Classes and Prizes for the Homewood Summer Meeting.

NEW PLAYERS ARRIVE IN TOWN.

Sullivan's Backers Begin to Look Round for a Trainer.

A LOCAL CHALLENGE TO ENGLEDRUM.

Secretary McCracken, of the Homewood Driving Park, has arranged the classes and purses for the spring trotting meeting of the association. It is a splendid one. The variety of classes and the value of the purses are superior to the classes of purses of any previous spring meeting.

The meeting will last five days, beginning on Decoration Day, and for the opening it will be observed that the three events are of the most interesting kind. Another very interesting feature of the meeting is the uniformity of prizes, as the purse for each event is \$500, making slow and fast classes equal as far as the purse is concerned. This, as Mr. McCracken points out, is to encourage the entries of local horses. The Secretary tary also thinks that the fast classes will fill well, notwithstanding it is early in the year. He thinks that purses aggregating \$7,000 will attract entries from lots of very

good stables.

The track will be put into good condition and the clubhouse thoroughly renovated. Adam Fuchs will have charge of the clubhouse that everyhouse this year, which means that every-thing will be kept in the best of order, as Adam is a great stickler for having every-Adam is a great stickler for having every-thing done on a respectable plan. TO TRAIN SULLIVAN. Figuring on a Suitable Man to Prepare the

Big Fellow.

NEW York, March 29.-Champion John I Sullivan will train within 50 or 70 miles of New York for the fight with Corbett in September. The exact spot has not been decided on as yet. Just who will train him is a problem which no one seems able to solve at present, "Jimmle" Carroll, Fitzsimmons' trainer, has been spoken of as the one who is likely to take John L. in hand. When asked yesterday whether he would be will-ing to train the big fellow he replied that he had not been asked

"I do not think that I would care to take "I do not think that I would care to take the job," continued Carroll, "as I would be fearful that John would not obey instructions. In my capacity as a trainer I have never yet bad a fighter under my supervision who would not obey me. To put it a little plainer, I should require a certain agreement from Sullivan's backers if I was asked to get him in condition which I know would not be agreed to. That agreement would be the forfeiture of \$10,000 the first time that Sullivan refused to do as told."

Jim Wakely, one of Sullivan's backers, was not in a laurhing mood yesterday after reading that "Billy" Muldoon had told Corbett that he would like to have trained him were it not that Sullivan's backers had approached him with an offer to train the champion. "Why," exclaimed Wakely, champion. "Why," exclaimed Wakely,
"Muldoon does not know what he is talking

have we ever asked him whether he would
be willing to train John L. or not."

RAYMOND IN TOWN

He Reports for Duty and the Club Still Sticks to Denny.

Harry Raymond, one of the new local ball players, reported for duty yesterday. He is a bright looking young man, and has the appearance of a good ball player. His build and weight would seem to specially fit him for an infield position, as he is light and active. He is a good conversationalist, and is

The directors repeated their determination yesterday not to relinquish their claim on Denny, and they received another letter from President Young stating that Denny must play in Pittsburg if the latter club wants him. The California League is applying for protection under the National agreement, and if the San Jose club does not give up the services of Denny, President Young says no protection will be afforded the California League. fornia League.

NEW ORLEANS, March 29 .- [Special.]-Bud Renaud, of this city, who has been one of Pitzsimmons' advisers and backers, received a telegram last night from Fitz and Jimmy Carroll in which they said they were anxious to meet Hall's bluffs and asked Renaud if he would put up \$5,000 in a \$10,000 bet for Fitz-simmons to fight Hall at 155 pounds. Renaud at once telegraphed that he was willing to put up the amount, and said that he and Pat Duffy would probably cover the entire amount. They are both great believers in Fitzsimmons and will give him all the back-ing he wants.

E. C. McClelland arrived in the city yesterday and left the following challenge at this office: "I will run J. J. Engledrum a foot race of 25 miles for \$250 a side and the re-ceipts, the winner to take 70 and the loser 30 per cent of the latter. An answer through The Disparch will be attended to by me."

New Orleans, March 29.—A dispatch was eccived last night from Jimmy Carroll asking whether \$5,000 or \$10,000 was put up for a fight between Fitzsimmons and Hall, the men to weigh at 105. A reply was sent that \$5,000 and probably \$10,000 would be put up, and it is now thought these two will meet.

Charges When Investigated Prove to Have Had Nothing in Them.

TROUBLE BETWEEN MOLDERS IN OHIO

PEPECIAL TELEGRAM TO THE DISPATCH. OIL CITY, PA., March 29.-City Solicitor Isaac Ash, who is one of the trustees of the North Warren Insane Asylum, was interviewed here last night on his return from Buffalo, and was asked his opinion on the recent attacks on the institution. Mr. Ash said he had read the printed charges, but as he was not a trustee previous to 1888 he could neither affirm nor deny the charges. "Since I have become a trustee, how-

ever," said Mr. Ash, "I have assisted in the investigation of many charges of cruelty and neglect. In some cases these charges have been founded on fact, and the investigations resulted in the discharge of the attendants. All this was years ago, and since then new rules, tending to prevent any cruelty or unnecessary harshness, have been formulated by the Board of Trustees. A head attendant was also appointed for each ward, who was held strictly responsi-ble for any bruises or neglected appearance

of patients. Previous to that time the attendants would not inform on each other, but rather shielded each other from any charges of snielded each other from any charges of cruelty or neglect. There are 800 patients in the asylum, and most of the attendants receive as low as \$16 per month, with board, and it was hard to get good men to work for these wages. Since the appointment of the head attendants, however, the condition of affairs has improved, and when the Board of Trustees met on March 18 they found the condition of the perients. they found the condition of the patients

better than ever known. "We have of late years often investi-gated many charges made against the man-agement of the asylum, and found them to be merely the freaks of a diseased mind; such stories as a crazy man might tell who had injured himself, and then was cunning enough to try and place the blame on the managers. So far as my personal and official investigations have gone during the years I have been trustee, outside of a few cases well-known years ago, the condition of the asylum and the managenent is all that can be expected in such an institution where managers and attendants are coping with the crazed or weak minded. omplaints make sensational reading, but investigation always shows the other

"For instance, in the detailed complaints set forth by W. C. Pearl in his charges lately presented to Governor Pattison, this one is mentioned: Seventeenth—Thomas Ralston, from Brockwayville, Jefferson county, Pa., was beaten and abused about October 15, 1887, and at other times. Now this complaint was fully investigated last summer at the special meeting of the Board of ner at the special meeting of the Board of Trustees, together with three members of the State Board of Charities. The charges were not sustained in any one instance, and the management was promptly acquitted."

HE ENFORCED HIS PROTEST.

Two Men Seriously Stabbed for Ill-Treating an Old Man in Sport.

PHILADELPHIA, March 29.-Jacob Heck and Jacob Eidler are lying in a precarious con-dition at the Episcopal Hospital, suffering from stab wounds, inflicted by Bernard Bischoff. The fight which led to the stabbing of the men was started over a protest made by Bischoff when Heck and Eidler were teasing George Silick. Silick is an old man, and shortly before 1 o'clock this morning he was passing the corner of Hope and Cumberland streets, when Heck and Eidler accosted him. They soon maddened Silick. and he became very noisy. His loud talk at tracted the attention of Bischoff, who reproached the two men for their drunken ridicule of the old man. His reproof led to

redicule of the old man. His reproof led to angry words and finally Heck and Eidler started in to whip the man who had interferfered in their sport.

During the struggle that followed Bischoff seeing that he was getting the worst of the encounter pulled his knife from his pocket and stabbed both of his assailants. The blade entered Heck's right ribs first, and when he fell to the ground Bischoff made a thrust at Eidler and inflicted an ugly wound in his left shoulder. The knife wielder at once fled and the injured men succeeded in attracting the attention of a policeman who had them removed to the Episcopal Hospital. Subsequently Bischoff was arrested and was locked up for a hearing. At 8 o'clock this morning the physicians at the hospital sent word that Heck and Eidler were in a dangerous condition and Bischoff was at once taken to that institution and identified by them as the one who had inflicted their injuries.

HARRISBURG, March 29 .- Judge McPherso this morning awarded a peremptory man-damus to Insurance Commissioner Luper igainst Auditor General McCamant to compel the latter to pay to Luper certain fees that are received at the InsuranceDepartment for granting licenses to foreign insurance com-panies. Up to December 31 last Luper had collected \$90, which the Auditor General in sisted should be paid to the State, as had always been done heretofore by the Insur

always been done heretofore by the Insurance Commissioner. Mr. Luper complied, but maintained that under the act of April 26, 1887, he is entitled to those fees.

In order to settle the matter, a case stated was taken before the court, when all the facts were recited and agreed upon. Attorney General Hensel appeared for the Auditor General and Weiss & Gilbert for Mr. Luper. The Court was asked to render a decision in order to have the matter settled as quickly as possible. Judge Henderson decides that the Insurance Commissioner is entitled to the fees, and orders the Auditor General to pay them over. The question now arises whether J. Montgomery Foster, who served as Insurance Commissioner from 1873 to 1891, is not entitled to the fees collected during his 14 years of service.

Trouble Between the Molders Creates a

Excitement in Ohio, MANSFIELD, O., March 29.—[Special.]—A serious riot was averted about 6 o'clock this afternoon by a few cool heads among the striking stove molders of the Eclipse Stove Company. At a meeting yesterday after noon of the union to which the molders be long it was decided by those present that they go down to the shop to have a conference with the four non-union molders work ing there. Accordingly about 20 of them started for the shop, which is located in the started for the shop, which is located in the eastern suburbs of the city. By the time the crowd reached the shop it had been augmented until several hundred were standing round waiting for the men to come out. When William Logan, of Cincinnati, came out the union men yelled "Scab" at him, surrounded him, and asked him to quit work. He boldly refused to do so, when cries of "Throw him into the creek," and "Mob him," were uttered on all sides by union men, who were somewhat the worse for liquor. Cool judgment prevailed, however, and Hogan was marched through the streets, escorted by a large concourse of excited citizens, to the Baltimore and Ohio depot, where a ticket was purchased for him to Cincinnati.

He was placed on the 6:40 train and instructed to stay away from Mansfield.

"Reddy" Anderson, another "scab" molder, was interrupted by the union men and frightened away by their menacing remarks and manner, and promised not to work and to leave the city. The police were on hand during the melee, but had any outburst occurred they would have been powerless, as the strikers are determined and reckless. The situation here is becoming very interesting and violence is expected at any time, as the strikers say that they will not allow any molders to work in the Eclipse except themselves.

OVERWHELMING PROOFS.

It is Easy to Make Assertions: It is Not Always So Easy to Prove Them.

For the past year wonderful claims have been made for a Medical Discovery. These claims may have seemed extravagant; they were not. This entire paper could be filled with proofs that all, and more than all claims made were true, but we present only a few.

Read them-they are both interesting and wonderful:

I suffered terribly from nervousness and kidney trouble, had no appetite, and felt weak and tired all the time. Paine's Celery Compound has made me so well that I am cleaning my house (a very large one) without help. MRS. E. AUTCLIFFE,

I suffered for two years with rheumatism in my imbs, back and neck. In the winter I was quable to rest except in a chair. I tried Paine's Celery Compound, and I wish every one suffering with rheumatism would go and do likewise. I feel younger than I did ten years ago; and can walk just as spry, with no more stiffness in my joints than when I was a girl. That is what Paine's Celery Compound did for me.

MRS. M. V. HUNGERFORD.

Paw Paw, Mich. About two years ago my head troubled me so that it seemed as if I should go crazy. I had a tired, lagging feeling, my bowels were out of order, my kidneys troubled me, and I felt badly. Before I had taken half a bottle of Paine's Celery Com pound I felt like a new person. Four bottles cured me and I would recommend it to all that feel the way I did. I know it saved my life and kept me from imprisonment in an insane asylum, which is as bad as death. MRS. J. E. WILCOX,

Dear Sirs-With the help of the Lord, Paine's Cetery Compound did for me just what it claims to io. I took it for constipution and nervousness, and it did not gripe or need any increased dose. grew stronger, felt better and worked harder, through the Compound. Truthfully yours

WM. H. ROBINSON, The truth of these assertions is beyond question. They are precisely the same tone as hundreds of others all showing that for all nervous, debilitating, weakening or rheumatic troubles there is nothing equal to this Great Discovery.
