# QUALITY OF CATTLE

Offered at East Liberty Yards Higher Than for Months Past.

LIGHT BUTCHER BEEVES STEADY.

Common and Low Grades Slow at a Slight Decline From Last Week.

#### SHEEP AND SWINE WEAK AND LOWER

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, February 20. Markets opened this morning at the East Liberty yards with 80 carloads of cattle on sale against 70 loads last Monday and 95 loads the previous Monday. About onehalf of to-day's offerings were from Chicago and the other half mainly from Ohio and Indiana. The average quality of offerings was higher than it has been for several weeks past. Buyers were present in rather small force, and with unfavorable weather and the increased run, the situation was in their favor from the start.

Markets opened very draggy at a decline of 10c to 15c per cwt. on all common and low grade beeves, and at noon it looked as though even larger concessions would be necessary in order to unload inferior stock. A load of prime Southern Ohio beeves averaging 1,554 lbs was sold at \$5 10, the highest price reached at the Liberty yards this year. But none of this prime quality has been on sale this year. In a general way the top of markets this morning was \$4 65. Light, smooth butcher beeves, weighing 1,100 to 1,200 lbs, held up fairly well to last week's prices.

#### Fresh Cows in Demand.

Fresh cows were in liberal supply, and those of high quality were in good demand. Sales were reported at \$40 per head, and the range was \$25 to \$40. Veal calves in fair supply and prices of last week maintained, 7c per pound being the top of the market. The run of sheep and lambs was much The run of sheep and lambs was much larger to-day than a week ago, and markets opened slow at a shade lower prices. There were about 27 carloads on sale at the opening, against 20 loads last Monday. Last week prices were advanced almost 15c per cwt. over the price of previous week. This morning the most of this advance was lost. Top price of sheep is \$5 85 and of lambs \$6 75 per cwt.

There were 23 loads of hogs on sale when the markets opened, with a few more loads on the way which were expected later on in the day. Markets opened slow, with \$5 20 as top price of Philadelphias. The weakness of markets became more pronuounced later on, and at noon the outside price was \$5 15. At Chicago, top price this morning was \$4 90, according to advices received by one of our leading packing firms. At the Allegheny Tards.

The cattle supply was larger at Herr's Island to-day than it was last Monday, but markets were strong and active at a shade markets were strong and active at a shade higher range. The best Chicagos on the market sold at \$5 25 to \$5 35 per cwt; medium weights at \$4 60 to \$5 10; light weights, \$4 15 to \$4 45, and common grades at \$3 00 to \$3 50. Fresh cows were quoted at \$20 00 to \$40 00 per head and calves at 5c to 65 c per lb. A lew dry cows, heliers and bulls were on sale and were sold at prices ranging from 2% to 3c per lb.

#### A MID-DAY SPURT IN WHEAT,

Otherwise It Rules Weak and Dull-The Close Is the Worst, With Poor Prospects Ahead-Corn Inclined to strength, but Influenced by Wheat.

CHICAGO—Wheat opened dull, but at an advance of %c above the closing figures of Saturday, although the market was inclined to weakness for a time. The higher opening was attributed chiefly to the cold wave in the Northwest. There were reports of cold and snowy weather in parts of the Northwest. Early cables were low. There was free selling for a time, with a sagging mar-ket, which carried prices down to Satur-day's last figures; but the decline left a good profit for some of the recent short sellers, and there was a pretty general impulse to cover, under which there was some restoration of confidence, and prices gradually went up ic from the low point. Good buying orders for New York account appeared in the advance, but perhaps the strongest factor was the unexpected result in the visible supply statement, which scored a decrease.

factor was the unexpected result in the visible supply statement, which scored a decrease.

Later private cables were also more assuring, and domestic markets also turned stronger. After the noon hour the market became very weak on free sales by New York, and on the down turn local holders also got discouraged and sold freely. May went off with some excitement and sold down with some reactions 1½c from the highest point. May opened at 40%c against 90%c at the close on Saturday; touched 90%c, sold off to 90%c, railied to 91½c, broke to 80%c and closed weak at 80%c. Late cables and domestic market reports were nearly all weak.

Corn was inclined to be strong on the poor grading of receipts and the wet weather, which tends to continue that condition. There was a good demand from shorts to cover, but the offerings were only moderate. The firmer tone in wheat in the middle of the session also helped corn, but later, when wheat broke, corn was sympathetically affected. May opened ½c up at 42%c, touched 42c, advanced to 42%c, weakened and closed at 43%c.

WILKINSBURG TO HAVE A BANK.

Over One Hundred Millions Invested in New Business Enterprises.

INCREASE IN RAILROAD EARNINGS

Business in Wilkinsburg has assumed such large proportions that local banking acilities have become a necessity. There are upward of 100 stores, besides several planing mills, lumber yards, an electric light plant and two flouring mills, also some smaller industries. It is inconvenient and expensive to transact this business through Pittsburg banks. The need of a bank having, therefore, become imperative, steps have been taken to establish one under the national banking laws. The prime movers are Messrs. Duff and Langfitt, both wellknown members of the Pittsburg bar. Over 100 shares of the stock have been taken, and it is expected the remainder will be placed in a short time. The bank will be located on Penn avenue or Wood street, probably

Approved by the Court. The sale of the Speers property, on Lib-erty street, to a well-known commission merchant, and noted at the time, has been confirmed by the Orphans' Court. According to the will of Mr. Speers, the property, which consisted mostly of three houses and lots in this city, was to 'be supported in good order and condition for the term of 50 good order and condition for the term of 50 years," its annual proceeds to be applied to the spread of the gospel here and elsewhere," at the end of which time it was to be sold and the proceeds "appropriated to the above purposes in such way and manner as the United Presbyterian Synod, at a regular meeting thereof, or a General Assembly, if such should then exist, shall direct." The 50 years expired July 21, 1891, and the executors have carried out the provisions of the will, so far as this duty devolved on them.
The proceeds arising from the sale of the
estate amounted to \$141,884 34, made up of
\$44,009 94 in cash, and \$97,875 in bond and mortgage. This estate furnishes an illustra-tion of the increase in value of real estate in these cities. When the collateral inher-itance tax was paid, at the beginning of the 50 years, the estate was valued at only \$9,000.

Paid in Full.

In 1890 Fayette county, Pa., issued \$225,-000 4 per cent semi-annual 25-year Court House bonds. Of this sum \$200,000 were placed May 3, 1890, through Parker Bros. & Co., who failed November 20 following. It was reported that the bonds were lost, but it appears that the money paid for the bonds had been deposited, together with the \$2,000 premium paid, in the Finance Com-pany of Philadelphia. This, with interest to the amount of \$10,134 03, has been paid to the County Treasurer.

# TRAFFIC IN MONEY.

Clearing House Statement for the Month With Some Comparisons.

There was no perceptible change in the money market yesterday, the demand being moderate and supply abundant. It is worthy of note that time money lenders in New York are holding off in many cases, expect-ing higher rates. There is a similar disposition here, but call money is offered freely. The statement of business of the Clearing House for the day and month, as prepared by Manager Chaplin, is as follows:

by Manager Chaplin, is as follows:
Yesterday's exchanges. \$ 2,441,163 36
Yesterday's balances. \$ 500,611 97
Month's exchanges. \$ 55,819,241 36
Month's balances. \$ 910,099,891 31
Exchanges month 1890. \$ 4,469,793 62
Exchanges month 1890. \$ 55,645,677 03
It will thus be seen that the month which
ended yesterday stands higher in a business
point of view than in either of the other
years indicated. With this fact in mind, and
considering that the spring trade has not
yet set in, it would seem difficult to pick
much of a flaw in the situation. Trade is
broadening, This is so generally admitted

THE WEEK ON 'CHANGE OPENS WITH A LIVELY FUSILLADE.

Activity and Strength Displayed All Along the Line-Nearly All of the Specialties Favorably Affected-Some Handsome Gains and No Material Losses.

The local speculative pulse beat high again yesterday. Trading was heavy at each of the three calls. Activity and strength characterized nearly all the specialties. Philadelphia Gas surprised even its friends. It sold up to 17½ against 16½ on Saturday, and closed steady at 17¾ bid. The buying was presumably on Eastern account. Birmingham Traction was another strong feature. It sold up to 25%, and the demand was unsatisfied at the close. There was no was insatisfied at the close. There was no special change in the rest of this group, but they were firm to strong. An interesting incident of the day was the sale of a big block of New York and Cleveland Gas Coal at 50%, the highest quotation since the dividend a month or so ago. Electric advanced a point. Switch and Signal was also higher, though closing a fraction under the top price. Brokers think it will reach a higher

point after the coming meeting. Sales at first call were 1 membership at 1500, 20 Birmingham Traction at 24½, 40 at 

before the culmination of the present bulge. Bids and offers were:

# COALERS BOOMING AGAIN.

DELAWARE AND HUDSON NOW THE CENTER OF INTEREST.

veral Phenomenal Advances, in Which Lackawanns, Jersey Central and Reading Participate-Distillers' Still on the Down Grade-Gold Exports Check the General Buoyancy.

NEW YORK, Feb. 29 .- The stock market ened to-day the new week with a renewal f the excitement over the coal stocks, and creat activity in those shares was again acompanied by phenomenal movements in their prices, which were all in the upward pathized to a limited extent but New England and New York Central were the only ones to score any material improvement from the

Delaware and Hudson was the center of interest this time. At the best price it was up over 7 per cent, and Lackawanna nearly as much, while Jersey Central rose over 4, and Reading was put to above 60. There was only one weak point in the list, and that was Distillers', which continued to decline slowly but steadily, while the other Industrials were firm, though quiet. The excitement in the market gradually died away, though there was comparatively large trading in the late dealings on the evening up of contracts during the day and the liquidation of long accounts by the taking of profits on the advance.

tion of long accounts by the taking of profits on the advance.

The opening was strong and active. Unusually heavy buying by London houses created a bullish feeling, which was quickly reflected in purchases for the long account and material advances. The interest in the coal stocks, however, soon overshadowed the rest of the market, and the heavy advances in those shares completely dwarfed the movements in the others. These improvements in values, however, was checked temporarily by the announcement of the taking of gold for export, but the check was of short duration, and the advance was soon resumed. Realizations also held the list down in the last hour, but the market closed firm and hopeful at or near the best prices of the day.

firm and hopeful at or near the best prices of the day.

The final gains include Delaware and Hudson, 5½; Lackawanna, 5½; Jersey Central, 3½; New York Central, 2; Sugar, 1½; Cordage, 1½; New England, 1½, and Union Pacific and Canadian Southern, 1 per cent each.

The total sales of stocks to-day were 615, 798 shares, including Atchison, 10,880; Chicago Gas, 6,800; Delaware, Lackawanna and Western, 63,370; Delaware and Hudson, 39,394; Erie, 31,640; Lake Shore, 5,85; Louisville and Nashville, 6,500; Northwestern, 3,900; New Jersey Central, 6,380; New York Central, 14,850; Northern Pacific, preferred, 13,800; New England, 48,500; Reading, 106,418; Richmond and West Point, 2,250; St. Paul, 33,061; Union Pacific, 10,854; Westerf Union, 4,400.

The interest in the bond list was not so marked to-day, although the activity in the Reading issues again ran the total up to

\$2,910,000; but with the exception of a rise of 3 per cent in Kansas City and Omaha firsts, there was no marked movement in the entire list. A firm temper prevailed, however, and advances are more numerous than losses to night.

CHOICE DAIRY PRODUCTS STEADY

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, February 29. COUNTRY PRODUCE-Jobbing Prices-Receipts of eggs by the Ohio river were not nearly so large this morning as expected, and as a result markets are firm at closing prices of last week and 3c per dozen above last Monday's rates. This proved to be a blue Monday in general produce lines. Monday is uniformly an off day, and snowy, slushy weather intensified the blueness today. Poultry is reported scarce, but demand is light, and there is no marked change in prices. New maple syrup is to the front in fair quantity and sells readily at \$1 per gal-lon. The size of the crop in this line will depend very much on the weather of the next week or two. Vegetables of all kinds are quiet at unchanged prices. Choice dairy products are reported active and firm.
