When Mayor Wyman went into that office he went there on the belief that all the minor work of the Mayor's office was to be done by his clerks, and that when he went upon the stand in this case and admitted that he did not know how certain costs were taxed or what was done with certain cases, I believed, and do now sincerely believe, that Mayor Wyman has not a dishonest particle in his body, and white he has not paid sufficient attention to his duties as Mayor, it has been an error on his part alone, with no intent to do wrong. Further, Your Honor, I would urge upon you the fact that ex-Mayor Wyman has a wife and family, and would call your attention to thom and say it is their prayer that your sentence in this case will be justice tempered with mercy.

The Remarks of the Court.

There was a silence for a moment, and then Judge Lennedy rose and said:

Mr. Wyman, the jury has convicted you of extortion. The punishment is a fine not to exceed \$500 or an imprisonment not to exceed one year—not both. Appeals have been made to me, and it has been represented to me that you have resigned the position of Mayor and made restitution of the money. Due consideration has been given to these facts and also to the evidence as to your character, and also consideration to your wife and family. Without prolonging this, to me, painful scene, I have to say the imposition of a fine would not be a proper sentence under all the circumstances. The sentence of the Court is you pay the costs and undergo an imprisonment in the county jail for and during the term of three months and until the costs are paid.

CREED OF LATTER DAY SAINTS Delegates Arrange to Attend the World's

Fair at the Next Conference.

ONE WIFE IS DECLARED TO BE ENOUGH

Memories of Joseph Smith, the founder Mormonism, were recalled yesterday in Pittsburg by the semi-annual meeting of the Pittsburg and Kirtland district of the Latter Day Saints of the Church of Jesus Christ. The meeting was held in Odd Fellows' Hall, Fourth avenue. There were 100 people present, 30 of whom were delegates. The church has 400 members in this district. The principal feature of the meeting was a history of Mormonism and the de nouncing of the heresy of polygamy. The local members all believe in a one-wife Christianity.

Rev. Grover Griffith, President of the district, presided. Rev. W. W. Blair, President of the General Conference, was Honorary President, and Rev. Lorenzo Purcell Associate President. Rev. Mr. Blair was associated intimately with Joseph Smith, Jr., the son of Joseph Smith, the

father of Mormonism.

Devotional exercises characterized the opening of the session and were conducted by Rev. Mr. Blair. The minutes of the last conference were read and reports were then called for from the missions in the Pittscalled for from the missions in the Pitts-burg and Kirtland district which has branches in Wheeling, Pittsburg, Beaver, Conneaut, Fairview, Sharon, Washington, Blakes Mills, Lake View, Kirtland, Warren and Church Hill. R. H. Hughes, of the Pittsburg mission, spoke of the labors and the success attending them. He said that although the Pittsburg branch had been organized 20 years ago it has not yet a church for the reason that their money was spent in missionary work and in charity. After hearing these reports, the report of Frank Criley, agent of Bishop Kelly, was heard. It was a financial statement of the expenses of organization and of conferences during the year and of expenses of the Bishop. These amounted to \$1,897 85; the receipts to meet this were \$2,057 94. The report of the special fund was heard. The special fund is one providing for a call of the Bishop aside from usual district expenses, and a call to the entire church for "Home for Aged" and educational purposes, also for church buildings where necessary. The revenues to this reached about \$3,000 for the last six months.

day of September.

Rev. Mr. Blair then made an eloquent speech, giving a history of the organization of the church and of mormonism. His remarks in substance were: On April 6, 1830, the church was organized in New York City with six members called Latter Day Saints. The news of this organization spread over the world with remarkable rapidity, and its spirit was caught up and the church in-creased and sprung up everywhere. Its founder was Joseph Smith, and on June 27, 1844, he and his brother, H. S. Smith, were assassinated at Carthage, Ill. There were at that time about 200,000 members. Divi-sion and sub-division among the members, quarrels and persecutions, divided the church. Brigham Young passed to the West and finally settled in Utah, in the Salt Lake Valley. He had a majority of the people with him and settled in that beautiful locality, but established afterward a rule that was an outrage on the callent. a rule that was an outrage on the enlight ennient of the nineteenth century. In August, 1852, he established polygamv and bigamy. Then large bodies of the church tell away in Europe and elsewhere, joining other sects. The same was true in America and Canada. In ope there were 33,000 of the creed. The History of Reorganization.

In 1860 Joseph Smith, Jr., a son of the seer and prophet, reorganized the church with 150 members. He met obstacles on every hand, and had "the world, the flesh and the devil" to contend with. Brigham Young was denounced, and the new organization, under good Christian faith and law began to prosper, and now it has missions in many European countries, in Asia, in the Pacific Islands, and is strong in America and Canada. The gospel of in America and Canada. The gospel of their creed and practice is confined to the New Testament alone. The reorganized church has stood hand in hand with the Government, and to-day is God-learing, Christian and true and pure. The session then closed. To-day the

services will be of entirely devotional character; prayer service at 9:15 A. M., conducted by Elders Powell and Blair; at 2

VIEWS OF CONTROLLER MORROW.

One \$150,000 Item That May Possibly Make Some Difference.

GOURLEY'S IDEA OF PARK EXPENSES

The Finance Committee will meet to hear the report of the Appropriation Ordinance Committee on Tuesday afternoon, Controlle Morrow, Secretary of the committee, being authority for the statement. From this it is judged that a special meeting of Councils will be called during the latter part of the week to take action on the ordinance. The indications are that unless the ordi-

nance provides a tax rate based on a heavy cut in the appropriations demanded by the various departments there will be atrong opposition to it from Councilmen who do not often take a negative stand on anything. The Mayor and the Controller stand to rether on a demand for a cut from \$450,000 to \$100,000 for the park appropriation alone, and they are also in favor of cutting down number of other bureau appropriations in the Public Works and Safety Departments. A point that will be in line with keeping down the tax millage not heretofore dis-

cussed is the \$150,000 appropriated last year to provide for completing street improvement contracts that were left in an un-inished state by the adverse Supreme Court lecision. This sum was divided into two parts in last year's appropriation ordinance. One item was "5120,000 for completion of paving contracts." The other was "\$30,000 for grading and paving streets by reason of

for grading and paving streets by reason of Supreme Court decision." Of this Controller Morrow said yesterday:

"That money was only a loan, owing to the decision of the court sustaining curative legislation, and during the present year will nearly all be paid back into the city treasury by property holders who were affected by the remedial act of Asiembly. When the ordinance was drawn it was not affected by the remedial act of Asiembly. When the ordinance was drawn it was not known whether the act would be sustained or not, and the city had to be in position to pay the claims which came due without incurring extra expense in litigation. That money can this year be classed as part of the receipts instead of an expenditure, and its effect on the millage should be to make it limit less." it 1 mill less."

There is some talk now of the millage being reduced below 12 mills, but as far as can be learned the Appropriation Ordinance Committee intends to report a 12-mill rate, and place the responsibility on the Finance Committee and Councils for any further re-

DENOUNCE POLYGAMY

Be Elected President of the Switch and

Signal Company—He Gives His Objections in Detail. Edwin F. Waters, of Boston, one of the wealthiest of the anti-Westinghouse faction in the Union Switch and Signal Company,

registered at the Duquesne yesterday. He played a prominent part last year in turning Mr. Westinghouse down. The annual meeting of the company will be held here next Tuesday, but Mr. Waters said he would not be present. He had been in the West looking after some of his interests, and he stopped over to see Mr. Goodman who is a candidate for re-election as Presi dent against George Westinghouse. Mr.
Waters indulged in no predictions,
but he hopes Mr. Goodman will
be able to succeed himself. He
remarked that the Boston stockholders had been deceived a year ago by A. T. Rowand, but he was now out of the company, and the famous coup by which Westinghouse was defeated would not be repeated.

defeated would not be repeated.

In discussing the situation Mr. Waters said: "I have nothing against Mr. Westing-house personally. Many of his best supporters in the East are my friends. We objected to him as President, because he could not give enough of his attention to the business. He has other large interests to manage, and the Union Switch and Signal Company was neglected. Besides, we have no desire to have our business mixed up in any of the other concerns in which he is any of the other concerns in which he is interested. I have not sold a share of my

interested. I have not sold a share of my stock since the works were moved from Boston to Pittsburg. I feel that if Mr. Westinghouse is re-elected President that in time the stock will become valueless. I received a circular some time ago signed by Mr. Updegraff. I never knew he had any influence, and ignored it. When Mr. Westinghouse writes a note to me I always answer. Our best year was in 1890, when Mr. Goodman was general manager. We have not done so well this year, and it is no fault of Mr. Goodman's. He has worked against circumstances over which he had no control, and has done well. He has made a good and has done well. He has made a good President, and I don't believe anybody has a complaint to make on that score. When he was general manager he recommended some important changes to Mr. Westinghouse that required some capital to make, but the latter couldn't produce the money.

"To show that I have nothing against Mr. Westinghouse I am president of a West. Westinghouse, I am president of a West-ern company, and we recently held our an-nual meeting. We needed an engine, and our manager suggested that we buy one of the Corliss type. I remembered that Mr. Westinghouse made engines, and I suggested that we buy one from him, which was done. What I like about the engine is that it is boxed up, and the dust is kept away from the gearing."

WORK FOR THE GRAND JURY. The March Term of the Criminal Court Be

gins To-Morrow The march term of the Criminal Court will open to-morrow with Judge Collier presiding. There are about 125 persons in jail awaiting the action of the grand jury and the term will be a large one. The number of cases is about the same as the last term but does not equal the same term, of a year ago. There are but few very important cases. There are two in jail on the charge of murder, Mary Frailey, for killing her child, and John Pulpus, charged with the murder of Sarah Joyce. There are three manslaughter cases. There is also the case of Saitta and Mazzo, who have been held for the death of the man burned to death in the Liberty street fire. Larceny leads with the greatest numof cases is about the same as the last term fire. Larceny leads with the greatest num-ber of cases, 42 being charged with that

A Kansas Man's Experience With Coughs and Colds. Colds and coughs have been so prevalent during the past few months that the experience of Albert Favorite, of Arkansa City, Kan., cannot fail to interest some o our readers. Here it is in his own words our readers. Here it is in his own words:
"I contracted a cold early last spring that
settled on my lungs and had hardly recovered from it when I caught another that
hung on all summer and left me with a
hacking cough which I thought I never
would get rid of. I had used Chamberlain's Cough Remedy some 14 years ago with much success and concluded to try it again. When I had got through with one bottle my cough had left me and I have not suf-

fered with a cough or cold since. I have recommended it to others and all speak well fit." 50-cent bottles for sale by druggists. Notice-Jr. O. U. A. M. The councils of Pittsburg and Allegheny will attend a union service meeting at the Sixth Presbyterian Church, corner of Town-send and Franklin streets, this evening at :45 o'clock. D. of L.
