NO PAY STREAKS HIT.

Light Wells Were the Rule and Old Producers Dropping Off.

ONE EXCEPTION WAS REPORTED.

Robbins' Well at Willow Grove Struck a Bad Spot in the Gordon.

CORAOPOLIS TO HAVE A REFINERY

The was another slump in the production of McDonald field yesterday and it went down 50 barrels and came to a full stop at 24,500. Several of the wells which have been making over 20 barrels an hour fell off yesterday and tended to decrease the pro-duction. Jennings & Co.'s No. 3, on the Mutthews farm, dropped to less than 20 barrels an hour and was dropped from the list of wells given in the guages. The Oak-dale Oil Company's Nos. 2 and 3, on the Baldwin farm, went from 45 to 25 barrels an hour, a drop of almost one-half.

The wells which were reported as in the sand yesterday were, with one exception, showing light.

The exception was J. M. Guffey & Co.'s No. 1, on the Mankedick farm at Willow

No. 1, on the Mankedick farm at Willow Grove. It was in the Gordon sand yesterday afternoon and had the appearance of eventually proving a good producer.

Hussler, Davis & Bett got a surprise in the southwest McCurdy field. Their No. 2, or. the Boyce farm, was drilled through the fifth sand and was dry in that formation This well is, however, a phenomenon in the fourth sand as it is making over 100 barrels a day from that formation, and is the only well in the field which is producing from the fourth sand.

Their No. 3, on this farm, is in the 100-foot sand and they have a rig completed for No. 4.

No. 4.

The Devonian Oil Company's No. 4, on the Boyce farm, should be in the fifth sand by Friday. Their No. 3 is pumping about 12 barrels a day.

Activity in Southwest McCurdy.

Patterson & Jones are drilling four wells in the southwest end of the McCurdy field, but none of them will be completed within the next ten days. They are drilling No. 8 Kelso, No. 8 McCurdy, No. 1 Finch and No. 1 Torrence. They are also drilling a well on the Boyd farm, back of Freeport, and one on the Huey farm three miles back of Veronz Kirk & Co.'s well, on the Gladden farm, located 1,000 feet west of the Wheeling Gas Company's No. 1, on the W. B. Moorhead farm, was on top of the Gordon sand last night.

company's No. 1. On the Gordon sand last night.

There was a rumor in circulation last night that the Wheeling Gas Company's well on the W. J. Kelso farm, which had been making ten barrels an hour, had been drilled deeper and was making 30 barrels an hour. The report could not be confirmed, however, and it was generally discredited.

The Forest Oil Company's No. 2, on the Agnes Kemp farm, is almost through the fifth sand and will not be better than a 10 or 12 barrel well. Their No. 1, on the Jane Stewart farm, is in the Gordon sand and showing a little oil. Their Nos. 3 and 4, on the Jane McGill tarm, should be in the fifth sand this week. They have made a location for a well on the Gyer farm 3,000 feet northeast of the Devonian Oil Company's No, 1 on the Boyce farm. They are also building a rig on the Greeg farm, south of the railroad at Greeg station.

The Trio Oil Company's well on the Abraham Bell farm, adjoining the Fife, is down 800 feet.

Not So Large as First Reported.

Henry Cooper is starting a well on a two Henry Cooper is starting a well on a two acre lease off the Abraham Bell farm.

The Forest Oil Company has made a location for No. 2 on the Neeley farm.

The Grover Cleveland Oil Company's No. 1 on the Kelly farm between McDonald and Venice, has developed a strong pressure of gas in the 55-foot sand.

Moyer & Co.'s test well on the Harper farm part Venice is down about 1500 feet.

Moyer & Co.'s test well on the Harper farm, near Venice, is down about 1,500 feet.

The Fort Pitt Gas Company's well on the Slemmings farm at Stoops' Ferry is drilling at 1,500 feet.

Carr Bros. well at Independence is reported to be through all sands and dry. Mellon & Co.'s well on the Boies farm is practically pluaged and may be abandoned. Greenlee & Forst have a rig up on the Beall Knob larm, but do not intend to drill at present.

The daily production of the Sistersville field is now given as 600 barrels a day.

A refinery with a capacity of from 5,000 to 7,000 barrels a month is being built at Cornopolis by Pittsburg parties. They have contracted with W. L. Mellon to furnish them with crude oil.

The McDonald Gauges. The production of the field was 24,500 yes-

terday, 500 barrels less than the day before. The houriy gauges were as fol-ows: Jennings, Guffey & Co.'s Herron No. ows: Jennings, Guffey & Co.'s Herron No.

CLOVER SEED

Steadily on the Advance and Priced Higher Than for Years. It will be seen by reference to the home market column that clover seed has been steadily advancing in price for a week or two past. It has not been more than a couple of weeks since clover seed could be bought at less than \$6 per bushel. Now it is arm at

at less than \$6 per bushel. Now it is firm at \$7.50 per bushel. The crop of clover seed has not been so light these many years as it is this season. In the West the yield was very much lessened last year by the ravages of grasshoppers, and in this section little was raised with a view to seed. It is eyident that there will not be enough to meet demand, and those who fail to buy now will pay more later on. A leading seedsman said yesterday that clover seed would go to \$9 per bushel before the season was over. At present prices are fully \$2.50 per bushel ingher than they were at this time a year ago. Other seeds have so iar failed to join in the upward movement.

THE best and cheapest is Salvation Of

WHEAT AT BED ROCK.

The Lowest Price Touched Since Las mer-All Other Markets Lower and the Weather Provokingly Good-Quite

a Severe Slump in Provisions Also. CHICAGO—Wheat opened weak and lower to-day, touching the lowest price yet recorded for the present crop—87%c, against 88c reached yesterday, which equaled the lowest figure recorded since last summer. The news and the situation both favored the

The news and the situation both favored the bears. Cables were lower, domestic markets were declining, the weather was all that could be desired and crop prospects everywhere were full of encouragement. The liquidation of long wheat continued, with short sellers active, and the confidence of bulls seemed to be thoroughly shaken. A surprising item of news was the reported increase of 1,484,000 bushels in the amount of wheat and flour on ocean passage.

The bulls got a little comfort out of the fact that the English visible supply had been reduced nearly 1,000,000 bushels during the week,

The bulls got a little comfort out of the fact that the English visible supply had been reduced nearly 1,000,000 bushels during the week, and that large export engagements continue to be reported from New York. For several days now these engagements have been reported at 400,000 to 600,000 bushels per day, but only a small per cent shows up in the actual clearings. The buying was at times quite sharp, but was mostly to cover former short sales, which yielded a profit, as there was not sufficient confidence to cause much investment demand. On every rally, however, there was free short selling. The price of May at and around the opening was 87% 87%, against 88% at the close yesteriay, selling sparingly at the lowest figures, rallied to 88%; broke to 87% again: held steady during most of the last hour around 87% 87%, but on heavy buying near the close by shorts who had good profits in sight, advanced to 88% and closed firm at 88%. Corn was quiet and lower on the fine weather, larger receipts than were expected, the increase in the contract grade and sympathy with the weakness in wheat and provisions. Trade was slow, the offerings being liberal, but with very little demand. May opened unchanged at 42%, weakened to 41% but rallied some and closed steady at 43%. March lost % on free local selling. Onts were quiet and steady, closing with a loss of 3%.

Oats were quiet and strong in prices. Live loss of \(\frac{1}{2} \) c.

Fork suffered quite a slump in prices. Live hogs were lower at the yards and there was free selling of products, with bardly any demand. Pork opened 7\(\frac{1}{2} \) c lower at \$11 29 for May. The price went as low as \$11 02\(\frac{1}{2} \), but he price went as low as \$11 02\(\frac{1}{2} \), but the lose and finished at

Rend & Robbins' well on the Robbins property, west of Willow Grove, which was erroneously reported Monday night to be making fromeight to ten barrels an hour from the Gordon, was not making anything yesterday, and was almost through the sand. What gave rise to the report was that it made a few nice flows from the top of the Gordon Monday. As they drilled deeper into the sand they developed an inferior quality of sand, which continued as they went deeper. This well is not over 250 feet from Guckert, Learn & Co.'s big Gordon sander on the Cunningham lot, and only a short distance from Guffey & Co.'s No. 3, Mary Sturgeon, which is good for 300 barrels a day from the Gordon.

Learn & Burson's well on the Vanescott lot, in the eastern part of the town of Willow Grove, is down 1,000 feet.

There were no new developments at the Little Oil Company's well, on the Little property, yesterday, at Noblestown.

Story & Co. did not reach the fifth yesterday on the Nicholson lot as expected.

Davis Bros. & Brown are down 700 feet on a lot in Willow Grove.

The New York Oil Company's No. 2 Fife is down 800 feet. The New York Oil Company was known as Hirsh & Co. until a few days ago.

Comparison of Land Values in Boston With Those Realized Here.

SITE SECURED FOR A BANK BUILDING

It was learned yesterday from an inside source that the Liberty National Bank has purchased for \$60,000 the lot on the corner of Ellsworth and Penn avenues. It is 60x 100, and there are three two-story buildings on it, occupied as stores and dwellings. These will be torn down the coming spring to make room for an elegant bank build-

The bank, prosperous from the start, has been looking for a site for a permanent home for some time, and now that this object has been accomplished, it will no doubt erect a structure that will not only be a credit to itself but elevate the architectural standard in that quarter of the city. This is the most important deal that has been con-summated in East Liberty since that of the Harrison property. .

Activity in the Lot Market.

There has been quite an active movement in East End realty within the past week or two, particularly in Boulevard place, where Black & Baird have sold 11 building sites within the time specified to persons who will build high-class residences the coming spring and summer. Among the purchasers are J. C. Wallace, Mrs. Mary Gloninger, F. H. Speer, Van Gorder & Lloyd, E. M. Moore and J. G. Stephenson and associates, known as the Boulevard Place Syndicate. The most unique of the buildings will be that of Mr. Wallace who will bring out new effects by the use of red sandstone. Mr. Moore will build two houses. The aggregate of these sales is \$35,000. Boulevard place was put on the market in 1887. Building improvements since that time reach a total value of \$230,000, while street and other improvements foot up \$150,000 more. The readiest way to sell a subdivision is to improve it. will build high-class residences the coming

Land Values in Boston.

A recent sale of central property in Boston is of interest as constituting grounds for comparison of real estate values there and here. The estate on the corner of Washington and Bromfield streets, Nos. 371 and 373 Washington and 2 Bromfield street, was sold by the heirs of Elizabeth M. M. White. The price is understood to have been very close to \$190,000. The property is well known not only from its central location, but from having been occupied for many years by the Saturday Evening Gazette. The building is an old 3½-story structure of brick, with a granite front. The land measures 1,721 square feet, and has a frontage of 30 feet on Washington street and a depth of about 60 on Bromfield The price received, \$190,000, brings the square foot value up to \$100. This is almost double the best price ever secured for central property in Pittsburg. The Trademen's National Bank comes the nearest to it. It brought a little over \$60 a square foot. There is very little difference in the size of the two lots. The Schmertz and Newell properties on Fifth avenue ought not to be considered in this connection on account of the great depth of the lots. Black & Baird report an offer of \$75 a square foot for a lot 60 feet deep on the lower side of Fifth avenue, but this figure can have no weight until the cash is planked down. The Boston incident goes to sustain the claim that realty is cheaper in Pittsburg than in any other important city in the country. Land Values in Boston.

portant city in the country. Take Your Choice. The following from a New York source gives both sides of the speculative situa-tion and outlook: The bears say March is not a month of adversity to them and point to large Western cities as boycotting Iowa roads, to a prospective poor winter wheat crop, to the lowest and dullest iron market, and further claim the coal stocks are at too high a level and too scarce to sell short, and predict further troubles in the gas and sugar circles. The bulls claim railway sugar circles. The bulls claim railway earnings were never larger, general business never better, exports over imports never were exceeded, that the Kansas prospect for a crop was never better, money is easy and there is more of it than ever before per capita, that the Bank of England also shows a large reserve over last year, that the stocks are well held and are not pressing on the market, and that much higher prices may be looked for in the near future. In the meantime the street is in an excited the meantime the street is in an excited frame of mind and is ready to believe any tales of combinations or breaks in combina-tions, in deals and melons that are to be cut and in miraculous and phenomenal things generally. The public are indifferent and they look on with amusement or indiffer-ence at the stories employed to entertain them.

Heaviest Day's Trading of the Year and Some Tali Figures Put on the Board-Wheeling Gas and Birmingham Traction Improve Their Position. The bulls were in clover yesterday. Some

of the specialties reached a surprising alti-tude. The probability that Mr. Westinghouse will again assume control of the Switch and Signal Company strengthened all of his interests. Total sales were about

3,500 shares.

The opening was strong on a good display of buying orders. Philadelphia Gas started out at 18%, was bid up to 18% at the second call, and at the last sold at 19%. Wheeling Gas, following the lead of Phiadelphia and in sympathy with it, advanced from 18% at the opening to 22% at the finish, with sales at 3%. The advance was partly based on a report that its Kelso well was one of the most important yet struck. The stock was most important yet struck. The stock was offered quite sparingly.

Birmingham Traction also moved up several notches. It sold early at 26%, from which point it steadily advanced to 27%. The rise was rapid and uninterrupted up to

which point it steadily advanced to 2:72.
The rise was rapid and uninterrupted up to this point. At the afternoon session it weakened on heavy solling and receded to 273. Pleasant Valley added a fraction to its credit. Manchester was frectionally weaker. Duquesne was a little firmer.

Sales at first call were 50 Citizens' Traction at 63, 25 Wheeling Gas at 183, 100 Birmingham Traction at 283, 425 at 21. Before call. 100 Birmingham at 264. Second call. 45 Switch and Signal at 20, 100 Birmingham at 274, 100 at 273, 110 at 273, 75 Wheeling Gas at 183, 25 at 183, 100 at 20, 25 Switch and Signal preferred at 110. Between calls, 50 Citizens' Traction at 63, 200 Birmingham Traction at 273, 35 Citizens' Traction at 223, 30 at 25, 10 at 255, 10 Electric at 15, 10 Wheeling at 21, 50 at 25 at 22 310 Philadelphia Gas at 184, 30 at 25, 10 at 25 at

SHARES UNSETTLED.

A DAY OF DECLINES AND VERY IR-REGULAR MOVEMENTS.

New England Still One of the Leading

New York, March 8 .- The stock market while showing after the first hour a materia lecrease in the amount of business done its unsettled character, and prices drooped all along the line, though in the general list only small fluctuations were noted. The change in the New England directory could scarcely be called a factor in the day's operations, although New England still held it There was further pressure from bear sources upon Reading, but there were evi dences of heavy covering, and late in the day it became firmer and was maintained within a small fraction of its last night's

dences of heavy covering, and late in the day it became firmer and was maintained within a small fraction of its last night's prices.

The talk of the day was almost all upon St. Paul, and, coupled with heavy sales of the stock, apparently for foreign account, were numerous rumors that there would be no dividend at the meeting of the directors soon to be held. This afternoon also saw special pressure on the stock, evidently sales for the short account, and a loss of 2 per cent from its last night's prices was shown at one time. The rumors received, of course, no official confirmation or denial. There was no support to the Vanderbilts, which re tired from any prominence in the market: but the Grangers were all lower in sympathy with St. Paul. One of the weakest points in the market, especially in early dealings, was Chicago Gas, which, selling ex-dividend and ex-rights, retired from 75% to 74%, while the other Industrials were dull.

The general list opened quiet and at irregular changes from last night's figures. The final raid established the lowest prices of the day, and while there was a feeble rally in the late trading from the covering of shorts, no stock succeeded in rallying more than insignificant fractions, and the close was unsettled at close to the lowest prices for the active shares, but within small fractions of the opening figures for most of the list. The final changes show losses almost invariably, however, and New England is down 3 per cent, St. Paul, 24; Whelling and Lake Erie, 13, and Reading 1 per cent.

The total sales of stocks to-day were 378,765 shares, including Atchison, 13,700; Erie, 15,900; Lake Shore, 5,535; Louisville and Nashville, 8,072: Northwestern, 1,750; New Jersey Central, 3,800; Northern Pacific preferred, 5,907; New England, 5,384; Reading, 164,600; Richmond and West Point, 5,900; St. Paul, 36,525; Western Union, 6,300.

The dealings in railroad bonds extended to a large number of shares, but beyond the tennasctions in the Richmond and West Point issues there was no featur

- THE TREND OF MONEY.

New York Bank Statement an Enc ment to Business Men.

No new phase of the local money market was developed yesterday. The excessive supply of loanable funds, a bank officer remarked, is not wholly due to a falling off in the demand. Deposits have increased to a greater extent than demand has fallen off, showing a large proportion of current busi-

The condition of the Pitteburg national banks, as compared with the statements of

table, compiled by R. J. Stoney, Jr.:	110
Reserve, increase	\$2,8
Loans, decrease	00000
Deposits, increase	3,8
Circulation, decrease	
Due from reserve agents, increase	2,9

The statement of the New York banks last The statement of the New York banks last week were encouraging to business men. The depletion of the reserve to the extent of nearly \$8,000,000 was a welcome sign that money is entering the regular channels of trade. But it ought to call a halt to gold shipments, and probably will, as the changes in the main items point to higher rates for money on this side of the water.

At New York yesterday money on call was easy at 1½62 per cent; last loan 2, closed offered at 2. Prime mercantile paper at 4 65½ per cent. Sterling exchange quiet but steady at \$85% for 60 day-bills and \$4.87% for demand.

THE HOME MARKETS.

Elgin Creamery Butter and | Eggs Still Sliding Downward.

VEGETABLES OF ALL KINDS QUIET.

The Grain Trade Improves Not, but Hay Is Firm and Higher.

SUGAR SHOWS AN UPWARD TENDENCY

OFFICE OF THE DISPATCH, PITTSBURG, TUESDAY, March 8. COUNTRY PRODUCE-Jobbing prices At the Monday sales Elgin creamery butter was a shade lower at headquarters, but not enough lower to make much impression on markets. Our quotations of last week still hold good, but markets are not so firm now as then. Eggs are in bountiful supply and prices are a shade lower to-day than yesterday. Job lots are slow at 15c per dozen. Poultry is now in better supply than it has been for a week or two past and quotations are reduced in accordance with facts. Maple syrup is weakening under the influence of large receipts. Vegetables are slow at the same old prices. Tropical fruits of choice quality are steady at quotations. Seeds of all kinds are active and clover seed is par-ticularly firm at an advance of not less than \$1 per bushel in the past week.

APPLES—\$1 75@2 50 per barrel. BUTTER—Creamery Eigin, 33c; Ohio brands 28@ 0c; Common country butter, 17@18c; choice coun-30c; common country butter, 176918c; choice country roll, 25635c.

LATE NEWS IN BRIEF.

-The King of Sweden may attend the World's Fair. —Extreme beat is causing a frightful death rate in Rio Janeiro. -George Wise, the English boy murderer, has been declared insane.

-An exodus of colored people from Ar-kansus to Oklahoma is in progress. -Ex-Auditor James C. Lavelle, of Washington, Ind., is \$18,463 short in his accounts. -Knight, the Indianapolis iron manufacturer at San Antonio, Tex., has been declared -The court at Darlington, Wis., is finding it a hard task to secure a jury to try

lynchers. —George Giguere, a young Canadian, was arrested at Kankakee, Ill., yesterday while attempting to pass two forged notes, amount-ing to \$1,500.

The Woman's Reliet Corps of Illinois will erect a home for the old soldiers and their wives, and old army nurses that are dependent, so that the veteran and his wife can live together. -Prof. Swift, of the Rochester Observa-tory, has discovered a comet bright enough to be seen with an opera glass. It is in right ascension 15 h. 59 in. declination south 31° 20, and is moving easterly.

-President Montt, of Chile, Monday called the leaders of the Liberal party together and told them emphatically that if they wanted him to form a new Cabinet from among their ranks, they must manage to —At New York, the steamship Missourl is loading the cargo of grain given by the American people to the starving Russians. Total amount of flour, 4,088,784 pounds; cornmeal, 1,500,000 pounds. Total, 5,588,784. The value including expenses donated will be

\$150,000,

—C. T. Meyers, the man who was captured, after a desperate light in a box car at Pleasanton, Kan., a few weeks ago, with Jim McFrancis, the Glendale train robber, has been turned over to the authorities of Barton county, Ill, who will prosecute him as one of the Larmar train robbers.

—The Iowa Iron Works has undertaken to build a boat on an entirely new plan, the object of which is to navigate the river and the ocean. It will have one bow and two sterns, each of which will have a rudder and sorew, so if one is disabled there will remain half the power to make port.

—At Washington yesterday morning as

main half the power to make port.

—At Washington yesterday morning as General Schofield, Commander of the United States army, was driving to the War, State and Navy building, his carriage was run into by an express wagon and the carriage was overturned. It was found necessary to remove the General through the window, but fortunately he was not hurt, beyond receiving a rather severe shaking up.

but fortunately he was not nure, beyond receiving a rather severe shaking up.

—Mrs. Jefferson Davis, widow of the exPresident of the Southern Confederacy, has
brought sait to restrain Robert Belford and
the Belford Company from transferring the
rights of this company in the memoirs written by her of her husband to the United
States Book Company. Mrs. Davis further
claims that royalties to the amount of 4,600
are due her on the sale of the book, and she
brings suit for the recovery of this sum,
with interest from September last.

—John Boyd Thacher, World's Fair Commissioner, and once an ardent Cleveland
man, but who became a Hill convert, was
defeated last night for the presidency of the
Young Men's Democratic Club, the leading
political organization in Albany, by Congressman Charles Tracey, a Cleveland Democrat, by a vote of 78 to 2. It is reported that
the next move-will be to oust Mr. Thacher
from the Presidency of the State League of
Clubs.

—William Dockery, a merchant of Cleve-

Clubs.

—William Dockery, a merchant of Cleve-land, Miss., had a store built at Boyle's sta-tion, and on Saturday last put in a stock of goods worth \$3,500. That day two negroes. John Rice and Richard Carter, who had been in the employ of the contractor who had put up the building, hung around the place complaining that the contractor had failed to pay them for their work. That night the store and contents were burned. The negroes disappeared, but were after-ward recaptured.

When Baby was sick, we gave her Castoris When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria
