GENERAL SPORTING NEWS OF THE DAY

There is considerable interest being shown in the ball games scheduled between he local League club and the teams of the County League. The contest on Saturday Exposition Park proved that, and doubteso to-day's game between the Wilkinsarg team and the home sluggers will be ust as interesting. The Tarentum team lay to-morrow and the three games will go toward showing the comparative merits of the leading County League teams this sea.

The game Saturday is proof that the local amateurs are not to be ignored and that they can make matters quiet warm for the big League people. The officials of the Wifkinsburg club think they have quite a good team, and to-day's game will test them some extent, although it is very early in

The Export Demand for Flour Lighter Than Was Anticipated.

HIDE MARKETS IN FAVOR OF BUYERS

OFFICE OF THE DISPATCH, PITTSBURG, SATURDAY, April 2 (
The days immediately preceding and following the 1st of April rarely yield large results in trade lines. In produce circles the trade of the week past has been very quiet, and volume is reported smaller than the previous week. The price list has undergone few changes. Among the marked features of the week were the heavy receipts of poultry and bananas. For a month or more poultry has been in scant supply, and markets were firm at high prices.

In the early part of the week large quan-In the early part of the week large quantities were dumped onto our markets by the Ohio river steamer boats, and prices at once declined about 20 per cent. The high prices here as compared with Cincinnati markets had the effect of bringing large quantities to this city, which in ordinary times would have gone in the other direction. The Big Sandy Vailey, which properly is within the Cincinnati district, emptied large quantities of its poultry into Pittsburg. Prices of but-ter and eggs have not materially changed here in the week past.

In Cereal Lines. It will be seen by reference to home market column that receipts have been unusually large for the week. The general drift of prices has been toward a lower level. of prices has been toward a lower level. Hay and flour are particularly quiet, and prices are lower than they were a week ago. The opportunities for bull movements in cereal lines have been exceedingly rare all the past season. Said one of our leading flour jobbers in an interview to-day:

"The flour trade has upset many nice prophecies made last fall. We were told that the European demand on account of short crops in the eastern half of that continent would absorb all the American surplus of wheat and flour and that wheat would go to \$1.25 per bushel by this time. Somehow, the people across the water have managed to keep soul and body together so har without calling out our great surplus. Instead of going 25 cents above the dollar line, wheat is 10c to 15c below this line. The fact is that the European demand has been disappointing. The grent yield of last season at once shows itself when an attempt is made to raise prices." Hides and Caliskins.

The Boston correspondent of the Chicago Hide and Leather has this to say of the out-look:
"In spring and summer wear, on which "In spring and summer wear, on which most factories are running, there is more or less activity. Jobbers and retailers are anxious to receive their goods and pushing for them. While some manufacturers are quite busy, others again show signs of slacking up a little. There are in Brocton, Mariboro and Worcester county, factories rushed to their full capacity. In Lynn and Haverhill, makers of women's goods show no decrease of activity. Slipper trade is quite brisk of late, an improvement being noticed. Shipments of shoes to points outside of New England, the past week, amounted to 74,391 cases against 68,380 for the previous week, and 78 401 for the corresponding week of last year. Total shipments since January 1, 714,727 cases against 756,223 for like period in 1891."

SATURDAY'S PRODUCE MARKETS CHICAGO-Yesterday the trade in every pit faltered almost from start to finish, and compared with Friday evening, wheat is off 1/4c, corn 1/4c and pork 15c. The strength which characterized the wheat market Saturday nearly all evaporated during the night. The absence of the expected cold wave was also a discoveriment and all night. The absence of the expected cold wave was also a disappointment, and all crop advices were quite beartsh.

There was disappointment in the provision trade because the stocks did not show as much decrease as many had been looking for. That and the depression in grain circles were the reasons assigned for the heaviness. The best prices of the day were made at the start, and very little recovery from the lowest prices prevailed at the close.

A LIVELY SATURDAY,

Reading and New England the Two Big Features-Persistent Bear Raids, but Only Lackawanna Stays Down-Some New York, April 2.—The stock market was

unusually active to-day for a Saturday, but nearly one-half the business done was in Reading, and if the trading in New England be also subtracted from the total there re-mains but the usual quiet business in the rest of the list. Liquidation was in order this morning, and this gave encouragemen to the bears to sell the active stocks vigor ously in order to uncover possible stop orders on the decline. This was, in some measure, successful, and the losses established in the leading shares extended to about 2 per cent before any material reaction was seen, and that occurred just before the close.

tion was seen, and that occurred just before the close.

The opening of the market was made generally at small fractional losses from last night's prices; but New York Central was off 1 per cent, and the pressure to sell became immediately so heavy that extreme activity marked the dealings, while prices all along the line sold away rapidly. Reading and New Enzland, however, were still the leading weak points, as well as the leading active stocks. Sugar was the only one showing any comparison to them in either respect, but the whole list shared in the downward movement, though, as usual, the fluctuations in most of the list were confined to fractional amounts. movement, thourn, as issue, the indetuntions in most of the list were confined to fractional amounts.

Louisville and Nashville was also conspicuous for its stubborn strength on a light business, and after a slight loss reacted and closed higher. Reading, after opening unchanged at 54%, retired to 53%, but in the late rally, which was stimulated by the favorable nature of the bank statement, it recovered all of its early loss and finally closed only a small fraction lower. The other Coal stocks followed their leader closely; but Lackawanna was an exception, and failing to rally with the others, it scored the only material loss for the day. New England fluctuated in the same way and over about the same range, dropping from 42% to 46%, closing at 41%. The whole list, with the single exception noted, responded to the laterally and the final changes are generally insignificant declines, with a few small advances, while Lackawanna is down 1½ per cent. The close was fairly active and firm at the rally.

cent. The close was larry neutral at the rally.

Railroad bonds were in no way as animated or as interesting as stocks, and while \$570.000 changed hands, there was no special activity among the speculative issues nor fluctuations of moment. A firm temper marked the dealings, but no final change of more accourted. marked the dealings, but no inflat change of note occurred.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATOR by WHITNEY & STEPHENSON, oldest Pittsburg members of the New York Stock Exchange, 67 Fourth avenue.

"Remarkable how well mamma looks and how she has gained in flesh. You should do the same." "The loss of flesh is a trifle. You

think you need not mind it, but you are gradually running down. Do like mamma. Use the Carlsbad Sprudel Salt every morning before breakfast. It will increase your appetite and cure you of that dyspepsia and biliouspess from which you are suffering. But be sure to get the genuine imported article. No subterfuge,"
