Fair Run of Cattle at Liberty as to Quantity and Quality.

SMOOTH LIGHT BEEVES STRONGER

No Frime Heavy Cattle Offered in the Local Tards of Late.

SHEEP STEADY AND SWINE FIRMER

OFFICE OF THE DISPATCH, PITTSBURG, WEDNESDAY, April 18. Receipts of cattle at East Liberty yards for the week were a fair average in number and quality. The total for the week so far has been about 60 carloads, more than onehalf of which were from Chicago. There were no strictly prime heavy beeves on the market, and have not been for some weeks past. Light smooth butcher beeves such as our market calls for most were not in supply equal to demand, and last week's prices on this grade were more than maintained. All offerings were taken at a shade better prices than a week ago, though the opening was slow. Yesterday there were about as many buyers as beeves in the yards.

Good tresh cows were in limited supply and sold at last week's range. Commo were dull and hard to sell at any price. The run of veal calves was the largest of the season, and prices declined to a range

the season, and prices declined to a range of \$4.00 to \$4.50 per cwt. The decline in price of calves has been equal to 3c per pound in the past three weeks.

Hogs—The number on sale for the week has been about 30 carloads. Markets were dull on Monday at \$4.90 for tops, which was 10c below the price a week ago. Since Monday receipts have been light and prices are almost back to where they were last week. There have been on sale during the week 25 carloads of sheep and lambs, and all choice stock sold at steady last week's prices.

A deck of spring lambs was sold at 10c per pound, with a bunch of fancy at 12c. About one-half of the sheep offered this week were clipped, and with a continuance of the one-half of the sneep offered this week were clipped, and with a continuance of the favorable weather, in a week or two, the offerings will be all clipped. The difference in price between wool and clipped sheep is at present about \$100 per cwt.

A Live Stock Firm's Review. Following is report of the week's trans-

actions by Holmes, Briggs & Co.: We report 58 cars of cattle on sale Monday against 55 on Monday of last week. The opening prices were about 5c below last week and continued very dull up to about 10 o'clock, when a number of fresh buyers 10 o'clock, when a number of fresh buyers came into the market. The result was a more active closing atfull last week's prices, with demand scarcely supplied, especially on handy light butchering cattle and good young cattle suitable for grazing purposes. Such are notably scarce in our market this spring, prices being too low to justify anyone to ship such. We quote nrime, 1,450 to 1,550, at \$4 30 to \$4 75; good, 1,250 to 1,250, at \$4 20 to \$4 30; good, 1,000 to 1,100, \$3 75 to \$4 10; heifers and stears, 200 to 90, \$3 25 to \$5 60; buils and cows, \$2 25 to \$3 25; stockers, 700 to 9 0, 2 75 to \$3 50; tresh cows and springers, \$20 to \$45 per head.

builts and cows, \$2 to 68 28, stockers, 700 to 9 0, 2 75 to \$3 50; fresh cows and springers, \$20 to \$45 per head.

Receipts of hogs were fair on Monday, which with light demand were slow sale at 10 cents less than last week. Since Monday receipts have been very light and market very dull up to this morning when there were a few orders to fill, and through the scarcity prices were advanced fully 10 cents per hundred. Closing at about last week's prices, we quote tops at 5 cents, good mixed \$4.55 to \$4.90, good Yorkers \$4.80 to \$4.90.

There were 17 cars of sheep on sale Monday, against 14 Monday off last week. The demand was fair on desirable grades, and prices about steady. While common grades were slow and a shade lower, we quote prime, live sheep \$2 55 to \$5 50, goods \$75, to \$6, fair \$4 75 to \$5 25, common \$3 to \$4 25, prime wool yearlings \$7 to \$7 25, fair \$6 25 to \$6 50, common \$5 to \$5 75; clinped sheep \$4 to \$5 40, clipped lambs \$5 25 to \$6 50, spring lambs 7 to 10 cents per pound, veal caives very duil at 4 43 cents.

RAINS TO THE RESCUE.

Bad Weather in the Northwest Puts Hear Into the Wheat Bulls-Corn Grading Not Improved and Prices Advancing-Oats Sympathetic-Provisions Dall. CHICAGO-The elements came to the

rescue to-day. Wheat made a gain of 21/40 and closed within 1/40 of the top at 820 for May. Corn and provisions participated in the improvement. It was cold in many parts of the winter wheat belt, and further rains were reported in the Northwest, putting

of the winter wheat belt, and further rains were reported in the Northwest, putting back the seeding still more. Bradsreefs report of the available supply showed a decrease of 2,320,000 bushels last week east of the Rockies and 100,000 bushels on the Pacific, making a net decrease of over 2,400,000 bushels. The scalpers seemed to be rather bearish and fought the advance some, but outside buying orders were rather generous.

May wheat opened at 80%c; fell to 80%c; then became strong and sold to 81%c; cased off to 81c; then up to 81%c, and at 12 o'clock was about 81%c. During the last hour the wheat market continued to develop strength, and May went up to 82%c with a a good deal of excitement, but eased off later to 81%c; then reacted to 82%c, and at the close was steady at 82%c. The cash wheat was held at 1c premium, and it was claimed that a 250,000 bushel lot has been worked for export. This was not confirmed.

The opening of navigation and the close approach of the middle of April has brought no such improvement in the grading of corn as predicted. It is current gossip that if present conditions continue for a few days longer corn will divide with wheat the general interest. The upward movement of prices had few setbacks. The market closed firm at about the best prices, with a gain of %c in May and %c in July from last night.

The oats market was a sympathetic one, following wheat closely all day. The market closed %c higher than 24 hours previous. In the provision plt brokers stood idly about commenting on the great cattle receipts, the cheapness of beef compared with pork, etc. The market had no independent support. Later, when wheat was up over 2 from the opening and corn was suronger and advancing, the provision prices were bid up on comparatively light business. Compared with last night the closing is up and advancing, the provision prices were bid up on comparatively light business. Compared with last night the closing is up 12% for July pork, 5c for lard, and 2% for ribs.

Two Fine Properties Purchased and Donated as a Site for

A CHURCH FOR THE SIXTH U. P.'S.

Unprecedented Activity in Building in the Mt. Washington District.

INVESTORS WORKING THE TOWNSHIPS

It was stated a few days ago in this column that steps had been taken by the congregation of the Sixth U. P. Church, or Collins avenue, looking to the sale of their present house of worship and grounds and the erection of a larger and finer building. More definite information was obtained yesterday. Mr. Charles Lockhart has pur-chased the O'Leary property, corner of Highland avenue and Station street, for \$25,000 cash, and also the adjoining property, owned by J. C. Buffum, for \$23,000 These properties have a combined frontage of 200 feet on Highland avenue, and about the same on Station street. They will be turned over by Mr. Lockhart to the church authorities as a site for the new edifice, which will be of stone and cost \$150,000 or more. The work of construction will begin in June. Subscriptions already made prac-tically cover the entire cost of the building.

A Busy Quarter Heard From.

Building on Mt. Washington is quite active. John Mooney has just completed 20 five and six-roomed houses on Sweet-20 five and six-roomed houses on Sweetbriar street and started 20 more in the same neighborhood. B. J. Williams has commenced eight on Belonda and Natchez streets, to be completed as soon as possible. Kirk Bigham has purchased material for 14 houses in the Duquesne Heights end of the district and will break ground for them about May 1. George H. Hershey is putting up three on Lelia street. A deal is in progress for a piece of ground in the Boggs avenue district, which, if consummated, will result in a block of 16 houses. One stone contractor has 200 cellars under way or engaged. Indications are that work on the Grandview Traction Railway will begin at gaged. Indications are that work on the Grandview Traction Railway will begin at an early day. The second assessment has been called for May 1. It is intimated that the capital stock will be increased at the next meeting of stockholders, which will be held next week.

Moro East End Homes,
Galen C. Hartman, Esq., has commenced four eight-roomed frame houses on Graham street, Shadyside. Architect M. Jacob has prepared plans for three brick dwellings of the consistent the Chilicage of the consistent of the Chilicage of the Chil ings on Ophelia street, opposite the Chil-dren's Hospital. Ed House, Jr., the con-tractor, will soon begin the erection of a fine stone front brick mansion on the same Activity in the Townships.

The city is reaching out, not only into the boroughs, but the townships, where a great deal of real estate has changed hands within the last few months. The impres-sion prevails that Pittaburg will ultimately absorb the county, and it may be that long headed investors realize this consummation headed investors realize this consummation more forcibly than others, and are getting in on the "ground floor," so as to lay foundations for future fortunes. Several goodsized deals in township property were noted a few days ago. The following transfers are taken from the court records: William Hesselbarth et ux to Joseph Schwarzmiller, lot in Stowe township, 50x100, \$5000; C. B. Harmon et al to Joseph P. A SHARP ADVANCE IN SOME OF THE NATURAL GASSERS.

Chartiers and Pipeage Take Up More Elevated Positions-The Public Antagonizing the Professionals-The Tractions Quiet and Nominally Without Change-Other Features.

Trading was slack yesterday, but there were a few strong features to make up for it. Pipeage and Chartiers Gas advanced about a point each, without bringing out as much as wanted. In fact there was none of the latter on tap at anything like the bid-ding price. Philadelphia finished the day with a slight loss, but may be quoted as

ding price. Prinatelphia Interest with a slight loss, but may be quoted as steady.

In speaking of these stocks a broker said: "There is nothing to show that the supply of fuel was less than it was a year or two ago. Indeed, recent investigation shows it to be greater. This has encouraged outsiders to come into the market as buyers, and between them and the professionals there is enough competition to advance prices. Chartiers, for instance, the par of which is 100, is certainly cheap at 13, and it is this belief that its booming it."

There was scarcely any change in the street railways. Manchester was the strongest of the group. Luster fell off a little from the opening price. The rest of the list was practically unchanged.

Sales at first call were 100 Philadelphia Gas at 183, 135 Central Traction at 29.

Second call, 50 Wheeling Gas at 21.

Second call, 180 Pipeare at 12½, 25 Luster at 9½, 100 Birmingham Traction at 28. Bids and offers at each call follow:

STOCKS WON'T DOWN. PROFESSIONAL BEARS ON WALL

STREET DISCOMFITED. Cordage Raided on Prospective Litigation but Recovers-Conlers, Lead by Reading, Again Come to the Front-New

England Proves the Weakest Spot. New York, April 13.-There was not much encouragement for the professional bears in the stock market this morning, and their encouragement for the professional bears in the stock market this morning, and their prospects were confined to only one stock, which, while yielding readily at first, proved to respond more readily to the efforts to cover later. London figures were higher this morning, but foreign houses were doing little, and the duliness in the market continued unrelieved except for the special animation in the Industrials, New England and specialties, and later in the Coal stocks. The traders, as usual, were the principal sellers, but stocks were taken at all concessions, and the general market, while dull, displayed a strong temper, which resulted in a slow, but steady, appreciation in values all along the line.

Some sensational stories of intended litigation against the Cordage Company offered an opportunity to the bears to raid the stocks of the company down. The prices were forced off 3 per cent for the common and 1½ for the preferred. The stocks did not long remain under the hammer, however, and a rapid and full recovery followed. New England was another weak point in the early dealings. The loss to-day reached something over 1 per cent, and a partial rally only succeeded.

Against these movements were to be placed the new spurt in Lake Erie and West-

something over I per cent, and a partial rally only succeeded.

Against these movements were to be placed the new spurt in Lake Eric and Western stocks, which carried the common up about I per cent and the preierred 2 per cent, which was accompanied by marked strength in the Industrials and later in the Coalers, all of which were again advanced materially, with Delaware and Hudson in the lead. Reading, however, again took its old place at the head of the speculation before the close, and scored a much larger advance than usual of late.

The general market remained without feature throughout the day, and the activity and strength in the leaders, while sufficient to give a firm temper, falled to move prices to an appreciable extent. The close was duil and firm generally at about the best prices of the day, but in few cases were these materially higher than those of last evening. The market gains included: Jersey Central. 23; Reading and Sugar, each 13; Lake Erie and Western, 14; Lackawana, 15, and Chicago Gas, 1 per cent, while Cordage is down 1 per cent.

The total sales of stocks to-day were 271,-832 shares, including: Atchison, 8,166, Chicago Gas, 6,555; Delaware, Lackawanna and Western, 16,969; Delaware and Hudson, 7,224; Erie, (200; Louisville and Nashville, 3,550; Northern Pacific preferred, 5,455; New England, 19,100; Reading, 62,970; Richmond and West Print, 5,863; St. Paul, 10,00; Uniton Pacific, 3,434; Western, 4,433; New Jersey Central, 4,750.

Railread bonds were again specially actival, 4,750.

cific, 3.434; Western, 4.483; New Jersey Central, 4.750.

Railread bonds were again specially active, and, with a wide distribution of the business, a strong temper was shown throughout the day, but with but few material gains, as usual. The Reading issues and the Richmond and West point issues were especially prominent in the dealings, and all of the Readings are higher; but Richmond and West Point 5s, after selling down to 53%, closed unchanged at 58%.
