PRESIDENT ROBERTS' STATEMENT

Favors a Continuance of the Company's Policy of Ambition.

PHILADELPHIA AS A BENEFICIARY

PHILADELPHIA, March 8 .- The annual meeting of the stockholders of the Pennsylvania Railroad Company was held here to-day. The meeting was harmonious, and, beyond the delivery of an exceedingly interesting address by President Roberts upon the policy of the company and its fostering of the commercial interests of the State of Pennsylvania and the city of Philadelphia, but little business was transacted.

The annual report was read and adopted. A resolution was passed authorizing the Board of Directors to issue at its discretion the 350,000 shares of unissued stock for improvements to the company's property. The election for directors will take place on the 13th inst. at the office of the company in this city. In his address to the stockholders, President Roberts said:

It may not be unwise, especially in view of some criticisms that have been made upon the manner in which the shareholders have permitted their property to be managed, to explain as far as possible what has been their policy and what they have accomplished. It is very seldom that this company expends less than \$1,000,000 in each and every calendar month in building up new avenues of trade and traffic and providing facilities for the public.

# How the Corporation's Money Goes.

Sometimes our friends on the other side of the water forget that we are a young coun try, in which competition is active and in which large sums of money have to be expended by individuals and corporations. Let us see in what way some of this money has been expended: Some years since you established a steam-

ship company-the American Steamship Company-lostered by your corparation, on which you took four-sevenths of the original capital, afterward increasing this from time to time until you had nearly \$1,200,000 in-vested in the capital stock of that steam-ship company. That \$1,200,000 has been totally sunk.

totally sunk. In addition to that this company has faith-fully paid the obligations all these years at the date of their maturity, so that it has paid in the neighborhood of \$2,570,000 more as a contribution on the part of your corpo-ration in the endeavor to build up the com-merce of this port, and one which has given the managers of your corporation some anxiety as to whether it was right and proper; but, right or not, it has all gone.

### The Pennsy as a Coal Carrier.

During the period 1879 to 1891 the company increased its coal and coke tonnage from 7,500,000 tons to 38,200,000 tons per annum, an increase in that period of over 500 per cent in coal and coke tonnage. You rank now as the largest coal carrying company in the

the largest coal carrying company in the United States, and seem destined to take the position of becoming the largest coal carry-ing company in the world. In the year 1864 the Pennsylvania Railroad Company moved in tons a trifle over 3,000,000; in 1891, it moved 5,500,000 every month. In that, gentlemen, is to be found a little of the reason why your management asks from

that, gentlemen, is to be found a little of the reason why your management asks from time to time for an increase of capital stock and other obligations of this company. We must keep up with the march of prozress, and not only keep up, but we must hold our position a little in advance of all other corporations. The moment this com-pany forgets that its duty is to be at the head of the list of carrying companies of the United States, and censes to have the ambition to become the first in the world, that moment do I wish to pass from its man-agement.

If the stockholders who are so deeply in terested think that the management should go forward more rapidly and do more they will be only too giad to do it; but remember that we are trustees for you, and we cannot undertake to go beyond the bounds of what we believe to be good judgment in using the funds of the company in the direction in which they have been so liberally used here-tolore in the promotion of elevators, steam-ship lines and other facilities to build up commerce and stimulate traffic.

The Gazette (Conservative) says: "Civil suits will not satisfy the public. RHEA IN COMEDY. LITTLE WORK TO DO A Play That Lacks Motive Made the Bes of at the Alvin Theater. All but One of the Cases in Criminal A very bright and very light comedy was Mile. Rhea's which was last night at the **Court Speedily Ends** Alvin Theater. It was in striking contrast to the play of the night before—"La Czarina." The play in its original French BECAUSE OF A PLEA OF GUILTY. no doubt had great force; but "Gossip," as performed last night, lacked motive sadly. no doubt had great force, but "Gossip," as performed last night, lacked motive sadly. Its plot is briefly this: A charming widow unwittingly reveals to a jealous husband, a Spaniard, the closing chapter of an intrigue in which his wife has played the leading part. She does not know the name of the man in the case and the humor of the comedy depends largely upon the in-jured husband's efforts to learn his wife's lover's name. The intrigue is prettily managed as in most French plays and Mile. Rhea as the widow who talks too much was airlly and piquantly prepossess-ing. Her archness was the brightest part of the piece, as her costumes were the lore-liest features in point of color. The com-pany fitted better into the modern comedy than they did on Monday night into the historical drama. Mr. William Harris was breezily humorous, and Mr. Amory again gave a careful character study in the famil-iar character of the elderly Frenchman with a penchant for flowers and domestic peace. Miss Abell had little to do beyoud looking pretty, in which she was successful. The other character were will enough played down The Grand Jury Returns 28 True Bills and Ignores Six Others.

In consequence the divorce was refused. Divorces were granted on the grounds of descrition in the cases of Isaac Sheposky against Esther Sheposky, James S. The Pennsylvania Railroad Company, it was reported to-day, has made arrangements with a number of individual coal operators for the output of their coal at the mines. It for the output of their coal at the mines. It is said that a number of large operators have accepted the Pennsvivania Railroad Company's terms, and that others will probably accept them within a few days. The Pennsylvania, it is said, decided to make overtures to the individual operators

on account of the ground which the anthra-cite coal combination has been gaining, and the acquisition which the Pennsylvania has made will materially increase its output. The officials of the company declined to-day to give the particulars of the arrangements made up to this time.

### THE READING'S NEW ALLY.

### The Erie and Its Tributaries Locking Arms With the Combine.

PHILADELPHIA, March 8 .- The Ledger, in its financial article to-morrow, will sav:

We can announce officially that Vice Presi-dent E. B. Thomas and Second Vice Presi-dent George H. Vallant, of the New York, Lake Eric and Western Railway, met President McLeog and other officials of the Reading Railroad in this city yesterday, and after several hours' conference agreed to enter upon an alliance, offensive and defensive, upon which the two proper-ties should be worked in future. The close alliance existing for many years between the Delaware and Hudson Company, the Pennsylvania Coal Company and the Erie Railway, including all their anthracite coal interests, makes this action of the Erie Company very important in connection with the Reading Company and its allies in developing the anthracite interests of Pen sylvania, and it will largely prevent the se-rious disturbances in traffic, sales and coal rious disturbances in traffic, sales and coal prices which have occurred in past years. This voluntary action of the Erie is also remarded as demonstrating clearly the ex-cellent foundation laid already by Mr. Mc-Leod for the future working of the Beading interests and those of the coal railroads generally, thus securing harmonious co-operation by those companies, so that it is believed the public will now be better served than ever before and without any increased business.

### The Iowa Senate Passes the Gatch Five **Tear Local Option Bill.**

DES MOINES, IA., March 8 .- The Iowa prohibition law was practically wiped out of existence to-day. The matter can be brought only on petition of one-fifth of the legal voters.

The Senators this afternoon sided with a number of Democrats in passing the bill. There is little doubt that the measure will receive the approval of Governor Boies and become a statute. An acriminous de-bate preceded the final roll call, the question at issue being as to where rested the politi-cal responsibility of the bill.

### Bishop Horstmann Goes to Cleveland.
