Who Are the Musical Leaders?

Who Are the Musical Leaders? Persons can have no idea of the popularity of the Klèber Bros, and the immense busi-ness they are doing in the sale of pianos and organs unless they drop in at their ware-rooms, 506 Wood street. And little's the wonder, for the Messrs. Kleber have the monopoly of the grandest pianos made in America. Just look and listen to the glor-ious Steinway and Conover pianos, and the popular Gabler and Opera pianos, and you will admit that nothing else will compare with them. They also sell the beautiful piano-organs of full seven octaves extent, and upon which all piano music can be

of official correctness when it is weighed. Last year Borough Councils bought a scale, but found that it did not earn enough to pay for itself, and sold it at a loss. Now

that natural gas is being so much less used than formerly, it is believed that the scale should be kept constantly employed in weighing coal. At all events, the citizens want the opportunity of making the test. NEW ORLEANS OFFICERS WORRIED.

expectations the grand jury in its final rert presented to-day did not touch upon the manner in which Frederick C. Fitz-

simmons obtained the knife with which he committed suicide. A thorough investigation was had, but it appears that the grand inquest was unable to fix the responsibility. In speaking of a parallel case the report says the system of searching prisoners at police stations before they are confined in cells is woefully defective and recommends that another and more effective system be discussed, but they would not be given out,

The discussion at times grew so animated that the rattle of the President's gavel could be heard clear down on Fifth avenue.
