Light Tidy Butcher Beeves Proved to Be Best Stock on Sale.

SHREP STEADY AND SWINE WEAKER

OFFICE OF THE DISPATCH, PITTSBURG, WEDNESDAY, March 30. (
The receipts of cattle at the East Liberty yards were less this week than last by about ten carloads. The total for the week so far has been about 60 carloads. While there were a few loads in this week's offerings better in quality than have been on sale at these yards for some weeks past, the general average showed little or no improvement. Two loads of good Ohio beeves, weighing about 1,600 lbs, were sold at \$4 75. This was the top of market. Tidy butcher beeves of light weight sold at 5 to 10c better prices than were obtained for the same grade a week ago. This morning the yards were as bare of cattle as they have been

for months past. Fresh cows were in fair supply and de-

Fresh coas were in fair supply and de-tenand, and veal calves were abundant and lower than at any time this season.

Monday's offerings of hogs were large and markets were dull at a slight decline from last week's range. Since Monday re-ceipts have been light, but markets have failed to improve. This morning there was not a lead on sele.

Sheep were in light supply all the week, and were sold at strong last week's prices. Top price for sheep was \$6 40 and tambs

A Live Stock Firm's Review.

Following is report of week's transactions as furnished by Holmes, Briggs & Co.:

We report 50 cars of cattle on sale Monday against 70 cars the same day last week. The offerings were mostly of common to good butchering grades, which were slow sale at 5 to 10c higher than last week. The heavy grades were not so plenty as last week, and were all sold at about the same advance in prices as the lighter grades. The higher range in prices was due more to the higher range in prices was due more to the higher range of prime beeves than the improvement of prices, as there were a few very choice on sale. There is still a fair inquiry for good thrifty young cattle to go on grass. This grade is scarce in the country and very few are offered for sale on this market. We quote prime to extra beeves at \$4 5064 75; good. \$4 1264 40; fair, \$3 7564 00; common, \$5 0067 15; cows and bulls, \$2 2563 25; thin bologna cows and bulls, \$2 2563 25; thin bologna cows and bulls, \$2 2566 10; common. Trade was quite slow at \$6 10c lower than the close of last week. Since Monday receipts have been light and market steady, with prospects steady to strong the balance of the week. We quote select tops at \$1 106 5 15; good unixed and best lorkers, \$5 006 5 05; pois and common Yorkers, \$4 6504 85; The supply of sheep and lambs was quite light on Monday and demand fair at strong last week's prices on everything of fair to good grades, while common was a little slow at a shade lower prices. WHEAT HAS A RELAPSE.

It Displays Buoyant Strength at First, but on Backs Water-The Premium on July Goes Down-Corn and Oats Follow

the Leader-Provisions Weak. CHICAGO-Wheat made heroic efforts to sit up to-day. Its strength proved hardly sufficient for the effort. There seemed to be a good many buying orders at the start, and for a time there was a considerable display for a time there was a considerable display of vigor. May opened briskly 16% higher at 80%, but the advance brought out free offerings. The tone soon changed to one of weakness, and before 11 o'clock the price went off to 79%, By noon the market sold off to 79%. Weakness continued to role during the closing hour, and May sparingly sold as low as 79%, and left off easy at 78%.

The pressure to sell that month was great from the Southwest on fine crop prospects, and it fell from 181½ over May to only ½c over. It was also discovered that a number of houses were buying May but selling an equal amount of July.

Corn trading, in its course, was almost a duplicate of the wheat market. It started at an advance for May of about ¾c and made the best prices for the day in the first few minutes of the session. Some of the parties who were supposed to be the heaviest holders were sellers on the opening bulge.

Considerable excitement prevailed in oats at the opening, the market being very firm as a result of similar conditions in the wheat and corn pita, and the fact that the receipts were lighter than expected.

Hog products were the weak thing on the list. Closing prices were nearly the lowest. May closed at \$10 17½, compared with \$10 37 yesterday.

field subdivision in the market about the middle of April. It is owned by the Bissell estate and fronts on Perrysville and Marshall avenues, near Charles street, Tenth ward, Allegheny.

J. C. Reilly will, this week, put on the market a plan of 160 lots, corner of Bedford, Webster and Thirty-third streets. This is

the Callery property, and was formerly owned by the Olivers. These plans contain an aggregate of pearly 400 lots, centrally located and moderate in price. There is no immediate dan-ger of a "corner" in this class of realty, but home-seekers should not let this fact incline them to procrastinate. Values are certain to advance.

THE BULLS HAVE SLIGHTLY THE BEST OF THE ARGUMENT.

Market Feverish, Unsettled and Still Professional-Sharp Drives on the Coalers-A Boom in Manhattan Just Before the Close-Railroad Bonds Active.

NEW YORK, March 30 .- The operations in the stock market to-day showed proof that there are two parties in the speculation, and that they are at present quite evenly di-vided. Under the influences of these contending forces the market was, during most of the day, feverish and unsettled; but the of the day, feverish and unsettled; but the bulls had the aid of free covering of yesterday's shorts, and prices, as a rule, were well maintained. The professional nature of the market, however, was again demonstrated by the utter stagaation which followed the completion of the ventures entered into yesterday, accompanied by almost entire cessation of trading.

Northern Pacific was more animated than usual of late, while, despite the attacks upon

Northern Pacific was more animated than usual of late, while, despite the attacks upon it, there was demand enough from the shorts to keep it moving upward after the opening decline of y per cent. Sharp and short drives were made at the Coalers, and all except Reading yielded materially on light trading, Lackawanna, Jersey Central and Delaware and Hudson reaching lower prices than have been seen for some time; but the recovery was equally if not more rapid than the drop, and intense duliness marked the further dealings in those shares. In the rally that followed the drive Reading received a substantial gain in company with a few other stocks which have of late been the objects of special bear pressure.

The Grangers were given more prominence to-day, and St. Paul again assumed its place as leader of the market in point of activity, and in it, as in the other prominent shares, the efforts at depression were followed by a full recovery and gains of small fractions in addition. The Industrials were comparatively neglected, and the low-priced shares were harry of feature.

shares, the efforts at depression were followed by a full recovery and gains of small fractions in addition. The Industrials were comparatively neglected, and the low-priced shares were barren of feature.

The opening of the general list was made at fractionally lower figures than those of last evening, but the covering of shorts was on so large a scale that prices rose from the first sales. The continued sales for the short account, however, aided by some liquidation of long accounts, kept the market throughout the forenoon in a highly feverish and unsettled state, though prices advanced in the main. The afternoon was marked by a further improvement, though the business done decreased to the smallest limit at one time, while in Reading, the Coalers, Sugar and some others material gains were scored on a very moderate trading. There was no set-back, and the market finally closed quiet to duil but firm, generally at about the best prices of the day.

One of the most prominent features of the late trading was a sharp upward movement in Mannattan, which, after selling down 1½ to 115½, rose rapidly to 119½ and closed with a reaction of only ½ per cent. The final changes are almost invariably small gains, but Manhattan is up 2: Burlington, 1½, and Delaware and Hudson, 1 per cent.

The total sales of stocks to-day were 280.284 shares, including Atchison, 21.435, Erie, 25.245; Louisville and Nashville, 6,220; Missouri Pacific, 10,420; Northwestern, 3,840; North Pacific preferred, 20,285; New England, 13,975; Reading, 25,500; Richmond and West Point, 13,145; St. Paul, 35,000.

Sales of bonds were more active, and trading extended to a still larger number of issues, while the feature of the dealings was the return of the Atchison incomes to popularity. Richmond and West Point 6's retired, but no other material changes in the prominent issues occurred. The market was in the market form throughout.

but no other material changes in the promi-nent issues occurred. The market was in

the main firm throughout.

OFFICE OF THE DISPATCE, PITTSBURG, WEDNESDAY, March 30. COUNTRY PRODUCE-Jobbing Prices-Receipts of poultry have increased the past day or two, the Ohio Valley being the leading source of supply. Markets are quiet at the decline already noted. Supply of eggs is not up to general expectations this week, and markets are steady to firm at prices quoted. Produce commission men report a very quiet trade to-day, and charge up the quietness to the fact that this is moving time. This, with the fact that bills now made are payable the 1st of April, has the ef-ect of reducing orders.

Fresh Importations

Of the world-renowned Johann Hoff's Malt Extract arriving with every steamer. The effect of La Grippe impairs the strongest constitution. Invalids must build up their general health. Nothing is better than the genuine Johann Hoff's Malt Extract in convalescense. Prof. Pietra Santa, of Paris, recommends it very highly. He says: "It is wonderful in building up lost power. I regard it of immense value to the practitioner to bring to his aid a remedy like Johann Hoff's Malt Extract, which acts not only as a tonic, but as a nutriment as well." Be sure to get the genuine, which must have the signature of "Johann Hoff" on the neck of every bottle.
