COLONEL JAMES' STRIKE.

Re Had Hopes That His Suit Against J. Henry Work Would Prove Such.

NEW YORK, April 11.-Justice Patterson, of the Supreme Court, refused to-day to dis-miss the complaint in Colonel E. C. James' suit against J. Henry Work to recover \$200. 00, money invested and profits in and from contracts held by the firm of Grant & Ward. Ex-Judge Arnoux then made his speech to the jury, declaring that Colonel James' suit was in the nature of a "strike." He had waited six years to think about the matter and then broughtsuit in the hope that Work

and then brought suit in the hope that Work would pay. James was perfectly satisfied with 7 per cent, and Mr. Work did not intend to give him any more. Mr. Work, Judge Davis said, had not been guilty of fraud or misrepre-sentation. He was Secretary of the Mexican Railway, of which General Grant was Presi-dent. The General told him that the boys, Grant and Ward, were getting along splen-didly, so well, indeed, that he had \$1,000,000 to his credit. Ex-Judge Davis said General Grant was never aware of any fraud.

£264,000,000. The total difference in the ex-penditures was only £137,000. This state-ment was received with cheers. Analyzing the revenue Mr. Goschen said that the cus toms produced £19,756,000 being £26,000 above the sum calculated upon. It was not alcohol that caused the increase this year, but tobacco. The revenue tax from tea was ex-ceedingly satisfactory, yielding £34,000 over the estimate. Tobacco produced £9.353,000, being £418,000 above the previous year. All this, Mr. Goschen declared, proved that wages had not fallen and that there was still widely diffused prosperity among work-ingmen. WHILE heretofore several million bushels of wheat have been ready for shipment from Detroit in the spring, this year the expecta-tions have not been realized, as the demand for Michigan wheat has exceeded the supngmen. The excise revenue showed £543,000 over the estimate. The increase in the consump-tion of home spirits was greater in Eng-land than in Ireland or Scotland, being 6½ per cent in England against 13.5 in Scotland and 1 per cent in Ireland. More spirits were consumed than beer. Mr. Goschen estimated the revenue for the cur-rent financial year at £90,477,000 and the expenditures at £90,253,000, leaving a small marrin of £224,000. This will not allow a remission of taxation with the exception of a minor reduction in patent fees, absorbing £50,000 and the fixing of the duty on spark-ling wines from 2s 6d and 1s per gallon to a uniform rate of 2s. of great popular complaint, and then in the tenderest manner possible. Nearly two years were given the compa-nies in which to make the change. Now, when the time has almost expired, the Washington and Georgetown, which owns the great Pennsylvania avenue line, and which has been preparing for the cable system, asks for an extension of six months, and the Metropolitan, owing an equally ex-tensive system, taking in F. street, asks for a year, alleging that it has been experimen-ting with storage batteries, but is not yet ready to run the risk of making the change, as the Independent batteries are not yet perfected—this, in the face of the fact that the Eckington line has been running the storage battery cars for more than a year, and with entire satisfaction. The solicitude of Congressmen for the in-ferests of the Metropolitan line, in thefir speeches to-day was, to put it as mildly as possible, very peculiar. balance. Those in favor of regimental camp will probably some out on top, as the ques-tion of expense will figure materially this year in order to make a good showing at the World's Fair next year. The new tactics were discussed. The chief question was whether the battalions should be commanded by the Lieutenant Colonei and Major or the Major and Senior Captain. All the Colonels were in favor of the latter plan and advanced the argument that if the Colonel should happen to be absent the Senior Captain would not be able to as-sume command, not having the experi-ence. Another matter discussed was the taking of raw recruits to the World's Fair. General Greenland expressed himself as being decidedly against company com-manders picking up men just to fill out their companies for a trip, and was sustained by all present. Colonel Hawkins suggested that recruiting be stopped from the first of next December and no one be permitted to take the trip who had not been regularly en-listed within the specified time. The Ad-jutant General seems to think favorably of the plan and will probably issue an order to that effect at an early date. General Wiley created a slight sensation by announcing that he had filled the exist-ing vacancies on his staff and requested that an informal meeting of the brigade board be held in order that the gentlemen might be examined. They were W. J. Singer, of Bellefonte, to be Brigade Commissary, and J. J. Miller, of Pittsburg, Judge Advo-cate, with the rank of Major. Major Singer was Brigade Commissary Sergeant under Major Curtin, and succeeds him in that position. Major Briden, formerly of Green-ville. The appointments were invorably rec-ommended by the board. The matter of shutting out the recruit who only chilists for the pleasure trip and then fails to report for drills and other daty meets with general approval. "In fact," said one officer, "there are a certain class of people who have a slight knowledge of mil-itary usages who never care to attend to drills, etc., but when a trip is pro-posed you will always find the various cap-tains besieged with applicants to be taken along. This, to a considerable extent, has been done in the past, but the present admin-fatration has concluded to shut them out." This meets the hearty approval of the majority of the company commandants, and if the present system of quarterly re-turns is kept up it will be very easy to de-tect a Captain who does not follow out the order.
