A GIANT'S BEDSTEAD.

It is a Quite Good Indication of the Size of the Man Himself.

LESSONS FROM THE CAREER OF OG.

Moral Monsters That Beset the Christian's Path Through Life.

THE UNIVERSAL NEED OF A COUCH

SPECIAL TELEGRAN TO THE DISPATCH. BROOKLYN, March 13 .- Dr. Talmage's text was Deuetronomy iii, 11: "Only Og, King of Bashan, remained of the remnant of giants; behold, his bedstead was a bedstead of iron; is it not in Rabbath of the children of Ammon? Nine cubits was the length thereof and four cubits the breadth

The story of giants is mixed with myth. lliam the Conqueror was said to have een of overtowering attitude, but when, in rtime, his tomb was opened, his bones ndicated that he had been physically of only ordinary size. Roland the hero was said have been of astounding stature, and his or was found only large enough to fit an dinary man. Alexander the Great had linets and shields of enormous size made and left among the people whom he had con uered, so as to give the impression that he as a giant, although he was rather under an over the usual height of a man.
But that in other days and lands there

re real giants is authentic. One of the guards of the Duke of Brunswick was eight nd a haif feet high. In a museum in Lon-on is the skeleton of Charles Birne, eight set, four inches in stature. The Emperor aximin was over eight feet. Pliny tells of a giant nine feet high, and two other giants

am not incredulous when I come to my ext and find King Og a giant, and the size of his headstead, turning the cubits of the text into feet—the beadstead of Og, the king, st have been about 18% feet long. Judg-from that, the giant who occupied it was from that, the giant who occupied it was bably 1l feet in stature, or nearly twice average human size. There was no need labblinical writers trying to account for presence of this giant, King Og, as they, by saying that he came down from the er side of the Flood, being tall enough to be the waters beside Noah's Ark, or that rode on the top of the ark, the passengers de the ark daily providing him with i. There was nothing supernatural about the was simply a monster in size. the was simply a monster in size.

and Solomon stept on beds of gold reamapains had 150 bedsteads of gold in with him, but this bedstead of it was of from—everything sacrificed ength to hold this excessive avoirdu-

was kept as a curiosity at Rabcople went from far and near to
is now people go to museums to
armor of the ancients. You say
ter this giant King Og must have
lambt of it. de corresponded to the size of his bed-d, and his stride across the battlefield the full stroke of his arm must have appalling. With an armed host he es down to drive back the Israelites, re marching on from Egypt to Canaan

The Big King Not Invincible. battle of Edrel opened. Moses and met the giant and his army. The of Hosts descended into the fight and ntic strides that Og had made when cing into the battle were more than the gigantic strides with which streated. Huzza for triumphant Israel! reated. Huzza for triumphant Israell fortified cities surrendered to them. Id of indescribable opulence comes heir possession, and all that is lett of ant king is the iron bedstead.

did not the Bible give us the size of ant instead of the size of the bedstead; thid it not indicate that the man was thigh instead of telling us that his was 13% feet long? No doubt among thinsy it was to teach us that you can things it was to teach us that you can of a man by his surroundings me a man's associates, show me a do, by the pictures he admires, by the pictures he attends; by the places he visits, unit giants and intellectual pigmies, like physical pigmies may be judged their surroundings.

cal giants or physical pigmies may be judged by their surroundings.

That man has been 30 years faithful in at-tendance upon churches and prayer meet-ings and Sanday schools, and putting him-self among intense religious associations. He may linve his imperfections, but he is a very good man. Great is his religious stature. That other man has been for 30 years among influences intensely worldly; and he has shot himself out from all other influences, and his religious stature is that of a dwarf. and his religious stature is that of a dwarf Mourning a Very Good Test. hen a man departs this life you can tell

what has been his influence in a community for good by those who mourn for him and ow sincere and long-continued are the egrets of his taking off. There may be no nn or obsequies and no pretense at tapheology, but you can tell how high he consecration, and how high in useful-low long is his shadow when he to lie down. to lie down.

that is true of individuals as true of cities i nations. Show me the free libraries i schools of a city, and I will tell you the elligence of its people. Show me its lery of painting and sculpture, and I will you the artistic advancement of its cities. Show me its churches, and I will tell the moral and religious status of the but let no one by this thought be induced But let no one by this should be introduced a surrender to unfavorable environments. Insure can make his own bedstead. Chanev and Hagh Miller were born stone asons, but the one became an immortal adptor and the other a Christian Scientist

whose name will never die.

Notice furthermore that even giants must rest. Such enormous physical endowment on the part of King Og might suggest the capacity to stride across all fatigue and omit slumber. No. He required an iron bedstead. Giants must rest. Not appreciating that fact, how many of the giants yearly break down. Giants in business, giants in art, giants in eloquence, giants in isofulness. They live not more than half their days.

Brainy Men Need an Iron Bedstead. They try to escape the consequence of verwork by a voyage across the sea or a sall in a summer yacht, or call on physicians for relief from insomnia or restoration of nstrung nerves or the arrest of apoplexies, then all they need is what this giant of my ext resorted to-an iron bedstead. Let no me think because he has great strength of ody or mind that he can afford to trifle with his unusual gifts. God, all up and down the Bible, honors sieep. The only case of needent to sleep mentioned in the Bible was when Eutychus fell from a window during a sermion of l'aul, who had preached until mishight, but that was not so much a condemnation of sleep as a censure of long sermions. More sleep is what the world whats. Economize in everything but sleep. Notice, furthermore, that God's people, on the way to Canaan need not be surprised if they confront some sort of a guant. Had not the Israelitish host had trouble chough already? Not Red Sea not enough. Water amine not enough. Long marches not enough. Opposition by enemies of ordinary nine not enough. Long marches not ough. Opposition by enemies of ordinary true not enough. They must meet Og, giant of the fron bedstead. Why not let, see largelites go smoothly into Capsan esc Israelites go smoothly into Canaan thout this gigantic opposition? On, they eded to have their courage and faith riher tested and developed!

Gien's in the Christian's Path.

ad blessed the man who, in our time, in or ment more than one giant. Do not concause of this obstacle. Standing in your wis some evil propensity, some social ersecution, some business misfortune some hysical distress. Not one of you but meets giant who would like to hew you in twain. Brethren, I have made up my mind that e will have to fight all the way up to the we will have to fight all the way up to the Promised Land. I used to think that after swhile I would get into a time where it is ould be smooth and easy, but the time does not come, and it will never come in this world. By the time King Og is used up so that he cannot get into his iron bedstead, some other giant of opposition looms up to dispute our way. Let us stop looking for an easy time and make it a 30-years' war, or a so-years' war, or a 100-years' war, if we live so long

Must I be carried to the skies on flowery beds of case. While others fought to win the prize, And salied through bloody seas. Do you know the name of the biggest giant hat you can possibly meet—and you will meet him? He is not 11 feet high, but 100 feet high. His bedstend is as long as the continent. His name is Doubt. His common food is infidel books and sceptical lectures and ministers who do not know whether the Bible is inspired.

How to Meet Your Worst Foc.

You will never reach the promised land unless you slay that giant. Kill Doubt or Doubt will kill you. How to overcome this giant? Pray for faith, go with people who have faith, read everything that encourages faith, avoid as you would ship fever and small-pox the people who lack faith. In the battle

pox the people who lack faith. In the battle against King Og use not for weapons the crutch of a limping Christian or the sharp pen of a controversialist, but the sword of truth, which is the Word of God.

The word "if" is made up of the same number of letters as the word "Og," and it is just as big a giant. If the Bible be true. If the soul be immortal, If Christ be God. If our belief and behavior here deside our future destiny. If. If. I hate the word "If." Noah Webster says it is a conjunction; I say it is an armed giant. Satan breathed upon it a curse when he said to Christ: "If thou be the Son of God." What a dastardly and infamous "If." Against that giant "If" hurl Job's "I know" and Paul's "I know." "I know that my Redeemer liveth." "I know in whom I have believed." Down with the "If" and up with "I know." Oh, that giant Doubt is such a cruel giant. It attacks many in the last hour. It could not let my mother alone even in her dying moments. Do you wonder I have a grudge against the old monster? If I could I would give him a bigger bounce than Satan got when he was hurled out of heaven.

The Church Goes Marching On.

The Church Goes Marching On. Another impression from my subject: The march of the Church cannot be impeded by gigantic opposition. That Israelitish host led on by Moses was the Church, and by gigantic opposition. That Israelitish host led on by Moses was the Church, and when Og, the giant, him of the iron bedstead, came out against him with another host, a fresh host against one that seemed worn out—things must have looked bad for Israel. No account is given of the bedstead of Moses, except that one in which he first slept—the cradle of aquatic vegetation on the Nile. But the Israelites triumphed. If you spell the name of Og backward, you turn the word "Go," and Og was turned backward and made to go. Which of the giants will be the last slain I know not, but there will be a museum somewhere to hold the relics of what they once were. A rusted sword will be hung up—the only relic of the giant of Inebriation. A roulette ball—the only relic of the giant of Stock—the only relic of the giant of Stock Gambling. A broken knife—the only relic of the giant of Assassination. A yellow copy of Tom Paine—the only relic of the giant of Lasard. A pictured certificate of watered stock—the only relic of the giant of Assassination. A yellow copy of Tom Paine—the only relic of the giant of Unbelief.

And that museum will do for the later ages of the world what the iron bedstead at Rabbath did for the earlier ages. Do you not see it makes all the difference in the world whether we are fighting on toward a miserable defeat or toward a final victory?

world whether we are fighting on toward a miserable defeat or toward a final victory? All the Bible promises prophesy the latter, and so I cheer you who are the troops of God.

Evangelizing the Whole World, Make all the preparations for the world's evangelization. Have the faith of Robert and Mary Moffatt, the missionaries, who, after preaching in Bechuanaland for ten years without one convert, were asked what they from England said: "Send a communion service, for it will be surely needed," and, sure enough, the expected in-gathering of many souls was realized, and the communion service arrived in time to celebrate it. Appropriately did that missionary write in an album when his autograph was requested:

My album is the savage breast,
Where darkness reigns and tempests wrest,
Without one ray of light.
To write the name of Jesus there,
And point to worlds both bright and fair,
And see the savage bowed in prayer,
Is my supreme delight.

Is my supreme delight.

Whatever your work and wherever you work for God-forward! You in your way and I in my way. With holy pluck fight on with something of the strength of Thomas Troubridge, who, at lakermann, had one leg shot off, and the foot of the other leg, and when they proposed to carry him off the field, replied: "No: I do not move until the battle is won." Whatever be the rocking of the church or State, have the calmness of the aged woman in an earthquake that rightened everybody else, and who, when asked if she was not afraid, said: "No, I am glad that I have a God Who can shake the world."

Do What You Can. Whether your work be to teach a Sabbath class or nurse an invalid, or reform a wanderer or print a tract, or train a household or bear the querillousness of sensitity, or cheer the disheartened or lead a soul to Christ, know that by fidelity you may help hasten the time when the world shall be snowed under with white lily and incarnadined with red rose.

And, now, I bargetin with you that we will
come back some day from our superstellar
abode to see how the world looks when it
shall be fully emparadised—its last tear
wept, its last wound healed, its last shackle
broken, its last desert gardenized, its last
right of inquiry deconlisted. And when we broken, its last desert gardenized, its last giant of iniquity decapitated. And when we land, may it be somewhere near this spot of earth where we have together toiled and struggled for the kingdom of God, and may it be about this bour in the high noon of some glorious Sabbath, looking into the upturned faces of some great audience radiant with holiness and triumph.

FÉATURES OF TRADE New Maple Syrup in Large Supply and Prices Are Weakening.

CLOVERSEED SCARCE AND HIGH. Hides Pull and Market Steadily Drifting to a Lower Level.

THE FOOTWEAR OUTLOOK IN BOSTON

OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, March 12. In produce lines the principal features of the week past were the large receipts and declining prices of eggs and maple syrup, and the upward movement of clover seed. Eggs were sold in job lots at 14c per dozon within a few days. A reaction has come and prices are now a shade above the lowest

The price of new maple syrup is lower than it has been for a dozen years or more at this time of the year. Fancy brands of Ohio syrup are slow at 85c per gailon, whereas a year ago at this time the same quality of goods was firm and active at \$1 per gallon. Ohio make maple is in much better demand than Pennsylvania make, for good and sufficient reasons. In Ohio the laws are much more stringent against adulterations, and the mixing of Orleans with home-made syrup there is likely to bring the mixer into trouble. Pennsylvania laws do not deter the mixer, and as a result Ohio syrup is wanted all the time. The supply of clover seed this season is not up to demand, and price has been daily on the advance until clover seed is \$2 per bushel above what it was a year ago. Seedsmen expect prices to go to \$9 per bushel, owing to great scarcity of crop.

In the Cereal Lines. The price of new maple syrup is lower

In the Cereal Lines. It will be seen by reference to our home market column that receipts were much lighter this week than last. Notwithstand-ing light receipts, markets have proved slow, with a general drift toward lower

prices.

Corn and cats are particularly slow, and all cereals are quiet. Hay has been steadily moving upward all the week, and the general range of prices is fully \$1.00 per ton above what it was a week ago. Wheat and flour manage to hold their own, but no more. Millfeed is in fair demand and prices are steady. At sources of supply cereals have been weak for a few days past. The unward movement of hay has been largely due to the wretched condition of country roads, which has put a quietus on transportation.

Hides and Calf Skins. Markets in this line give no signs of improvement in the week past. In fact, steer hides are a shade lower now than then, and light weights are quiet at the old quotations. The steady gain of Chicago dressed beef in The steamy gain of Chicago dressed beef in this market is more and more putting the hide trade in the hands of the Big Four, and from present outlook the time is not far away when Chicago dressed beef firms will be able to fix price of hides to their own plessure.

Deasure.

Calfskins are coming in more freely this week than last, but prices are well naintained.

Following are prices paid by dealers and tanners for stock delivered here: No. 1 green saited steers, 60 ibs and over.
No. 1 green saited cows, all weights...
No. 1 green saited hides, 40 to 60 ibs...
No. 1 green saited hides, 25 to 40 ibs...
No. 1 green saited bulls...
No. 1 green saited cafekins...
No. 1 green saited cafekins...
No. 1 green saited veal kips...
No. 1 green saited veal kips... Sheepskins..... Tallow, prime.....

Reduction for No. 2 stock, 1½ cents per lb on steers and light hides; 1 cent on buils and 2 cents on calfskins. The Boston Herald of March 11 has this to say of the situation:

say of the situation:
An unusually large number of shoe buyers are in town, and the result is that a heavy ers are in town, and the result is that a heavy business is being done in samples. The shoe trade is especially good, and samples are be-ing freely placed. The West and Southwest are in good shape, and the general prosperity of the people in those sections makes the boot and shoe jobbers sanguine of a good trade. Large orders have been placed for heavy boots, but as yet few orders have been taken for men's and women's shoes. If, how-ever, the sale of samples gives any criterion of the market, a heavy trade may be exof the market, a heavy trade may be ex-pected later. Prices are on a low basis, but stocks in jobbers' hands are reported small, and in every way the situation seems to be an encouraging one.

## LIVE STOCK MARKETS.

Receipts, Shipments and Prices at East Liberty and Other Stock Yards. OFFICE OF THE DISPATCH,
PITTSBUEG, SATURDAY, March 12.

Cattle—Receipts, 1,092 head; shipments, 1,093 head; market nothing doing; all through consignments. Sheep—Receipts, 4,00 head; shipments, none; market unchanged.

HOME SECURITIES.

A Quick Halt Called to the Res Tendency.

The week turned out to be a good, one in peculative circles. The opening on Monday was strong, but later on a reactionar some of the specialties down, and gave rise to apprehensions of a general abandonment of advanced positions.

of advanced positions.

But this prospect was not realized. The tables were turned Saturday and in a manner that was quite significant. Nearly everything traded in was conspicuously strong, and gains were not only numerous but in most instances important. Pipeage, Closing prices of the active interests as compared with those of the previous Saturday show these changes: Pipeage advanced 1½, Philadelphia Gas 1½, Chartiers Gas ½, Wheeling Gas 2, Central traction ½, Elizens Traction 2, Pietsburg Traction ½, Elizens Traction 2, Pietsburg Traction ½, Electric 1, Airbrake 2, Some of these stocks were unable to hold the full advance, but the fact that all finished better than a week ago, and on a rising market, is sufficient to show that they have substantial backing, which is based on dividends in some cases and better prospects generally

dividends in some cases and better prospects generally.

Sales yesterday were 630 shares and two memberships at \$600 each -30 La Noria at 31, 245 Philadelphia Gas at 19, 110 at 194, 175 Pipeage at 13, 50 at 114. Sales for the week were 10,075 shares and \$12,000 bonds. Birmingham Traction led with 3,204, followed by Philadelphia Gas with 3,600.

The monstary situation underwent con-

siderable change during the week, and less was said about the Mg surplus than for some time. This was due to a better call for loans incident to the advanced season. While general trade was quiet, it was by no means bad. Improvement was noted in some lines. Should the revival continue and expand, as expected, surplus funds will soon be called into requisition. The Clearing House statement shows the following results for the day and week: 

SATURDAY'S PRODUCE MARKETS CHICAGO.—Everything dealt in on the Board of Trade was again weak and lower Saturday. The news was generally bearish and the conditions rather discouraging to polders. Domestic markets all had a down ward tendency.

PENNSYLVANIA RAILROAD. WALL STREET'S CLOSE.

The Majority of Transactions Are in Read ing. Which Suffers From Reports of Coming Prosecutions in Pennsylvania-The New Syndicate Booming B. & O. New York, March 12.—The stock market

COUNTRY PRODUCE—Jobbing prices—The egg market has gained somewhat in strength the past day or two. There were sales to-day at 14% per dozen, which was a half cent better than lowest price reached this to-day suffered from liquidations on the advances of the week, and the list presented a to-day suffered from liquidations on the advances of the week, and the list presented a dull, but slowly drooping appearance, leaving most stocks at small fractions lower than last evening. There were a few special features which gave life to the dealings, conspicuous among which were the Richmond and West Point stocks, the Coalers, the Industrials and Baltimore and Ohio.

The transactions in Reading were again more than the half of the total dealings in listed shares, and rumors of action against the combination by the State authorities of Pennsylvania was the occasion of heavy liquidation of long accounts in the stock. All the other stocks interested in the deal, however, were dull, though sympathizing in the downward movement in Reading, and all scored even larger losses than the leader.

Among the inactive stocks the Baltimore and Ohio stock was specially strong on buying or manipulation, supposed to be for the account of the syndicate which has lately taken a block of the stock.

The market closed active and heavy, generally at about the lowest figures. The final changes of note include only two notable advances—Richmond and West Point preferred, 6½ per cent. and Sugar, 1½ while Lackawanna lost 2½; Jersey Central, 1½; Dela ware and Hudson, 1½, and Reading and Cordage, each 1 per cent.

The following table shows the price of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE Disparate by Whitnery & Stephenson, oldest Pittsburg members of the New York Stock Exchange yesterday. week. Dairy products are barely steady, and general produce is quiet and slow. De-mand for clover seed exceeds supply, and markets are very firm at an advance of more than \$2 00 per bushel in the past week. Choice tropical fruits are firm with an upward tendency to prices. Fancy bananas are particularly firm. New maple syrup is coming to the front freely, and prices quoted are hardly maintained. AFPLES—\$1 75@2 50 per barrel.
