fractions. The general temper was firm, and the opening was made at slight gains over last night's figures, while the demand from the shorts further advanced the whole list in the early dealings. The groat feature of the day was the un-meual animation and strenzth displayed in Western Union, which rowel per cent to 90, which point it has not reached for a long time. Manhattan kept company with it, continuing its rise to 125%, and while neither of these were able to retain all of their gains, they were maintained on a higher level than the rest of the market. The bears statested Atchison and broke it bear event and depressing prices below the level of the first figures. Unimportant gains were made by the Industrials. The bank statements showed a loss of over \$2,000, 600 in the surplus reserve, but this was largely due to an expansion of loans, and no apparent effect was had upon the course of prices. The late trading developed a firmer temper and the market closed quiet to dull at insignificant changes for the day in all cases except in Manhattan, which is up 1 per cent.
