OFFICE OF THE DISPATCH. PITTSBURG, MONDAY, March 7.

The run of cattle at the East Liberty yards this morning was the lightest of the season. There were but 50 carloads on sale, against 80 loads last Monday. Quality of to-day's offerings was not so high as it was a week ago. There were no heavy primes on sale, and light primes were scarce. About one-halt of the offerings were from Chicago, the balance being from Ohio and Indiana. There were not so many buyers on hand as usual. Owing to light run markets opened active, at an advance of 15c to 25c per cwt. on prices of a week ago.

Light, tidy butcher beeves were in good demand at fully 25c per cwt. better prices than prevailed last week. There were, wever, no sales above \$4 70 in carload lots, while a week ago there was a sale at 5 10. A car of nice Ohio cattle averaging 1,250 pounds was sold this morning at \$4 70. Fresh Cows and Calves Plentiful.

There was a larger run of fresh cows this week than last, the total being about 50 ead. The highest price paid was \$42 50 for two head of choice stock, one a Hol-stein and the other a short horn. With these exceptions markets ranged from \$20 00 to \$40 00 per head.

to \$40 00 per head. There were about 100 calves on sale, and demand was slow at about last week's prices. It was reported that large quantities were on the way to be offered on Tuesday, and this had a depressing influence on markets. Prices ranged from 6½ to 6¾ per lb. Sheep—The run was very light, there not being over 15 carloade on anle, against Sheep—The run was very light, there not being over 15 carloads on anle, against nearly double this number a week ago. Markets opened brisk and lively at an ad-vance of 25c to 40c per cwt on last week's range. A deck of fancy sheep was sold at \$6 60, and a bunch of choice lambs brought \$7 30. These prices, however, were excep-tional. In a general way 6½ c was the top for sheep and \$7 20 for lambs. Hogs—Markets opened with 15 carloads on sale, against 23 loads last Monday morn-ing. Though receipts were light there were enough and more than were demanded. Markets were draggy at a range of \$4 90 to \$5 25.

At the Allegheny Tards.

At the Allegheny Yards. At the Herr's Island yards the receipts of catile were scarcely up to the average in number. Buyers were present in the usual force, but prices obtained were scarcely up to last week's range. At sources of supply prices were a shade higher than a week ago, so that markets were by no means satisfac-tory to drovers. Best heavy Chicago's sold at \$5 25 to \$5 35 per cwt; medium weights, \$4 75 to \$5 10; light weights, \$4 10 to \$4 50; common grades, \$2 75 to \$3 75. Fresh cows ranged in price from \$20 00 to \$40 00 per head, there being none on sale, excepting a few left over from last week. Bulls, dry cows and heifers had a nominal value, the range being 23/c to 33/c per lh.

MINNEAFOLIS, March 7.—Figures compiled by the Northwestern Miller show the stock in private elevators of Minneapolis to be 1,681,000 bushels, an increase since inst Mon-ddy of 129,000 bushels. The total stock at Minneapolis and Duluth is 19,763,878 bushels, against 18,976,341 bushels a week ago. The Market Record gives the stock of wheat in country elevators of Minneaota and the two Dakotas at 11,675,400 bushels, a decrease of 576,900 compared with last Monday. This makes the aggregate Northwestern stock 81,428,778 bushels. A year ago the entire stock was 21,637,000 bushels. An Apparently Necessary Adjunct to See

WASHINGTON, March 7.-[Special.]-Secretary Rusk is thinking seriously of establishing a matrimonial bureau in con-nection with the Agricultural Department. The idea was suggested by a letter he recently received from a man out West who

experimented with some of the cucumber seed sent him by the department at the in-stance of his representative in Congress. It appears the former planted the cucumber seed, and his wife afterward died from eat-

seed, and his whe arterward did from cat-ing some of the cucumbers. The farmer, in his letter to Secretary Rusk, said: "Your blamed cucumbers robbed me of my wife, so instead of sending me cucumber seed this spring, send me an-other wife. I hear there are a number of

other wife.- I hear there are a number of likely women in your department." In reply Secretary Rusk said he had no appropriation from which he could draw money to send a wife to the widower, but suggested that the latter come to Washing-ton and pick ont one for himself. The Sec-retary informed his correspondent that he has in the department "some beautiful maidens, many sprightly widows, and sev-eral well-seasoned old maids."

MODERATE MOVEMENTS.

STOCKS ACT IRREGULARLY BUT THEY BETAIN A FIRM TEMPER.

Very Little Doing for Foreign Account, but Support in Coal Stock Proves a Factor in the Improved Tone-Richmond Securi-

ties Comparatively Quiet.

Mr. Edward Stotz said, while business was scarcely up to expectations, it was bet-ter than a year ago, with a very encourag-ing outlook. In his opinion labor trouble is the only thing that will prevent a large amount of building this year, and he has not much fear of that. J. W. Offerman is making plans for several high-class resi-dences. Mr. Steen and Mr. Brickle have a NEW YORK, March 7.-The stock market today was not so active as on Saturday, nor were the movements on so large a scale, even though there were five hours of business in place of two. There was on the whole a firm temper to the dealings, but considerable irregularity existed, and while ness in place of two. There was on the whole a firm temper to the-dealings, but considerable irregularity existed, and while the Vanderbilts displayed the most pro-nounced strength, the Coalers, Industrials and New England were specially weak at times, especially during the forenoon. A further engagement of gold for export had some influence in creating a bearish temper but there was no renewal of the trade of Saturday and prices were left more to their natural bent and with the removal of the pressure a firmer tone was developed. There was very little doing for foreign account but better support in the coal stock was a factor in the improved tone while the posi-tive strength shown by Lake Shore and later by Northwestern brought the whole list along in the afternoon. The Richmond and West Point securities were comparatively quiet during the forenoon but the stocks rallied sharply and the bonds later in the day more than recovered the loss of the last few days. The Grangers in general were well supported though St. Paul on a large business fluctuated within the narrowest limits and remained during the entire day in the afternoon. Jone the stocks rallied the ywore along the entire list showed less feverishness and prices rose slowly in response to the more settled feel-ing in the morning. Reading and New England were again the leatures, but while the facter rose slowly with the general list the former was in full supply around 55 and failed to regain its early loss. Among the specialties, the New York, Susquehauma and Western stocks were again strong and com-paratively active; the preferred making a material improvement, while Cordage dropped 3% per cent, only a small portion of which was regained during the afternoon. The stocks, however, remained reverish and unsettled to the end, and in the last hour there was the most determined raid of the day made on the list when Heading, Lake Store, Northwestern and New England were anot all of its heavy gain of the forenoon. The stocks, however, remained feverish and number of business houses on hand, among which may be mentioned those of Keech, which may be mentioned those of Keech, Wade, Ewart, Bennett and Vandergrift. It is worthy of remark that Pittsburg architects are covering more territory that uşual. Their services are in demand in sil the im-portant towns in Western Pennsylvania, Eastern Ohio and West Virginia. The United States Corporation Bureau re-ports the list of newly completed incorpo-rations in the United States for the week ending February 26, 1892, as follows: Total corporations, 356. Total capitalization, \$109,695,703, distributed as follows:

A Large Timber Deal. A Large Timber Deal. The Crosby Lumber Company of East Tennessee, has purchased 47,000 acres of timber land in Graham county, North Carolina. The purchase includes the entire lumber and timber holdings and interests of the Belding Lumber Company, in Eastern Tennessee and Graham county, North Carolina. This company was organized by Mr. J. S. Crosby, a big lumber dealer of Michigan. The price paid is reported to be \$600,000. The timber on this land reaches the enormous amount of 500,000,000 feet. It will be prepared for the market at Lenoir City. The mills will be among the largest, it not the largest, in the South, and among the largest in the country. Their capacity will be from 40,000,000 to 50,000,000 feet and aday. The company, in order to carry on this vast business, will employ from 500 to 800 men. Mr. Crosby is well known to the lumber trade of Pittaburg. Business News and Gossip.

almost everything traded in down to the lowest points of the day, but especially in the leaders, in the last few minutes, the market closing active and unset-tled generally at fractional losses for the day. Reading, however, is down 24, Jersey Central 2 and New England 1 per cent, while the low-priced specialities retained most of their gains, and the Richmond and West Point preferred closed at 67%, the highest price of the day and 3% better than Saturday. Railway bonds were rather quiet until the afternoon when the number of issues traded in became larger and increased activity in the Richmond and West Point issues added character to a market which had lacked features. These bonds were again strong and while reacting in the last hour under pressure still stood the important gains of the day, 5s being up 3% and the 6s, 2 at 63% and 86 respectively. the day, 5s being up 3% and the 6s, 4 at 63% and 96 respectively. General Situation. The week started off in good shape at the banks, but there were no new features. The inflow of funds was greater than the output. There is scarcely a doubt that these condi-tions will be reversed when the spring trade-sets in. A search of good yeather is all that is needed to release the pent-up energies of the country. Nearly all loans were on the baais of 6 per cent. Bank clearings were \$2,301,568 68, and balances, \$322,072 07. The current number of the Financial Chronicle says in regard to money: "While there is no change in the market for call loans there is a firmer tone for time con-tracts and for commercial paper, occasioned to some extent by expectations of an im-provement in business and also by the pros-pect that, owing to continued gold ship-ments, the supply will be drawn down. BEAVY RECEIPTS OF EGGS CAUSE PRICES TO SLIDE DOWNWARD,

ouliry Still Scarce and Firm-Corn Droop ing and Weakness All Along the Line of Cereals-The Grocery Trade Feature

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, March 7. COUNTRY PRODUCE-Jobbing prices-Receipts of eggs by the Ohio river route were large to-day, and prices have found a lower level, as our quotations will disclose

Sales of large lots were reported as low as 15c per dozen. At Cincinnati this morning 13c per dozen was top price and 1/c per dozen will bring them here. Poultry is still in very limited supply, and markets are firm at the advance noted in this column

on Saturday. Choice dairy products are steady, and all under choice are dull and alow. Tropical fruits show a tendency to go higher. Choice Florida oranges and bananas are in light supply.
