angels and men that you never in the days of your spiritual bondare had any appreciation of what was to come. You are ready to day to answer, and if I gave you an opportunity in the midst of this assem-bluge, you would speak out and say in re-gard to the discoveries you have made of the mercy and the grace and the goodness of God: "The half-the half was not told me!" erg market was completely demoralized owing to large receipts from the Ohio Val-ley and Tennessee. There were sales for a day or two below 15c per dozen in job lots. The dealer who bought a week ago at 20c per dozen and upward must have lost at least 5c per dozen, and some dealers report

much larger losses. In the past two or three days the tide has turned, and sales were made today (Saturday) at 4c per dozen above the lowest point, and still eggs are not above one-half the price reached in the early part of February. In the Cereal Lines.

of God: "The half-the half was not told me." Well, we hear a good deal about the good time that is coming to this world, when it is to be girded with salvation. Holiness on the bells of the horses. The lion's mane patted by the hand of a babe. It is the old story. Everybody tells it. Is is the old it, John told it, Paul told it, Excited told it, Lather told it, Calvin told it, John Milton told it-everybody tells it: and yet-and yet when the midnight shall fly the hills, and Christ shall marshal his great army, and China, dashing her idols into the dust, shall hear the voice of God and wheel into line; and India destroying her Jugger-naut and snatching up her little children from the Ganges, shall hear the voice of God and wheel into line; and fall into line-the voice of God and fall into line-the voice of God and fall into line-the the Church which has been tolling and strargling through the centuries, robed and granded like a bride adorned for ber husband, shall put aside her veil and look up into the face of her Lord and King, and say: "The half-the half was not told me!" The Greatest Surprise of Ail. It will be seen by reference to the home market column that receipts of grain and hay for the week past have been unusually hay for the week past have been unusually heavy. There were received during the week 365 carloads, or an increase of 82 cars over receipts of the previous week. The transactions on call at the Grain Exchange for the week amounted to the sale of a single carload. With such large receipts it was a natural consequence that markets should be heavy and slow with the field in favor of the buyer. Corn and oats are a shade lower than they were at the beginning of the week and are weak at the decline. Millfeed has also reached a lower level. Wheat and flour are sheady and rye brings a shade better prices

reached a lower level. Wheat and flour are steady and rye brings a shade better prices than it did a week ago. Receipts of hay con-tinue to be in excess of demand and markets The Greatest Surprise of Ail. Well, there is coming a greater surprise to every Christian-a greater surprise than anything I have depicted. Heaven is an old story. Everybody talks about it. There is are quiet.

hardly a hymn in the hymn book that does not refer to it. Children read about it in We have to report continued dullness in nct refer to it. Children read about it in their Sabbath school book. Aged men put on their spectacles to study it. We say it is a harbor from the storm. We call it our home. We say it is the house of many man-sions. We weave together all sweet, beauti-ful, deliente, exhilarant words; we weave them into letters, and then we spell it out in rose and lily and amaranth. And yet that place is going to be a sur-prise to the most intelligent Christian. Like the Queen of Sheba, the report has come to us from the far country, and many of us have started. It is a desert march, but we urge on the camels. What though our feet be blistered by the way? We are hastening to the palace. ment is rather slow. There is a good vol-ume of trade here in person, and this trade is taking samples of fall goods. It is also buying case lots of boots for the trade of next season, or, rather, placing orders for them. But the trade is working very con-servatively, and buying only where it is certain that the bottom of the market is reached. It is believed that the lowest point of the depression has been reached, however, and that there is some improve-ment, though coming very gradually. The above is the position of the trade here, and it also extends into the West and down into the Southwest, till the cotton belt is reached. In the cotton States salesmen find the trade especially poor, with the financial condition of those who would be buyers sun, and the gates main as they open to test in the poor pilgrins. Send the word up to the palace that we are coming, and that we are weary of the march of the desort. WALL STREET'S CLOSE.

The General List Dull-Some Effects of the Richmond and West Point Reorganization-A Sympathetic Rise in Jersey Central-Bailroad Bonds Active.

NEW YORK, Feb. 27 .- The stock market in the main was strong to-day, but remained very dull for the general list, and there were only four active stocks-St. Paul, Reading, Delaware and Hudson and Denver and Rio Grande preferred, whose combined opera-tions were over one-half of the total busi-ness transacted. The strength in the last reached. In the cotton States salesmen find the trade especially poor, with the financial condition of those who would be buyers rather had. The features of the enormous cotton crop—a crop for which there is no market, except at figures that are ruinons to the growers—are to blame for this de-pressed condition of the southern market for boots and shoes. But even in the South the feeling is that the worst is known, and its effect has already been discounted. So that any turn in the market, even in that part of the country, will be for the better from this time out. In New England, the manufacturers of special goods are having the best of the two was, also, the one feature of the market, though the other Coalers were in close sympathy, and the Grangers, while dull, preented a very firm front. The continued evening-up of short con-tracts accounted for the strength of the general list, but there was new buying of a most pronounced sort in the two stocks, which gave character to the trading. Dela-ware and Hudson scored a remarkable gain, which gave character to the trading. Den-ware and Hudson scored a remarkable gain, rising from 133 to 1384 and closing at the top figure, while Denver and Rio Grande, pre-ferred, which was bought by interests which have been building the stock for some time, rose from 494 to 51% also closing at the best price. Jersey Central responded to the strength in Delaware and Hudson by rising again above 140 and Lackawanna and Reading were not so strong. Rumors in regard to the re-organization seut Richmond and West Point preferred up i per cent, and affected the bonds favorably; but the stocks were very dull with the rest of the market. The general list opened with irregular but silght changes from last night's figures, and a slow but steady improvement occurred up to the time of the publication of the bank statement, which showed a heavy loss in specie and the surplus reserve, though its influence was momentary. The close was notive and strong at the best prices of the day. The final changes are generally small fractional gains, but Delaware and Hudson is up 5%. Denver and Rio Grande preferred 2%, Jersey Central 135 and Lackawanna 1 per cent. In New England, the manufacturers of special goods are having the best of the trade. These goods they are contracting to make at low prices, and their factories are running. Above all, a small profit can be seen. On such a principle the trade of this year will have a run. SATURDAY'S PRODUCE MARKETS CHICAGO - The wheat market had CHICAGO - The wheat market had a weak tendency to-day. Wheat opened ex-tremely dull. For a time prices held quite steady to the closing figures of yesterday, but the feeling gradually grew weak, and when a few items of bearish news came in when a few items of bearish news came in the bulls stampeded and prices dropped. Cables were somewhat conflicting. The trade seemed hesitating and cautions. Longs seemed to feel uncertain of their ground. Pork had a sharp break and showed a loss of 25c at the close. Wheat was partly re-sponsible for this, but a sudden raid by a prominent speculator in the latter part of the session aided in the depression. There were one or two feeble rallies. Lard and ribs were less affected and show only imma-terial declines.

The Visit of the Queen of Sheba.

Cry the news up to the palace. The Queen f Sheha advances. Let all the people come out to see. Let the mighty men of the land come out on the palace corridors. Let Solo-

come out on the palace corridors. Let Solo-mon come down the stairs of the palace be-fore the Queen has alighted. Shake out the immamon and the saffron and the calamus and the trankincense, and pass it into the reasure house. Take up the diamonds un-fil they glitter in the sun. The Queen of Sheba alights. She enters he palace. She washes at the bath. She sits lown at the banquet. The cupbearers bow. The matter smokes. You hear the dash of waters from the molten sea. Then she rises rous the banquet, and waiks through the onservatories, and gazes on the architec-ure, and she asks Solomon many Strange tre, and she asks Solomon many strange uestions, and she learns about the religion f the Heirews, and she then and there ecomes a servant of the Lord God.

Why Women Embrace Religion.

Learn from this subject what a beautiful thing it is when social position and wealth surrender themselves to God. When reigion comes to a neighborhood, the first to ceive it are the women. Some men say it because they are weak-minded. I say it se they have quicker perception of right, more ardent affection and cay for subliner emotion. After the en have received the gospei then all istressed and the poor of both sexes,

second for summer emotion. After the vomen have received the gospei then all the distressed and the poor of both sexes, those who have no friends, accept Jesus. Last of all come the people of affinence and huch social position. Alas, that it is so! If there are those here tooday who have been invored of fortune, or, as I might bet-ter pot it, favored of God, surrender all you who blessed this Queen of Sheba. I may all that Christ has had His imperial friends in all ages. I bless God that the day is coming when royalty will bring all its thrones, and music all its harmonies, and painting all its pictures, and soulpture all ifs is atuary, and architecture all its pillars, and compuest all its scepters; and the queens of the earth in long line of advance, itankin-cease filling the air and the causels laden with gold, shall approach Jerusalem, and the gates shall be holsted, and the great burden of splendor shall be lifted into the palance of this greater than Solonon. A Long Journey After the Truth.

A Long Journey After the Truth.

igain, my subject teaches me what is armestness in the search of truth. Do you

carnestness in the search of truth. Do you know where Sheha was? It was in Abys-sinia, or some say in the southern part of Arabia Felix. In either case it was a great way off from Jerusalem. To get from there to Jerusalem she had to cross a country in-fested with bandirs, and go across blistering deserts. Why did not the Queen of Sheba siny at home and send a committee to in-quire about this new religion, and have the delegates report in regard to that religion and weath of King Solomon? She wanted to see for herself, and hear for herself. She felt she had a soul worth 16,000 kingdoms like Sheba, and she wanted a robe richer than any woven by Oriental simtles, and she wanted a cown set with the jewels of eternity. There is an earnest seeker after the truth.

The Week on 'Change Brings Forward New Features. The past week was a good one on the

Stock Exchange. Trading was not quite so heavy as earlier in the month, but prices were stronger and better sustained and the field of operations broader.

were stronger and better sustained and the field of operations broader. With three exceptions, changes for the week in the active shares were advances. Closing prices yesterday as compared with those of the previous Saturday show these results: Exchange membershins advanced 50. Pipence, 5: Philadelphia Gas, 3: Citti-zens' Traction, 3: Pritsburg Traction, 1: Electric, 5: Switch and Signal, 3: Airbrake, 1. Underground Cable, Luster and Central Traction were the only weak spots, and they only by comparison. The jumps in mem-berships was caused by heavy buying by Whitney & Stephenson, and the prospective sale of the building to them. Sales yesterday were 1,923 shares and 51,000 bonds, as follows: Two memberships at \$500, \$1,000 Duquesne bond at 100,39 Switch and Signal at 20%. 279 Birmingham Traction at 24, 25 First National Jank at 181, 200 Phila-delphing Gas at 16% 100 Citizens' Traction at 24, 35 Manchester at 40, 50 at 35%, 300 La Noria at 23, 50 Duquesne at 23. Sales for the week were 3,635 shares and \$66,000 bonds. At the close of the call the unlisted trac-tions were quoted: Birmingham, 24% bid, offered at 24%: Manchester, 35% bid, offered at 40%; Manchester, 35% bid, offered at 40%; Manchester, 35% bid, offered at 40%; Manchester, 35% bid, offered at 40, 50 shares Switch and Signal was offered at 21, and it was probably taken dur-ing the afternoon. terial declines.

There is little that is new to be said of the local monetary situation the past week. In general terms it maintai.ed the same posi-tion as noted a week ago, with this excep-tion that the call for loans increased to some extent by the nearer approach of spring. Depositing maintained a high level and checking was fair. The surplus at the end of the week was larger than at the begin-ning, but the meresse was less marked than that of the week before.
