cut off \$117,000 from that tax, and makes the net increase in this year's taxes only \$62,500 over last year—only one-fourth of a mill on the present valuation.

"We made a cut of \$4,000 on Chief Bigelow's estimate for lighting, and that amount will be made up by using gas in City Hall. Under the Pittsburg Gas Company's charter they are required to furnish 12,500,000 feet of gas each year free of cost to the city, but since the electric light has been adopted on the streets the contract has been lost sight of until now.

"We out \$17,000 off the Water Bureau's general estimate and \$25,000 off the estimated cost of a new reservoir site. The \$100,000 cut off the parks estimate seemed necessary on account of public opinion, though it is doubtful if it had not been better to leave it as it was. The \$29,000 taken off the Bureau of Public Property was not needed. It had been intended to build a bridge over Market street connecting the two market buildings with \$8,000 of the money and the other \$2,000 was for painting buildings.

"There is one item in Mr. Bigelow's appropriation that was not changed and I think if the public understood it there would be no objection to it. The item appeared as 'property optioned' in his estimate submitted to Councils and \$75,000 was the sum desired. Mr. Bigelow secured options on 35 acres of land east of and adjoining Highland Park two years ago for that amount. To day it is worth \$112,000

options on 35 acres of land east of and ad-joining Highland Park two years ago for that amount. To-day it is worth \$112,000 at a conservative figure, and if Councils re-fuse to approve their purchase, Mr. Bigelow having the options in his own name, can turn the property over and make a clean \$40,000 on it inside of a month. It will make a valuable addition to Highland Park and no more ground will be needed there after this."

Status of Special Taxation.

The ordinance as approved provides in its first section that the city tax shall be its first section that the city tax shall be levied upon all property taxable for State or county purposes, shall be 12 mills, making allowance for rural and agricultural property. The East Birmingham special tax is reduced from 1½ to five-tenths of a mill, Mt. Washington special from three-tenths to one-quarter of a mill, and the Temperanceville special stands at 1 mill. e business tax reduction is as follows:

The business tax reduction is as follows:

Upon all goods, wares, merchandise and articles of trade sold in the city in any manner reduced from 1 mill to ½ mill on each dollar; upon the actual yearly sales of each person, corporation or firm in the auctioneering business, from 2 mills to 1 mill on each dollar of sales; upon the gross commission of all merchandise brokers, real estate brokers, commission merchants, reduced from 1 mill to ½ mill; upon the gross receipts of express companies, electric light, conduit, gas incl., telegraph and telephone companies reduced from 1 mill to ½ mill; upon the gross receipts of per-ons running pool or biliting tables and tenpin alleys reduced from 20 to 10 mills. As before stated, the distinction which marked liquor dealers at a 10-mill tax is wiped out and they are assessed at a half mill. Real estate brokers are added this year to the list of commission men taxed, and corporations are added to the auctioneers' list, these having been exempt heretofore.

IS WELL AND HEARTY.

Robert McGraw Is at Home in Allegheby-There Was Nothing Mysterious About His Movements-The Rumor of His Disappearance Was False.

The rumor from Greensburg to the effect that Robert McGraw, of Allegheny, had mysteriously disappeared and his friends were anxiously hunting for him is untrue. A DISPATCH reporter visited No. 187 South avenue, the address given in the directory, last evening, where it was learned that Mr. McGraw had taken up his residence with his brother-in-law, John Huckenstein, on Fairmount street, last Septem ber. A call was then made at Mr. Hucken-

Mr. McGraw appeared in a few minutes
and upon being shown the article said:
"I guess that means me, but I feel very
much alive. Don't you think so?"

Mr. McGraw then made the following explanation: "I was up in that country last

ALLEGHENY DEMOCRATS FOR KENNEDY

Congressman W. A. Stone returned to Washington last evening. He expressed himself as very much disappointed over the appointment of George Miller as Collector of Internal Revenue. In fact, the Colonel is feeling sore, and while he continues in his present state of mind President Harrison need not look to him for any favors. "I feel very badly," he continued. "I think Mr. Graham was entitled to the office. He was backed by the old soldiers and was indorsed by every bank in Pittsburg besides any number of business men. His ability and fitness were conceded by everybody. I have nothing against George Miller; he is a good fellow and I congratulate him on his success. We made the fight and lost, and have nothing left to do but to make the

"Was Senator Quay interested to any great extent in the appointment?"

Quay Most Deeply Interested. "He certainly was," the Colonel replied, most deeply interested. The office belonged to him, and it was taken from his very doorstep. It is a Senatorial appointment for Western Pennsylvania. It indicates that Senator Quay's indorsement has no special weight with the Administration, and it leaves the Senator under no obliga-tions to the President. The latter certainly can't expect any support from the Senator in his fight for the Presidental renomination. Another thing-the old soldiers of Pennsylvania have nothing to thank President Harrison for. He has ignored them on every occasion. I do not say that he has done it intentionally, but it looks that wav.

"How about the Senatorial struggle?" he was asked.

"I have nothing to say on that subject," the Colonel replied. "It is not my fight. I am a candidate for re-election, and have plenty to do to mind my own business and look after my affairs. It is time enough, anyhow, to talk about it when the Legisla-

He said he had no objection to people who were physically and morally all right, but he is opposed to immigrants who are not allowed to remain in their own countries. There is still plenty of room in the States for good people, and the time has come when only respectable candidates for citizenship are wanted. The Colonel added that Congressmen expressed themselves favorable toward the bill, and he thinks it will be passed.

MILLER'S APPOINTMENT.

The Popular Pittsburger Duly Named as Collector of Internal Revenue-The Dalzell People Pleased-A Sketch of the New Collector

The appointment of George W. Miller as Collector of Internal Revenue, announced yesterday, was especially gratifying to the Dalzell people of Pittsburg. They accept it as an evidence that President Harrison has decided to bestow upon Mr. Dalzell the power and force of the Federal patronage in Pennsylvania. The newly-appointed Collector

A couple of years later he was made assistant depot master, which position he held during the disastrons railroad riots of 1877. As a boy and as a man he has always enjoyed the happy faculty of making and keeping friends, and when the rioters were wrecking and ruining the railroad property, and when all other the railroad property, and when all other railroad officials had been driven from the scene, Mr. Miller was allowed to move trains at his will and during the entire trouble he was the only official allowed in the freight yard.

Betore retiring from the services of the railroad company Mr. Miller was located for a timed at Wall station, where he first demanded the attention of politicians by delivering to all conventions the delegates from his district. The leaders of both parties found it necessary to see the new collector before the delegates of the district were named. At the Bead of a Bureau.

Three years ago Mr. Miller was appointed uperintendent of the Bureau of Water Asseasments. About two years ago he was made Secretary of the Republican County Committee, both of which positions he now holds. He has a wife and 11 children living place as Superintendent of Water Assessments has already begun. Several applicants have already filed their claims for the position. Ex-Mayor McCallin, Robert A. P. H. Griffin, T. Guilford Smith, Charles V. Slocum and Robert J. Mercur, the Buffalo contingent, registered at the Duquesne yesterday. Mr. Griffin said the plant would be enlarged, and they would spend considerable money in making improvements. The company expects to be turning out car wheels in from six to eight weeks. He added that it would not be a large or small plant, but in time he hopes the business will grow to an extensive scale. The Buffalo Car Wheel Works have a reputation all over the country. Mr. Griffin is a heavy stockholder, and will have a big interest in the Pittsburg plant.

It is strange that the car wheel business has been neglected in Pittsburg. Several firms engaged in their manufacture here at various times, but they went into bankruptey. The new company is well backed financially, and have the experience of the Buffalo people in the management.

A BIG PLANT BURNED.

George Duncan & Sons' Glass Factory Destroyed by Fire.

THE LOSS IS GREATEST ON STOCK.

It Is Supposed to Have Caught From the Gas Producer.

WHERE THE INSURANCE WAS PLACED

George Duncan & Sons' glasshouse, known as factory D of the United States Glass Company, was burned to the ground yesterday afternoon at a loss of about \$150,000. The plant was one of the largest in the city, located on Sarah street, Southside, and extending from Tenth to Eleventh streets. It included the glass works proper and a large packing house. The works were devoted principally to the manufacture of tableware, an immense stock of which was on hand. The destruction of this caused the big end of the loss.

The fire was discovered at 1:15 o'clock, when the men were returning from dinner to work. It took but a moment for the flames to spread over the dry woodwork of the structure. Three alarms were sent in and half a dozen companies were soon on

Part of the Burning Factors the scene. Considerable delay in getting enough water gave the fire still better headway and all the buildings were in flames in an exceptionally brief time. To Save Surrounding Property.

Most of the efforts of the firemen were out forth to save the surrounding property. This was difficult owing to the fact that number of tenement houses, occupied by employes of the works, were built up close

employes of the works, were built up close about it. It looked for a time as though several of them would go, and the people moved out their goods. The flames, however, were kept confined to the works.

During the fire a great deal of excitement was created by an explosion of a quantity of uitrate stored in the cellar of the warehouse. The concussion knocked down the walls of the building and several people narrowly escaped being crushed under them. The fire burned until 4 o'clock.

The origin of the fire is not exactly known, though there is good reason to believe it started in the gas producer. This was an apparatus for the manufacture of gas to supply the plant. It is supposed that the producer was overtaxed and the escaping fuel ignited from the pots near it. The buildings were large brick structures owned by George Duncan & Sons, and had been leased to the United States Glass Company. States Glass Company.

Nearly Covered by Insurance.

The loss is estimated roughly at \$150,000; the insurance at \$134,000. The latter is distributed among a large number of companies. Among these are the Home, \$6,000; Northern, \$7,500; Royal, \$5,000; American, \$4,000; Westchester, \$2,000; the Fire Association of Philadelphia; the Lancaster Company, the North American Company, the Allemannia Company, the Germania Company and others. early Covered by Inc

The fire will throw out of employment 225 men and 30 girls who worked in the factory. Nearly all afternoon the cars on the Birmingham line were blocked by sections of hose across the tracks, causing considerable inconvenience.

Martin Prenter, superintendent of the Monongahela Water Company, denied the report of lack of water. He said: "There could be no difference in the supply at first from what it was later on. The reservoir was full when the fire started with the valves leading to it wide open. Not a valve was turn when the are started with the valves leading to it wide open. Not a valve was turned by any employe of the water company. At 5 o'clock, four hours after the engines began to throw water, only two inches of water had been lost in the reser-

Never Intended to Build a Hotel.

The tenants of the Smith property, corner Liberty and Sixth street, have not been notified to vacate as reported. It was rumored that Captain E. Y. Breck had notified drawn up the papers for the proposed hotel, but when he was appealed to for information last evening, he promptly knocked the life out of the whole scheme. So far as he knows, a hotel will not be built. He suggested to Luther Smith, one of the heirs. about three weeks ago, that a hotel on the about three weeks ago, that a hotel on the site would be a paying investment. Mr. Smith replied that he had made up his mind to put up a five-story building for offices. He had figured out the cost, and concluded he could make more money out of an office-building than a hotel. This is about all that the hotel talk amounts to. It was suggested if the new building would be high enough that a bridge could be built across from the Anderson, and the upper floors could be used as annex to this house. floors could be used as annex to this house. However, this is only a suggestion and rests

PEOPLE COMING AND GOING.

Joseph Craig went to New York last evening. George T. Oliver left for Chicago on the limited last evening

W. L. Elkins, Jr., of Philadelphia, was at the Duquesne yesterday. George Caffe, of Paris, and Hugh Laugh-lin, of East Palestine, are at the Anderson. C. L. Walker, of Butler, and J. B. Smith-man, of Oil City, are stopping at the Du-quesne.

E. M. Richardson, of New Castle, and Robert Kuhn, of Ligonier, are registered at the Monongahela House. J. T. Gorsuch, a Zanesville flint glass manufacturer, returned home last evening. He denied that the flint men are thinking of forming a combination.

Mrs. James A. Garfield passed through the city last evening bound for Washington. She was accompanied by her maid. Mrs. Garfield dresses in deep black, and has aged considerably since the tragic shooting of her husband. Her face now bears little resemblance to the photographs taken ten years ago.

A Serious Cutting Affair. Thomas Tobin is at the Homeopathic Hospital suffering from knife wounds on the thigh and leg received in a fight at Miss Bertha White's house, First avenue and Ferry street, late Tuesday night. Some time after the affair Officers Smith and Peoples found Tobin in Hazel's lodging house on Water street almost exhausted from loss of blood. Bertha White, Barney Hemerie, H. H. Minnick and Joseph Fox were locked up on suspicion of having had a hand in the cutting. A bloody knite was found in the woman's trunk.

A NEW MUSICAL INVENTION.

All the objections to a parlor organ are at last done away with by this new invention. It has seven full octaves (as many keys as the Steinway grands) and looks exactly like a fine upright piano. There are no stops in view nor any unsightly bellows pedals, but the instrument is worked by two pedals exactly like those on a piano, and a 6-year-old child is able to work them with ease. The delicacy and variety of its tones are wonderful, and the touch so light and quick that the most difficult piano pieces can be executed thereon without difficulty. It is a marvelous improvement on the common parlor organ, and has created a great sensation in musical circles. The price is not higher than that of the ordinary organ. H. Kleber & Bro., 506 Wood street, are the sole agents, and they invite all, whether purchasers or not, to call and see it. Kleber & Bro. are selling these wonderful instruments as fast as the manufacturers can furnish them. Is It an Organ or a Plano?
