RESIDENCE OF MRS. A. J. BARR, BIDWELL STREET.

"A whistling woman and a crowing hen, fit for neither gods nor men," etc. The whistler's favorite field of action is the public conveyance. Here he has his suffering fellow creatures at a peculiar disadvantage. They can neither legally object nor take forcible measures to "cut the whistle short." A maddened public might be justified in falling with violence upon these poisy disturbers of the peace; but it is hardly possible that a court of law would hold such acts of retributive justice blame-

Then there is an illusive element in a whistle that makes it difficult to locate the oflender, even if vengeance were sought. How often have we all watched a carload of fellow sufferers straining their ears to locate the point from which the unmusical annoyance comes. Each suspects all his fellow passengers in turn, and as the car fills up, everyone finds himself in a state of outrageous and growing indignation, save the whistler alone, who continues his amusement undisturbed Now, everyone feels sure that a pudgy boy in the furthest corner is the culprit, but presently he vanishes and the nuisance remains unabated. Then a shabby man with a vacant stare excites suspicion. He looks just like a man with, nothing better to de than to whistle in public. His thin lips are slightly apart and they twitch nervously at the corners just as the strains of Patti's last favorite air, "Annie Rooney," steal out into the overburdened atmosphere. Then the wretched song dies down and springs into life again and again, until within a dozen blocks it has been repeated a score of times. Crescendo or diminuendo, the shabby man's mouth twitches just the same, and we come to the conclusion that we are mistaken and turn our glaring eyes upon his neighbor, a portly old gentleman with gray mustache and gold-rimmed glasses, the very last one we should have suspected. He is the guilty party. There is no mistake, for he rises, the whistling stops and we hear its shrill chirp as he wends his way down a side

Violence is none too good for such a man. Nothing else can call him back to a sense of propriety. The concerted and concentrated gaze of all the victims passes unheeded, for his mind is always preoccupied and he whistles without being conscious of the act. It is simply a bad habit into which he has allowed himself to drift and there is no remedy. Perhaps it might have an effect on him if every other occupant of the car joined in a chorus of whistles or accompanied him in the air. No matter how preoccupied he might be, such a startling proceeding he might be, such a starting proceeding could not fail to bring him to his senses. The waistler in a busy office may readily be brought to a sense of the propriettes by use of missiles, such as paper weights, ink stands and the like, but in the street car or close at hand. A placard proclaiming "dogs and whistlers positively excluded" might have some effect. The chances are, however, that this would have no mor weight than those that are now seen in the Pittsburg cars: "Spitting on the floor of

The perils that pave the path of Patti would hush the throat of a less venturesome song bird. Besides the bit of paper igniting just as she struck her pet high not here was a piece of scenery which wobbted in judiciously just after the divine diva had bowed herself out of sight upon singing her second encore. A wandering breeze also was noted, the fact of its presence being conveyed to Patti by the useful Niccolini. after which it was captured by the stage manager and turned out into the cold, wet world of the alley without an umbrella. But the most tremendous disaster of all was averted when Patti swallowed her spleen upon noticing the people leaving the hall while she was singing with Fabbri. At the first pause she put her hand to her mouth, and behind it announced the fact into the wings. The succeeding order of thought as depicted in her countenance seemed to have been in this sequence: Patti frowned.

Patti looked at the house Patti thought of the \$9,363.

Patti smiled.

East Enders, almost en masse, intend to devote two evenings this week, Monday and Tuesday, to the enjoyment of the entertainment the young ladies of the Foreign Missionary Society of Emory M. E. Church have employed their talent and energies in preparing. The grumble about Old City Hall being unfit for lecturing purposes came to a head when Madame Le Plongeon spoke in it a fortnight since. If ever the hall was fit for anything of the kind, it is so long ago that it is now forgotten, and the place only exists in the form of a nuisance of a forlorn hope to which the projectors of entertainments turn when all else fails. The serious ob jection raised about the hall after the Le Plongeon lecture, caused one lady to speak her mind very freely concerning the manner of renting the audience chamber in the Carnegie Library, Allegheny. In her remarks she stated that as it was the fewest ventures of a literary nature which could permit of a rental expenditure of \$100, the hall was practically an impossibility, excepting on extraordinary occasions and for extraordinary entertainments. A few pungent re-marks were gratuitously added charging the Allegheny City Government with an avarice neither upheld nor desired by Mr. Carnegie, neither upheld nor desired by Mr. Carnegie, and, in fact, entirely contrary to the purposes for which that part of the library building was established. The Woman's Club had made a determined effort to secure the hall, as the only proper place in which to ask a woman like Madame Le Plongeon to appear, or an audience, such as she would attract, to gather. The club naturally felt a good deal of annoyance at their project being dampened by the grandiloquent manner of Councils, in demanding \$100 for the night, or in other words, an actual share in the profits of the evening; as it is well known that no such sum is required to re-

Post 162's Anniversary.

Post 162 celebrated its tenth anniversary ast Monday night in truly enjoyable style It was in the form of an open meeting and banquet. The post room was packed with comrades, their families and friends. There were lots of good speaking, recitations and music, both vocal and instrumental. After these came the banquet. The menu was largely made up of pork and beans, sandwiches and coffee. All did full justice to it. Mementoes of the event in the form of tin medals were distributed to all those present. The medal was about the size of a half dollar and elaborately monogramed with the letters "G. A. R." Comrade and Mrs. Charles Green presented the post with a handsome design made of artificial flowers. The figures "162" were beautifully worked in the pieces and the whole was nicely framed. A PAPAL BULL

Issued on Account of the Grip by Pope Leo XIII.

Spread Prevalence of Catarrha!, Bronchial and Pulmonary Troubles-Increase

Not an announcement has been made for years of so much interest to religious circles Pope Leo XIII. It practically abolishes the fast of Friday. The official order issued by the Holy Roman Inquisition re-views the provalence and dangers of the various forms of influenza existing in Europe and America, and says: "Wherefore, availing

dulgence."
This is startling testimony to the prevalence of I a Grippe and the diseases which it leaves in its wake to finish its deadly it leaves in its wake to finish its deadly work.

Such an edict is never issued except in periods of widespread pestilence. Nothing during the history of the epidemic, which leaves thousands and millions of people in the clutches of Catarra and Consumpton, shows more completely the seriousness of this insidious disease than this papal ball, which for a time strikes down a custom hoary and venerable with age, a custom ingrafted upon the habits of mankind in the days of Moses.

The sufferers from La Grippe include three out of every five people in the world. To

out of every five people in the world. To some it seems a mere cold, with painful effects, but to all it means a severe affliction, some it seems a mere cold, with painful effects, but to all it means a severe affliction, which deposits in the system a terrible poison that saps the vitality of the sufferer and develops diseases that operate so fatally as to increase the death rate in the country from nasal, henceful and primonally that devolves on every man, woman and child who has suffered from la grippe to see that the results, the catarrhal conditions that it leaves, are are thoroughly cured while a cure is possible. Catarrh is often the condition that in the first place invites and causes la grippe. It is the condition la grippe leaves behind, inviting fresh attacks, making, as it were, a home for itself for next season. This is the proper time to take special treatment for la grippe and its after effects, such as masal catarrh, bronchizis, incipient consumption and chronic coughs. Drs. Copeland Hall and Byers have met with unparalleled success in their treatment of la grippe and its resultant disorders, as they belong distinctively to that family of diseases of which they make a specialty.

## IS NOT CONSUMPTION,

Drs. Copeland, Hall and Byers have achieved signal success in the treatment of catarrh and chronic diseases by mail. Those desiring to consult them should write for question blank. The following evidence is in point:

in point:

MR. C. C. SCOTT, Hopedale, Masa, writes
"Dr. Copeland's home treatment cured me
of an aggravated case of catarrh after two
doctors failed. I had severe chest pains,
heart fluttering, indigestion and all the disagreeable features of a bad case of macal and
broughial catarrh. I am cured."

JOHN HEFFERMAN, Blackstone, Mass,

JOHN HEFFERMAN, Blackstone, Mass., writes: "Your medicine has done me more good than anything I over used in my life. The pains in my head and chest have almost entirely disappeared. I am happy to say I am getting along so well."

MRS, HELEN E. KILCULLIN, Sewall's Depot, W. Va., writes: "Doctor, I wish you could see me, and know what a wreck you have saved from the grave. My husband says sometimes he wonders if I can be the little half-dead wife he once lelt so much for when suffering; now, my complexion is qualities, our styles and prices, and we will leave the balance to your own good judgment, for we have REASON TO BELIEVE that ititle half-dead wife he once let so much for when suffering: now, my complexion is clear, cheeks red and eyes bright. I can meet him with smiles instead of tears and pains. What a change! All from being a reader of the papers and finding a healer of painwand suffering!"

MR. D. F. BARNES, New Castle, Pa., writes: "I have had catarrh ever since 1861. I commenced Drs. Copeland, Hall and Byers' home treatment January & On February 5 I weighed seven pounds beavier. I think if you can help me so much in one month you can certainly cure me, and if a case of so long standing as mine can be cured, I do not see why anybody cannot be."

pleasure in recommending them to my friends."

MRS, ELIZA INGRAM, Hartwell, O., writes: "I am still improving in flesh and strength. I am surprised to see that I have improved so much in such a short space of time. I have doctored for nine years with different doctors, and none of them did me any good, and some of them said I would never be able to do my own housework, and I had almost given up all hopes myselt."

MR. D. I. McVAY, Franklin, Pa., writes; "I have used Drs. Copeland, Hall and Byers' treatment for two months and am a great deal better, and am satisfied your treatment is the right kind for chronic catarrh, and can freely recommend its use to anyone suffering with that dreadful disease."

MRS. KATE S. WALKER, Waco, Teras, writes: "I suffered constantly from catarrh of the head, throat and stomach. My lungs were also affected. My constitution was broken down. I was very weak and easily exhausted—could not do my work. I began treatment by mail with Dr. Copeland and associates. To day I am a different woman. Strong and well, I do all my work without fatigue."

MRS. ANNA VOLKERF, 222 Center street, Connersville, Ind., writes: "I gladly recommend Dr. Copeland's home treatment to all afflicted. I improved steadily from the first, and have gained is pounds. Anyone is welcome to call at my house and see for themselves how much I have improved."

MRS. W. L. BARTUN, of Batler, Ky, writes: "I had catarrh for more than six years, and suffered all that anybody does from that disease. I could not speak or read aloud. I placed myself under the care of Drs. Copeland and associates treatment to fastire." "I cannot recommend them to all suffering from catarrh."

CATARRH OF STOMACH AND BOWELS. The Many Distressing Symptoms Which Accompany This Affection—Mrs. Zoli-inger's Remarkable Statement.

Mrs. Zollinger, wife of Mr. Lewis Zollinger, the well-known brick manufacturer, resides at Brushton, East End, and has passed through a remarkable experience during the past few years.

"I had been troubled with what the doc-tors termed a complication of diseases for a long time," says Mrs. Zollinger, "during which I have been treated for almost every conceivable disease. Of late my heart gave me so much trouble I was treated for heart isease. I suffered severely from palpitaion of the heart, pain over the eyes, dizziness, shortness of breath and a smothering sensation. These symptoms were always worse at night after retiring. In addition

to these distressing symptoms I had a bad stomach trouble which the doctors called dyspepsia. I had a strong desire for food, but each meal caused me so much dis-tress and bloating of the stomach that I was unable to eat the necessary amount of food unable to eat the necessary amount of food to sustain life. I was tired all the time: my daily duties were a drag, and the least bodily exertion completely exhausted me. Life itself was a burden, and I looked to the future with gloom and despondency.

"I had consulted a number of doctors and had taken nearly every remedy announced to cure persons suffering from disease, the symptoms of which resembled mine. All, however, was of no avail, and the more medicine I took the more aggravated my symptoms. Of course, the reason for this was my disease was not properly understood by those whom I had consulted, and they failed to prescribe for me the right medicine. When I came to Drs. Copeland, Hall and Bvers I was suffering so from one of my smothering spells with my heart that the lady who accompanied me had to support me, and their bell boy, although accustomed to seeing some pretty sick people, made the remark that the doctor had taken a patient who was going to die with consumption. The doctors described my symptoms more accurately than I could myself told me that my symptoms arose not from consumption, or heart disease, or dyspepsia, but from a catarrhal inflammation of the stomach and bowels, which affected the heart and lungs, caused the shortness of brenthand smothering sensation in the chest and the dyspeptic symptoms of which I complained.

"Their diagnosis of my case being more careful and thorough than that of any physician I had before consulted, I decided to place myself under treatment, and I am now very gind I did. From the first I telt myself gaining in strength and health. The shortness of breath, the smothering sensation, the heart palphitation, the distress in the stomach, the headache, the languid, tired feeling and the exhaustion, of which I then complained and from which I suffered for so long, disappeared, and to-day I feel like another person, strong and hopeful as I ever plained.
