The State of the Flour Trade.

Miller for this week says: The mills last week raised their flour output about 1,000

barrels per day. The aggregate production of 17 mills was 177,550 barrels, averaging 29,-

of 17 mills was 177,550 barrels, averaging 29,595 barrels, against 171,620 barrels the previous week; 123,275 barrels for the corresponding time in 1891, and 131,950 barrels in 1890. With an improving water power one more water mill is running, making 18 in the operative list. Close to 30,000 barrels are now being turned out daily, but the decided falling off in orders is causing some of the millers to talk of a reduction soon. One or two of the heavier companies here still have a good many orders unfilled, and they are running strongly on this account. Trade in flour for a week past has been very slow, and probably less than half the production was disposed of in fresh sales. There is scarcely anything doing for export, and bakers and low grades are very hard to get rid of anywhere. It is impossible to keep them cleared up. Complaint is made that certain Minneapolis millers are cutting prices badly in order to sell flour, and at Chicago this practice is claimed to be especially flagrant. Prices at Minneapolis mostly ranged at \$4,2564 50 per barrel.

St. Louis—Wool—Receipts, 15,000 lbs; ship-nents, 12,000 lbs. Market unchanged. New York—Wool quiet and steady. Philadelphia—Wool market quiet and

argely nominal.

Bosrox—The demand for wool has been

Bosrox—The demand for wool has been steady and the sales of the week are quitz large, amounting to 3,578,000 pounds of alkinds. Prices remain the same, low and intavor of buyers. Quite good sales of this fleeces are reported at 276,273/c for X, and 28 (29c for XX and XX and above. Michigan X sold to a fair extent at 28c. In No. 1 wools there has been a quiet trade at 34,235c for Ohio and 33,634c for Michigan, No. 1 combing wools have been dull at 35,238c. Fine delains fleeces have been quiet at 33,234c for Ohio and 31,632c for Michigan. In unwashed combing wool there have been moderate sales of one-quarter blood at 24,25c and three-eights at 266,23c.

MINNEAPOLIS, March 4.- The Northwest

IRON TRADE REVIEW

Bessemer Sales at Prices Lower Than Ever Known in Pittsburg.

ORE ALSO GOES DOWN A PEG.

Overproduction and the Craze for Steel Are D pressing Factors.

REPORTS FROM ALL HETRADE CENTERS

OFFICE OF THE DISPATCE, PRITSBURG, FRIDAY, March 4.

RAW IRON AND STEEL-The iron trade continues in a demoralized condition. Prices for all descriptions are weak and unsatisfactory. We are now in the third month of the year, and the improvement so long expected has not yet put in an appearance. As to prices there has been no further decline, and there is a moderate demand for Bessemer pig at the low prices now governing the market. Throughout the producing center of the country the inactivity prevailing for some time continues and the present position is very unsatisfactory to the trade generally. Competition for business has been active, and prices in some instances have been lowered to secure contracts. Consumers, as a general thing, are only placing orders for iron as they need it.

Unsold Stock Accumulating. Although consumption continues large, the output of the turnaces is of heavy pro-portions, and there has undoubtedly been portions, and there has undoubtedly been some increase in the amount of unsold stock since the beginning of the year. It is the prevailing opinion that there can be no pronounced improvement in trade until the furnace companies shall recognize that there is an over production and take steps to restrict the output.

In regard to values, the present seems to

be the dark hour before the dawn. Prices have undoubtedly been the lowest for years, and in some directions the lowest or years, and in some directions the lowest ever recorded. Prices, too, are something of a mystery these days. While certain brands have a clearly defined position, other irons, claiming to be equal in quality, equal in erading and in all respects fully up to the standard, have been shaded before sales could be consummated.

A large number of furnaces are being banked or blown out—the more the better. Those who have piled up large amounts are getting ready to unload at some price. City furnace irons have such an excellent reputation that top prices are always obtained for Bessemer, gray forge and foundries.

Manufacturers Simply Overstocked. IRON AND STEEL-During the week there has been quite a controversy in regard to these products. There seems to be a difference of opinion caused by a dull market and the discharge of so many puddlers at various establishments. A leading iron man has this to say about the situation: "It may be sized up by the words—over production. It has, been charged that the several shutdowns mean a combination of the firms against the workmen, but there is not a word of truth in that. We are simply overstocked and must give our puddling furnaces a good rest before we can resume on legitimate business lines and at a profit. Iron has of late been much crowded out by soft Bessemer steel. The steel we can use but not the iron. We can sell the steel for exactly the same price as iron. It is altogether probable that we will never

start up these furnaces again."

Another iron man defends iron. He says: "The iron business will recover. Steel is crowding it very closely. I am not of the opinion that it is going to be knocked out completely because of the advantage that exists in the manufacture and uses of steel and its supreme adaptability to so many purposes formerly filled by iron."

Lower Prices Not Looked For. THE LATEST-Market still weak. Prices seem to have touched bottom. Bessemer sales are at the lowest we have ever re-ported. The Cleveland Rolling Mill Company, of Cleveland, O., are about ready to reported. Others who have made offers, ame making steel rails. This mill is not in the rail pool, and have not made rails for several years. They will run one turn on

rails and the other on billets.

IRON ORE-Few sales are being made. Some sales of Bessemer ores were at lower prices than last year, which gives late buyers considerable advantage.

SCRAP MATERIAL—Dull, prices nominal.

Tre low price of Bessemer pig is the cause of the dullness. Old iron and steel rails are exceedingly dull; prices weak and uncer-ain. Billets and slabs dull. We are reported the following sales: CORE-SMELTED LAKE AND NATIVE ORES.

SOME SALES AT CINCINNATL

A Considerable Amount of Business, but at Very Low Prices. CINCINNATI, March 4 .- [Special.] - Rogers,

Brown & Co. say: A very considerable amount of business has been transacted dur-ing the past week, at low prices. The tonnage of sales made through Cincinnati agencies will probably reach 30,005 during the week. This has been largely to Southern coke frons, and it is needless to say that rices have been lower than before casie. uyers for the most part, however, take nothing except what is actually needed for early consumption. One large consumer entered the market for 10,000 tors, late deliveries, but concluded not to buy. It is a singular characteristic of the pig iron traie that when prices are at the lowest buyers, as a rule, keep their yards as near empty as possible, and only take hold freely for future wants when prices are well up. The very general talk of over-production naturally excites fears among all classes of buyers, and the general belief is that there is no bottom to the market. Here and there a furnace or other holder of iron throws some special to the market for what it will bring and adds to this feeling. All experienced observers know that the farther this demoralization extends the quicker and more extreme will be the reaction. At present there is unquestionable over-production. thing except what is actually needed for present there is unquestionable over-production. From this time on, however, furnaces North and South will go out of blast, and production will be materially cut down. This is inevitable, because 25 per cent of the active furnaces are making

iron at a loss on to-day's market. Some place the proportion much higher than this. When it is once clearly seen that production is reduced, consumers will conclude they had better stock up, and there will be an active buying movement that will quickly prove there is a bottom to the market, and that it is a higher level than generally supposed. It should not be forgotten that practically the entire blast furnace capacity of the United States has been employed for the last three months. The total output has exceeded consumption by perhaps 8 percent. This is during a period when all branches of the iron trade have been depressed. There are few new furnaces in construction, either north or south, and it will be years before another period of active furnace-building sets in.

The average increase in consumption of iron in the United States for the past 50 years has been 10 per cent per annum. If

iron in the United States for the past 50 years has been 10 per cent per annum. If the future is at all like the past it is impossible that iron should continue for a long period below cost of production. A slight increase of consumption following the curtailment of the cutput would bring about entire new conditions. Since our last report two or three Northern furnaces of large capacity have blown out, and two stacks in the South have gone out for repairs. One new Southern furnace of large capacity will blow in next week. It is the Embreville, in East Tennessee, near the North Carolina line. It will use low phosphorus ores of a grade between Cripple Creek and Cranberry.

LOWEST OF ALL AT BIRMINGHAM

Never Before Was Such a State of Affairs

in the South.

BIENINGHAN, ALA., March 4.-[Special.]-The iron market is at the lowest point ever known in this district. The quotations are given out as follows: No. 1 foundry, \$12; No. 2 foundry, \$11; No. 3 foundry, \$10; Grey forge, \$9. These are nominal figures. The tone is weak and the tendency lower, with demand light. Stacks continue to accumulate under heavy production and more iron is already in the yards than has ever been known.

The general feeling among iron masters is that no compromise among producers is likely to be reached whereby production can be amicably limited, and that the struggic will proceed until enough furnaces are forced out of blast to allow consumption a chance to catch up. Some hope is entertained that the demand may improve generally and restore the market to at least the figures prevailing prior to the new year, when fornaces here were fairly well satisfied with the situation. Every preparation is being made for continuing in fud operation, and there are no indications of a shut down being in contemplation.

Wazea have been cut down by some of the light. Stacks continue to accumulate under lown being in contemplation.

Wages have been cut down by some of the

Wages have been cut down by some of the companies by 10 per cent, the reduction affecting all employes from President down. The Tennessee Coal and Iron Company, bowever, has not made any cut as yet, though it is carrying much the largest stock. The Presidents of the three largest concerns are now in New York for a conference on the situation. The railroads are asked to come to the assistance of the district in what is called the crucial struggle and as the reduction asked for is recommended by the local freight agents, it is believed the request will be granted. The ore supply is also being cheapened by the aid of the ore miners. There are no indications that the reduction of wages will be resisted.

SMALL ORDERS AT CHICAGO.

Consumers Disposed to Buy Simply From Hand to Mouth.

CHICAGO, March 4.—[Special.] — Rogers, Brown & Merwin say: There has been no change worthy of note in the pig iron market during the past week. While small orders have been numerous, business has been confined almost entirely to sales of this sort. Notwithstanding the fact that prices on both Northern and Southern coke iron are ruling lower than ever before known, consumers are indisposed to take

known, consumers are indisposed to take hold, and are pursuing the policy of simply buving from hand to mouth.

During December and January contracts were made by many of the large buyers covering delivery over the entire year of 1892. Consumers thus provided will be out of the market for months to come, but the general trade must arrange for a supply, and can be depended on to buy heavily as soon as symptoms of improvement are seen. As long, however, as the present over-production continues, but litt e animation, either in the way of sales or prices, can be looked for. Marked improvement must come, and it is only a question of time as to when better conditions will prevail. Meanwhile, the blowing out of turnaces in all districts may be looked for.

A Limit Found at Philadelphia

PHILADELPHIA, March 4 .- [Special.] -- Rogers, Brown & Co. say: Several large buyers have been testing the market, and some sales are low for some furnaces to accept have found there is a limit beyond which sellers will not get. Consumers of steel are receiving exceedingly low quotations from the Pitts-

No Change at St. Louis. St. Louis, March 4—[Special.]—Rogers, Brown & Meacham say: There has been no change for the better since our last report. A few small orders for Southern coke from have been placed during the past week at extremely low prices. There has been some sales of Lake Superior iron made in this mar-ket during the past week, and the figures at which they were made were extremely low.

Metal Markets.

New York, March 4.—Pig iron dull and weak; American, \$15.75@17.75. Copper dull and steady; lake, \$10.50@10.02%. Lead quiet and steady; domestic, \$4.15@4.20. Tin dull and steady; Straits, \$19.60.

THE MARKET BASKET. Ocean Products in Better Demand and

Flowers Depressed. At the Diamond Market fruit and vegetable stalls trade is reported quiet for the week with no essential change in prices. Eggs have been up and down for the past

Eggs have been up and down for the past two weeks, but are now retailing at 20 cents per dozen, which was the price last Saturday. Poultry has been in limited supply of late, and prices show and upward tendency. Choice creamery and fancy roll butter sell at the same price as a week ago.

The Lenten season, which opened the present week, has had a hetpful influence on the fish and oyster trade, but staple meats have suffered accordingly. At the butcher stalls trade is reported very slow, but staple meats are unchanged in price. The effect of Lent is felt most in the line of floral goods. Society has entered upon its quiet period, and floral decorations are not so much in demand as a week ago. The result is lower prices all along floral lines, in spite of the lact that quality of flowers has greatly improved the week past.

Following are latest retail prices of market basket materials:

MEATS—Best cuts of tender-lon steaks. 25c per 10 feet.

UP THE MONONGAHELA

Marvelous Changes in the Valley in the Last Ten Years.

GREAT INDUSTRIAL REGION.

Birmingham Traction and Switch and Signal Weak Spots in Stocks.

ANOTHER DEAL ON GRANT STREET There has been another deal on Grant

street. Evidence accumulates of a brisk movement on that thoroughfare before very long. A business house near the Cathedral will probably change hands in the next few days. A warehouse and an office building on the northeast and southeast corners of Grant and Fourth are among the probabilities. The sale referred to was made through the agency of Larkin & Kennedy. They sold for C. F. Klopfer to Larkin & Filson the three-story building, No. 205 Grant street, lot 20x60, for \$10,200.

Full of Business. The Monongahela valley has undergone a radical change in its material aspects in the last ten years. As far up as McKeesport, along the river, there are no large tracts of level unoccupied land. Within these limits there are four large towns and a population there are four large towns and a population of about 75,000 workers. Among the important industrial concerns are the Carnegie mills at Homestead, Braddock and Duquesne, employing between 5,000 and 6,000 men, the Carrie Furnace, the Braddock Wire Works, the Howard Plate Glass Works, National Tube Works, D. W. Wood & Co.'s Iron Works, and a number of others. In this connection it is pertinent to note, as showing the growing importance of the valley as ing the growing importance of the valley as a manufacturing quarter, that the Carnegie firm recently paid \$255,000 for 50 acres at Duquesne. Between McKeesport and Monongahela City there are a number of unoccupied level tracts, the most notable of which is the seven-mile stretch from Coal Valley up, including West Elizabeth, and embracing the Wiley, the Blair and the Corwin farms, which, report has it, have been optioned to the United States Glass Company or some other concern. Industrial development has extended as far up as Charleroi, 42 miles from the city. The growth of this valley has been truly mar-velous and to old Pittsburgers who have not visited it for some years the change that has taken place since their early acquaintance would, if they were to see it now, be indeed a surprise to them.

A Big Thing on Paper, Among the magnificent improvement

schemes on foot in New York is one for the annexation of Manhattan Island to the mainland. The projectors of this enterprise contend that if this were done it would increase the valuations of real estate in Harlem and the annexed district fully \$100,000,000, beside saving to the city an immediate expenditure of some \$8,000,000 to \$10,000,000 for bridges and other improveto \$10,000,000 for bridges and other improve-ments between the points named, and re-claim some 235 acres of land, or say 16 city lots, 25x100, per acre, a total of 3,762 lots, worth fully \$10,000,000 when the avenues and streets are extended. To accomplish this object it is proposed to fill in the Harlem river between Third and Eighth avenues, save a covered waterway 60 feet wide between these points, on the west side of the river, so that the avenues and streets of Harlem may be extended across into Morrisania.

Moving for Higher Prices.

Producers of hemlock lumber in Pann-sylvania are about to combine to strengthen the market. People engaged in this indus-try will soon hold a meeting to receive reports from manufacturers, to whom a proped to restrict 000,000 feet sign, an announcement of the fact will be made, and the season's business will be done on that basis. It would be useless to say whether there are any prospects for success or not; those who are work-up the matter say there decidedly good prospects that the thing will go through, that the reduction in cut will be made, and that hemlock will sell for more money than

ast year. Business News and Gossip. The school building in Edgewood will be finished in about a month. The contract

price is \$17,500. An important statement is promis

the approaching meeting of stockholders of the Luster Mining Comany. Robert Paul has sold to Nettle McK. Mothorel, 40x91 feet on Pacific avenue. Twentieth ward, with a moderate dwelling,

Twentieth ward, with a moderate dwelling, for \$5,300.6

An increase in the capital stock of the American Sugar Refineries Comany istalked of. Three-fourths of the stockholders are reported as assenting to this.

Blair & Co., New York, were the highest bidders for the \$40,000 5 per cent High School bonds of Hamilton, O. Outside the exchange yesterday Julius F. Stark sold \$10,000 Birmingham bonds at 1001/2 and John D. Bailey 20 Standard Plate Glass at 40.

and John D. Balley 29 Standard Plate Glass at 40.

Bond quotations: Pittsburg Traction, 5s, 100 saked; 105 bld; Duquesne Traction, 5s, 100 saked; Point Bridge, second mortgage, 6s, 100 bld; Penn Incline first mortgage, 6s, 100 saked; Allegheny County Light, 6s, 105; Mannhester Traction, 5s, 105@107; Central Traction, 5s, 104½ asked.

It is said that the Carnegie firm is negotiating for a large tract of land a short distance up the Monongahela.

ing for a large tract of land a short distance up the Monongahela.

Three permits were issued yesterday for the erection of six buildings, aggregating \$2,635. The only one of importance was taken out by T. W. Hisbitt for four frame dwellings on Frazier street, Fourteenth ward.

The response of the Pittsburg banks to the Controller's call for statements will be entirely favorable.

Movements in Realty.

A clergyman of this city last year pur-chased a piece of East End property at \$70 a front foot. Last week he sold a part of it at \$115 a foot. He thinks, from his experience, that the East End is a good place to invest in realty.

Liggett Bros. sold for Mrs. McKennan to Frank L. Ober, a house and lot 25x85, on Liberty street, Allegheny, for \$7,000. They also sold for Thomas J. Hawkins two lots, 50x130, on Atlantic avenue, for \$5,000, or \$60 a loot, upon which the purchasers will erect fine residences.

Black & Baird sold to Willis C. George lot No. 117 in J. H. Willock's plan at Hazelwood, fronting 24 feet on Smith street by 100 feet in depth, for \$750.

James W. Drape & Co. sold five houses and two lots in Allegheny belonging to a corporathat the East End is a good place to inves

James W. Drape & Co. sold five houses and two lots in Allegheny belonging to a corpora-tion that is winding up its business in that line, for \$8,750; also a farm of 75 acres near the city, and a house and three lots in the Thirty-second ward, for \$7,500; also seven lots in Munhall Terrace plan at \$2,500; also two lots in Orchard Grove plan, Mansfield, for \$600; also two lots and small building on Susquehanna street, East End, for \$1,250; also a collateral interest in a property in the suburbs of \$3,500.

Susquehanna street, East End, for \$1,850; also a collateral interest in a property in the suburbs of \$3,500.

S. A. Dickie & Co. sold to Jas. P. Reed a lot on Penn avenue, near Homewood avenue, being a part of the Pears property, 60x176.17 feet, for \$6,000.

Peter Shields sold lots Nos. 175 and 176, each 30x90 feet, located on Housac street in the Greenfield avenue plan, Twenty-third ward, to John J. and A. A. Mellody for \$900.

J. E. Glass sold for J. P. Balley to C. H. Watkins 30 lots in the Oakland View plan, in the Fourteenth ward; consideration, \$11,000, The purchaser will improve the property by grading streets, putting down sidewalks and erecting a number of modern dwellings. He also sold for A. C. Watkins lot No. 19 in the Allequippa Pince plan No. 2, for \$450.

D. Belien & Son sold to James Jiles for W. J. Dick lot about 77x89 feet, on corner of O'Hara and Alder streets, Twentieth ward, with a seven-room frame house, lor \$5,000.

J. E. Glass sold for J. P. Balley to C. H. Watkins 30 lots in the Oakland View plan, Fourteenth ward; consideration, \$11,500. The purchaser will improve the property by grading streets, putting down sidewalks and erecting a number of modern dwellings.

Charles Somers sold the commission merclandising business of Messrs. Koenig & Schmidt, Liberty avenue, including stock, leasehold and entire equipment for about \$7,000.

lot 30x53 feet, corner of Van Braam and Edna streets to John Ehrlinger for \$2,600 cash.

W. A. Herron & Sons sold a new frame house of six rooms and attic, laundry, modern fixtures; lot 30x140 feet on Claybourn street near Alken avenue, Shadyside, for \$4,300, on easy terms.

Denniston, Elderkin & Co., Limited, report the following sales: For Wellington McCoy, house and lot on McDonald street, lot 34x100 feet to an alley, for \$3,500; for Emms J. Benitz to J. C. Diok, lot on the corner Penn avenue and Battery street, 55 feet front and 100 feet deep, for \$15,000; for Frank Speer to Hannah M. Hake, lot on Murtland avenue, near Idlewild street, having a frontage of 23 feet and extending back 120 feet, for \$2,300, the first party to erect a two-story trame of five rooms; for W. G. Evans to helrs of Frederick Briggs, deceased, house and lot on Shetland avenue, being part of lots 101, 102, 103 and 104 in J. C. Dick's Enterprise plan of lots, lot 29x100 feet, with house of nine rooms, price \$3,300.

HOME SECURITIES.

THE STIMULUS OF WRGENT BUYING ORDERS LACKING.

But No Signs of a General Reaction-Losses Abom Offset by Gains-Birmingham and Switch and Signal Let Go a Little More. Business on 'Change yesterday was mod-erately active and irregular. While some things were weak-notably Birmingham Traction and Switch and Signal-there were some gains as an offset. Airbrake, Electric, Central Traction and Pleasant Valley improved at the afternoon session and finished

at the highest price of the day.
Sales at first call were \$6,000 Birmingham

VANDERBILTS OVER ALL

BIG GAINS IN ALL THAT LIST OF STOCKS AND BONDS.

New England and Richmond and West Point the Weak Factors-Intense Activity in Both, Especially the Latter-

Lake Shore Scores the Largest Gain. NEW YORK, March 4 .- The stock market today was again very active, and after the first hour decidedly strong, although one group of stocks monopolized the attention of traders and the lion's share of the improvement in prices. The general list, however, presented a firm front throughout the day, despite the early weakness in both New England and the Richmond and West Point The trading, as a whole, did not lose its professional character, but there was more life to the dealings, and while the late advance may have been largely due to the frightening of the shorts by the unusual advances in the Vanderbilts, the huntsual advances in duction 20 per cent, and advance prices that may have been largely due to the frighten-much. The programme is that when 700,-000,000 feet sign, an announcement of the Vanderbilts, the buying was undoubtedthe Vanderbilts, the buying was undoubtedly of a good character and the improvement substantial in other stocks than the leaders. The opening of the market was made at irregular changes from the final figures of last evening, but advances were in a majority, and the market right at the start displayed a disposition to break away from the weakening influences of both New England and the Richmond and West Points. The trading in the first of these stocks was very large this morning, though not on the immense scale of yesterday, and it gradaally settled down to ordinary proportions as time wore along. The early decline was also followed by a full recovery, and the covering of shorts in it was as marked during the afternoon as in many other stocks. afternoon as in many other stocks.

The Richmond and West Points are still suffering from the uncertainty in regard to the reorganization. The stocks to-day, however, were comparatively strong, while the bonds took a header and closed materially lower.

the reorganization. The stocks to-day, however, were comparatively strong, while the bonds took a header and closed materially lower.

Later in, the day the feature of the day's operations was developed, and the Vanderbilts quickly came to the front, with Lake Shore in the lead, Michigan Central following, and even the Nickel Plate stocks coming in for a share in the rise. The upward movement in Lake Shore, however, overshadowed the transactions in the rest of the list, and from 128 it mounted to 138½. The Grangers, also, became more prominent in the late dealings, and St. Paul crossed 80 once more, while the connection of Northwestern with the Vanderbilts accounted for a marked rise in that stock.

The Coal stocks, however, were weak and the industrials quite neglected. The buying became more urgent as the close approached, and while there was some realizing on the advances, the final dealings were at the top figures, and the close strong and confident on a large volume of business. The important advances of the day included: Lake Shore, ½; Michigan Central, 1½; Nickel Plate Ista 1½; Northwestern, Canda Southern and St. Paul, 1½; Rock Island, 1½; New York Central and Burlington; 1½; Deuver and Rio Grande preferred, 1½; Elchmond and West Point, 1½, and Erie 1 per cent.

The total sales of stocks to-day were 514, 489 shares, including; Atchison, 7,830; Canada Southern, 11,000, Chicago Gas, 5,130; Delaware, Lackawanna and Western, 3,398; Erie, 64,100; Lake Shore, 23,370; Lonisville and Nashville, 4,500; Mannattan, 5,400; Missouri Pacific, 3,270; Northwestern, 22,900; North American, 3,550; New Jersey Central, 4,141; New York Central, 11,705; Northern Pacific, preferred, 5,733; New England, 101,346; Reading, 69,000; Richmond and West Point, 28,700; St. Paul, 29,600; St. Paul and Omaha, 3,300; Union Pacific, 2,500; Western Union, 2,582.

Railway bonds were a little more animated, but the weakness in the Reading and Richmond and West Point of Swhile Contributed \$450,000 to the total, and also in the Richmond and Wes

THE HOME MARKETS.

Eggs Weak, With a Downward Drift, and Dairy Products Firm.

VEGETABLES AND FRUITS QUIET.

Hay and Millfeed Steady, and Corn Tending to a Lower Level.

SUGAR HIGHER AND COPPEE STRONG

OFFICE OF THE DISPATCH, PITTSBURG, FRIDAY, March 4. COUNTRY PRODUCE-Jobbing Prices-Eggs are weak and job iots are selling a shade below yesterday's prices. New York egg markets are about the same as here, whereas the rule is that prices there are 1 to 2c per dozen higher than here. Poultry is still scarce and prices ahow an upward tendency. Dairy products are in fair demand and prices are steady at quotations. There are no signs of improvement in fruit and vegetable lines. Price of potatoes, cabbage and onions has not been so low at this season of the year. The supply of maple syrup is liberal and the outlook is for lower prices.

New York, March 4.—[Special.]—Bar silver in London 417-16d per oz. New York dealers' price for silver, 20% per oz. The sugar advance is now an assured fact. FEATURES OF MONEY. Our quotations are advanced an 1/1c per pound, as was foretold in yesterday's mar-ket column. The wretched condition of country roads throughout the region of which Pittsburg is the center preves ad-verse to trade. Coffees are firm at prices Eastern Merchants Said to Be More Anxion

Good supply and moderate demand were the features of the local money market yesday. There was no change in the interest rate, which was steady at 6 per cent. As showing that merchants are beginning to reach out, New York reports time money in better demand and the rate somewhat higher. This is also noticeable in Pittsburg but not perhaps to tile same extent. Small notes were scarce. Bank clearings were \$2.320,769 98 and balances \$388,640 25.

The London Chamber of Commerce recently sent a circular to the leading financial and commercial houses, in reference to Mr. Goschen's currency scheme. Out of 300 replies, 200 are in favor of the issue of one-pound notes, with an increase of the gold reserve in the Bank of England. This result determines Mr. Goschen to place his proposal hefore Parliamens.

At New York yesterday money on call was easy at 114 to 2 per cent last loan at 2; closed offered at 2. Prime mercantile paper, 465. Sterling exchange quiet but steady at \$4.35½ for 60 day bills and \$4.85% for demand. quoted.

yesterday. The foreign news was very generally bullish. This, in the face of the weak closing here, was regarded as quite en-couraging and stimulated the buying. Crop damage reports from France were again plenty. Cold unfavorable weather was also reported from Great Britain and Holland. The weather in this country was seasonable and the movement on a fairly liberal scale, especially in the Northwest, where an

CASTORIA for Infants and Children.

I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. T.

"The use of "Castoria" is so universal and its merits so well known that it seems a work of supercrogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

1e3 73 -
