New Yong, March 31.—The drygoods mar-ket opened with a relatively quiet business at first hands and a moderate but fair trade with jobbers. Good weather was a cheering indication, and there were indications that goods are moving along the channels of trade in a satis actory manner. Agents have a lew goods here and they would like to sell, but in a general way the market is well 501 up and many articles are consid-erably ahead of the looms. Prices of desira-ble goods are stendy. Nothing is yet being considered for fail. There is some cutting, ns usual, at this period with jobbers and a little with agents, but there is less of it than usual.

AT LIVE STOCK YARDS.

Offerings of Cattle at East Liberty in

Excess of Demand.

From the Drop.

At the East Liberty yards there were 70 loads of cattle on-sale at the opening of markets this morning, against 73 loads last Monday. About 40 loads of the offerings to-day were from Chicago, the balance being mostly from Ohio and Indiana. Quality was a fair average. There were no heavy primes on sale and few light primes. In the offerings were about five loads of stockers. Buyers were present in smaller force than usual, and those present made the most of their opportunity to bear markets. An effort was made to hold prices up to last week's range, but it proved unsuccessful, and sellers were forced to make concessions in order to unload. There was a drop of not less than 10c per cwt. at the opening, and all signs pointed to still further reduction be-fore all offerings could be disposed of. Light, tidy butcher beeves suffered less from the weakness of markets, for the reason that supply was scarcely equal to demand. A load of good Ohio beeves weighing about 1,400 lbs was sold at \$4 55. This, so far as could be learned, was the top of the market. The run of fresh cows was not so large this week as last, but there were sufficient for all demands.

les were reported at \$40 00 per head and the range was \$20 00 to \$40 00. A Pienty of Veal.

Veal calves were in larger supply than last week, there being not less than 250 head on sale with prospects of large receipts on Tuesday. Markets were dull at a deoline of % e per 1b from rates of a weel ago. The range this morning was 536c to 66 lb, with very few reaching the outside figure. Sheep-There were about 14 loads on sale when markets opened, against 20 loads the previous Monday. Quality of offerings was scarcely up to late average. Markets opened strong and active, at a shade better prices than were obtained last week. Top price of lambs was 7%c, and sheep, 6c per pound. Only a few fancy bunches reached these prices. There were about 25 loads of hogs on sale at this morning's opening, against the same number a week ago. Markets started out slow, with \$5 10 to \$5 15

## Allegheny Stock Yards.

Supply of eattle at Herr's Island yards today was liberal. Chicago, as usual, was the chief source of supply. Demand was good at a decline of 25c per cwt. from last week's prices, the decline corresponding with re-duced prices in the West. Best Chicagos sold at \$5 00 to \$5 10; medium weights, \$4 75 to \$4 90; light weights, \$4 00 to \$4 50, and common grades at a range of \$2 75 to \$3 75. Fresh cows ranged from \$20 00 to \$40 00 per head, and veal calves from 5c to Colo Deper nead, and veni caives from ac to 614c per pound. Bulls and dry cows sold at 224 to 314c per pound. The supply of sheep at Herr's Island yards was much lighter this week than last, and markets were strong and active at an advance. Sheep were sold at a range of \$6 00 to \$6 25 yearlings, \$6 25 to \$6 50, and lambs at 63 to 73 c per b. These were the prices at which western stock sold. Natives, being

lower in quality, were slow and dull at 25 to 50c per cwt. below these rates. Receipts: From Chicago-L. Gerson, 120 head; I. Ziegler, 175. From Penn-T. Bingham, 14 D. D. Pisor, 32. well, but provisions succumbed to the bear-ish influence of wheat. Nearly everything in the way of news was of a depressing na-ture, particularly from abroad. The wheat market opened about ½c below Saturday's close and gradually lost ½c more. About the first news from abroad was that of a heavy failure in Antwerp, which caused considerable local selling. The receipts in the Northwest were liberal, and the selling soon became urgent. The shorts appeared to have covered very generally on Satur-day's bulge, and there was consequently little demand from that interest; but the weakness started the longs to liquidating and nearly everybody had some to sell. The result was a sharp break, which carried May from 8½c early to 8½c before moon, and at 12 o'clock the market was about 84c. The visible supply showed an increase of 822,000 bushels last week, and helped to de-press the market. The market grew weaker during the last hour, and May sold off to 83½c, closing ensy at 83%c. Corn was traded in fairly but was gen-erally weak, influenced by the depression in wheat, the liberal receipts and the geo-eral bearish feeling in all the pits. There was not much shipping inquiry. The re-ceipts were tree with but little disposition to buy. May opened at 38½c, sold at 38½c clock was 35%c. During last hour the emarket keen doil and easy, with May at 38½ @8%.c and 38½@3%c and closed easy at 5%c. In oats, prices at all times were lower than Saturday's close. ## A Bustling Borough.

Oakmont borough, formerly part of Verona, is building up as rapidly, perhaps, as any other suburban town, but very little has been said about it. It is a case of hiding a candle under a bushel. It stretches in an unbroken line along the railroad from Edgewater station to Hulton, a distance of nearly two miles. Upward of 100 houses have been built there within a year, and the outlook for development this year is very bright. The population is about 2,000. There is talk of an electric light plant. Lots along the railroad are held at from \$1,200 to \$1,500. Land on the upper side of the railroad is held by a few people-th Panes, Arensburgs, Armstrongs and Grovers, and is not in the market.

Oakmont numbers among its citizens more lawyers and bankers than almost any other town of equal size. Among the former may mentioned Grover, Lee, Brunot and Given; of the latter there are Meade, Speen and Given. These gentlemen are firmly of the conviction that Oakmont is the finest residence quarter in the county.

Good Words and Timely.

Clos Pittsburg business men have undaunted faith in realty. Here is what one of them said yesterday: "From all points of view the prospect is cheerful. There has never been a time when capitalists were so much interested in realty as now, nor when more 87 38% 87.5 money was seeking investment in this best of all securities. It is an easy task to place inside property which possesses solid 27% leatures."

Special Features Touched Up. Business was in good shape yesterday. The people are waking up.

delphia caused a material depression in the Coal stocks, especially Delaware and Hud-son and Reading in the early trading, while the offering of the June dividend on North-ern Pacific preferred at ½ caused a similar decline in that stock. These influences were supplemented later in the day by a rise in sterling exchange rates, which served to keep the quotations of most stocks below those of the opening during the day. Bichmond and West Point attained considerable prominence in the market, but after a continuation of the de-cline started last week, it joined with the cline started last week, it joined with the general list and remained without move ment for the greater portion of the day Among the specialties only Ohio Southern and Pullman showed any animation, bu both were strong and scored substantia gains.

It rapidly retired, however, and its loss at the close was neavy enough for a larger busi-ness than was done in the stock. Reading and Northern Pacific preferred were the weak points among the active shares, and the whole market responded to the declines in these shares to a limited extent. The afternoon saw a further slight depression, but no material change occurred, and the market finally closed dul and heavy at or near the lowest prices of the day. The final losses were generally insignificant, but Delaware and Hudson is down B'4 per cent and Reading only ½, all other changes being for fractional amounts. ## THE MARKET STRONG IN NEARLY ALL DEPARTMENTS.

Central Traction Moves Up on Favorable Decision of the Supreme Court-Switch and Signal and Pipeage Improve Their Standing-Only Two Weak Spots.

From a selling point of view the local stock market was uninteresting yesterday, but there were some new features which imparted considerable animation to the proceedings.

One of these was the Supreme Court decision in the Central Traction High street case, which had long been expected. It was favorable to the company. This removed a dragnet from that stock, and at the after-noon call it shot up \$1 a share. The points

noon call it shot up sis share. The points of the decision are given elsewhere. People's Pipeage advanced on the an-nouncement of the dividend noted in this column Sunday. Other strong features were Pitaburg Traction, Luster, Electric, Under-ground Cable and Switch and Signal. Phila-delphia Gas was steady, tut Wheeling was weak.

Sales at first call were 20 Switch and Signal at 16%, 30 Chartiers Gas at 9%, \$2,000 Birming-bam bonds at 101%. Second call, 98 Pipeage at 12, 10 at 12%, \$150 Electric scrip at 80, 18 Bir-
