Three Pemocrats Vote to Retain the Duty on Hoops and Ties.

LIEUT. HETHERINGTON A FREE MAN

WASHINGTON, April 9.- In the House this morning after routine business the river and harbor appropriation bill was reported by Mr. Blanchard, of Louisiana, and placed upon the calendar.

The consideration of the cotton bagging bill was then resumed, and Mr. Dalgell, of Pennsylvania, made a brief speech in opposition to its passage. One of the grounds for his opposition was that the language of the bill was so broad that it would admit free of duty many iron and steel products other than cotton ties. It would effect a number of articles and would introduce a combination into the administration of the tariff law, the extent of which could not even be guessed at.

No Justification for the Bill. This was a sectional bill, and one which ao man could justify on any sound principle of tariff legislation. It kept duty on iron ore, on coai and on pig iron, but proposed to make free the finished product. The raw material was loaded with duty, the finished product was made free. The bill was a direct blow at existing American industries. It was a proposition to close the hoop and band mills of this country.

Mr. Turner, of Georgia, closed the de-bate. He spoke forcibly in favor of the bill and in general denunciation of the Mc-Kinley act. He was informed that as far as the operation of that act was concerned, the wages of not a single laborer in Pitts-burg had been increased. Yet the prices of cotton ties were maintained. The money raised by taxation on ties was not put into the pockets of the laborers, but into the pockets of owners of mills. The money went not to the maker of ties, but to the who spent their summers abroad. Was it right for the Government, under the pretext of protecting the American laborer, to rob the laborers of the South in order to support the lordly mill owners?

Three Democrats Not Free Traders. The bill was then passed—Yeas, 167; ays, 46. This was a strict party vote, ex-ept that Mr. Coburn, of Wisconsin, Mr. O'Neill, of Missouri, and Mr. English, of New Jersey, Democrats, voted in the nega-

Mr. Shively, of Indiana, from the Com-mittee on Ways and Means, reported the bill to reduce the duty on tin plate, and it was referred to the committee of the whole. Public business was then suspended, and the House paid due tribute to the late Representative M. H. Ford, of Michigan, Eulogies were delivered by Messrs. O'Don-nell, Youmans, McMillin, Haves, Chipman, Weadock and Belknap, and then, as a mark of respect to the memory of the deceased, the House adjourned.

HETHERINGTON ACQUITTED.

The Yokohama Consular Court Clears film of the Charge of Murder.

WASHINGTON, April 2 .- News was received at the Navy Department this morning that Lieutenant J. H. Hetherington, United States Navy, has been acquitted of the charge of killing Gower Robinson, an Englishman, at Yokohama, about two months ago. A cablegram from Commander John R. Bartlett, commanding the Marion, gave briefly the information that Hetherington had been acquitted by the Consular Court at Yokohama, before which he was tried This action settles the case finally There is no other tribunal than the Consular Court that has jurisdiction in such a

Attorney General Miller Acts in the Superintendent Owen Investigation.

WASHINGTON, April 9. - Attorney General Miller has instructed Assistant Attorner W. J. Rannels, of the Department of Justice, to report to the Secretary of the Treasury for the purpose of investigating the charges of inefficiency and maladministration recently preferred against Mr. Owen, Superintendent of Immigration, by

Assistant Secretary Nettleton.

The detail was made in response to a request from the Secretary of the Treasury, who went outside of his own department in order to procure the services of a person thoroughly impartial and unprejudiced. The investigation was demanded by Superntendent Owen.

The River and Barbor Bill Reported.

WASHINGTON, April 9.- The river and harbor bill was reported to the House today. The committee thinks the most important feature of the bill is the extent it goes in authorizing the Secretary of War to make contracts for the completion of the more important river and harbor improvements. The departure from the old driblet system of appropriations was found to work so well that the committee determined to apply it on a larger scale than in the last

Hard Language Used by a Priest,

WASHINGTON, April 9.-Senor Romero said to-day that a Mexican Catholic priest, called Munoz, used some hard language against the United States, either in a sermon be preached or in a letter he published, in regard to the resolution now pending in the United States Congress relative to the return of Mexican flags. In transmitting the news to this country Munoz was mistakingly mentioned as a Cabinet Minister, thus giving undue importance to his re-marks upon the subject.

The Juanez Lottery Not Legalized. WASHINGTON, April 9 .- The Bureau of the American Republics has been officially informed that the Mexican Government has not authorized the establishment of the socalled Juarez lottery, or guaranteed the payment of its prizes as advertised generally in the newspapers. The Mexican Government requests all newspapers to give this denial general circulation.

Work on the Anti-Option Bitl.

WASHINGTON, April 9 .- The sub-Committee on Judiciary, composed of Senators Honr, Wilson and Pugh, having under discussion the Washburn anti-options bill, has nearly completed its consideration, and will probably report to the full committee next Monday. The full committee will soon after take the bill under advisement, and its left. Hood's Sarsaparilla is just the medically disposition is expected. Hoar, Wilson and Pugh, having under dis-

no truth in the report that Assistant Secretary Nettleton has tendered his resignation.

Committee on Indian Affairs at its meeting to-day decided to recommend to the House that it non-concurred in the Senate amend-ments to the Indian appropriation bill and request a conference. The amendments request a conference. The amendments number nearly 100, but many of them are mere verbal changes.

MORE PENSION OFFICE SECRETS

Disclosed in the Congressional Investigation of Commissioner Raum. WASHINGTON, April 9.-The Raum investigation was continued to-day. Representative Cooper, of Indiana, who has been out of the city, said he had seen by the papers that frequent references had been made to himself in the proceedings, and he asked permission to examine the testimony and certain records in the Pension Office. The attack made had been specially directed at himself, and there were. some things needing explanation. On the face of them they looked as if he had some knowledge of matters which were repre-hensible and which had been done in his name but without his knowledge. He had no connection with anything that was irregular, and wanted to examine the records before making a statement, in order that his statement, when made, might be full and complete.

James W. Donahue, a Pension Office clerk, testified that he caused the arrest of Major Barker, a dismissed Chief of the Record Division, for failure to pay borrow-ed funds, and finally got the money, but Barker, who was then Chief, immediately reduced him from Section Chief to clerk. Barker then tried to have him dismissed, and the Commissioner and Assistant Secretary Bussey recommended it, but Acting Secretary Chandler interfered and prevented it.

THE PREE TIN PLATE BILL

is Reported to the House Attacking th

McKinley Law. WASHINGTON, D. C., April 9.-In the report of the Committee on Ways and Means on the tin plate bill, as submitted to the House to-day, by Mr. Shively, of Indiana, the present law, it is said, subjects every American industry which uses tin plate to new and burdensome exactions. The proposed measure is a proposition to release these industries from such exactions. The distinction in principle between the two is the distinction between a demand by one citizen that he be licensed to take that which is not his own, and the petition of another citizen that he be permitted to keep that which is own.

The McKinley act granted privileges; the proposed act restores rights, says the re-port. Nothing is withheld from any Amer-ican industry which in reason belongs to it, while that relief is granted to many American industries to which by every consider ation of justice and sound policy they are unquestionably entitled.

Ladies, keep your eyes open. There are some awful prices being asked for dress goods this season. The hundreds of new weaves you see give merchants an opportunity to make prices which are absolute robbery. Get samples before you buy, bring them to the Cash Store and get posted. Every novelty in dress goods now on sale. Customers tell us our 20c, 49c, 59c and 9c lines are what competitors ask 50c, 75c, \$1 and \$1 50 for. You would expect to pay the latter prices, too, when you see them, but not at the Cash Store. We prefer a small margin; it brings the crowds.
