By Many Congressmen Who Are Appear at the Workhouse-Allegheny Has Only a Few Cases.

THE BILLS ARE GETTING LARGE So Fast That the Billion Congress' Record ls Threatened. LIBERALITY CANNOT BE CHECKED

PERCIAL TELEGRAN TO THE DISPATCH.

WASHINGTON, March 6 .- It is very well known that there are a few Democrats in the House-and some of them will occupy places of leadership-who are in favor of honoring the resolution of economy passed early in the session more in the breach than in the observance. The number of these men is not large, but they possess sufficient influence to make things rather embarrassing for the majority of Democrats in the House who are determined that the announced policy of strict economy shall be carried out to the very

ECONOMY FORGOTTEN

More Anxious for Re-Election.

The indications are becoming numerous, moreover, that some of the regular appropriation bills, whose enormous amounts last year gave rise to the scandal of the billion Congress, are getting very near to highwater mark now in the various committees that are preparing them for submission to and Hookner was fined \$25 and costs. John the House. The river and harbor bill is almost ready to be submitted to the House, and a report floats out from the committee room that its figures are very near to the \$24,000,000 which was, in round numbers, the sum total of the jumbo bill of the Fiftyfirst Congress.

Mr. Blanchard a Liberal Man. Mr. Bianchard, of Louisians, chairman of

the River and Harbor Committee, is one of the most earnest and consistent advocates of true economy that there is in the House. He was a supporter of Mr. Crisp in the Speakership contest, and a warm defender of the Democratic policy of retrenchment and reform. He is in favor of liberal appropriations for the maintenance and improvement of the great naval waterways, but an avowed opponent of the expenditure of the people's money for making navigable the various cheese-creeks in all sections

of the country.

Mr. Blanchard can be depended upon to do all in his power to restrict the river and harbor appropriations to such objects as are meritorious and important, although he will find it difficult to do so. Appropriations for works on rivers and harbors come nearer home to the average Congressman than any other class of public expenditures, and a great amount of pressure will be necessary make the statesmen acquiesce in the new order of things.

The Committee on Public Buildings and Grounds is also meeting with a surprising amount of opposition in its attempt to stop altogether the passage of bills providing for the erection of new buildings, and the members of the committee themselves are divided in their opinions as to what course should be pursued

Fork Needed for Each District.

Mr. Sayers, of the Appropriations Committee, has already shown that the Treasury Department has on hand for public build-ing purposes no more money than it can properly expend for the next five or six years, because of the large number of buildings in course of construction, and still there are many members who fear that their renomination and re-election are in danger unless they get the usual amount of "pork"

Altogether, the situation is embarrassing to the leaders in the House. Notwithstand-ing that a good record has been made with the military academy bill and one or two others that have already been under conunited and harmonious action in the interest of wide and proper economy is not as bright as it should be. Of course, no assistce can be looked for from the Republicans. The Republican minority in the House are vainly trying to make a little cheap political capital out of the amount carried by the pension appropriation bill now under consideration in committee of the whole, The general debate on the bill yesterday developed the usual amount of buncomb

talk to the galleries, the Republicans endeavoring to make it appear that an insuffi-cient sum for pensions had been recom-

Much More Than is Required.

The bill carries a total of \$134,800,000, and, as Mr. Mutchler explained, will probably exceed the requirements by from \$6,000,000 to \$10,000,000. The law for the current year appropriated \$135,000,000, and there is every reason to suppose, judging from the ex-penditures for pensions for the past eight months, that this amount will not all be ex-

pended by at least \$10,000,000.

The Republicans complain that the Appropriations Committee should have recommended, without question or investigation. the total estimated by the Commiss Pensions, to wit, \$147,000,000. Had this been done, and were that estimate to be en-acted into law the Commissioner would have at his disposal on July 14 next, for the payment of pensions, the appalling sum of \$157,000,000, including the \$10,000,000 that will beyond much doubt be left over from the Appropriations Committee. Accompanying the bill is a budget of in-

teresting testimony, in which General Raum states that up to February 1 last there had been expended during the first eight months of the current fiscal year \$83,000,000, and that there is now a surplus on hand, after paying the March dratts, of \$43,000,000, \$15,000,000 of which is in the hands of pension agents and \$28,000,000 in the Treasary. Only three month's expenditures can this fiscal year, those for April, May and June, and inasmuch as the monthly average thus far has been only a little over-\$10,000,000 a month, it is clear that at least \$10,000,000, or perhaps \$13,000,000, will be left over after making three more monthly

An Absurd Thing to Ask.

Consequently, it is absurd to ask that \$147,000,000 be appropriated for next year, when this surplus of \$10,000,000 or \$13,000,000 is so evident and all rational calculations point to a necessary expenditure only a little, at most, greater than that for this tion by the Secretary of the Treasury, not exceed \$125,000,000. Especially should the bill recommended by the committee be exempt from criticism when the condition of the Treasury, brought about by the reckless profilizacy of the Billion Congress, is considered.

With an urgent necessity for rigid economy all along the line of Government expenditures it would apparently be a senseless piece of folly, so the Democratic leaders believe, to tie up an excessive sum to the pension account that will not be needed, and especially as all ascertained deficiencies on this account can be prompt-ly supplied beforehand before the next session of this Congress adjourns, so as to cause not the slightest embarrassment or interruption in the payment of pensions. The Democratic leaders in the House are confident that the bill will pass to-morrow, just as reported, as a rebuke to the criticisms of the irresponsible minority.

The Assessment Lowered. The printers and pressmen held their monthly meeting yesterday. The principal thing done was to reduce the strike assessment from 10 to 5 per cent. So many of ment from 10 to 5 per cent. So many of the strikers have now secured employment, that it is not necessary to keep the assessment up. The meeting also eulogized the nemories of the three members who have lately died. They are John Kolbacker, T. B. Mr. Cessna would never have sone this far of their strings to the track across the Mr. Cessna would never have gone this far oward announcing himself had it not been hat the lieutenants of Senator Quay have been at work booming him for Congress, in different parts of the county, with the hopes of getting him where he could not harm Quay. But the venerable ex-Congressman has an outstanding debt which he owes Quay, and he realizes that at Harrisburg is the place to pay it. Mr. Cessna's card is as

BEDFORD, March 5.

To the voters of Bedford county:

For some weeks past I have observed notices in several newspapers of the State in regard to my candidacy at the election of November next. The subject has been very repeatedly breached to me by citizens of the county and in other parts of the State, some in person and others by letters. Some of my friends desire that I should accept a nomination for the House of Representatives of Pennsylvania, others urge that I shall become a candidate for Congress. Up to this time I have refrained from discussing the matter as much as possible. I believe on several occasions I said the people To the voters of Bedford county: ing the matter as much as possible. I be-lieve on several occasions I said the people might do as they pleased, nominate me for either position, or for neither, as they saw fit. I find this has led to some misapprehen-sion, and may cause dissatisfaction and a want of harmony. From the number of in-

sion, and may cause dissatisfaction and a want of harmony. From the number of inquiries and the near approach of the time for holding the county convention I have concluded that I must remove the uncertainty surrounding my position.

By reason of numerous circumstances I prefer not to be considered a candidate for Congress at this time. While I shall not seek a nomination for the Legislature or any other office, I am willing to accept a nomination lift can be obtained without solicitation on my part. If my friends see fit to urge me for that position, and tender me a nomination, I will do my part to secure an election, and if elected, do my best to serve my constituents. There are questions likely to arise at Harrisburg during the next session of the Legislature, in making efforts to secure proper equalization of taxation among the people of the State, and numerous other important and vital questions, which would seem to induce me to accept a position which, under other circumstances, I would not desire to have. I am, very respectfully, you robedient servant, John Cessna.

### TO HAVE GOOD RACES

An Eastern Authority Talks Well of the Homewood Meeting.

THE BOARD OF CONTROL VACANCY.

Fred Pfeffer Not Likely to Go to Louisville This Season.

IFFECIAL TELEGRAM TO THE DISPATCH. NEW YORK, March 6 .- Interest in horse racing events is becoming very great in-deed among sporting people in the East. Much speculation is going on as to the big handicaps and thousands of dollars have already been invested here on the results. There is also considerable talk about the prospects of the trotting season, and good authorities state that the prospects were never better. One gentleman who has been interested in trotting events for nearly 30 years said last evening that he never knew

the outlook to be as good as it is now. He

orses and a better quality. He said: Something About Pittsburg. "Just mark my word, that the grand circuit will be a hummer this year. When it s inaugurated at Pittsburg everybody will be convinced that the season is sure to be a great one. From what I hear there will be more first-class horses at the Pittsburg meeting this year than there has ever been. At any rate, many of the leading trainers tell me so. Mr. McCracken, of the Homewood Driving Park at Pittsburg, also said when here recently that all possible effort would be made this season to make the sum mer meeting the best ever held in Pitts-

Among the other meets that of the Queen City Driving Club, of Cincinnati, is eseciall deserving of mention. The races will be held in August and the entire lists contain the names of many well known horses. A Western stake race that is at-tracting considerable attention among East-ern horsemen is the Nebraska Futurity Stake, guaranteed for \$20,000. Nomination from all over the country have been re-ceived and they include such horses as Nel-son, Candidate, Norwood, Monbars, Wedge-wood, Redwood Clay, Santa Mateo, Baron-stein, Bow Bells, Norval Director, Direct, and M. Patronage, Ellerslie Wilkes and

Favette Wilkes. As yet no one has been named to take the place on the Board of Control left vacant by the death of Mr. Withers. As has been stated in the Telegram, many names have been mentioned, and, indeed, there are so many gentlemen identified with the turf who would, in every way, be fitted for the place that it will be found somewhat difficult to choose between them. The name cult to choose between them. The names that are now the most prominent are Pierre Lorillard, James R. Keene, A. F. Walcott, August Belmont and Alfred Hennen Mor-

Lorillard May Accept. It is believed that Mr. Lorillard would accept a seat on the present board, although he declined a seat on the original.

The situation in New Jersey is still un changed. Rumors of "compromise," "agree-ment," etc., have been flying around, but as yet nothing definite has been decided. It was said that the "local option" bill would be passed, and in return for the aid given by Guttenburg and Gloucester the Board of Control would rescind or at least modify the

famous "disbar" order.

This may or may not be so, but it is well known that no stone will be left unturned toward opening the gates of Monmouth Park. It hardly seems possible, however, that the board would make any compromise

### PFEFFER AND LOUISVILLE

Little Hope of Fritz Becoming a Colone

This Year. LOUISVILLE, March 6.—Regarding the Preffer matter Dr. Stucky says: The directors are going the begin figuring on getting along without Fred. He had spent muc time in New York in trying to trade with Jim Hart He had offered the Chicago Pres ident Brown for Pfeffer as an even trade. This was refused. He then offered Browning and Canavan for Fred. This, also, Mr. Hart looked upon unfavorably. The last proposition he made was an offer of Canavan and \$500 for the second baseman. Mr. Hart did not like this either. He said he could not think of a money consideration. "Jeems" even spoke as if the mention of money grated harshly on his ear. He was pained. He then issued another ultimatum. He said that in no event would he make any other trade with Louisville than an exchange of Preffer and Wilmot for Brown and Canavan. Prefer and Wilmot for Brown and Canayan.
Fred would have to play second base in Chicago if this was not done. If Pfeffer preferred to remain idle his salary would also loiter within the coffers of the Chicago club.
Dr. Stucky, seeing that Mr. Hart was firm.
\*\*sked a favor of the Chicago man. Would he write down what he said, stating that he had received an offer from Louisville? Dr. Stucky requested this on account of Mr. Hart's having denied receiving propositions in the past from Louisville, when several had been sent him. The favor was granted. Dr. Stucky said it was plain to him that Chicago wanted to ship Wilmot to Louisville on account of that player's high salary. Under the old condition of things he had been signed for \$3.500, and that sum had to be paid him. Under no circumstances would the local club accept Wilmot. The general opinion was that Mr. Hart's ultimatums were, when shorn of their theatrical tone and specious form, simply bluffs. PLAYED A TIE

The Chicago and Thistle Football Team Have a Hot Contest.

CRICAGO, March 6.—[Special.]—There was a great football game, Association rules, here yesterday between the Thistles and the Chicagos. It was the third round of the Jackson cup contest.

The Thisties had their strongest team on The Thisties had their strongest team on the field and the Chicagos were also strong. The play on both sides was good and the contest resulted in each team scoring 2. The Thisties wonder what the Pittsburgers think of the result, and they still claim to be among the three best teams in the country, the other two being Detroit and the East End, of Fail River. This is a curious claim, seeing that the Chicagos have not been beaten yet and have easily defeated the Thisties. The latter want to play the Pittsburgs.

The Fusig Sale.

CLEVELAND, March 6 .- The last of the horse of the consignment to the Emery-Fasig sale were disposed of yesterday, and as on preceding days prices ruled high up to the last animal offered. The more important sales to-day were: Orrwood, b. c., toaled 1889, by Atwood, to A. T. McAllister, Monongahela City, Pa., \$500; Mambrino Nelly, b. m., by Manibrino Barker, to J. B. Perkins, Cleveland, \$600.

Bates and Crowley Matched. Youngstown, March 6.—[Special.]—A representation of Jack Bates visited Wheeling yesterday and made a match with Martin Crowley, of Martin's Ferry, the mill to take place within six weeks for \$500 a side. It is to be a fight to a finish with lard gloves and the ring will be pitched at some point in Virginia near the Ohio river. Bates is in good condition and said this afternoon "all I want is a chance to show my friends what I can do."

A Knocking Out Affair. Local sporting men are making efforts to secure a match for Ed Smith to knock a Western man out in ten rounds. A new Western athletic club offers a purse of \$1,0.0 for the event, and Smith is willing to undertake the task if the club will pay his training expenses.

## SULLIVAN AFTER 'EM.

He Means Business With the Bluffers-Li Out for Fighting Instead of Footracing-Mitchell Must Put Up or Shut

MINNEAPOLIS, MINN., March 6 .- An Ass ated Press representative this afternoon in-terviewed John L. Sullivan on Mitchell's inswer to his challenge, and the big fellow "I have read Mr. Mitchell's reply to my

That deposit remained up for nearly a year. They never covered it. They hammered away at me with all sorts of challenges and bluffs for two years, and now that I have the opportunity and time these men, or any others who have been bluffing, they weaken at my challenge and offer all sorts of pality and unmanly excuses.

"Mitchell's assertions in his reply are silly and contemptible. He claims that I want everything. I don't. I am sincere. My challenge is issued, but I will make any concession in reason to meet this man Mitchell or Slavin or any other fighter. Any reputable honest stakeholder will suit me. The only things I insist upon are that the match takes place between the middle of August and the first week of September, the outside betand Marquis of Queensberry rules to govern. I am justified in this for these reasons: My season ends June 4 with Mr. Harrison and we resume September 12. Our contracts are made. I must have an outside bet of proper dimensions to justify me in preparing for a contest, as I don't propose to have them sneak out of it when it comes to the issue. The Marquis of Queensberry rules I regard as the only fair rules, as under their government a man must fight or run away. If Mitchell, Slavin, Corbett or the rest mean business let them act, not talk and cry about my weight. That is a disadvantage, rather than advantage, and simply stamps Mitchell's assertion as rediculous and laughable, which anyone who knows anything about fighting will concede.

"My ultimatum is made. My chailenge is one of the content of the man must man business they know

"I have read Mr. Charles Mitchell's reply to Mr. Suffixan's challenge in this morning's papers, in which he states that it is evident that challenge manates from me. This is simply a manufactured story out of the whole cloth, and in my conviction is simply an effort on the partof Mitchell to evade the issue. Suffixan himself was the author of the challenge. This can be proven beyond peradventure of a doubt."

Harrison, after speaking of Siavin's avowed willingness to fight, said: "It is, to say the least, peculiar that Slavin immediately on Suffixan's return from Australia made a match with Jackson, a man whom he professed to ignore, thus placing an obstacle in the way of his meeting Suffixan.

"To summarize the whole matter, Suffixan has called their bluff and they know it thoroughly, and are offering all sorts of excuses in order to avoid the issue. Suffixan is willing to make any reasonable concessions to meet either or both of these men or any other of the fighters who will cover his bet. He insists upon three things—Marquis of Queensberry rules, as small a ring as possible and the outside bet for, as he expressed it, he is out for fighting, not foot racing."

Where Science ends and Commo Sense should rule. Persons of sedentary habits are liable to indigestion or dyspepsia. These, in turn, will bring on nervous disorders, kidney complaints, constipation, etc. This is especially the case with merchants. students and scientists. They will give you the exact dimensions of Jupiter, the distance from Saturn to the sun, to a foot, but they cannot or will not tell themselves what will cure this train of disorders.

For ailments resulting from sedentary habits-inactivity of the liver, habitual constipation, etc.-the entire medical fraternity of Europe and America almost unanimously recommend the genuine Carlsbad Sprudel Salt and the Waters of Carlsbad.
