The bags on their heads and their ample robes and sandals suggest the harlequin. Neither Yankees nor Hebrews are a match for them in the subtle shufflings and diplomacies of trade. In fact they are the "Oily Gammons" of the Mediterranean.

In the long, languorous days and glowing evenings of our lazy sailing they were both, the Maltese captain and the Tunisian merchant, more to me than weeks of desultory meetings of their kind in their own lands. They were both intelligent companionable, and both spoke English fluent-ly. Their true feelings and opinions came gradually and surely out of the confidential companionship sea voyages universally impel. They represented, in heredity, edu-cation and feeling the implacable and endless religious and race war between the peo-ple of the Crescent and the Cross. The forefathers of each had doubtless been slain defending the banners of one or the other. They typified Christian Europe pitted They typined Christian Europe pitted against Infidel Africa and Asia. But all race and religious hatred was blent in a common hatred of the English masters of Malta.

The Greed of Gold in the Heart.

To reach the sentimental reason of this I constantly espoused the Baglish cause. To the Maltese captain I pointed out his own successful career, and reminded him delicately that he would have remained an ignorant and impoverished fisherman but for this very English rule which he resented

"The strict of my Tunking follows:

The grief of my Tunisian fellow passen-ger was of a different sort, though it was none the less real and poignant; but it was mitigated also by the fanatical belief that some time the Mussulman faith and folk will pressil and who all hands will prevail and rule all lands.

Profit Under Pious Pretense.

"Christian pillage and despoilation," he would teelingly say, "have been the real motive of every so-called holy crusade and expedition against us whom you call in-fidels, but who alone worship the one true God. The English have profited greatest by conquest under cover of pious pretense."
