WILL REDEEM CITIES.

An Important Convention of Methodist Church Unions

TO FORWARD EVANGELIZATION.

Talks at an Open Meeting by Various Visiting Divines.

UNITED PRESETTERIANS IN SESSION.

The opening session of what promises to be an important conference of the various Methodist Church unions was held last night in the Smithfield Street M. E. Church. The object is to adopt plans and discuss the best way for procedure in the evangelization of cities. About 40 delegates have arrived, and many more are expected to-day. The delegates represent different sections of this country, many of them being ministers.

those districts, will take charge of these societies. Delegates arriving at Union station will be met by aides-de-camp of the general staff and will proceed to the point of formation by the shortest and best route. They will arrange their order of march so as to arrive not inter than 1:15 o'clock P. M. Commanders of the Knights of St. John will report at corner of Wood and Water streets and will take their place in the line on the left of the A. O. H. military bathilons. All cable and electric cars must be given the right of way. The parade must oblique to the right in all cases where these cars have tracks upon streets on which the Last night's meeting was what is called a platform meeting. It was largely attended. The services were opened by reading of Scriptures by Rev. Dr. Creighton, of Milwaukee, after which Rev. A. D. Traveller, superintendent of the Chicago City Mission, was introduced. The speaker, after paying a neat tribute to Pittsburg and a still more glowing tribute to Chicago, said the movement for the evangelization of cities was God-like in its sweep. The obcars have tracks upon streets on which the ject of the meeting was to do away with apathy in the church, and muster some push and energy so as to bring the multitudes in large cities to Christ.

A Union of Ideas Needed.

"Opinions are divided as to the best mode of procedure in the work," said he, "and what is wanted is a concentration of ideas. The work is not one of benevolence on the part of the church, but it is a matter of defense. The first step will be to Americanize and Christianize the foreign element. For this work men of brains are needed, and no cranks should be given a place, because they will not do. The best man is one who is broad in his ideas and who accepts the Bible from start to finish. who accepts the Bible from start to hnish. In Chicago in five years they have organ-ized and put into operation 57 missions. Twenty-five of these have become self-sus-taining. The purpose there is to build ten churches a year for the next ten years, and to keep on until they make Chicago the wrandest city in the world grandest city in the world.

Lev. Merritt Hulburd, D. D., pastor of the Spring Garden Street M. E. Church, of Philadelphia, said large cities afford a first-Philadelphia, said large cities afford a first-class field for evangelistic work. The speaker differed with men who claimed that the highest type of Christian life could be found in the country. This, he claimed, was not so. The highest type of Christians were to be found in the cities. Dr. Hul-burd claimed that Foreign Mission work can be better accomplished by Christianiz-ing the foreigners who come here and send them back to Christianize their own people them back to Christianize their own people. What is needed now is organization with machinery that has no friction and is well disciplined.

A Work of Great Importance.

Rev. George P. Mains, D. D., pastor of the New York Avenue Methodist Episcopal the New York Avenue Methodist Episcopal Church, Brooklyn, was the next speaker. Dr. Mains said that the question was one of vital importance to all religious denomina-tions in the country, and the work is tunda-mental to all church work. "The great cities," said he, "will hereafter not only be the country of civillation will also be the the center of civilization, will also be the storm center. One of the difficulties to be encountered is the wide gulf separating the social conditions of the people. The rich as a rule care little for a subject of this kind, so that their children are brought up

in ignorance of it, and it can be well said that 'one-half the world does not know how the other half lives.' "The first duty then is to bring both classes together. The young men in large cities especially need looking after. They tray away from their church and I know stray away from their church and I know that they pay five times more for the sup-port of play houses than the church. In Brooklyn, though it is known as the City of Churches, there are five saloons for every church and I am sorry to say most of them are open seven days in the week. What is wanted is a Christianity that will close the ars of the saloons so that the young men may be saved."

ONLY ROUTINE BUSINESS

Transacted at the Meeting of the Allegheny Presbytery of the U. P. Church-A Favorable Report on a Candidate for Admission to the Ministry.

The regular quarterly meeting of the Allegheny Presbytery of the U. P. Church was held in the First U. P. Church, Union avenue, yesterday. Rev. A. W. Flick, of Emsworth, presided. The resignation of Dr. A. M. Campbell, of Sewickley, was accepted. The next business was on the question of the law of the Church, which for-bids any but members of the Church from holding office. It was laid over till the next meeting. At the afternoon session mission work was taken up and discussed, and several reports on this subject were considered. That on home missions showed clearly the activity that is being exerted in this line, especially throughout the West. In Montana and Idaho missions are supported and classes conducted by regularly ap-pointed superintendents. In the Foreign Mission field \$3,000 was expended recently in the support of a minister in Japan and one in India. Other reports bearing on church extension and children's work were read and approved.

A request was made to the Committee cn Home Missions for aid for the West Union Mission. The call for Rev. W. J. McClintock to Deer Creek was approved and forwarded to the Presbytery at Frankfort. The committee on a church organization at Mars reported in favor of one at that point, which was approved, and Rev. R. H. Park gave notice approved, and Rev. R. H. Park gave notice that he would appeal from the decision of the Presbytery. The following reports were adopted: Financial reports from West Union and Springdale. Sewickley was granted permission to secure supplies through the Committee on Supplies. Committee on Supplies. Rev. W. A. Miller, a candidate for

Rev. W. A. Miller, a candidate for admission to the ministry, gave some of his lecture and Revs. Calvert, Park and Dr. Robinson were appoint-ed to conduct the examination. They reported favorably and the request was granted. A communication was read from the Butler Presbytery in reference to the boundary lines of the two Presbyteries. It was referred to a committee consisting to boundary lines of the two Presbyteries. It was referred to a committee consisting of Mesers. Witherspoon, McAlister and McMil-lan. Rev. J. S. F. Milligan was granted a certificate to the Beaver Valley Presbytery. C. G. French, a student on his second year, was received from Philadelphia and H. W. Moore, a student from Princeton, was re-ceived on trial. The following delegates were elected to the General Assembly: T. R. Simpson, D. T. McCalmont, W. F. Miller, A. M. Campbell, D. R. Imbrie, J. R. J. Milligan, Elders H. R. Hamilton, J. C. Morris, Andrew Barr, John Barr, Robert McGowan and R. D. McIlvaine.

All the Refinements of American Politics in Their Campaign and Polling.

YOROHAMA, February 25.-The elec tions for members of the Japanese Diet are practically finished but the exact result is unknown. The Government newspapers claim a majority of about 20, but this figure is reached by counting all the Independents as Government supporters. The elections

have been distinguished by riots and assaults, there having been 20 persons killed and 140 wounded at various times during the campaign. It is reported that the Pres-ident of the Privy Council has given in his resignation. Intelligence received from the polling

places show that a very small proportion of those entitled to the elective franchise exercised the privilege of voting. In the me-tropolis fully 25 per cent of the voters re-frained from casting their ballots. The papers ascribe this chiefly to indifference and fear of violence. General charges of intimidation and bribery have been made in intimidation and bribery have been made in sections, and in one precinct a ballot box was surreptitiously made way with. vited.
