A Change Quite Probable.

On the other hand, if the opposite people win, McKee's Rocks will become as orderly as the town of the Economites. It is prom ised that Sunday picnics will be raled ont, and that whenever an attempt is made to hold them a force of police will be on hand that runs between the Pittsburg wharf and the picnic grounds. The ticket will be nominated on the platform that a new lockup should with iron bars and a that will take in a boat load of Pittsburg sports. The lockup is now in the rear o the 'Squire's office, and on account of one of the windows being broken is not considered safe unless the prisoner is too much utoxicated to move. It has not yet been decided whether both parties will hold primaries, or whether the election will be practically decided by hav-ing one primary for both parties. In that case there will not be much confusion on account of the Baker ballot law, but if the parties go into a contest at the polls no one can imagine what the result will be. The pulation in the town is estimated to be ,000, and with the votes that go with that many people attempting to cast ballots at one polling place under the new system, there will be no escape from confusion and little hope that all the votes will be polled. After this spring the town can be divided into precincts, but for the first elec-tion that cannot be done. The officers to elected are Burgess, six Councilmen, six School Directors, a Constable and Auditors.

A Full Vote Expected.

A full vote is expected if the contest goes to the polls, and even if it is decided at the primaries previous to that time, it is thought that curosity will bring out the majority of those entitled to a vote. The citizens of the town feel proud of the fact that they will be the first to test the Australian sys-tem in Pennsylvania, and it is generally believed that there will be as many politicians present to watch the result as at a party con-

The secretary of the Commonwealth has sent to the County Commissioners copies of forms of blauks made necessary by the Baker act. There are eight forms of blanks, as follows: Certificate of nomination, nomi nation paper, official ballot, specimen official ballot printed on tinted paper, letter to County Commissioners and sheriffs certifying nominations, letter of transmitial to sheriffs, watcher's certificate. The official ballot is a cumbersome sheet covering about 15x24 inches of good white paper. A four-inch strip at the bottom is perforated so that it can be torn off. The ballot sent out is for the first election district of the First ward, Philadelphia The only officials to be voted for are Presidental electors, Congress at Large, Judge of Supreme Court, Congress, Senate, Repre sentatives, District Attorney, Clerk of Quarter Sessions and Coroner. The candi-dates of each party are arranged in parallel columns with the name of the party at the head. The last column is left vacant for names of independent candidates to be in serted.

The Explicit Directions Given.

At the top of the ballot the directions state that a cross opposite the name of the party indicates a vote for all the candidates of the party. In case a voter intends to cut his ticket, a cross must be made after eac name. The ticket can be understood by men with a university education after hav ing been studied the greater part of a day, but to men of only ordinary intelligence it is as difficult of comprehension as the mysterious writing at a spiritual meeting. Its

terious writing at a spiritual meeting. Its size effectually buries the vest pocket, and as a result makes things that much easier for the campaignet. The specimen ballot is the same as the one intended for use, except that it does not have a slip to detach, and is marked "Speci-men Ballot." It is printed on tinted paper, and is intended for distribu-tion in order to educate the voter. The certificate of nomination looks like a life insurance policy, with the exlike a life insurance policy, with the exception that there are no questions asked. It states in a note that "when nominations are made for members of the House of are inade for members of the House of hepresentatives of the United States and for all State offices, including those of Judges, Senators and Representatives, this certificate is to be filed with the Secretary of the Commonwealth at least 36 days before the day of election; for all other offices,

HOUSE HUNTERS

Can Kasily Make a Sel

rom the special to let lists in Monday's

colds, sore throat, bronchitis, consumption, catarrh in every phase of the disease, will be scut free to any address by The Pe-ru-na Drug Manufacturing Co. of Columbus, Ohio. This book should be in every house-hold, as it contains a great deal of reliable information as to the cure and prevention There will be 28 cells in all. Men are at work now laying a floor of heavy slabs of stone six inches thick in this room, after of all catarrhal and kindred diseases which the cells will be erected in short order. A big skylight has been put in the roof to make the place more cheerful. JACKSONS.

anges high. One of the upper rapges will

e used entirely for women. Its cells will

ace a corridor next the wall and totally

shut out from view from any of the other cells. They will also be reached by a separ-

ate stairway, and will not have to pass be-

A Much Better Court Boom.

The court room and a private room for the

inspector will occupy the center of the lower floor. The former will be 22x36 feet

dimensions, with a door leading from i

to the cell room where prisoners can be taken in and out for the hearings. In front will be a vestibule with a small room to the left for keeping papers, books, etc., and on the right a stairway leading up to the

matron's department. The latter will have two cells of detention, a large room with

beds for the sick or lost, or others not un-der arrest; also bath room, closets and other

onveniences. The building is 40x64 feet in size, making

a much more roomy place than the one now in use. In addition there is a small struc-

ture to the right belonging to the property and formerly used as a dwelling. It will be fixed up inside and converted into sleeping

"It will make just as good a Central sta-tion as if it had been built for one," said Architeet Bickel yesterday. "Chief Brown knew just what was needed for the purpose, and the work is being done according to his idea."
