Following are the officers chosen for the new Masonic lodge, of Witkinsburg, the charter for which was granted last week: R. A. Balph, Master: George A. Jackson, S. W.: Harry C. Clark, J. W.; William M. Brinker, Treasurer; C. H. Coveli, Secretary. The lodge will hold its meetings in Brinker's Hall. Franklin street. There are from 100 to 150 Masons in the borough, comprising most of the prominent citizens and it is expected that the membership of the lodge will soon include every Mason in the neighboring villages. There has never been a lodge of Masons in Wilkinsburg since 1816. None of the members of the lodge are living now. This lodge was known as Oak Church Lodge No. 145 and was one of the oldest in Pennsylvania. R. A. Balph, Master: George A. Jackson,

Improved Order Heptasophs. Supreme Archon S. A. Will is now located in his new offices, 13t Fifth avenue. Duquesne No. 60 had several applications for membership at the last meeting.

Jr. O. U. A. M. Fort Pitt Council No. 220 will initiate two candidates to-morrow night and have two more for the next meeting night.

General Lodge Notes

Bloomfield held its first meeting Wednesday evening last, when temporary officers were elected. The meeting was a very interesting one, it being well attended. Quite a number paid in the charter fee. The next meeting will be held Thursday evening at the corner of Winebiddle and Penn avenues in the hall on third floor over the drug store.

The Scotch-Irish Beneficial Association meets the first and third Tuesdays in each month, in St. James' Hall, corner Sixteenth street and Penn avenue, Pittsburg. Northside Council No. 8, Independent Sovereigns of Industry, will entertain their friends with a cake walk Monday evening at their hall, 175 Federal street, Allegheny. The Oakland Castle No. 23, A. O. K. of the

names are now on the charter, and the committee in charge has wisely concluded to limit the membership. The limit will be 200. It would be well for those contemplating membership in this lodge to waste no time in paying their fees, so as to be ready for institution. This is one of three lodges which will be instituted in this district inside of the next 30 days, and shows conclusively that the earnest work of D. D. G. M. Thomas Matthews is rapidly bearing good fruit. D. G. C. Louis Smith, Jr., of the Southside, will hold a School of Instruction at the hall of Avalon Castle, No. 242, Knights of the Golden Eagles, Friday evening, March 18, on which occasion he will confer the degrees on 12 applicants. He will also hold one at Crmsby Castle, No. 412, in the near future. Ormsby Castle, No. 412, in the near future.

The members of Edgar Thompson Council, Boyal Arcanum of Braddock, with their wives and Triends and visiting delegations from Allegheny City, Pittsburg and Mc-Keesport, to the number of 130, were given a reception Tuesday night at the Stohes' Hall, Braddock. A choice programme was carried out. Messrs. Sterrett, of Allegheny City; Harrison, of McKeesport; Kneebaum, of Pittsburg, and Shallenberger, of Allegheny City, Supreme Council officers, made speeches. A banquet was served.

The week was productive of a slight improvement in general trade. Iron, almost alone of all the great material interests, showed a heaitating disposition. Although the weather was about the worst possible, the spring movement made considerable progress, as shown by a better mercantile demand for money at nearly all of the financial centers. The fear of denuding the country of gold lost its potency as an obstructive factor. This was a distinct gain. Building was fair for the season, and real estate active, an unusual number of important sales being put on record. Stocks were active and higher. Although the song of the turtle was not heard in the land, there were abundant signs that the turning point of the year was at hand. A period of good weather will expand business as 'a

will vegetation. One of the largest transactions in realty during the week was closed yesterday by M. F. Hipple & Co. They sold the Slata-per homestead property on Winebiddle avenue, near Penn, consisting of a ten-room frame house and nearly three acres of ground, to Robert Sproull for \$45,000. It is under-stood he will sell off a tier or two of lots in the rear and improve and occupy the re-

Another Penn Avenue Sale, Another Penn Avenue Sale.

There is a disposition in some quarters to teep large transactions in reality from the public. This policy is clearly detrimental to business, which needs all the stimulus it can get. An attempt was made to cover up a sale yesterday, but not by the agent. It was learned that a piece of Penn avenue property, below Fifth street, had changed hands at a price said to be about \$70,000. Mr. C. H. Love, whose name was associated with the deal, said he was not prepared to talk on the subject, but made no denial. From another source it was ascertained that the sale had been consummated, but the inthe sale had been consummated, but the in-formant would make no further revelation. The reputed purchaser has within a few months invested fully \$300,000 in realty on

the avenue in question. A Northside Transaction Among several transactions in Allegheny Thompson & Co., which was one by Baxter, Thompson & Co., which was closed yesterday. They sold through the agency of Samuel W. Black & Co. a residence property situated on the northeast corner of North avenue and Webster street, fronting the park consisting of a two-story brick house park, consisting of a two-story brick house of 12 rooms and lot 20x110 feet, to a prominent Water street business man for \$15,000.

This is the second sale in that locality within ten days, the other being the Mrs. Crow property, which was purchased by Mr. Guckert.

The purchase of the Flinniker property, corner of Penff and Ellsworth avenues, by the Liberty National Bank for \$60,000 was a surprise to owners of some of the adjacent properties, notably McCombs and Goeddell, who, it is understood, had made offers which they had reason to believe would be ac-cepted. Besides, the Flinniker property was not known to be in the market. But as it cost less money than the others were held at, and the location being about as desir-able, it was taken in preference. By the terms of the purchase very little cash was used. According to good authority the bank gave a mortgage for the bulk of the LATE NEWS IN BRIEF.

house on Fifth and College avenues. Mrs. Gusky's palatial mansion, on Fifth, near Ivy street, will soon be ready for occupancy. It will be the most costly private building in Allegheny county. A handsome residence is also under way at the corner of Fifth and Ivy. These and other buildings of equally high class will improve the appearance and increase the attractions of the East End district of the city, although this seems akin to the attempt to

aint the lily. Elevated the Price. It has been announced that the sale of the Armstrong property, nine acres, to a New York capitalist, was declared off on account of the refusal of one of the heirs to accept the price offered, \$32,000. J. H. Coleman & Co., the agents, said yesterday that the property is now held at \$38,000, and, notwithstanding the big jump, the prospect of selling it to a Pittsburg man is very flattering. Good property of this size, in desirable neighborhoods, is becoming scarce, and those in quest of it for rural homes are generally quick to snap it up.

Business News and Gossip.

Business News and Gossip. Stock trading was up to high water mark last week, and final prices were in most ascs the highest.

Movements in Reality.

Movements in Realty. J. H. Coleman & Co. sold for Mary A. Kauf man to J. C. Dick a new frame house of nine rooms, with lot 30x110, on Hoeveler street,

\$1,300.
Alies Bros. & Co. sold for Conrad Brendell to Margaret Schmidt a three-room frame dwelling with lot 24x85 feet, on Brownsville avenue, Thirty-first ward, for \$1,100 cash; also for M. A. Liese to George Buchart a new five-room frame with lot 23x87 feet, corner Erie and Eighteenth street steps, for \$1,300 cash.

But this prospect was not realized. The tables were turned yesterday and in a manner that was quite significant. Nearly everything traded in was conspicuously strong, and gains were not only numerous but in most instances important. Pipeage, on the knowledge that a dividend will be announced in April, together with the strong financial position of the company, led the upward movement followed by Philadelphia and Chartiers Gas, Citizens' Traction, La Noria and some others. Wheeling Gas rose to 93 during the week, but lost part of the advance, finishing, however, \$2 better than a week ago. Birmingham Traction put about the same amount to its credit. Closing prices of the active interests as compared with those of the previous Saturday show these changes: Pipeage advanced 1%, Philadelphia Gas 1%, Chartiers Gas %. Wheeling Gas 2, Central Traction 3%, Citizens' Traction 2, Pittsburg Traction 4. Birmingham Traction 2, Pleasant Valley 3%, Luster 3%, Electric 1, Airbrake 2, Some of these stocks were unable to hold the full advance, but the fact that all finished better than a week ago, and on a rising market, is sufficient to show that they have substantial backing, which is based on dividends in some cases and better prospects generally.

Sales yesterday were 630 shares and two dividends in some cases and better prospects generally.

Sales yesterday were 630 shares and two memberships at \$500 each—50 La Noria at 31, 245 Philadelphia Gas at 19, 110 at 19½, 175 Pipeage at 12, 50 at 11½. Sales for the week were 10,075 shares and \$12,000 bonds. Birmingham Traction led with 3,204, followed by Philadelphia Gas with 2,600. Final bids and offers were: Fourth National Bank Bid. LOST ON LIQUIDATIONS.

FEW PROMINENT FEATURES IN STOCKS AND BONDS

The Majority of Transactions Are in Reading. Which Suffers From Reports of Coming Prosecutions in Pennsylvania-The New Syndicate Booming B. & O. NEW YORK, March 12 .- The stock market to-day suffered from liquidations on the addull, but slowly drooping appearance, leav-ing most stocks at small fractions lower than last evening. There were a few special features which gave life to the dealings, features which gave life to the dealings, conspicuous among which were the Richmond and West Point stocks, the Coalers, the Industrials and Baltimore and Onio.

The transactions in Reading were again more than the half of the total dealings in listed shares, and rumors of action against the combination by the State authorities of Pennsylvania was the occasion of heavy liquidation of long accounts in the stock. All the other stocks interested in the deal, however, were dull, though sympathizing in the downward movement in Reading, and all scored even larger losses than the leader.

The rumors and expectations of a favorable outcome to the reorganization proceedings in Richmond and West Point made those stocks the strong features of the active list, and the preserved made a very sharp improvement, while the common, which was very largely traded in, was held at close to its first price.

was very largely traced in, was need at close to its first price.

The new rumors in regard to the control of the Franklin refinery by the Sugar Trust was the occasion of a further material improvement in the prices of the latter stocks, but the preferred failed to hold its gain, and late in the session the decline in the common from the best figure became important. The Boom in the B. & O.

Among the inactive stocks the Baltimore and Ohio stock was specially strong on buying or manipulation, supposed to be for the account of the syndicate which has lately taken a block of the stock.

The opening was made at irregular changes from last evening's figures, but the Richmond and West Point stocks and the Sugar were all more than 1 per cent higher than last night. These stocks made further material gains in the early dealings, but the weakness of the Coalers was imitated by the rest of the list, and a slow but steady drooping tendency was seen throughout the rest of the session, in which the Sugar stocks joined toward the close. Except in the cases mentioned, however, the whole list was kept within the narrowest limits, and the changes in quotations

close. Except in the cases mentioned, however, the whole list was kept within the narrowest limits, and the changes in quotations were, as a rule, insignificant.

The market closed active and heavy, generally at about the lowest figures. The final changes of note include only two notable advances—Richmond and West Point preferred, 6½ per cent, and Sugar, 1½; while Lackawanna lost 2½; Jersey Central, 1½; Delaware and Hudson, 1½, and Reading and Cordage, each 1 per cent.

The total sales of stocks to-day were 257,332 shares, including Delaware, Lackawanna and Western, 2,962; Delaware and Hudson, 3,135; Erie, 3,250; New England, 3,357; Reading, 124,232; Richmond and West Point, 35,825; St. Paul, 6,800.

Railroad bonds were like the share list, generally quiet within narrow limits, but the activity in a few issues brought the total business up to a respectable amount. The Richmond and West Point 5s led, with \$350,000, Reading thirds following with \$295,000, and the seconds with \$108,000 out of a total of \$1,470,000. The changes, as a rule, were insignificant, but considerable irregularity existed, and while Canada Southern firsts rose 2½ to 110, Indiana, Decatur and Springfield rose 2 to 11.

Everything on 'Change Weak and Lowe Yesterday-A Closing Rally in Corn-Quite a Lively Business in Oats in the Morning-Provisions Sympathetic.

CHICAGO.-Everything dealt in on the Board of Trade was again weak and lower to-day. The news was generally bearish Board of Trade was again weak and lower to-day. The news was generally bearish and the conditions rather discouraging to holders. Domestic markets all had a downward tendency. The fine weather here and the mildness which the weather map showed to be prevailing throughout the winter wheat belt, was also a weak factor. The trade was light, the demand being largely confined to the covering of shorts. There was some efforthnade to check the weakness by using a weather scare, but it fell flat. Still the covering on the break was sufficient to prevent any great slump in values. May opened at 87%@87%c, against 87%c at the close yesterday: broke to 88%@87c; rallied to 87%c. Corn continued weak with lower prices. The weakness was due to liquidation largely by country holders. Large receipts were also a weakening factor. May opened at 40%@41c, against 41c at the close yesterday, and sold down to 40%c. Then shorts began to cover, and this, with some investment buying, stopped the decline and caused a rally which brought the price up to 40%c at the close.

The gain for the week was %c. The finish was %c below the highest price. The close was steady. Runs and shipments increased about 4,000 barrele each. Refined was puoted: New York, 6,40c; London, 5%d; Antquoted: New York, 5,40c; London, 574c; Antwerp, 1414f.

This was due to a bettercall for loans incident to the advanced season. While TWO NEW WELLS DUE LAST NIGHT. general trade was quiet, it was by no means bad. Improvement was noted in some lines. Should the revival continue and expand, as Oil Discovered in the Hundred-Foot Eand expected, surplus funds will soon be called into requisition. the western fart of the Moorhead farm, and is therefore west of the Wheeling Gas Company's initial well on this property. The Wheeling's well was at no time as large as the one brought in by the Devonian, which is generally conceded to be the biggest Gordon sander yet developed in the field. It opens up a big stock of new terrifory.

Another peculiar feature developed yesterday was at Greenlee & Forst's No. 2, on the No. 1 Marshall lease, west of Noblestown. While drilling in the 100-foot sand, the well began to flow and threw a column of oil over the crown pulley. There was a fire in the derrick, and in a few seconds the rig was in flames, but by quick work, the men on tour at the time succeeded in saving the property. The well continued to flow for some time, but was not putting out any oil last evening. They were shut down and moving back the boiler.

The Oakdale Oil Company has succeeded in getting a string of tools out of its No. 6 on the Wallace farm, where they have been fishing for the last four months on top of the fifth sand. They started to drill it in yesterday and it was showing rather light, but as the pay in the surrounding wells was not reached until they were 18 feet in the sand, they still have hopes that the Wallace No. 6 may yet be a producer.

The same company has fishing jobs on hand at four wells in the McDonald field.

One Hundred Barrels a Day,
Greenlee & Forst's No. 2 on the Wade
farm, located nearly a mile south of McDonald, is making about 100 barrels a day.
It was erroneously reported yesterday
morning to be making over 200.

Jennings, Guffey & Co. are still fishing on
top of the fifth sand at their No. 5 on the
Herron farm. Their No. 3 on this farm is
through the 100-foot. They are also fishing at about 1,200 feet in their No. 5 Bell,
and their Bell No. 7 is down 500 feet. Their
No. 4 on the Matthews' heirs farm is being
spudded in.

Guffey Bros., Jennings & Campbell were
expecting the pay in the fifth sand at their
No. 1 on the Mrs. McMascers farm yesternay
afternoon, but at a late hour last evening
nothing had been learned in regard to it.
This will be located northwest of McDonald

The well of Peebles & Malarkey, on the pool room lot at Willow Grove, is drilling in the salt sand.

Greenlee & Forst will get into the Gordon sand Monday at their No. 4 on the Miller farm, at Laurel Hill station. It was at this well that a boiler exploded, which delayed eperations nearly a week.

Producers Made to Suffer.

turned to Pittsburg yescerday from a trip through the upper oil country. When asked as to the opinion of the producers he had met in regard to the disso-

producers he had met in regard to the dissolution of the Standard Trust he replied: "They do not believe that it will affect the producing end of the business one way or the other. The Trust has been declared illegal, and the Standard people are going to comply with the law in a certain sense. They will dissolve the trust, but they will flud means of carrying on the business just as they did before.

It is true that the trust has in a way cheapened the price of refined oil to the consumers, but whatever has been the consumers' gain has been at the cost of the producers. The latter mere made to bear the burdens. Even now the Standard is trying to gain a monopoly in Europe by driving out Russian competetion, but they are making the fight with the Nobel Bros, and the Rothschilds at the expense of the producers of Pennsylvania, so you can see the producer is made to suffer on every hand. Some time ago Andrew Carnegie was quoted as saying that he saw the beginning of the end of the Standard, and I believe the decision of the Ohio courts is the beginning of the fulfillment of that prophecy."

The production of the field was 24,500 yesterday, the same as the day before. The hourly gauges were as follows: Matthews No. 3, 40; Jennings, Guffey & Co.'s Herron No. 4, 25; Guffey and Queen's No. 1 Samuel Wetmore, 25; Devonian Oil Company's Nos. 1 and 2 Boyce, 35; No. 1, Moorehead, 30; Oakdale Oil Company's No. 2 Morgan heirs, 20; Nos. 2 and 3 Baldwin, 40; Nos. 1 and 2 Wallace, 20; Forest Oil Company's No. 1 M. Wright, 50; Oakdale Oil Company's No. 2 John Wetmore, 20; Brown Bros. Robison & Co.'s No. I McMurray, 20; production, 24,500; stock in the field, 57,500. The production of the field was 24,500 yes-

When the Georgia Central was thrown in the hands of a receiver the stocks and bonds of Richmond went kiting down, as indeed they had done one day previously when none was out. The public have had large amounts of Richmond bought all the way down from the twenties, and the record of every commission broker office is that the stock has been a losing one.
