BILLETS A BIT BETTER.

The Only Favorable Development in the Metal Market This Week.

MILLS FILLED UP PRETTY WELL.

A Beavy Demand in the Barb Wire, Wire and Nail Trade,

BUT PRICES ARE FULLY AS LOW AS EVER

INFECTAL TELEGRAM TO THE DISPATCH.1 NEW YORK, March 31 .- The Iron Age will to-morrow publish the following synopsis of its trade reports:

The most favorable development during the past week has been the undoubted stiff-ening in the billet market, both East and West. The mills have apparently filled up pretty well for the next quarter and are firmer in their views. The consumption of soft steel has unquestionably developed enormously. There is a very heavy demand in the barb wire, wire and nail trade, making the tonnage large, although prices are low The new rod mill of Washburn & Moen, at Vaukegan, is reported to have started.

The large business done in soft steel during the past month has told on Bessemer pig, which is now firmer at \$14 50 than it has been for some time. Our Pittsburg cor-respondent notes a sale of 10,000 tons, May to September delivery at a shade under \$125

In pig iron the demand has evidently not caught up to current production, and thus far the reduction in the output is probably not as great as has been expected. The Valleys are going to reduce wages, and with the lowered treight rates, seem inclined to continue the struggle

Lower Freights for the South.

The Southern furnaces have secured a 10cent to 25-cent reduction on freight to points north of the Ohio river-not 50 cents as at first reported. To tidewater markets the lowering of freights amounts to 25 cen*s per

There is evidently a good deal of work coming out in structural iron and steel in coming out in structural from and steel in different sections of the country, but there is little hope as yet of a rally in prices, which continue unprecedently low. The har iron market is dull. Some large car orders have been captured by St. Louis, but orders have been captured by St. Louis, out in the East specifications expected last week have not yet turned up. The steel rail makers are holding up well under the pressure of a slow demand. There is, however, some un-casiness since the delivered prices on some orders taken in different parts of the country figure on phenomenally low freight rates. Doubt and suspicion have fallen on the much-discussed copper combination and the market has eased off. Tin, too, is softer, while lead is dull.

Condition of Foreign Markets.

kets are summed up as follows:

Pig iron warrants were strong during the early part of the week, under the influence of reports of a contemplated "cor-ner" in hematites and consequent buying to ner" in hematites and consequent buying to cover "short" sales, but the market has since relapsed into dullness, and prices re-ceded to its lyd for Scotch, 373 3d for Cleve-land and 46- to for hematites. Furnaces em-ployed on the latter are being damped, and there is consequently a heavier withdrawal of stocks from stores. The stock of Scotch pig in warrant stores has been reduced to 488,000 tons, and that of Cleveland pig to 141,000 tons.

market having been affected by a very lim-ited offering here and reports of higher prices in the American market. Absence of ourside speculation is a drawback and low price of silver also has a slightly depressing effect, leaving the market in rather unfavor-able position. Copper prices have fallen effect, leaving the market in rather unfavor-able position. Copper prices have fallen still lower, although a fairly large business on speculative and consumptive account was effected. Conflicting reports as to the proposition for a general curtailment of production have exacted an unfavorable in-fluence, as has also the depression in silver, causing speculators to realize and prompt-ing more conservative buying on the part of consumers.

Consumers, The tin plate market is unchanged. Inquiries have been more numerous, but buyers' and sellers' views are still wide neart, and no important business transpires. Makers are holding firmiy. There is more demand for steel ship plates, and the market is firmer at $\pounds 6$ 5s f. o. b.

and hesitancy which has prevailed among the longs seemed to be gradually crystalizing into complete discouragement. The liquida

into complete discouragement. The liquida-tion was heavy. The amount thrown over-board was very depressing, especially as the buying was restricted and everybody seemed to expect lower prices. After selling at 75% (73%), there was a de-cline to 78c. At this point some of the big shorts began to cover and take profits. This buying soon checked the weakness and there was a gradual recovery to 78% (c, but part of this was lost, and at 12 o'clock May was 78% (c. A renson for this partial improvement was the fact that some of the weak cables brought buying orders. Considerable strength was shown just at the close, May wheat selling to 78% c chiefly on continued heavy covering by shorts. Corn held up better than wheat. The fact that grading was better than for along time.

LIVE STOCK MARKETS.

CHICAGO-In the wheat market to-day the first sales showed a fail of over

down grade. Crop prospects were still re ported favorable, and the feeling of doubt market is active amounts to little; but when supported by hard facts in the way of sales there is no ground for disputation. Three transactions were consummated vesterday aggregating \$245,000. They are among the largest of the year, and are important not

that grading was better than for along time, as 14 of the 166 cars were contract, together with the slamp in wheat, started pretty free selling, and the clique was not apparently doing much to sustain the market. May opened 1/c lower at 40c: sold to 20% c; up to 40% c; off to 30% c, and at 12 o'clock was about 30% c. Weakness and depression ruled dur-ing the last hour, with heavy selling, part of it supposed to be by the clique, and May tonened 30% c, hut rapidly improved again, closing at 30% c market. The close being made from 1/6% under recent figures. Provisons opened heavy and lower in sym-pathy with the decline in live hogs at the yards. Pork was weaker than the other products, being accelerated by the break in wheat, the local longs selling and a block of stop orders coming in from the country. Trading was quite active ior a time. There was a marked improvement later on, a prominent operator buying freely, in which the shorts and packers subsequently joined, the market becoming quite strong and high-er all round, especially for ribs. May pork and ribs closed 5c above last night's flual quotations. that grading was better than for a long time as 14 of the 186 cars were contract, together

SOME FEW WEAK SPOTS

AFFORD WALL STREET BEARS THEIR OPPORTUNITY.

Richmond and West Point and New England the Chief Targets-Coalers and Industrials Suffer Also-Sugar the Weak Point Late in the Day.

NEW YORK, March 31 .- Aggressive operations in the stock market still continue only on the bear side, and they are restricted to the limits of safety; and while no disposition is shown to actively resist the pressure, the amount of long stocks coming upon the market is inconsiderable, and the impres-sion made upon prices is without significance in the main. A few points in the list, however, offer special opportunity for deep depression, and these are made the most of, for the time being affecting the general list o a certain extent

Among these at present the Richmond and West Point securities are most prom-inent, followed by New England, and from time to time the Industrials and Coalers. The recent congressive action of the New Haven roads was made the basis of an attack upon New England, and upon that tack upon New England, and upon that stock and Reading the bears concentrated their forces to-day. Louisville and Nash-ville was inclined to yield readily, but no other material concessions were made in the railroad list, even in late dealings, when further declines were made in some stocks. Sugar, however, became the weak point late in the day, and, after selling as high as 38%, it retired to 93% closing only a slight frac-tion higher than its lowest figures. The general list throughout the day was traded in within the narrowest limits, and even such active stocks as Erie, for instance, fluctuated over a range of only ½ per cent.

traded in within the narrowest limits, and even such active stocks as Erie, for instance, fluctuated over a range of only ¼ per cent. The temper followed the movements of the leaders at a long distance, and no decided tendency in prices was to be seen at any time outside of the active shares. The weak-ness in Sugar was felt in the late trading and gave the final dealings a drooping tend-ency, the market finally closing rather heavy, with most stocks either at or near the lowest points of the day. The declines of note comprise: Sugar. 2%; Reading, 1%; New England, 1% and Manasttan, which fluctu-ated widely, only ¼ per cent. The total sales of stocks to-day were 268,269 shares, including Atchison, 8,575; Erie, 12,500; Louisville and Nashville, 8,995; Manhatan, 9,281:North Facific preferred, 10,175; New England, 34,665; Reading, 82,460; Richmond and West Point, 8,500; St. Paul, 14,800; Union Pacific, 3,477.

novement of staples has gained in activity the past week. Buyers are in the city in

and west rout, o, we set ran, n, over the pacific 3,477. Railway bonds were even more featureless than stocks, and while the dealings again extended to a comparatively large number of issues, the tone was rather heavy, and the final changes insignificant in all cases. There was a moderate amount of activity in larger force than for month past, but prices are practically unchanged.

residence property, a good brick house and lot 52x199, on Trenton avenue, Wilkinsburg, for \$6,500. The following transactions were reported by agents: Reed B. Coyle & Co. sold for J. C. Dick the property corner of Penn avenue and Beatty street, Twentieth ward, consisting of a lot 65x100 feet with several buildings, for \$17,000. The purchasers are considering the erection The purchasers are considering the erection of a building to cover the entire lot for flat Morris & Aisbitt sold to Scott Flower two lots in Piermore place, Cratton, for \$1,50

cash. J. C. and A. Alles sold for Mrs. Miller a two-story frame house of six rooms, No. 1914 Harcum's alley, for \$2,100 cash. Binck & Baird sold a two-story frame dwelling, being No. 79 Stewart street, with lot 24x49 feet, for \$1,550 cash.

HOME SECURITIES. GOOD REASONS FOR A SLUMP IN BUSI NESS ON 'CHANGE.

Moving Day and April Settlements About as Much as People Care to Tackle-Central Traction and Duquesne Continue Their Upward Movement.

The stock market yesterday was the quietest for weeks. Some of the brokers "had a move on," while investors showed a disposi tion to hold off until the adjustment of April accounts.

The most conspicuous features were Central Traction and Duquesne, both of which assumed a higher position. Luster was strong at the opening, but weakened slightly later. Philadelphia and Wheeling slightly later. Philadelphia and Wheeling Gas advanced a trifle, and Pipeage and Chartiers were steady. Electric was weaker. Sales at first call were 100 Birmingham Traction at 27% \$3,000 Duquesne bonds at 10%, \$3 000 Birmingham bonds at 10%. After call, 100 Birmingham sold at 27%. Second call, 100 Central Traction at 31, 50 Pipeage at 12%, 50 Duquesne at 27%, 25 Birm-ingham at 27%, 50 Duquesne at 27%. Quotations on the unlisted tractions at the end of the last call were: Duquesne, 27% bid, offered at 27%. Manchester, 39% bid, offered at 27% Bids and offers in detail follow:

A GOOD RECORD.

The Quarter's Business Much Larger Than That of Last Year.

Bank clearings yesterday fell below the 2,000,000 mark for the second or third time this year. Offerings of paper were light. A few loans were reported at a shade under 6 per cent. It is expected that moving and April settlements will block business for everal days.

Yesterday ended the first quarter of 1892. During that period people heard so much of "dull times" that it will surprise them to "duit times that it will surprise them to learn that the volume of business, as shown by the Clearing House report, was nearly \$21,000,000 in excess of the like portion of 1891. There is much comfort in this, and no little encouragement. With such results trade cannot be bad, and those who complain are unreasonable. The statement follows: FL W. W. E. C W. E. C W. Asse D. E. W s balances

There was a moderate amount of activity in the Richmond and West Point 5s, the Read-ing second incomes, and the Atchison in-comes, but only the first named scored any material change. The total transactions

mitternit Change. The count transactions were \$1.229,000. The following table shows the prices of active stocks on the New York Stock Exchange yesterlar, Corrected daily for Tite Disparten by WHITNEY & STEPHENSON, oldest Pittbarg members of the New York Stock Exchange, 57 Fourth avenue.

VIOLENT EXERCISE.

Fat is a vulgar word. Too much adiposis or obesity sounds better. But fat is plainer. You cannot reduce it by violent exercise. There are two kinds of fats.

The unhealthy adipose tissue, resulting from sedentary habits or from forcing the appetite through stimulants; or from impure blood, or it may be hereditary. This is the kind that lays the possessor liable to heart

disease, apoplexy, vertigo, etc. Then there is the genuine, healthy, life-giving tissue, the result from reg-

ular and moderate habits, or if irregular habits, the taking regularly and according to directions the famous Carlsbad Sprudel Salt. The Salt will reduce unhealthy tissue and build in its place that firm and solid flesh which is the certain sign of perfect health. It is virtually taking the Carlsbad treatment in your home. Every drug store has it. The genuine has the signature of "Eisner & Mendelson Co., Sole Agents, New
