WILLOW GROVE'S WAR

Oil Operations Are Stopped by the Owners of Coal Rights.

ONE HOLE WAS FILLED WITH JUNK.

The McConnaughey Wildcat Reported as Dry in the Fifth Sand.

WELLS WHICH SHOULD COME IN TO-DAY

The oil operators and the coal men in the neighborhood of Willow Grove will prob; ably come together in a fight to the finish before many days, C. D. Robbins, of the Robbins Coal Company, has notified all operators who have started wells above the coal which is owned by the coal company that legal action will be taken to prevent the wells from being drilled through the coal. In one case, where a well was drilled through the coal by Mellon & McKenna, the miners dug an entry to the well and filled the hole

entry to the well and filled the hole below the coal with junk, and effectually put a ston to the work, as the drillers were unable to make any headway. This case has been taken to court and will be tried within a week. When the trouble first came up between the coal men and the oil operators, the latter simply gave bonds to indemnify the coal operators in case of damage, and went ahead with the wells. In consequence of the order issued by the coal company, work has been stopped at nearly a dozen wells.

The well of the Steubenville Oil Company, on the Boa lot, at Willow Grove, is 17 feet in the Gordon sand, and has not made a flow since Saturday. The sand is hard and fine. In consequence of the light showing made by this well Murphy & Co. contemplate shutting down their well, which is 400 feet deep, and located 300 feet south. Rend & Robbins were on top of the Gordon yesterday on the Robbins lease, and were moving back the boiler. The Mansfield Oil Company got the tools out of its well on the Davies lot yesterday. They were down 1,350 feet, and have been fishing for two months. Kennedy & Miller expect to get the Gordon sand next week on the Pry lease. The well which was started by Welnle & Co. on the Abatta lot is down 1,300 feet. It has been in charge of Henry Miller, saperintenden: of the Mansfield Oil Company, since the inlure of Mr. Weible. Sheffler & Co. expect to get the Gordon by Monday on a town lot in the eastern part of Willow Grove. Eriley & Roland Bros, have a rig up on the schoolhouse lot. Borchert & Co. are in the Big Injun on the McVickar's lot.

Had to Get Off the Coal. Had to Get Off the Coal.

Kennedy & Miller are drilling on the church property south of Willow Grove. When they were down 95 feet it was discovered that they were 14 over the coal line. hich embraces all of the coal within a radius of 60 feet of the church, and they were compelled to move their rig. Thompson & Co. have a bit in the hole at a depth of 700 feet on the McVickars property. Guffey & Co. are down 1,300 feet in their No. 1 Mankedick. Peebles & Malarkey are ready for the first casing on the poolroom

The Whebling Gas Company has a riz up on the Kelso farm, a mile west of Willow Grove. Guffey & Co.'s No. 2 John M. Glenn is down 1800 feet, and No. 3 on the same farm is drilling at 1500 feet. Guckert & Steele's No. 2 Burchinal is down 1800 feet. Guckert & Steele's No. 2 Burchinal is down 1800 feet. Guckert & Godnier's No. 1 on the Kennedy farm, back of Oakdale, was two bits in the fifth sand last evening, but they did not expect to reach the pay until this morning. They have been only 31½ days at this well at a octock yesterday a tremon. The Forest Oil Company's No. 2 Agnes Kemp, only 75 feet distant from the Kennedy No. 1, is due to get the fifth to day or to-morrow. The Forest Oil Company has rebuilt the rig on the Stirling farm, a mile south of Oakdale, which was burned by gas from the 100-foot. It started to drill yesterday at its No. 2 E. Wright and No. 2 James McGregor, and made a location on the Geyser farm, 1,200 feet west of Coast Bros. well, on the McMichael farm. The Jolly Oil Company's well at Noblestown.

The Jolly Oil Company's well at Roblestown is down 1400 feet and fishing for a string of tools. Greenie's & Forst are drilling at 900 feet on the McGrady lot. Their No. 2 on the No. 1 McMichael farm. Co. are down 300 feet on the McGrady lot. Co.

The well of Haymaker Bros, on the Mc-Connaughey farm, third miles southwest of McDonald, was reported last night to be through the firth sand and dry. The Wheel-ing Gas Company's well on the W. S. Kelso farm was reported yesterday to be making from 350 to 400 barrels a day, but as there is only one 250 tank at the well the above estionly one 250 tank at the well the above estimate is probably large. It is located threequarters of a mile northeast of the Scott
well. Kirk & Co.'s well on the Gladden farm
is a big gasser in the 50-foot. Smith, Royce
& Co.'s well on the Taylor farm, at Midway,
will make more than 25 barrels a day from
the Gordon. The Southwest Penn bil Company is reported to have struck a 250-barrel
well near West Union, Doddridge county,
W. Va. It is an entirely new territory.

A BREAK IN PORK

Weakens All the Cereal and Provis Markets in the Afternoon-Wheat Was trengthened in the Forenoon by Bullish News Items-Attempts to Bealize. CHICAGO-Wheat wabbled a little at the

opening, then became strong and marked a substantial advance, but weakened again later, and closed easy at about the lowest figures of the day, and at a decline of %c, compared with final figures yesterday. Notwithstanding the builtsh news, the market late in the day became weak on free local selling, helped by the break in provisions. Shorts grew nervous, and made anxious efforts to cover, and their buying helped to efforts to cover, and their buying helped to increase the firmness. May opened Ic lower at 90c, sold at 90%c: improved slowly to 91%c: then, on heavy short selling and the liberal realizing on long wheat, there was some yielding in prices, and May touched 91%c. But there seemed to be no loss of confidence, and the buying again became sharp, followed by a reaction, during which the lost ground was recovered. Then, during the last hour, the crowd which had loaded up on the strong cables undertook to realize, but found little demand. Some of the leading houses turned sellers and weakness ruled. May went off to 90%c, and closed at 90%c.

ruled. May went off to 96%c, and closed at 96%c.
Corn quiet, steady and nearly featureless.
Corn weakened in the afternoon in sympathy with wheat. The fluctuations of the day were confined to %c range, and the close was unchanged.
Outs dull and steady within a %c range, and closed %c lower.
Hog products opened higher, especially for pork. Early sales were at \$1145, but there was a rush to sell, packers being in the lead, and the price steadily declined to \$1122% in the forenoon. During the last hour the pressure was increased, and the price went off to \$1112%, but railled near the close to \$1120, a loss of 20c compared with yesterday. Lard and ribs sympathized with pork, but with less marked fluctuations. The former shows a loss of 7%c and the latter 5c.

SMALL BUT COSTLY

A Unique Transaction Just Consummated in the East End.

Hillside Property Is No Longer a Drug in the Pittsburg Market.

GROUND DISPOSED OF BY THE INCH.

FEATURES OF MONEY AND SPECULATION

The highest price ever paid for ground in the Oakland district was received yesterday by Mr. Frank Shafer through the agency of Larkin & Kennedy. There was not much of it, but what it lacked in quantity was made up in price. . It was the outcome of a transaction between Mrs. Catharine Burger and Mrs. Mary L. Carr, on Meyran avenue. A dispute grew out of a boundary line involving a small fraction of a toot, which Mr. Shafer claimed. Two sets of engineers were employed to adjust the line, and after much sighting and figuring they finally decided that the strip belonged to Mr. Shafer, who then sold it to Mrs. Carr at the rate of \$400 a foot front. The deed will be for the smallest parcel of land ever put on record in Allegheny

Hillside Property Looking Up.

It has not been many years since Hillside lots around Pittsburg were considered of little value. There was no market for them. In fact, they could scarcely be given away. But this is no longer the case. The occupation of the valleys by industrial plants and homes for operatives has brought hillside property into active demand and made it valuable. Proof of this is found in the Soho district and on the North and Southsides. Purchasers of this class of property are for the most part people of moderate means. Unable to pay high prices for level land, they seek the hillsides, build their homes and live in comfort. There are no more picturesque spots in or aroung the city than these hillside settlements, a fact remarked by nearly all observant strangers who visit Pittsburg. There is a large amount of this kind of property yet on the market, but, with the progress of improved locomotion, it is being rapidly absorbed, and in a few years will command high prices.

Hillside Property Looking Up.

Good Movement in Acreage. Capitalists have faith in Pittsburg's fu-ure. This is seen in the interest they are taking in real estate, and especially in the acquisition of acreage. In acre purchases even more than in large purchases of business property must there be displayed fatth in the continued expansion of the city. With the business district crowded to overflowing, property can be counted on with fair assurance as a safe investment. Purchasers of unimproved tracts must have be-fore them a certainty of continued growth and expansion of the city if they are to be successful. It is not hard to convince investors that Pittsburg occupies so strong a position by reason of her industrial supremacy that a reaction is almost out of the question, and the result is the steady absorption of acreage by people who expect to make a profit by it, and at the same time assist in building up the city by holding out inducements to home-seekers which would otherwise be impossible.

Business News and Gossip, The inquiry for real estate is materializ-ing. Deals are being closed by nearly all the brokers.

Underground Cable finished better than the opening.

Sales at first call were 50 Birmingham at 26, 34,000 Birmingham bonds at 100%, 700 La Noria at 30, 120 Manchester at 35%, 40 at 35%. Before call, 170 Electric, new, at 25. Second call, 30 electric, new, at 25, 70 Philadelphia Gas at 16%, 30 at 16%. Third call, 100 Wheeling Gas at 17%, 60 Birmingham at 25%, 10 Chartiers Gas at 85%, 30 Switch and Signal at 18%, 10 Pleasant Valley at 24%, 50 New York and Cleveland Gas Coal at 50%.

On the street, after call, there was a good inquiry for several of the specialties, and especially for Electric. Holders of Birmingham seemed to be a little more anxious to sell than on call. There was an offer of \$10, 000 Birmingham bonds at 102. Bids and offers at each call follow:

·A RUSH FOR NEW ENGLAND. BUMORS OF THE VANDERBILT DEAL

Denial of the Reports-Several Heavy Losses After the Morning Furore-Lake Shore Is Up.

EXCITE SPECULATORS.

NEW YORK, March 3.-The stock market was narrower than for some time, although the amount of business was very large, especially during the forenoon. The temper was in the main firm, and advances scored during the forenoon were only partially lost later in the day. The great feature of the day was the extraordinary activity in New later in the day. The great feature of the day was the extraordinary activity in New England, the excitement in which for the first hour was most intense. The rumors ciculated last evening, connecting the Vanderbilts with the road, were the basis of the operations. The stock sold at different prices, from 56 to 59. The realizations were so heavy that it rapidly retired to 54 before the selling pressure was relieved. At 59 it was 3½ per cent higher than at the close last evening, and at 54 it was down 13½ per cent, and while it rallied from this point to 55½, it sold between 54 and 55 the remainder of the day. Denials of the stories circulated were received from the Grand Central depot, and after 115,000 shares had changed hands in the first hour, over 70,000 of which were sold during the first 15 minutes, the stock gradually settled down to ordinary animation.

The most prominent feature outside of New England were the Vanderbilt stocks, all of which displayed considerable activity and strength, Lake Shore at one time being 2 per cent above its final figure of yesterday. Northwestern was included in this group, and Burlington and Rock Island scored substantial gains, while the Coal stocks were suddenly let down at noon, Delaware and Hudson losing nearly 3 per cent. The only other special feature of the day was a rise in Chicago Gas, but all these movements were spasmodic and of short duration.

The general list opened firm and remained firm to strong in tone without any material improvement. The only weak point was

per cent.

The total sales of stocks to-day were 594,134 shares, including: Atchison, 5,200; Canada Southern, 4,400; Chicago Gas, 8,100; Delaware, Lackawanna and Western, 4,800; Delaware and Hudson, 5,580; Erle, 46,590; Lake
Shore, 12,675; Louisville and Nashville, 4,920;
Northwestern, 16,885; New York Central,
16,000; Northern Pacific, preferred, 4,400; New
England, 290,870; Reading, 41,000; Richmond
and West Point, 26,663; St Paul, 26,430; Union
Pacific, 3,706.

Railway bonds were quiet, and while displaying a firm temper for most of the time,
closed with the Reading and Richmond and
West Point in the last hour. The latter
bonds are dewn land 1½ per cent for the 6s
and 5s. The business was \$1,562,000, with
some activity in the Reading deforreds and
the terminal 5s.

SIGNS OF DEMORALIZATION

Every Day.

reported from nearly every market, the first stocks were suddenly let down at noon, Delaware and Hudson losing nearly 3 per cent. The only other special feature of the day was a rise in Chicago Gas, but all these movements were spasmodic and of short duration.

The general list opened firm and remained firm to strong in tone without any material improvement. The only weak point was Sugar, which gave way over 1 per cent in the morning, but rallied later in the day. The late dealings saw a renewal of the realizations on a large scale, coupled with a vigor ons attack upon both New England and the Richmond and West Point stocks to take advantage of the sales for the long account. The general stock market sympathized to some extent, and the close was active and weak, but generally at close to first prices. The only stock to show a material improvement was Lake Shore, with a gain of 1½ per cent, while Richmond and West Point preceding should be compared to some extent, and the close was active and weak, but generally at close to first prices. The only stock to show a material improvement was Lake Shore, with a gain of 1½ per cent, while Richmond and West Point preceding the strong of the interval of the industry. Chicago and Pittsburg at the Chicago districts that a number of furnaces in the Chicago district will also stop. Bessemer pig is still reports in the Chicago district will also stop. Bessemer pig is still weak in Pittsburg and Philadelphia of the interval markets, Chicago alone reporting a good sale. There is no truth in the report circulated by a news agency in this city that the Steel Rail Association has collapsed.

Steel Rail Association has collapsed.

In the beam trade the only item of news of the week is the report that contracts for 5,000 tons have been placed in Boston at 2,100 delivered, by far the lowest price yet named. In structural material the Keystone Company, of Pittsburg, have captured a large order for the Chicago elevated road. Plates, notably in Eastern Pennsylvania, are exceedingly low. The principal item of news in the metal trade is a report of a sale of 10,000 tons of anaconda matte for export, the price being based on a sliding scale, and a sale of 4,000 tons of lake copper for export. The Western spelter producers have, sought some relief by selling for export about 700 tons of that metal.

The foreign markets are reviewed by cable as follows: Trading in Scotch warrants has been more active since the London syndicate relaxed their hold upon the market, and a very fair amount of business has taken place on an average of 40 4/4d, although consumptive demand is still rather slow and the export movement backward. Cleveland warrants have also improved under more liberal dealings, advancing to 38 13/4d with moderately active business. The upward turn is attributed chiefly to threatened large concerns have given notice of stoppage of operations during the fortnight commencing with the 12th inst., when trouble with the colliers is expected. Hematite warrants stores remain almost stationary. Latest returns give 501,000 tons Scotch and 160,000 tons Cleveland.

Jealousy Prompts a Flendish Crime on the Part of a Duquesne Wife.

McKzzsport, March 3.—Jeaiousy almost caused a murder in Duquesne Tuesday night. Mrs. Mary Galvin threw a cantul of concentrated lye in her husband's face, nearly blinding him. Galvin had gone home drunk, and a family quarrel started that soon became so hot that the husband left the house and took refuge with a neighbor. Picking up the can of lye she followed him and dashed the lye in his face.

and dashed the lye in his face.

The flery liquid burned his face almost to a crisp, and ran down over kis neck and shoulders. His eyesight is probably permanently impaired. Two children were asleep in a bed behind where Galvin was standing, and some of the lye splashed on them, burning their faces and shoulders badly. Mrs. Galvin was arrested and given a hearing before 'Squire Kligallon, of Duquesne, and in default of \$1,000 ball was sent to jail. Before leaving she said she wished she had finished her work.

terday. Attorney J. F. Cox filed the suit of Margaret Murray by her next friend, John Clark, against Edward Murray. They were married November 2, 1850, and, she alleges, he deserted in 1873, 19 years ago. She also he deserted in 1873, 19 years ago. She also says that shortly after he left her he was convicted, in England, of burglary and robbery and sent 12 years to the penitentiary.

Attorney Cox also filed the suit of Lizzle Sikes by her next friend, S. H. Yahres, against Joseph Sikes. They were married May 16, 1883. She alleges that he ill-treated her and deserted her May 1, 1889.

Attorney Edmundson filed the suit of Mary N. Brown by her next triend, James Bonstead, against James Brown. They were married May 23, 1886, and it is charged he deserted her November 22, 1888.

In the amended libel in the case of Harry H. McMillen vs Alice McMillen, the latter filed an answer yesterday, denying each and every statement of the libellant in regard to her unfaithfulness to him during the years 1884 and 1883.

Many a life has been lost because of the taste of codliver oil.

If Scott's Emulsion did nothing more than take that taste away, it would save the lives of some at least of those that put off too long the means of recovery.

It does more. It is halfdigested already. It slips through the stomach as if by stealth. It goes to make strength when cod-liver oil would be a burden.

A Man Well-known to the Theatrical Profession Tells His Story.

The following story is told by N. Helmer of Helmer & Lietz, wigmakers, No. 125 Fourth Avenue, New York. "I have had a combination of catarrh and bronchitis from my early infancy. Two years ago the symptoms became greatly aggravated, and I was afraid of running into consumption. Have tried inhalations, douches and medicines numerous, but none with as marked success as Dr. Sage's Catarrh Remedy, coupled with the use of Dr. Pierce's Golden Medical Discovery for the Bronchitis and the bloodl. Having used two bottles of the 'Catarrh Remedy' and a like amount of the 'Golden Medical Discovery,' I find myself a well man."

The makers of Dr. Sage's Remedy lose \$500 if you're not cured of Catarrh.

Dr. Sage's Remedy has proved a cure for 90 out of 100 cases of Catarrh in the Head, and its makers can afford to take the risk of your being the one hundredth.

The only question is—are you willing to take the risk!

If so, the rest is easy. You pay your drugs.

If so, the rest is easy. You pay your drug-gist 50 cents and the trial begins.

If you're wanting the \$500 you'll get some-thing better—a cure!
