Chief Murphy still refuses to give Officer Ben Clark a hearing on the case in which he was suspended notwithstanding Mayor Voegtly's demand. Yesterday the Chief notified the Mayor in writing that the sus-pended officer would be given a hearing at an early date and that the Mayor would be notified in time to enable him to attend the hearing in person. This, it is claimed, is not satisfactory to the Mayor, but he has not yet decided what course he will pursue in the case.

The Mayor says he has been hadly treated by Chief Murphy, but he refuses to say what he will do about it. The removal of Cantain Bell, the Mayor says, was a sur-prise to him and will not be allowed to pass without a thorough examination. While Mayor Voegtly refused to discuss the trouble between himself and the Police Department a member of Councils, and an intimate friend of the Mayor, said last night:

## More Movements Are Promised

"The fight is fairly on now, and for the ext few weeks the fur will certainly fiv. next few weeks the fur will certainly fiv. Chief Murphy, in an ugly temper after his arrest, has defied the Mayor and has countenanced the removal from the force of Police Captain Bell without trial and without giving any reason other than that the removed officer was a friend of one of the City Auditors. The fact is, Captain Bell was removed because he supported Messrs. Park and May for delegates to the Repub-

The Various Devices Discussed. The mechanical devices known as smoke

The mechanical devices known as smoke consumers, automatic stokers and smoke preventers, that are in practical use in a number of establishments about the city, came in for a good share of the discussion, and it was developed that each invention had an ardent champion who would not let nauguration. Police magistrates for Allegheny have been discussed since the adoption of the new charter of the city, but the reform members of Councils held the matter back to prevent those in authority from strengthing themselves by the appointment of the go the opportunity to extol its virtues. One speaker maintained that smoke pre five magistrates.

five magistrates. The new arrangement will relieve Mayor Kennedy of holding police hearings and separates the office of Mayor from that of a committing magistrate, as it has practically

So One of the Witnesses in the Amoskes Engine Suit Styles the Recent Trial of Capacity on the Whart-The Case Almost Finished.

The final hearing in the celebrated Amoskeag engine case took place before the master, George P. Hamilton, yesterday afternoon. J. R. Meredith, who testified at the last hearing, was called for cross-examination by Major Moreland. Mr. Meredith testified that he was a mechanical engineer and had a scientific knowledge of mechanics. He witnessed the test of the engines on the wharf, having gone there merely as a spec-tator. He did not consider the test a fair one, because there was a 70-pound pressure on the plug. The engines during the test were run without any regard to common sense, and jumped all over the street.

sense, and jumped all over the street. The men running the engines were reck-less, and had any accident occurred would have been criminally responsible. The witness did not make an examination of the engines during or after the test, but he did know that with the 70-pound pressure on the plug the engines were only in the way. The figures would show that more water would have been thrown if the en-rines had not been there. The witness left gines had not been there. The witness left the test early because he was afraid the engines would go to pieces; that they didn't go to pieces he considered a very fortunate affair. Mr. Meredith did not think any of the engineers present at the test would dare to run the engines for five hours at the

speed they were put to on that occasion. Controller Morrow was recalled and tes-tified that the money for the engines, \$10,-

A Question of Steam Supply. A Question of Steam Supply. Another speaker held that with any device now in the market it required double as much boiler surface to get the same amount of steam. A battery of two boilers that, with hand firing, would produce suf-ficient steam to run a sawmill, would not supply half the pressure required if equipped with any mechanical device he had ever investigated. The principal interest of the evening centered around the paper read by Dr. W.

calt's last statement, saying: "Of course, the deleterious effects of smoke on the health must be in proportion with the

with a mechanical stoker to show that it was not only possible but practical to burn coal and produce heat without smoke, but he was followed by another who emphatical-ly declared that while it was possible to make a regular pressure of steam with the automatic stoker, the device was unavail-able to the meiorir of manufactories beable to the majority of manufactories be-cause their requirements were for a heavier pressure at one time than another, and when the extra pressure was needed it could not be produced by any but the old system of shoveling.

The principal interest of the evening centered around the paper read by Dr. W. H. Daly at request of the Ladies' Health Protective Association, on the effects of coal smoke and soot upon the throat and lungs. William Metcalf opened the discus-sion scientifically, reafirming his position that iron or steel cannot be made without coal

fire nor with any substitute except gas. He admitted, however, that applied to steam boilers and domestic use it would be pos-nible to use coal without smoke, though he held that there was nothing particularly unhealthy about smoke. Dr. Daly, in his reply, took up Mr. Met-

One speaker maintained that smoke pre-venters were too costly for practical use, and until the inventive genius of our people is stirred into animation by its parent, necessity, Pittsburg will continue to bewail the loss of the liquid fuel and grope in prime and soot. He was positive in his be-lief that the only way to accomplish the banishment of smoke was the perfection of a low cost surface to convert cost into gration question in Ohio, Pennsylvania and West Virginia. The best remedy he can suggest, is levying a good-sized poll tax on all immigrants landed. He says this would result in bringing into the country only the best and most desirable of foreign-ers. He said he hadn't heard of Congressa low-cost system to convert coal into gas before it is burned. Another speaker aired his experience with a mechanical stoker to show that it man Stone's bill restricting immigration. The poll tax idea was a lopted by the Aus-tralians to keep out the Chinese. Every Chinahan was compelled to pay £500 before he could load he could land. Speaking of politics Mr. Chance said he was convinced that Har-rison would be renominated. He has

been avoiding politicians in his work, and coming in contact with iron manufacturers. He claims they one and all think that Har-rison has made a good President and de-serves a re-election at the hands of the peo-ple. Mr. Chance said he would make a report when he reached New York. He ex-pects to be here again in May.

### The Duquesne Traction Reported to Be Going to McKeesport. A telegram from McKeesport last night save that "the latest news in street railway circles here is that the Duquesne Traction Company of Pittsburg is arranging to have

a McKeesport connection. It is said a short line is to be built from Wilmerding to this city, and another to be run from Wilmerding to Walls. This line, it is said, will connect with the Braddock and Swiss-vale at Hawkins station, and the latter will then connect with the Duquesne. The surveys are made for the first named short lines, and the statement comes from an offi-cial of the Duquesne Traction that that company will eventually run into this

A BIG EXTENSION.

C. L. Magee, President of the Duquesne Traction Company, is in Washington. His brother, W. A. Magee, however, when seen last night, said that such an extension of road was hardly probable, because would be very expensive. He admitted that he was not familiar with the work of the company.

monstrances that came in four were signed

of 286 Wylie avenue, and Laurence C. Lavelle, of 287 Wylie avenue. The general bisections to each of these applicants are objections to each of these applicants are that saloons are not necessary in that local-ity, that they would be a great annoyance to the M. E. Zion Church congrega-tion on Arthur street nearby, and that the corner of Roberts street, where the pousses are located is a place where large

Cause of the Complaint

In the complaint against Fuchs' wholesale application they state that he was refused a license last year because when he did have one he sold liquor to young children and to old women, and his place was known as a jug house which caused great disorder in the community. Against Matheis they say his building is too small and entirely un-united for the purpose and st present suited for the purpose, and at present is used as a butcher shop. As to Lavelle, they say his place was formerly a saloon, and was such a disorderly place that a new light on the sale of the sale of

houses are located, is a place where large numbers of colored men congregate, and if saloons were permitted there would be one of the most disorderly and dangerous places in the city.

Allegoeny any more than \$60,000 for a site, and unless property owners over there become more reasonable, it will be a long time before they will have a new postoffice. The people seemed to be fair enough, but it was the real estate agents who filled them with exaggerated notions about the value of their property."

to be heard is desired. The clergy took a turn at filing remon-strances yesterday, and several of those negative documents were laid away for future reference that will probably make trouble for the interested applicants when the mill begins to grind. Of the six re-monstrances that came in four provides the six re-

monstrances that came in four were signed by ministers. Revs. E. M. Wood, Nevin Woodside, J. C. Bigham, George W. Clinton and Jehu Holliday were the only signers to com-plaints against the applications of John Fuchs, of 302 Wylie avenue; Simon Matheis, of 202 Wylie avenue; and Laurence C.

On Monday the session will begin with the retail applicants from the First ward, Pittsburg, and it will be finished as well as the

ence of applicants, he yesterday announced

lican State Convention against the wishes

"I had a talk on the subject with the Mayor this afternoon. He is in an ugly temper, and while he refuses to talk for publication he told me with considerable emphasis this afternoon that he would not stop during his term until he had determined the exact authority of the Mayor. He will insist upon the reinstatement of Officers Clark and Bell, and he will go farther and will ask for the re-moval of Chief Murphy and Superin-tendent Muth. The Mayor certainly means to go to the limit and I think he will show as much moral courage as has been shown by Mayor Gourley of Pittsburg. Fortunately the Allegheny Mayor has the Councils of the city with him and he can depend upon it that if the Chief and the Superintendent far exceeded their authority and have been prompted by spite or ill feel-ing in their management of the police force, the Councils will sustain the Mayor.

It Will Come Before Councils.

"It is evident now that Councils will be called upon to pass upon the trouble be-tween the Mayor and the Chief of the De-partment of Public Safety, and I now rather incline to the belief that unless the trouble is patched up the Chief will certainly be removed. Councils elected the Chief and Councils enjoy the power of removing

A close personal and political friend of Chief Murphy's said last night that the arrest of at least one of the prominent re-formers of Allegheny would be made soon. He also said that Chief Murphy had decided to reorganize his police force to his own liking, just to show his friends that he was sticking with them and to serve notic on his cnemies that they had not alarmed him

Chief Murphy refused to talk on the trouble last night further than to say that he was on friendly terms with the Mayor and that he contemplated no serious trouble from the suspension of Clark or the dis-missal of Captain Bell.

Claim to Have Plenty of Evidence The reformers are positive that they have sufficient evidence to convict Murphy, while the Chief says he is confident they cannot harm him in the least. The intense interest manifested in his arrest it is thought will attract a large, crowd to his hearing to-

morrow afternoon Superintendent Muth yesterday appointed Frank Aiken, one of his detectives, to fill temporarily the position vacated by the sus-pension of Captain Bell. The Superintendent, in speaking of the case of the sus-pended officer, said that when a hearing is held sufficient evidence will be produced to show that the suspension was justifiable and not a hasty action. John Glenn, Assistant Superintendent of

Police in Allegheny, went before Alderman Braun yesterday and entered bail in the sum of \$500 tor a hearing before Alderman Schellman Thursday afternoon between the hours of 3 and 4 o'clock, to answer the charges brought by Auditor McKirdy, W. W. Speer was his bondsman.

### A Reduction of Eastern Iron Rates.

The Pittsburg Committee of Freight Agents met in the Lake Shore office yesterday. They prepared reduced rates on pig iron, billets and like varieties of iron, and sent them to Chairman Goddard, of the Trunk Line Association, in New York, asking permission to use them from this territory to Eastern points. The Central Traffic Association has already granted a reduction on manufactured articles and pig iron. The agents retused to give out the rates, but the cut east is in proportion to the concession granted to Chicago. The Trunk Line Association is holding the reduction on manufactured articles under advisement, but they will probably reduce the iron rates in their territory. New York, Boston, Philadelphia and Baltimore are good points for Pittsburg iron shippers.

000, is still in his hands, and has never been paid. It is being held pending the litiga tion. The final arguments in the case will be made before the master on April 5.

# M'KEE'S ROCKS THE FIRST.

### An Election Under the Baker Ballot Law There on April 5.

The dispute as to where the first election under the Baker ballot law would be held was practically decided yesterday and, as stated in THE DISPATCH, the picnic ground down the river gets the honor. Judge Collier yesterday granted a decree for the incorporation of McKee's Bocks borough. Several applications had been filed for the incorporation of the village into a borough. but exceptions were filed and the applications dismissed. The last, however, met with the approval of all parties and no exceptions were made to the boundaries.

The decree fixes the boundaries and apoints Tuesday, April 5, for an election of orough officers. The election officers appointed are: Judge, Robert Lyon: Inspec tors, J. D. Lewis and C. J. Schultz, Jr. Frank Thomson, T. M. Holhman and G. H. Lamont were appointed Auditors to pre-

pare tickets, etc.

Iron Depression Due to Overproduction Jacob Rees, the inventor of the basic proess, was in the city yesterday. He formerly lived here, but left the city.two years ago to become interested in an iron plant at Pottstown. He now resides in Philadelphia. Mr. Rees said the dullness in the iron business is due to overproduction. He thinks it is strange that the iron and steel men should seek to hold their own big increasing production when prices are on the decrease. A number of railroads have been decrease. projected, but it was impossible to float bonds in the Old World. The railroads have been very conservative, and have bought scarcely anything. Mr. Rees says they are turning out 200 tons per month, and piling up their phosphate in a field. Their yearly capacity for phosphate is about 20 000 tons 20,000 tons.

### A Partner of John Conlon.

Detective McTighe arrested a barber, George Dietz, yesterday, who is alleged to be a partner of John Conlon, arrested on Saturday last for passing bogus checks, Dietz is alleged to have been with Conlon when the latter had a check for \$10 cashed when the latter had a check for \$10 cashed by George Fleming, the Market street drug-gist. The check was presented at the Dia-mond Bank, on which it was drawn, and signed by Black Bros., and the bank refused to cash it, not knowing any such firm. Conlon has not yet had a hearing, the police having decided to hold him until they could catch Dietz.

### Robbed by Colored Men.

Thomas Morgan, who lives on Twentieth street, reported to the police at the Twelfth ward police station last night that he had been knocked down by two colored men at Silver Lake and his watch and chain taken. He stated that the men had endeavored to get his pocketbook, but that he fought so hard that he drove them off before they accomplished their object.

### Unconscious From Drink.

Con Donovan, a 12-year-old boy, was found by the police yesterday afternoon lying in a shed in the rear of No. 3 Arch street, unconscious from drink. The boy was taken to the Eleventh ward station, and after being treated by Dr. Moyer was re-moved to the Mercy Hospital. Just where the boy got the liquor could not be learned, as he was not able to talk. poor farm.

effects will also be largely determined by the ability of the individual to reject the carbonaceous deposit made within the air passages. The atmosphere of Pittsburg in the years when smoke was all prevalent was justly feared by strangers unused to its irritating effects upon their throats and respiratory organs, and the "Pittsburg Grippe" was by no means a myth to those who came to use

their voices for our entertainment. The Effect on the Lungs.

The Effect on the Lungs. "Its evils upon the air passages of the weak are much more serious proportion-ately than upon the strong, the repeliant vigor being less and the deposit on the mu-cous membrane of the lungs works its way into the lung tissues. Post mortem exam-inations of Pittaburgers have frequently

portrayed in the darkly mottled lung tissue, filled with carbonaceous foreign matter, the effects of coal smoke. It is as likely to pro-duce consumption as the dust inhaled in many manufacturing occupations." While admitting that Pittsburg is healthier, according to the death rate, than some cities, the doctor said it must be remembered

cities, the doctor said it must be remembered she is advantageously situated. Yet, not-withstanding this claim, he held that Pittsburg's death rate was larger in 1890 than that of St. Louis, Chi-cago, Buffalo and Louisville, none of which are as eligibly situated. He held that during the eight years comprising her natural gas period Pittsburg's death was 1.62 less per 1,000 inhabitants than in the eight previous years, and had it not been for the grip epidemic of the past two years the differ-ence would have been greater.

nce would have been greater. A Success in England.

To show that it was possible to burn bituminous coal without smoke he related his experience on one occasion visiting an iron mill in England, and seeing no smoke rising from the stacks he thought the mill was idle until told that the law forbade the making of smoke, and that it was prevented by skilltul firemen. The doctor urged that some step be taken to save Pittsburg from her former unhealthy and unprofitable some step be taken to save Pittsburg from her former unhealthy and unprofitable condition. There was no doubt that smoke "was unhealthy and Pittsburg's record of growth during eight years of natural gas proved beyond doubt that smoke was also unprofitable. The histor-ical beauty of her women was a point that Pittsburg must lose unless the smoke and Ical beauty of her women was a point that Pittsburg must lose 'unless the smoke nui-sance can be abated, for a beautiful face and figure and black mottled lungs cannot long remain together. The former must suc-

cumb. Dr. Townsend followed and coincided with Dr. Daly's remarks, but gave most of his attention to showing the practicability of automatic stokers. C. F. Jahn made some remarks in the same line.' Joseph Eichbaum was convinced of the smoke-preventing qualifications of mechanical stokers, but thought them expensive in fuel. Mr. Barnes argued that econ-omic fiame meant economy in fuel and that was obtainable with a stoker. M. J. Becker presented the subject from a railcumb.

J. Becker presented the subject from a rail-road engine standpoint and argued that smoke abatement must come from careful firing. Mr. Ashworth, Colonel T. P. Roberts, and others spoke favoring economy in the use of fuel and careful firing as means of preventing a large percentage of smoke and a resolution calling to that effect was

adopted by the Society.

Neglectful Parents Sued. Secretary Dorente, of the Anti-Cruelty Society, entered suit before Alderman Cahill yesterday against John and Maggie Soewinski for cruelty and neglect of their soewinsti for crucity and neglect of their two children. The defendants live at Du-quesne, and recently, during some trouble, their children were sent to the poor farm. Their children were returned to them when they got in easy circumstances spain. After a couple of days had passed the children were found one morning on the steps at the

DISCUSSING THE WOLF HUNT.

Members of the Humane Society Arrive at No Conclusion.

The Humane Society held its regular meeting yesterday afternoon. The following resolution was adopted:

ing resolution was adopted: Resolved, That a vote of thanks beten-dered Mrs. Caroline E. White, President of the Woman's Branch of the Society for the Prevention of Crucity to Animals in Phila-delphia, for the prompt manner in which she co-operated with this society by sending two able agents to assist agents O'Brien and Adams at the the recent wolf hunt. Most of the time was spent in discussing the wolf hunt and the subject of dehorning

cattle, but no definite action was taken. E. A. Lambie was elected a member of the so ciety. The society is anxious to find goo homes for two colored boys, 3 and 5 years of age, and one white boy, 14 years of age.

# WITHOUT OPPOSITION.

### Miller's Friends Say He Will By Confirmed Beyond Question.

The friends of George W. Miller, re cently appointed Internal Revenue Collector, are much exercised over the efforts being made to excite Senator Quay's opposition to him in the hope of preventing the confirmation of the new Collector. A num-ber of Mr. Miller's friends have gone to Washington, and a elegram received in Pittsburg last night from them said that the appointment would be confirmed without opposition.

### Pleased With the Postoffice.

Postmaster Anderson, of Cleveland, spent several hours with Postmaster McKean yesterday. He was on his way home from the conference of postmasters at Washington, and leit early in the afternoon on a Pitts-burg and Western train. He was very much pleased with the local building, and proposes to strike Congress for increased appropriations to improve his office. Mr. Anderson said he closed his stamp Mr. Anderson said he closed his stamp windows every night at 8 o'clock. In this city they are never closed, and a mighty howl would be raised by the citizens if they were. Mr. Anderson complained about cramped quar-ters and said he needed more room. He was much taken with the system in the Pittsburg office and the rapidity with which

the mails are handled. He thought the conference at Washington would result in the service being improved, but it can't be done without money.

Pete Mack, the Famous Minstrel, Dead, Pete Mack, the great black face comedian, died yesterday morning at the Sixth Avenue died yesterday morning at the Sixth Avenue Hotel from pneumonia and exposure. He played here last week with the "Natural Gas" Company and Monday night he played in McKeesport. Mack's real name was Mc-Glone and his home it in San Francisco. He was one of the best known minstrel men in the world. He went to Europe with Here and mer also demonstrate the men in the world. He went to Europe with Haverly and was also a member of the Thatcher, Primrose & West Company. It is claimed by his friends that Mack's death was caused by being put out of a hotel yes-terday morning, and that he died two hours after being taken to the Sixth Avenue Hotel. Mack was a man who commanded a salary of \$100 a week

alary of \$100 a week. .

## Meeting of the Baking Trust,

The United States Baking Company held one of its monthly meetings in the city yestetday. A number of the manufacturers from Ohio, Indiana and Pennsylvania were present. According to the story of the Sec-retary, prices were not advanced.

doubted source of many brawls and mur ders.

Rev. Morgan Sheedy is the affiant and one of the signers to a general remonstrance against any increase in the number of saloons in the First ward, Pittsburg. The paper comes from the Father Mathew Association, connected with St. Marry of Mercy's Church, and is signed by W. H. Griffin as President, A. E. McKeever as Secretary and Rev. Sheedy as spiritual director. The statement reads:

director. The statement reads: We do this in the interests of the hundreds of people living here who suffer from the effects of the liquor traffic; in the interest of good morals; in short for the peace and good order of this community in which we are specially interested owing to the fact that a number of our members reside here. On behalf of our organization, numbering 48 persons, we pray you to give this remon-strance your due consideration.

Another remonstrance signed by 34 citi-zens was filed against William Jenkinson, of No. 217 Federal street, Allegheny. It states that the saloon is not necessary and the house not suitable for a saloon. Louis Brand, of No. 206 Federal street,

Allegheny, was also remonstrated against by 31 signers who claim that his place is not necessary and that a man was killed in the house when it was formerly a saloon. It is further stated that Brand is bartender for Max Schneider, of the Federal Hotel, who "hope that this remonstrance will be a suc-cess as we do not wish another Schneider saloon in this vicinity."

A Wall From Wrought Iron Pipe Men. Joshus Rhodes went to New York last evening to attend the monthly meeting of the Wrought Iron Pipe Manufacturers' Association. He said they would call each other liars around a table and that is about all the meeting would<sup>®</sup> amount to. Every man thinks he is right, and will accuse his competitor of not maintaining prices. Mr. Rhodes said the business was never duller than at present. There is no possibility of an advance or reduction in prices. The prices now are below cost, and they can't go lower. Mr. Rhodes sees nothing encouraging in the future.

### Notice to Various Churches

Those churches in this city, in Allegheny and the Southside which have so anxiously and the Southside which have so anxiously awaited the arrival of the grand church organ of the Vocalion make are respectfully informed that it has at last come to hand. It is a glorious instrument of nearly 1,000-pipe capacity and able to fill the largest church edifice.

church edihee. Three or four congregations are after it, and there will be a lively competition for its possession. A large shipment of them went to London, England, lately, and the Messrs. H. Kleber & Bro. cannot, therefore, be supplied and supply their own customers be supplied and supply their own customers except after long intervals. Parties inter-ested will please call early as possible, as the organ will not be long in Klebers' ware-rooms, 506 Wood street.
