

THE STRANGE WOMAN

Is the Topic of Dr. Sutherland's Discourse, Being Largely A PLEA FOR GOOD LITERATURE.

Rev. J. T. Satchell Bids Farewell to the North Avenue Church.

ONE SERMON UPON THE FUTURE STATE

The subject of Dr. Sutherland's sermon at the Second Presbyterian Church last night was "The Strange Woman." It was one of his courses of sermons to young women, and was listened to by a very large and interested congregation.

The French Mission Meets.

The French Mission held its quarterly meeting in the First Presbyterian Chapel yesterday afternoon.

THE DARK SIDE OF THE PICTURE.

"But as man can rise to so pure a level of virtue all the more pitiable and disastrous his fall." This was the theme of a discourse by Rev. Mr. Satchell.

THE REMOVAL THAT WILL FOLLOW.

"The time comes when remorse shadows all as an executive officer of God's justice. It is stern-browed, unyielding and unshrinking. Like a shadow it follows the thoughts, intent and actions. It takes up its abode with the victim of sin."

A FAREWELL SERMON.

Rev. James T. Satchell bids goodbye to the North Avenue congregation—Many Cherished Desires in This World Never Carried Out.

Rev. James T. Satchell, of the North Avenue M. E. Church, preached his farewell sermon to that congregation yesterday.

The minister said: "We are often conscious of inability to carry into effect cherished designs of the soul. Plans are many and grand, performances few and small, at best. Perilous voyages are made from a desire to realize, and many a gracious speculation was wrecked ere it reached port."

"The longest life is not long enough to realize all the gracious ideas in one's mind. In this and many other ways our purposes are balked. Large plans are drawn in our imagination. Surely the accident brings it to naught. Surely the mischance of life is disappointing. The apparent failure is disappointing to the many who feel their desires thus checked by unlooked for circumstances."

God knows and accepts the purpose of our hearts. A number of our brethren reproduce in an organ the chords in his soul, and so it is with his life—so many hopes for and so little achieved. Again, unlooked for death is an index of character. In the presence of infinite need the heart becomes expanded and infinite love. We receive the inspiration of immortal hope.

Another consolation is that what we have not accomplished will yet be done. David was not allowed to build the temple, but the temple was built. Some think that the reason was that he was indispensable to God. If so, then his acceptance was a necessity. So it is with us. The temple is built and the battle is won, but sometimes pride trips us and causes many regrets, but God's work will be done. Then our apparently feeble efforts really facilitate the work. One person thinks out schemes and another executes them. Samuel Wesley conceived the idea of changing the East but never realized his plans, but John Wesley effected in putting the idea into execution. Science assures us that no atom is ever lost, and so it is with great ideas. They are never lost, but ever live in the minds of all."

Opening of the Leetdale Church. The famous stone church at Shields known as the Leetdale Presbyterian Church was reopened yesterday. The church has been thoroughly renovated and an annex for pastor's study and organ loft added and a new pipe organ built, the total cost being nearly \$7,000, and the church for its size is one of the prettiest in Western Pennsylvania.

A number of Pittsburghers attended the reopening services at Shields. There was a gathering of Sewickley Valley congregations. Rev. J. B. Reed, pastor of the church, conducted the three services, assisted by Rev. James L. Reed, pastor of the church, Rev. James Allison, D. D., and Rev. W. O. Campbell, D. D. Prof. Albrecht was the organist, and in the choir were Misses Jessie Long and Layton and Messrs. Abercrombie and Howell. The edifice was tastefully adorned with flowers by the congregation.

Bishop Thoburn on Missionary Work. Bishop Thoburn, of India, preached to a large audience at the Duquesne Theater yesterday morning. He selected as his text from First Acts and a portion of the eighth verse, "Ye Shall Be Witnesses Unto Me." He said the disciples were sent out by the Savior as teachers to spread the word and to bear witness unto people of His deeds. The Bishop

STATE OF MAN AFTER DEATH.

This Was the Subject of Rev. William Ward West's Discourse Yesterday—Death Is Not the End of Man—Paradise a Beautiful Place.

Rev. William Ward West, of the Oakdale Baptist Church, yesterday morning took as his subject the "State of Man After Death."

"When man gives up the ghost, where is he? The question is one that the most serious thinkers cannot avoid. From Job's day until now the best minds have been interested in matters of eschatology. One question alone I am concerned with: 'Is there an intermediate state?' The final authority on this subject is the Word of God. Fancy and sentiment will not do; we must have something more sure and positive."

"The Bible teaches that there is a time or state between death and the resurrection. For the righteous a paradise, believed in by all in the time of Christ, and for the unrepentant a hades, and that these places are not the final rewards. Two questions arise. The first asks us whether man is conscious in the intermediate state and believes in the immortality of the soul. But men as well as good men will be conscious and active in the intermediate state. Will the other question inquire whether their condition is fixed? The great gift fixed in the parable answers it for one class, and with the other we believe they are morally perfect, but it is a progressive state, since death does not fix a man permanently. The difficulties to those denying these teachings is in the fact that they must deny the resurrection and the general judgment. The only way out of the difficulty is to either cast away the Bible or spiritualize all the truths. It is not purgatory to which I refer. I do not believe in the purgatorial cleansing of the Roman Church. I would just as soon think of my friends in paradise as in heaven. It is a most blessed and desirable place according to the teachings of Paul."

The French Mission Meets. The French Mission held its quarterly meeting in the First Presbyterian Chapel yesterday afternoon.

THE DARK SIDE OF THE PICTURE. "But as man can rise to so pure a level of virtue all the more pitiable and disastrous his fall." This was the theme of a discourse by Rev. Mr. Satchell.

TURNUED TO A MARBLE STATUE.

Ice Cold Water Petrifies the Body of a Woman in Her Grave. PHILLIPSBURG, Pa., March 13.—Grave diggers employed in disinterring the body of Mrs. James Delong in the Phillipsburg Cemetery yesterday afternoon, found instead of the crumbling remains of the woman the body of Mrs. Delong in a perfect state of petrification.

A NEW KIND OF BINDING TWINE.

Its Invention by a Kansas Man May Knock Out the Cottage Trade. KANSAS CITY, March 13.—J. H. Best, who lives a few miles south of this city, thinks he has solved the binding twine problem for the American farmer. J. H. Best proposes, as a substitute for the fiber in the manufacture of twine, the fiber of the esuca plant, or "Spanish bayonet," as it is called in New Mexico. A Kansas farmer for it is "Bear grass," so called on account of the great strength of its fiber.

An Important Difference.

To make it apparent to thousands, who think themselves ill, but that they are not affected with any disease, but that the system simply needs cleansing, it is brought comfort home to their hearts, as a cystic condition is easily cured by using Syrup of Figs.
